

High School Class, Groups Honored at Awards Assembly

Scholarship, citizenship and departmental honors were awarded to students of Burroughs High School at the annual awards assembly last Thursday, June 5, in the Station Theatre.

Highlight of the assembly was the dedication of the 1958 El Burro, high school yearbook, to Alfred Schostag, English and social studies instructor and advisor of the student council. Sondra Ward, editor of the annual, made the presentation. Opening ceremony was the installation of newly-elected student council officers Nancy Mitchell, Robert Fojt, Oleta Dial and Bettye Johnson.

Monetary scholarships varying from \$25 to \$8,000 were awarded to the following students: Terry Watson, a four-year scholarship to any college covering tuition, room and board and expenses; John Walker, tuition and a work grant to Reed College and a National Merit Scholarship certificate; Frederick Geay, tuition to Harvey Mudd; Gordon LaCombe, Lorrie Furman, Charles Thorne, Judy Wilson, and Jay Carthy received Elks awards.

Sandra Witt, valedictorian of the graduating class, received a Seven College Scholar award, the Glenn Biggers award for being the outstanding music student of the year; the Bank of America plaque; the China Lake Educational Association scholarship, and an Elks award; Peggy Jackson, the AAUW award, a Bank of America plaque, and an Elks award; Jay Carthy, an athletic scholarship to Oregon State; Janice Nicol and Patsy Westfall, the Community Women's Club award; Justine Hallett, the Home Economics scholarship and the Senior Girl of the Year award; and Fred Dyer, a scholarship to Hunt College.

Dr. Perry Stone, PTA president, presented the Edith Kärner award to the Home Economics Club for having contributed most to civic and campus affairs; Dr. William Shaw, former PTA president, presented the Research Society award to Terry Watson, and the Mojave District American Institute of Chemical Engineers award to Bill Wilde. Bill also received the Babe Ruth award.

Marilyn Rumpff received an award for her outstanding work in art from Ralph Selfridge who represented the Repertory Group, a local dramatic organization.

Ann Jagiello received a Bank of America plaque and the Rotary award from Dr. Earl Murray; and Darwin Howe, special services officer and chairman of the assembly planning committee announced the graduating class as the winner of the class assembly trophy.

Henry Dubin received the dramatics club award; Peggy Milligan received the girls Babe Ruth award; Gary Koehler received the Kelly award for outstanding athletic sportsmanship; and the Boys and Girls State representatives, Alan Robinson and Donna Ward, were presented.

Other Girls of the Year awards were given to Sue Walston, freshman; Kathryn Kraynyk, sophomore, Dolores Burke, junior. Class achievement awards were given to Lorrie Furman and Jerry Lewis, freshmen; Pat Reid, sophomore, and Alan Robinson and Donna Ward, juniors. The Girls' Athletic Association senior girl award was presented Pat Alexander; Mrs. Adeline Williams presented her blue and green ribbon winners in the recent Kern County art contest, and George A. Carson gave music letters to band members.

Chosen the most valuable boy and girl to receive the student council award were Priscilla Montegrando and David Carter. Peter Vicens, the American Field Service exchange student from Spain was presented an honorary letter for his participation in track.

Book of the Week

A Time of Fear by Roderick MacLeish. An exciting story of the family a small group of American families reacted to threats, suspicion and violence.

GET YOUR 10-POINT VEHICLE SAFETY-CHECK TODAY! FREE! CHECK ACCIDENTS BY CHECKING VEHICLES—Safety Officer Cdr. Robert N. Vehorn urges all vehicle owners to use the Free 10-point Vehicle Safety-Check service offered from 7:30 a.m. to 7 p.m. at NOTS service station today and Friday, June 20 and 27.

New Safety Officer Reports at NOTS

Reporting aboard from his last assignment with Air Development Squadron TWO, NAS, Chincoteague, Va., Commander Robert N. Vehorn relieves Commander C. E. Hackwith as the new Safety Officer in Command Administration Department.

Before coming to his present assignment at NOTS, Cdr. Vehorn served a 7-week duty on the In-Service Officer Procurement Board with BuPers in Washington since his last permanent duty.

Cdr. Vehorn has a total service record of 27 years with the Navy, since his enlistment in February, 1931, at Indianapolis, Indiana.

