Personnel, Community Relations Department Function Outlined

Consolidation of the function of the former Department of Community Affairs with the Personnel Department under the new designation of Personnel and Community Relations Department reflects a significant advance in administering to the needs of the Station.

The merger climaxed a series of progressive reorganizational changes which first became effective in January, 1956, when the Personnel Department broke with the traditional form of personnel administration and formed an Operations Division to service specific operational departments.

The framework of the department's function as it operates today is outlined in the

ensuing article. **Community Relations**

While several organizational The main function of the Hous- Eloise Buck, left, units on the Station are concerned ing Division, headed by C. J. Fall- assists applicants with community operations, the gatter, is to advise and assist Sta- with their Standnew Personnel and Community Re- tion management on the problems ard Forms 57, lations Department will provide a of providing housing for personnel and answers focal point for both management at China Lake, on or off the Sta- questions regardand Station residents for commu- tion. nity affairs.

It will be concerned with community planning, with assisting the housing and carries out established a n n o u n c e development of policy for operation policy. It advises on all problems ments. of all the services concerned, and for dealing with the Community Council and other groups on matters of concern to Station residents.

Further, it is concerned with dealing with representatives of organizations of the State, the County, and Ridgecrest to maintain good relations with these groups.

The Associate for Community Relations is concerned with these areas particularly and is aided by a staff to study community needs and develop policies to meet them.
