CNO VISITOR HONORED-Capt. Eugene Fairfax, USN, (right) re ceives honorary membership in GMU-61 from Cdr. Gordon Duncan, Operations Officer of the local unit, following his firing of two Sidewinder missiles during a two-day visit here on Sept. 19. Capt. Fairfax is head of Air Launch Branch, Guided Missile Division, CNO.

P&E Instruction Program Implemented For Engineered Performance Standards

Thirteen Public Works Department planners and esti- women, both vocally and spiritually. mators are receiving training in the application of Engi- ganization was set up in Tulsa, Okneered Performance Standards at the Station. A team from lahoma, in October, 1947, and presthe 11ND Public Works Office is conducting the three-with individual memberships of months-long instruction and on-the-job training program over 5,000. which, when completed, will enable the P&E's to submit Women interested in developing Vice Regent of the 11th District; more realistic estimates of the time it should take to per- their talents along the "harmoni- the popular Coronettes from Pasaform maintenance work. More effective manpower utili-zation means more effective support to operating units.

Men receiving the specialized training are: Hugh Ross, Supervisory P&E; Frank Andreasen, Ed Attkisson, Howard Auld, Manuel Bonnaud, Tom Bost, George Hartzell, Roy Kreighbaum, Leo Lane, Bill Parks, Monty Pryor, Bill Reynolds and Larry Sullivan, all of the Maintenance Control Division.

Capt. W. W. Hollister, Capt. G. J. Anderson, division heads and their assistants, last week, attended the initial program in EPS implementation. After a short Maintenance Management film, Cdr. R. L. Hall, of the San Diego office, explained the functions and benefits of the Performance Standards. During the following discussion period, it was emphasized that EFS is a refinement of the Maintenanc Management Program in operation at the Station for several years

Grade Schools Slate

Harmony Chapter | Back-to-School Nite Being Organized Plans have been announced Plans have been announced

Objectives of Back-to-School Night are to give parents an opporsigned to educate its members tunity to become better acquainted in the art of four-part har- with the teachers, the year's innony, without instrumental structional program and the class materials used by the pupils. The program will include an oral presentation by the teachers according to the following schedule. Morning kindergartens and grades one, two, and five in all schools will be presented from 7 to 7:45 p.m. Afternoon kindergartens and grades three, four and six will be pre sented from 8 to 8:45 p.m.

The staggered schedule is planned to give parents with more than one child the opportunity to hear at least two grade level presentations. The 15-minute break between schedule presentations will allow time for parents to move from one classroom to another or even between different schools where this is necessary.

o-School Night is not a time for individual conferences. The fall parent-teacher conferences have been scheduled during the weeks of appeal of one of the most natural, November 3 through 18. Plans for friendly and untheatrical personali-Burroughs Junior High School ties to venture out of the movie Back-to-School Night will be an- capital, she was besieged for autonounced at a later date.

At Training Center Cdr. Charles J. Beers, OinC, last In Organization Tuesday evening, Sept. 16, addressed a gathering of naval reservists of Reserve Company 11-1 at the U.S. Navy and Marine Corps Reserve veloped at NOTS, he also showed film and discussed the RAT, ministration. ASROC, and POP-UP weapons. Next Wednesday, October 1, LCdr. serve Training Center, Naval Air Station, Santa Ana—on the weapons being developed at NOTS.

The "Sun People" Will Be Featured At Noon Program

The fascinating "Sun People" South Africa will be featured at the noon-time entertainment program next Wednesday, October 1, 12-12:30 p.m. in the Building 7 conference room, according to Fred Eaton, chairman.

A hospitable people, they have a boundless wealth of culture. Via the 27-minute color-sound movie, you'll see their women, with their graceful figures lavishly adorned with brilliant and complex beadwork. You'll see decorative clay sculpture of remarkable form and beauty, and watch the vivid splendor of a Zulu wedding, with its ancient dance of exciting rhythm."

Unusual Collection Of Letters Bears

Strange Addresses For several years, Elmer Price

Branch at Pasadena, has accumulated a collection of distressing enrelopes-that is, letters received at time and money. NOTS Pasadena with unusual addresses. One such letter came in addressed

to Mr. Morris Dam, another came Then there was one to the N.U.T.S. Credit Union, and one to the attention of Cdr. Usnots.

The Station has been called many misleading names, such as United State Ordinance Port Station, U.S. and Naval Ordnance Rest Station.

The latest one was addressed to GS-11. Pasadena Ranch, Naval Ordnance

over a period of five years.

The unusual attire seen the Foundry is no cause for alarm -it's not for purple people-eaters or for Martians. Inside the peculiar uniform will be found either Champ Little or Hugh McCammon, shot blasters.

Shot- or sand-blasting is the process of scouring metals for paintng, to polish rough burrs, or to reove casting imperfections. Shot forced through a nozzle by comressed air against the object to be leaned.

Just as the tiny steel shot pellets can clean metal, so can they cut

Each part of the shotblaster's uniform has a specific purpose in protecting the operator. A metal helmet with double-thick face doors permits safe viewing and an inlet hose into the helmet provides a continuous supply of fresh air.

A heavy leather jacket protects the blaster's hands, thick leather leggings guard the legs and steel shoe coverings protect his feet.

As a further safety precaution in trouble.

Thus, it is, that with proper pre tronic Scientist (Circuit Elements), cautions, another hazardous job can be performed safely.