Cdr. Robert N. Vehorn

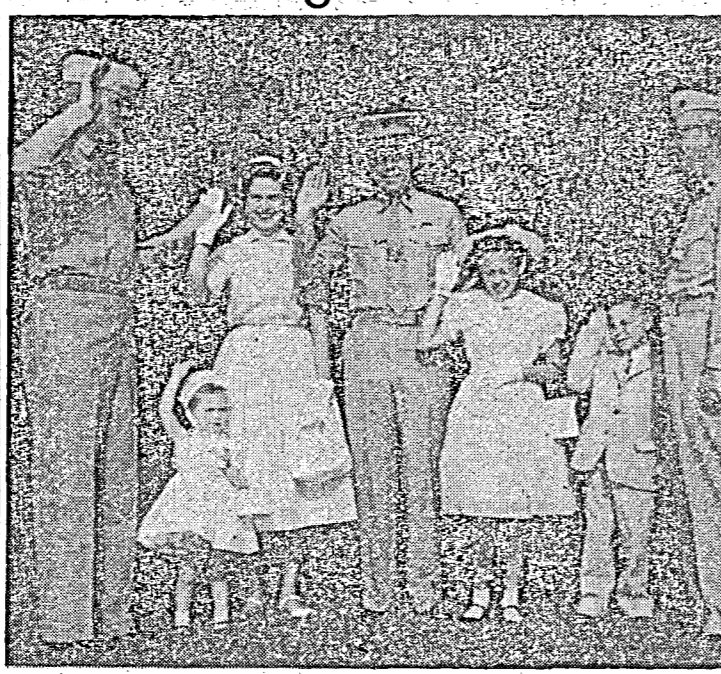

Some of his more recent duty assignments since serving with Staff, Commander Carrier Division ONE during the Korean conflict were: NAS, Sanford, Florida, for 33 months; and two years as Ordnance Projects Officer and Administrative Assistant to Commander, Fleet Air Detachment at Chincoteague where he received his promotion to the rank of Commander.

He and his wife, Jean, and their 12-year-old daughter, Sandra Lee, have been assigned quarters at 503-B Saratoga.

DEFENSE RESEARCH HEAD SEES NEW NOTS' ROCKET MOTOR—Roy Johnson, Head, Advanced Research Agency, Dept. of Defense, is shown in the control room at Area "B" as he witnessed the demonstration of an advanced type of liquid propellant rocket motor developed by the Propellants and Explosives Dept. The motor is capable of starting, stopping, and has a varying thrust from zero to full throttle power at the movement of a single control lever. Left to right are: Johnson, Capt. Hollister and Dr. McLean.

Entire Marine Family Reenlists To Boost Sergeant's Morale

MARINE-FAMILY SWORN IN—Staff Sergeant Thomas J. Moscoe's family raise their right hands as "Pop" is sworn in for another six year enlistment. Actually, they are just lending their support. Left to right are: Lt. Col. H. V. Joslin; Mary Jo, age 2; the Sergeant's wife, Glenna; Sgt. Moscoe; Linda Sue, age 10; Michael, age 5; and Sgt. Major Schoney.

It was a family affair when Staff Sergeant Thomas J. Moscoe of the Marine Barracks was sworn into the Marine Corps by Lt. Col. H. V. Joslin for another six years. Present to lend moral support to the Sergeant were his wife, Glenna, daughters, Mary Jo, aged 2, and Linda, age 10; and son, Michael, age 5. Absent was son, Tommy, age 7, because he has the measles.

Because there are six members in his family, the Sergeant chose to reenlist for a six year cruise—one year for each member of the family. Though, Tommy, the sixth member of the family, was not able to be present, he was listed officially as "sick in quarters" to keep the record straight.

Lt. Col. Joslin praised the family for their interest in the Sergeant's career. "After all," Joslin commented, "the families of Marines are as much a part of the Corps as the Marines themselves."

Sergeant Moscoe, a Korean veteran, was assigned to duty with the Marine Barracks here in December, 1955, and is currently involved in the "Sidewinder Project." He is an expert in Aviation Electronics, and wears the wings of an Air Crewman, being officially listed as an "Airborne Electronics Countermeasure Operator." He enlisted in the Marine Corps in August 1948 at Albany, N.Y.

The Moscoes reside at 213-A Horner Street.

NOTS Apprentice Program Initiates Recognition Awards

For the first time since the inception of the NOTS Apprentice Program in 1953, three apprentices were presented School Performance awards, and one outstanding apprentice graduate was presented the special honorary Richard F. Beswick award at Apprentice Graduation Exercises last Friday.

