NFCU Reports Credit Traps to Congress

Don't look now but that fine print on the time payment contract you plan on signing may be a better job of camouflage than Armed Forces combat units are capable of creating.

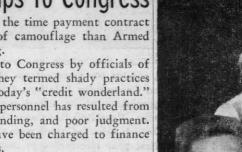

Testimony to back this up was given to Congress by officials of the Navy Federal Credit Union in what they termed shady practices of money lenders and installment sellers in today's "credit wonderland."

Hardship to both civilian and military personnel has resulted from usury, fraud, misrepresentation, misunderstanding, and poor judgment. Interest rates as high as 40 to 62 percent have been charged to finance automobiles and other installment purchases.

"Come on" ads sound good to the starry-eyed who can see only the product they want. They include such gimmicks as "No Money Down," "Low Bank Rates," "No Carrying Charges," and "Name Your Own Terms." One department store advertises a "small service charge" for its time purchase plan. Investigation disclosed that this "small charge" actually amounted to 18 percent for a 12-month plan.

The time payment plan has proven its usefulness from the Government level on down to the individual citizen and a large number of firms offer reputable plans. However, it pays to look before you DELEGATES-Patricia Adams and leap. One way is to multiply the monthly payments by the number Gary Day will represent Burroughs of months to be paid and compare this figure against the original price. at the 1959-60 Girls' and Boys' State.

Cdr. Ralph B. Terrill, president of the Navy Federal Credit Union, Sponsored by the Ridgecrest Amerurged support of a "truth-in-lending" bill, now before Congress. The ican Legion Post and its Auxiliary, legislation, sponsored by Sen. Paul H. Douglas (D., Ill.) would require all lenders and installment sellers to list both their finance charges and different sellers to list both their finance charges and Girls' State at the Univ. of Calif. at the true annual rate of interest on their credit, "Due to the lack of a Davis on June 20. They will study universal standard whereby the average debtor can compare or evaluate and participate in various phases costs of credit," Cdr. Terrill said, "this bill would furnish such a stand- of state government at the annual ard and require its universal application."

Office on or after June 10.

Parents Urged To Relay Animal Trapping Dangers

Parents are asked to instruct their children not to trap wild animals for the purpose of acquiring pets. These animals are often carriers of serious diseases, such as plague or rabies, and may also transmit skin diseases to humans. Dr. DeWitte T. Boyd, County Health Officer states "Complaints are received from time to time about wild animals found in improper traps dying from starvation, Budd Gott strangulation, or broken legs." This Phillys Wair is not only an unsafe practice, but constitutes unwarranted cruelty in most instances.

Children derive satisfaction from learning to care for their pets and t is preferable that they be obtained at the local pounds for a small fee or at pet shops in order News Stories to be assured of healthy and safe Photographs . pets.
