ARMED FORCES DAY VISITORS - An estimated 8,000 persons peered at NOTS static displays, viewed the dazzling air show by VX-5 and the Sidewinder firing by NAF, toured Michelson Lab, and the new Propulsion Research Lab, and watched a test sled blast off at over 2,000 mph down the SNORT Track during the Station's once a year "open house" last Saturday. Insert shows Capt. Van Meter about to take off in his F4H Phantom II to demonstrate its high capability performance. Ideal weather sparked all-day event.

### Four Employees Earn Master's Degrees Under Station's UCLA Graduate Program

UCLA Graduate Program and will Tesla Turbine." be awarded their degrees in June. This brings to a total of 17 em-

degrees in engineering since 1952. Systems Branch in Test Depart- Sponsors Events ment, received his B.S. in engineering from San Jose State College in sored by the Men's Fellowship 1954 and has worked at NOTS continuously since graduation. His day at 6:30 p.m. in the East Wing thesis is entitled "The Analysis of Chapel. The committee has ara Time-Base Multiplier Containing ranged a lively program and a spetions to Magnetic Tape Recording Problems.'

Benjamin Glatt, also a member of the Electronic Systems Branch, submitted a thesis on "Determining the Mass of a Rocket Motor by Measuring the Natural Frequency of a Spring-Mass System." He has been a Station employee since his graduation from the University of California in 1950.

Henry T. Sampson, Propellants Engineering Branch, has worked in the Propulsion Development Department since his graduation from course to be held May 28. The Purdue University in 1956. This course will be repeated on May 29, thesis topic is "An Analysis of the June 4, 5, 18 and 19. Sunday classes thesis topic is "An Analysis of the<br/>Effects of Grain Defects on Solid<br/>Dependent Rocket Engines"will be held from 2 to 3:30 p.m., and<br/>Monday classes from 7:30 to 9 p.m.The straight-and-narrow path<br/>probably would not be so narrow ifdiver in full gear.The straight-and-narrow pathMonday classes from 7:30 to 9 p.m.The straight-and-narrow path<br/>probably would not be so narrow ifThe excellent<br/>manning, hard

> California Institute of Technology in meterology and rocket projects for the government, Mrs. Campbell came to NOTS as a technical editor and writer, advancing rapidly to section head, and in 1954 to branch head, supervising 22 emloyees in the reports illustration section, photo lab, and technical library.

> She received outstanding performance ratings in '52, '53, '54, '56, and '59, and superior accomplishmen awards in '52 '53, '56, and '59 She is a member of the West Coast Inter-Laboratory Committee on Editing and Publishing.

Last year, when she was named the outstanding woman employee for 1960, Mrs. Campbell was chosen for this honor from among 27,500 women federal workers in Southern California. The award was made on such qualities as talent, Institute of Technology for 28 years efficiency, and devotion to duty.

"The top award in this competition couldn't have gone to a greater credit to the Navy and the Federal service as a whole," said S. E. Tarbox, Deputy Director for the 12th U.S. Civil Service Region, Los Angeles.

"You are the personification of Construction Schedule the dedicated efficiency which is your leadership in our NOTS or- sketch. ganization," Capt. Charles J. Beers, This project includes removing a Campbell.