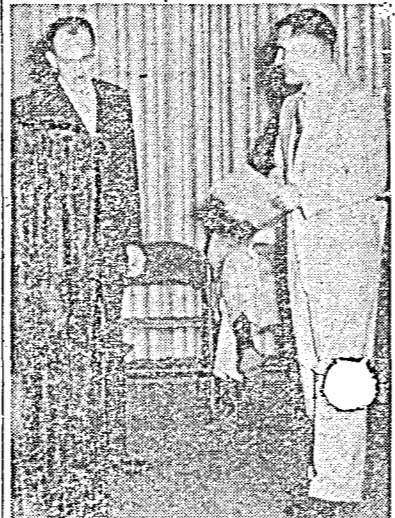

Beswick Award. Recently approved by the Apprentice Subcommittee and the Station Performance Recognition Panel, the honorary award, named after Richard F. Beswick, Jr., one of the founders of the NOTS Apprentice Program, carries no monetary compensation. However, the Personnel Department Performance Recognition Committee has agreed to consider the recipient of the Beswick Award as a nominee for a special achievement award of \$200 this year. Recipient of the first Beswick award was William Francis, Electronics Mechanic.

Beswick was a member of the Apprentice Board of Review from 1948 to 1952 and was appointed to the Apprentice Subcommittee in 1952, where he served for six years.

When serving on the committee, he was a staunch supporter of the philosophy that the apprentice's training benefits the Station as a whole and should be given priority over other considerations. Beswick's courage and integrity in supporting improvements in the apprentice program earned him widespread respect. His efforts are largely responsible for the high standards in the apprentice training program today.

The Beswick award is given to the outstanding apprentice graduate each year based on academic and shop performance throughout the entire period of apprenticeship. The graduate receiving the award is given a trophy and his name is engraved on a plaque in the Training Building.

Apprentices who received the School Performance Awards and checks for \$50 each were: John Tate, electronic mechanic; Arthur Arnsk, electronic mechanic; and Burton Kaucher, sheetmetal worker.

CITED—William Francis (right) receives first honorary Richard Beswick award to be presented locally to Apprentice program graduates. Beswick, for whom the award was named, made the presentation.

State Officials...

excellent opportunity for interested members of the community to become informed on the various functions of state and county agencies and to examine the requirements and regulations concerning child care as specified by the California state law.

Highly qualified individuals will be available to answer questions and compare the problems of this area with others in the state where satisfactory solutions have been reached.

It is Station management's expectation to be able to provide child care services in accordance with the wishes and needs of the parents concerned.

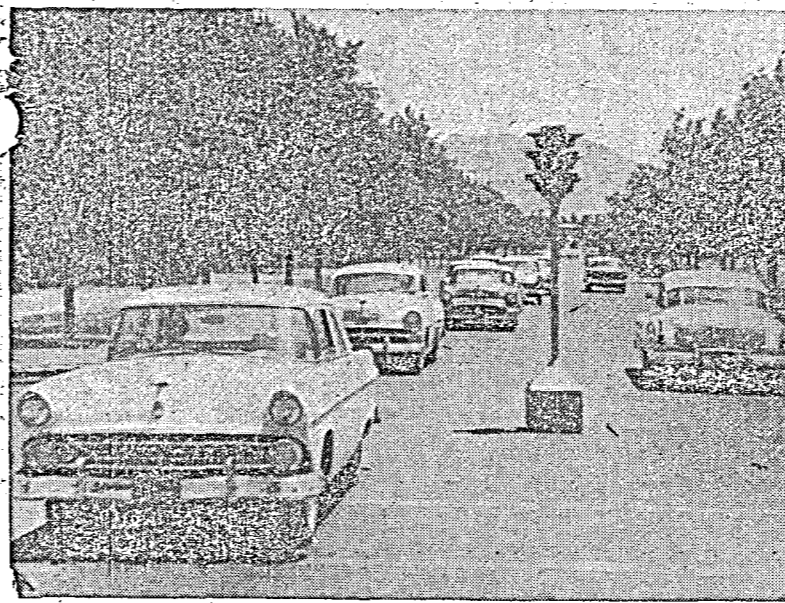

Job Opportunities

Photographer (Motion Picture) GS-5, 7, or 9. The duties of this position are to perform motion picture photography and editing work in the Documentary Film Production Branch, Technical Information Dept. Call Judy Newman, Ext. 71393 or 71648.

THAT METROPOLITAN LOOK—On trial at the congested intersection at Blandy and Lauritsen is a new traffic control light. If purchased, its use will streamline the traffic flow and release one Security Officer for other duties. Two traffic signals may be purchased by the Station.

Quartet Parade Benefit Show To Feature Top Female Group

Did you think that barber-shop harmony was confined to members of the male sex with a nostalgic yearning for the days when many leisure-time activities were labeled "for men only?"

