Station Servicemen To Give Stage Show

An all-servicemen "Frolic at the Sea" will be presented at the China Lake Community Center on Tuesday, Sept. 10, sponsored by the Men's Club. The production revolves around an island of troupes from the various activities of the servicemen's duties at China Lake.

A feature of the performance will be the introduction of the show, giving a glimpse of the perils and joys of base life, as well as the antics of the stars. The show will also feature a love song by the Main Coe as a theme. Service people who are taking part are waiting for their chance to debut.

Local Navy Men Compete in District Talent Competition

John Osborn, SKSA, assigned to duty at the Commissary, represented the Station at the 11th Naval Regional talent contest held last Saturday night at the Armed Forces YMCA in San Diego.

There were 15 contestants from throughout the district competing for the honor of being named "Star of the Show." "Face of the Town" television show in New York City, a local band, placed second among the singing contestants with a total of 384 of 400 points, but the top winners went to a Juneau comic from Naval Air Station at San Diego.

Assessment of Telemetered Data Aided by Moving Film Recorder

Recording of telemetered data from missiles in flight or from tests of ordnance items sent blazing is greatly aided by the development of a moving-film recorder, models of which are capable of film speeds from 10 inches per second to 100 inches per second.

Such recorders are now in use at Baker-I, and Spring belts and pulleys are used to drive the take-up reel on the moving-film recorder. In the case of the foot of 400 film and 1000 film, recorders in which pears and chutes are used to drive the film onto a reel at a speed of 40 inches per second is desirable, and the type of film recording based by a very slight amount of tension which can be obtained when the film is not stripped into a take-up reel by inserting a 35mm or 1000 film recorders.

In general, the bigger the film used, the greater the required tension. To obtain smooth operation, a roll of paper by using a paper roll of suitable tensile strength in order to avoid breakage.

Four types of moving film recorders were used, namely, the 35mm, 1000-foot film reel recorder, and the 35mm, 1000-foot film reel recorder.

REPORTS FROM Technical Departments

Suggestion Awards Presented to Four Station Employees

Beneficial suggestion awards totaling $150 were presented to four station employees by their respective departments for suggestions which will improve the operation of the station.

A $150 award was made to Dr. C. T. Thompson, a mathematician and test engineer, for his suggestion concerning the modification of calibration ranges. Mr. Thompson suggested that the range of each item should be 20% in order to reduce the errors and difficulties in this work. The award was based on his recommendation.

An improved towing frame for towing disabled vehicles was the basis for a $150 award, which was presented to John A. Baumer, junior engineer, in the Public Works Department. The new frame not only provides a stable platform for the vehicle, but also reduces the chance of injury to the operator.

A $100 award was made to John L. Campbell, director of the Naval Ordnance Department, for his suggestion concerning the development of a permanent installation on the aircraft. It will provide a more efficient and safer way of handling ordnance items.

Morrison To Leave, Accepts Position At Corona Lab

Donald J. Morrison, head of the engineering division of Central Staff, is to leave the position to become executive assistant to the president of the 35mm Recording Company. The reasons for his decision were not given.

Morrison has served as a consultant to the company for the past three years, during which time he has been working on the development of a new line of film recorders. He has also been involved in the design and manufacture of a new type of film processing equipment.

Campbell Appears On Safety Panel

John L. Campbell, director of safety at the Amor plant, was a participant in a panel discussion at the 11th Naval Ordnance Quarterly Safety Conference, Aug 26 and 27. On this occasion, the subject of the panel discussion was "The role of the supervisor in the establishment of safety programs." Mr. Campbell emphasized the importance of involving all employees in the safety program and the need for continuous training and education.

A final award of $150 was made to Mr. J. Love, of the Pasadena Annex, for his suggestion concerning the use of a new material for the construction of an improved guard on the joiner machine. The guard, which is made of a special metal, has proved to be much more durable than the original design.

ARRANGEMENTS for the annual Pasadena Amor family picnic, scheduled for Saturday, Sept. 11, are being made by a committee headed by Jack A. White, station director. The picnic will be held at, a location to be announced.

Annual Family Picnic Slated for Next Week

For the whole family is guaranteed at the Amor picnic to be staged at the park near the plant on Sept. 11, the perfect day for a family outing. The park is an ideal place for a picnic, with plenty of shade and space for games. The weather is expected to be fine, and the children will enjoy the outdoor activities.

New Policy Set At Coffee Pot

The serving of hot beverages is now to be limited to the use of the coffee pot. The demand for cold drinks has increased, and this change is necessary to ensure a sufficient supply of cold drinks.

In addition, the use of the coffee pot is also to be limited to employees of the Coffee Pot Department, and the use of the pot is to be monitored by the Coffee Pot Supervisor.

Love Visits Lab At San Francisco

R. L. Morison, of the Pasadena Annex staff, returned this week from the Interregional Facilities Committee meeting in San Francisco. He will be helping to establish a new lab in the area and working with the local staff to ensure that the lab is well-equipped.

The lab will be located in a new building near the plant, and will be equipped with state-of-the-art equipment. The lab will be open to all employees, and will be staffed by qualified technicians.

The lab will be used to test new products, and will also be used for research and development. The lab will be equipped with the latest test equipment, and will be staffed by highly trained technicians.

At the beginning of the school year, the attendance zone lines were established to help the school better manage its enrollment and resources. The lines were designed to ensure that all students in the attendance area are enrolled in the school.

Federal Insurance

(Continued from Page One)

In order to avoid any additional costs and complications, we recommend that all employees take advantage of the available insurance options. This will help protect the school and its employees in the future.

Adult Education

Classes To Start

Tuesday at 7 p.m.

Classes under the Bear Riverdale Unified School District will begin Tuesday, September 2nd. This is the official start date for the adult education program. Students may enroll in the program at any time, and classes will be taught by Volunteer Teachers.
