NOTS Civic Concert Association Presents...

Ballet Janine Charrat De France

Dr. William B. McLean

Technical Director, NOTS

Through the years, both Mrs. McLean and I

have enjoyed the performances of the outstand-

ing artists brought to this area by the Concert

Association. I look forward with pleasure, as I

know many others do, to the 1961-62 season.

The program selected for this year's series provides an opportunity for all residents of the Indian Wells, Searles, and Owens Valleys to see and hear artists of international renown. I believe that such a concert series adds much to the stature of our combined desert communities.