This is a common misconception, but nothing could be further from the truth. As members of Sweet Adelines, Inc., women not only make music of this kind, but participate in the many other activities of an international organization with aims similar to those of SPEBSQSA.

Though the two organizations are somewhat alike, Sweet Adelines, Inc. is an independent society with its own local chapters and national contest system. In other words, it is no mere "ladies auxiliary."

As part of the Quartet Parade to be held in the Station Theatre on Saturday, June 21, residents will be able to hear the new Sweet Adelines champions for the Far Western District of the United States, along with male quartets from several Southern California communities.

The Crown City Coronettes of Pasadena will perform at NOTS for the first time when they appear in the June 21 show. They were awarded first place in the Second Regional Quartette Competition held May 10 in Phoenix, Arizona.

The girls who make up the quartette represent a cross-section of small city life. Only one of the four, Marjorie Fuller, is single; the others are married and have three children each.

Needless to say, babysitting is the biggest problem involved in rehearsals and public appearances. However, after five years of singing together, the members have become quite resourceful in this respect.

Of the three girls who now have full-time jobs, Louise Pewsey's schedule is probably the most strenuous. She not only is a partner in a dancing school in Altadena, but she and her husband teach square and round dancing evenings and weekends.

Due to the demand for tickets to the Quartet Parade Benefit Show, all team captains are requested to pick up all excess tickets and turn them in with collections as soon as possible to ticket chairman Hilda Shaffer, Ext. 74852, 74-B Franklin.

Two of the Coronettes formerly had NOTS affiliations. Helen Carrier's husband, Charles, was an engineer in the Underwater Ordnance Department at NOTS Pasadena, and Barbara Huston worked at the Annex for almost ten years as a secretary in UOD and Personnel.

State Officials Due Here to Confer on Child Care Center

Problems of child care facilities in this area will be discussed by representatives from the State Department of Social Welfare, the State Department of Education, and Kern County Welfare Department when they meet with Station personnel in the Community Center at 8 p.m. next Tuesday, June 17. Interested parents are invited to express their views on this matter at the meeting.

Attending from the State Department of Social Welfare will be Miss Winifred Ryder, Area District Representative who works closely with the Kern County Welfare Department, and Miss Ellen Marshall who is supervisor of the day nursery licensing program in Kern County. Other State and County officials will be: Joseph F. Briggs, Deputy Director; Martha Krigbaum; and Catherine Sullivan, Supervisor of the Boarding Home Unit; all of the Kern County Welfare Department. John Weber, associated with the Child Care Center division of the California State Department of Education will also be present.

The purpose of the all-day conference will be to consider the various types of child care facilities which might be available to the Station and to determine how each of these facilities might best serve the special needs of those families where both parents are employed.

Included in this consideration will be the possibility of establishing a State Child Care Center, as well as the status of private day nurseries and boarding homes.

According to the last census figures, there are more than 300 preschool and young school-age children who would normally require full day care or extended day care services in cases where both parents are employed or where there is a one-parent family.

While this group will be given primary consideration in the planning session, some thought will also be given to the provision of facilities for children in those families where only one parent is employed. The conference will provide an

(Continued on Page 4)

NATURAL GAS WILL FLOW—Public Works Officer Capt. G. H. Carrithers makes the final adjustment on the master meter which controls the flow of natural gas through the Station lines. Observing (l. to r.) are: Maurice Lipp, Head Eng. Div.; PW; E. C. Shaw, Master Mechanic, PW; and Bob Grimes, Pacific Gas & Electric Construction Superintendent.

Five-Year Negotiations Result In Natural Gas for Station Use

Another milestone of progress was demonstrated at NOTS this week when the Pacific Gas & Electric Company pipeline connections were established with the Station's gas distribution system last Monday, according to M. C. Lipp, head of the Engineering Division of Public Works Department.

Until that time, gas service was provided through a propane storage and distribution system. The natural gas will be distributed, using the same distribution system which was constructed and has been utilized for propane.

Public Works employees will start the actual conversion from propane to natural gas within a few days. This work will be scheduled on a progressive basis and will not interrupt the gas supply of any individual residence for more than a day. It is planned that the entire area will be converted to natural gas by next September.

Connections which were completed last Monday culminate almost five years of negotiations for the supply of natural gas to the Ridgecrest-China Lake area. The use of natural gas in housing areas of the Station will reduce the total annual fuel bill by about \$35,000. In addition to this saving, the Station will be relieved of the continuing responsibility and expense of receiving and storing liquid propane which has been used since the Station was started.

