Fire Prevention Week . . . Don't Wait for Disaster to Strike;

It has long been noted that fire disasters take a noticeable back seat during National Fire Prevention Week, proclaimed this year for next week, October 8-14. This points to the strong probability that the President's annual proclamation and subsequent programs which launch the nation's observance of this event, embues many of us with the importance of a fire-safe home. It is at this time that we fully realize the only way to fight fire is to prevent fire!

The Station's Fire Branch, headed Barracks No. 1, 2, 3, 4 and 5, by Chief J. A. Davis, has begun the annual home inspection program designed to assist tenants in recognizing and eliminating fire hazards in their homes.

Working in groups of two, Fire Branch personnel will call at each residence and request permission to inspect the premises for hazardous conditions. Inspection time will not exceed 15 minutes. Items to be checked are: Exit facilities.

- · General condition and arrangement of heating and electrical fixtures.
- Types of stored flammables and their stowage facilities.
- Miscellaneous hazards such as rubbish, scrap lumber, grass and weed accumulation, fire-hazard-

ous hobbies, etc. Emergency Info

Each tenant is given a copy of a folder entitled "When Fire Strikes You"; a number sticker giving emergency telephone extensions for fire, police, and ambulance. This sticker is attached to the tenant's

OpNay Instruction 11320.15 now a Quarters Fire Bill in a convenient location as a ready reference to the location of the nearest fire alarm box and the emergency telephone number for the Fire Branch.

Fire prevention inspection of homes on the Station will be made each week day during the month of October; call hours will be from 7:30 to 11:30 a.m. and from 12:30 to 4:30 p.m. No inspection will be made without the permission of, and in company with, the tenant.

If the tenant is not home when the fire inspector calls, a brochure