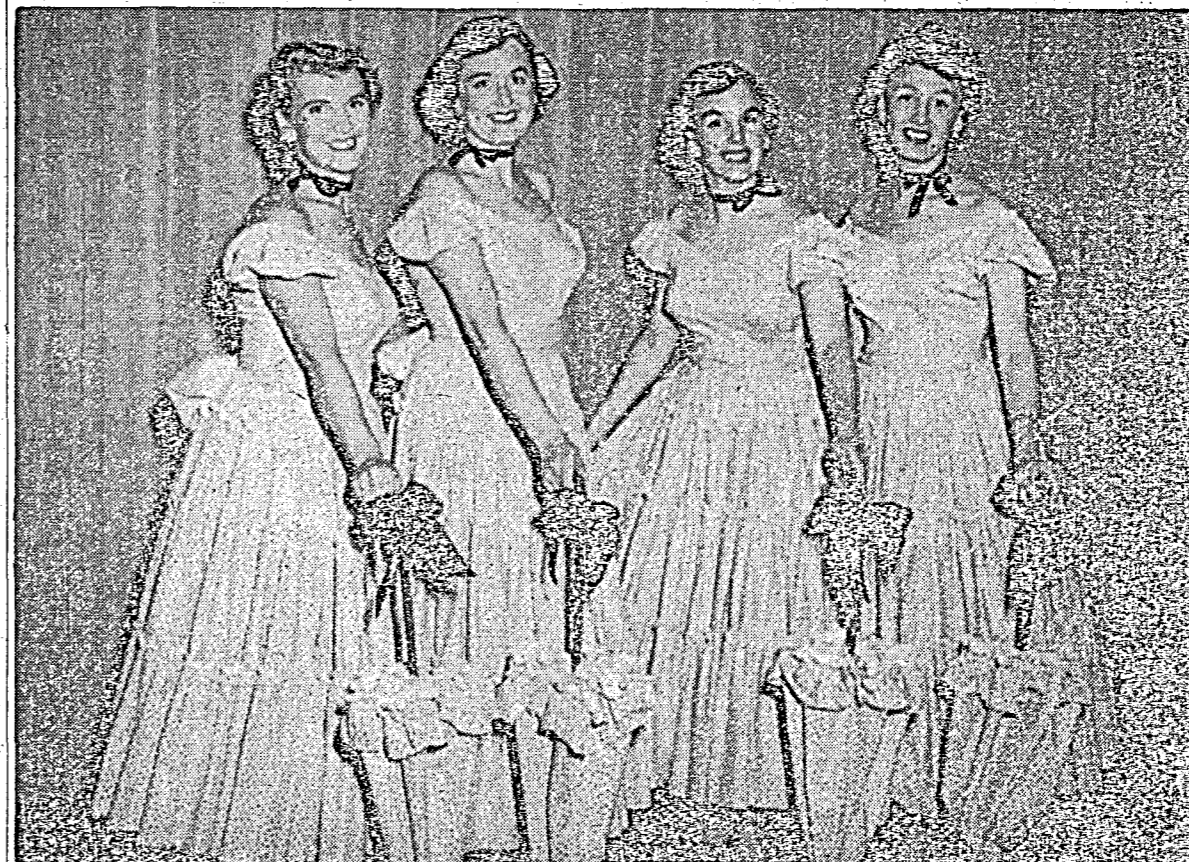

The use of natural gas in the residential areas of the Station is only the first increment of a planned conversion program. It is hoped that during the next year funds will be available for the conversion of the central heating plants in the housing areas as well as at the pilot plants. The use of natural gas in these locations will mean significant savings in fuel as well as operating costs and personnel, Lipp noted.

The pipeline connection between the PG&E line and the NOTS gas distribution system was made near the intersection of Halsey and Richmond Streets.

Latest on Pay Raise

A release from Congressman Harlan Hagen, received at press time, announces that agreement has been reached on the classified Civil Service employee pay bill by the House and Senate conferees.

The Senate accepted the House version giving the full 10% raise to all classified employees including scientists and engineers. The pay bill should clear both Houses today and be signed into law next week.

THE CORONETTES—Far Western District 1958 Benefit Show June 21 in the Station Theatre. The Champions to be featured in the Quartet Parade Sweet Adelines will enhance the all-male show.

Coming Events

Navy Wives Install
Newly-elected officers of the Navy Wives Club will be installed next Monday, June 16, at 7:30 p.m. in their club house. There will be no regular business meeting.

Capt. W. W. Hollister, Station Commander, will be guest speaker following installation ceremonies.

AAUW Book Review
The Book Review group of AAUW will meet at 1:30 p.m. next Monday, June 16, in the home of Hope Carrithers, 513 Essex.

Helen Schoss will give historical excerpts on the State of California gleaned from her personal library.

Women's Guild
Three Circles of the Women's Guild of NOTS Community Church will meet next week.

Naomi Circle will meet Monday, June 16, at 8 p.m. in the home of Genevieve Allen, 1301-A Smith Road.

Mary-Martha Circle will meet Tuesday, June 17, at 1:30 p.m. in the home of Dorothy Gifford, 300-B Groves.

Hannah Circle will meet Tuesday, June 17, at 8 p.m. in the home of Pat Livingston, 56-B Ringgold.

Building Contractor To Meet With Home Buyers
Persons interested in building homes in this area will have the opportunity to consult with Ken Mynatt, a general building contractor from Bakersfield at 8 p.m. next Wednesday, June 18, in the Community Center.

Floor plans will be available for inspection, methods of financing will be explained, and construction information will be given.

Applications for FHA financing eligibility for home purchasing or building in this area for qualified NOTS employees may be obtained from the Housing Manager's office, Ext. 73222.

Supervisory Inspector Examination Announced
A competitive promotion examination for Supervisory Inspector (Public Works) has been announced by the Detached Representative, Board of Examiners 11ND, China Lake. Closing date of the exam will be June 23, 1958.

Applicants must be serving under Career or Career-Conditional appointments and must meet the qualifications standards.

Card form 5090AB and Standard Form 57 should be filed with the Detached Representative in the Personnel Department for admission to the written test and oral examination.

President Franklin D. Roosevelt died April 12, 1945, at Warm Springs, Ga.

The American Revolution began April 19, 1775, with the battles of Lexington and Concord.

Alert Jr. High Boys Catch Discrepancy In Encyclopedia

John Worthy, eighth grade Burroughs Junior High School student, was preparing a report on the Navy and John Paul Jones for a class assignment when he found that the World Book Encyclopedia said that a sailor under Jones received a flogging and later died.

The insinuation that the fellow died of the flogging and that Jones was responsible led John to check further references. A source titled "Your Navy" was used and it stated that the man later died of a tropical disease.

John and a friend, Joe Beresford, questioned these conflicting accounts and wrote to the World Book Encyclopedia quoting the source of their information. William H. Nault, director of educational research for the encyclopedia answered the boys' letter and stated the staff had conducted a preliminary research on the matter using authoritative references.

Nault's letter continued: "There are definite indications that perhaps the wording should be changed inasmuch as the death of the sailor was apparently not due directly to the flogging. Your letter is therefore being brought to the attention of the World Book editor in charge of biographies."

THERE'LL BE SOME CHANGES MADE—Inquisitiveness of Jr. High students John Worthy (left) and Joe Beresford will help correct discrepancy regarding John Paul Jones in the World Book Encyclopedia.

Leaves NOTS

Community Manager at NOTS for the past four years, Richard C. O'Reilly leaves the Station today pending his new position as county administrator for Santa Cruz County in Santa Cruz County.

C. J. Fallgatter, Housing Manager, will be acting Community Manager until final determination for replacement has been made.

AAUW Elects New Officers

Newly-elected officers of the American Association of University Women were introduced at the annual spring banquet on May 27 by Elizabeth Bjorklund, new 1958-59 president.

The complete board for the coming year consists of: Pat McCarty, 1st vice-president; Elizabeth Sears, 2nd vice-president; Louise Gagner, recording secretary; B. A. Fouse, corresponding secretary; Mary Ann Henry, treasurer; Doris Stilton, parliamentarian; and Alice Zilmer, director of block chairman.

Chairman of standing committees include: Diane Casabolt, ways and means; Lois Allan, hospitality; Maxine Booty, fellowship; Jean Madden, building fund; Lorraine McClung, art liaison; and Georgya Ellis, publicity.

Study group chairmen include: Book Review, Elizabeth Robinson; Drama (play reading), Polly Emerson; Education, Dorothy Landry; International Relations, Lois Kinkele; and Social Studies, Jo Ann Milburn.

The fuel carried by a modern jet bomber weighs more than a fully loaded WWII B-17 bomber.

Registration for Elementary School Summer Program Set

Registration for the China Lake Elementary Schools summer primary program will be held next Wednesday, June 13, according to Harold E. Pierce, assistant superintendent of schools. Parents with youngsters who will be eligible for the pre-kindergarten, first, second or third grades may register the children at Richmond, Groves or Vieweg schools from 9 to 11 a.m. or 1 to 3 p.m.

The summer program will be offered from July 7 to August 8. Late registration for the primary level will take place the first day of school from 8:30 to 9 a.m. The organized activities of rhythms, arts and crafts, and story hour are scheduled in the morning from 8:30 to 11:30.

Class lists and room assignments for all registered pupils will be posted at all schools. If a child's name is inadvertently omitted from a class list or is assigned to the wrong school, parents are asked to re-register the child in the nearest school office. Children eligible for the pre-kindergarten classes must be five year old on or before December 1, 1958.

Registration for the elective development program for youngsters who will enter the fourth grade through twelfth grades will be held on July 7 in the Burroughs High School cafeteria from 9 to 11:30 a.m. Classes will convene on July 8.

Courses offered in this program will include archery, arithmetic, arts and crafts, handicrafts, cooking, developmental reading, dramatics, instrumental music, library, mechanical drawing, model shop, physical education, photography, science, sewing, beginning, intermediate and advanced swimming, Red Cross life saving, vocal music and woodshop.

The remedial academic program is scheduled in the afternoons on the Burroughs campus beginning July 8. Arithmetic, spelling and reading will be offered. This program is planned to give help to those children who are having difficulty in academic work and is not to be confused with the developmental reading course. Letters will be sent home to parents of all eligible students.

Space Technology Film Shown Today

Weekly Space Technology film showings are scheduled for 1 p.m. in the Station Theatre on each Friday until the end of the 17-week series. Titles and abstracts for today's showing were given in last week's Rocketeer.

Lecture subjects for next week's program are: "Guidance Systems Analysis—Radio-Inertial Combinations" by Dr. Donald P. Ling of the Bell Telephone Laboratories and "Guidance Systems Analysis—Mid-course and Terminal Guidance" by Dr. Albert D. Wheelon of the Ramo-Woodridge Corporation.

Dr. Ling's lecture will cover the role of radio and inertial systems in supplementing one another. He will discuss the freedom of the radio system from drift, and freedom of the inertial system from noise and will give the criteria for design of a R-I system. The overall accuracy and the extension from short-range ballistic vehicles to satellites and space travel will also be covered.

Dr. Wheelon will discuss navigation techniques including radio, optical and inertial determination of absolute position and orientation near planets and in free space. He will consider error coefficients, guidance computer and control system problems for correcting position and orientation, propulsion of velocity corrections in strong gravitational fields (terminal region) versus weak fields and situations in which corrections are not possible.

The accuracy required for making contact with a satellite and landing at a specific point on a spinning planet, and return-to-earth guidance problems will also be discussed.

What's Doing IN RECREATION

By Jean Cone, Recreation Director

On Tuesday night, June 24th, at 8:15 p.m. the Station Theatre will be the setting for an entertaining and unique stage show. The first part of the evening's program will feature China Lake's entrants in the Fifth All-Navy Talent Contest. These contestants will compete in the Eleventh Naval District Finals in San Diego on June 28th.

The other feature of the evening will be a leading authority on hypnotism, Dr. Zarro. This expert has been the featured star on national radio and TV networks. Dr. Zarro claims that his feats in hypnotism are 100% authentic and offers \$10,000 to any person proving that he uses confederates in any of his tests.

This will be an evening that every member of the family will enjoy. Hypnotism has universal appeal to all ages and you're sure to enjoy and want to encourage our own local talent in their initial bid for recognition. All Station personnel with theatre privileges are invited to attend free of charge.

Fishing Tournament
An invitation to participate in the 1st annual El Toro Angler's Club Albacore tournament has been extended to the representative team of China Lake. It will be conducted on Friday, August 1, 1958 in the waters adjacent to Newport Beach, the islands of San Clemente and Santa Catalina.

Participation in this affair will be restricted to 20 all-service teams. Billeting and messing will be available at the Marine Corps Air Station, El Toro, and transportation to and from the piers will be provided. The entry fee is \$50 per four-man team (\$80 for teams with an alternate). This covers the cost of tournament-day fishing, bait, and incidental tournament expenses. Rental tackle will be available at \$150 per day.

Qualifying fish for tournament awards will be Albacore and Blue Fin Tuna. All service personnel competing in this tournament or wishing additional information please contact the Special Services Office, Ext. 71791.

Carmel Bach Festival
The twenty-first season of the Carmel Bach Festival will be held July 14-20. Single tickets at \$3.85, \$3.00, and \$2.00 may be ordered by mail by writing to Carmel Bach Festival, Box 292, Carmel, California. For further information on the specific program of the festival and available accommodations, call the Special Services Office, Ext. 71791.

Station Swimming Pool
The Station swimming pool located at the Gymnasium is open daily from 1 p.m. to 9 p.m. The snack bar area and wading pool is available to the public during these hours. Children under 12 must be accompanied by an adult.

Quartet Parade benefit show
The Quartet Parade benefit show scheduled for June 21 in the Station Theatre will provide another opportunity to see and hear barbering at its best. Two of the five featured quartets, the Crown City Four and the Coronettes are now or have been District Champions.

SPESQSA members who have tickets are:
Test Department—Ray Becker, Dick Ryberg, Henry Wair, Hazel Campbell, and Mary Hooper.
AOD: Clyde Hazen, Mel Keith.
Pilot Plant: Tom Leese.
Personnel: Dean Hewitt.
Public Works: Bob Warnagieris and all EMCO representatives.
Servicemen and dependents may obtain tickets at 75 cents each from the following:
NAF Ready Room: Joe Merino, ADJAN.
NOTS Personnel Office: Dale Nave, PNS.
Marine Barracks Special Services Office: Cpl. R. D. Ashford.
Tickets will be available at the Station Theatre box office on the night of the performance.

Housing List Opens For New Applicants

C. J. Fallgatter, Head of Housing Division, has announced that additional entries for the Station housing list for the quarter beginning July 1, 1958, will be accepted until June 30.

Applications should be filed at the Housing Office if a person is a new employee and has never before applied for housing, or if an employee has received a promotion, had a change in dependents status affecting his housing application.

Employees who wish to be considered for other housing and have not reapplied after being assigned family quarters, including trailers, should also file an application.

Those carried correctly on the April list who have not been assigned or offered family housing need not make further application at this time.

News From Pasadena

Security Reminders Are Now Available

Red and yellow signs stating "YOUR SAFE IS OPEN" may be obtained for each branch by calling Patricia Williams, extension 16.

Fred Bellomy, Missile Development Division, Underwater Ordnance Department, suggested the use of these signs as a reminder when an employee is working overtime.

"It is felt that the use of these signs will help to decrease the number of security violations for secret and confidential files left unlocked," says Ruby Todd, head of personnel security branch, Administration Division.

Approximately 38 per cent of the security violations this year were from files left unlocked. Violations are also given for confidential material sent via non-registered mail, and uncleaned visitors not escorted.

Failure to safeguard classified material may result in the following penalties:

First offense—warning or removal.
Second offense—15 days' suspension without pay or removal.
Third offense—removal.
Reckoning period is two years. Employees are reminded that each office is required to post and keep current the daily security check-off sheet.

Sports Roundup

Bowling
The third week of the NOTS Pasadena bowling league is now completed, according to Lyle Emerick, president of the summer league. High individual series went to Gloria Lawson and Joe Kraemer; high individual games, Rickie Stuart and Dan Slight; high team series, the Saints; and high team game, Racket Squad.

The top five teams in the league are: Sad Sacs, Stretch Runners, Racket Squad, The Sinners, and Pin Quints.

Golf
Individual award winners in the NOTS Pasadena golf tournament for the week ending June 7 were: William Shealy and John Southwell, low gross; James Greil, Bernie Silver, Ken Smith, and Bernie Neumeier, low net.

The top five teams in the golf tournament are: Divot Diggers, Sandhogs, Peapickers, Foreflushers, and Duffers.

Plaque Presented for Participation In Pasadena Community Chest Drive
A bronze plaque for 100% participation in the recent community chest drive was presented to Lcdr. W. H. Robinson, Jr., representing NOTS Pasadena, at a luncheon last Friday, June 6, John Mulken, chairman of our drive was unable to attend.

In a letter to NOTS Pasadena, the president of the community chest drive stated:

"Because you gave to health agencies, a child is now walking, a youngster can hear, and a handicapped man is living a useful life.

"Because you gave to family service agencies, at this moment a family is healing the tragic breach that comes with marital discord, a child knows the love of two parents instead of one.

"Because you gave to youth services, at this moment a boy and a girl are earning the right to be tagged 'teen-agers' instead of 'juvenile delinquents,' and thousands of youngsters—perhaps yours along with the rest—are in training to be good citizens through scouting, the Y's, the Boys and Girls Clubs, and other youth agencies.

"To all of you we say many thanks."
