Team members (l-r) are Charlotte DeMarco, Edle Karlstrom, team captain Glenace Hudson, Mick Doucette, and Mary Andreesen. Team won 69 games out of 99 in a 12-team league.

Plan June 30 Retirement Ceremonies

(Continued from Page 1)
ficer aboard the carrier USS Intrepid in 1956-57.
Born at Flandreau, So. Dakota, LCdr. and Mrs. Ellefson have two sons, Bruce, 11, and Mark, 9.

LCdr. R. G. Douglas
Former commander of two submarines, the USS Bass and USS Segundo, LCdr. Robert G. Douglas is one of the retiring officers.

The Naval Academy graduate has served at NOTS since mid-1962 as Military Assistant to the Research Department, arriving here from duties with the U.S. Naval Underwater Ordnance Station, Newport, R.I.

His service in undersea craft includes assignments to the USS Pompon for war patrols in the closing days of World War II, USS Tusk, USS Sea Leopard, USS Runner, in addition to the Bass and Segundo which he commanded.

LCdr. and Mrs. Douglas have three children, Diana 16, Lynn, 14, and Bruce, 9.
LCdr. W. H. Abney
A third officer scheduled to retire, LCdr. William H. Abney, has been attached to the Naval Air Facility here since late 1962.

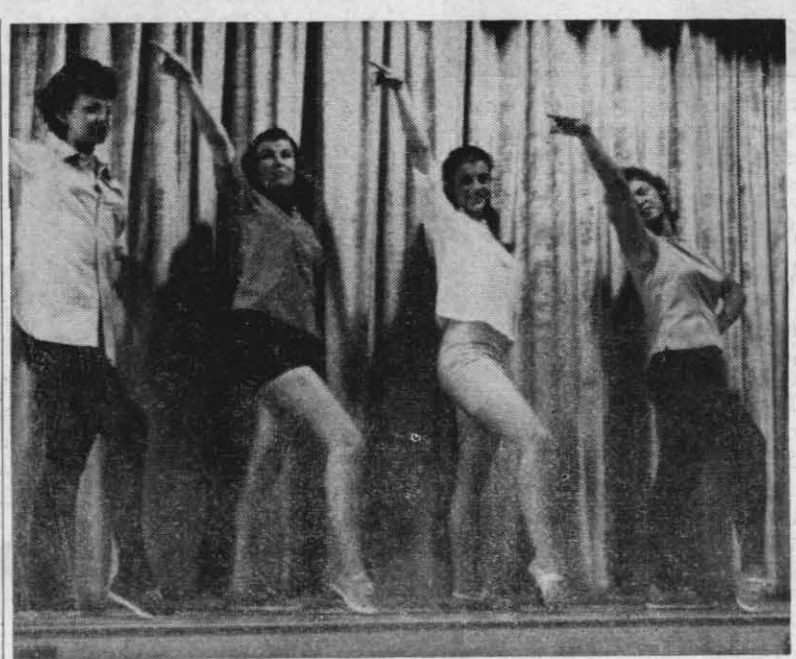

Reporting here from the USS Ranger, LCdr. Abney will be ending his 22-year career in Naval aviation.
A Navy test pilot who served at the Patuxent River facility, LCdr. Abney's assignments locally have included duties as Maintenance and Safety Officer.

He has previously served at NAS, Moffett Field as Safety Officer.
He and his wife, Dorothy, have four children, Bill, 18, Ruth, 15, Larry, 13, and Jane 7.

LCdr. S. C. Schold
A Naval aviator whose duties include assignments in fighter, patrol and transport squadrons, LCdr. Stanley C. Schold, Sr., is the fourth member of the officer group retiring.

Reporting here in August 1962 from Japan, he had participated in numerous Pacific area campaigns during World War II, following his graduation from flight training.
His duties at the Naval Air Facility have included Administrative and Legal Officer assignments.

LCdr. and Mrs. Schold also have four children, Stanley, 17,

"OKLAHOMA" REHEARSAL sees Pat Bielawski, Kitty Lockwood, Kisty Hise and Mary Stolz strutting their stuff for the big production scheduled for July 17, 18, 24 and 25 in the multi-use room at Burroughs High School. The Broadway musical will be staged by the Desert Division of Bakersfield College.

Thomas, 13, Nancy, 9, and Betsy, 1.

LCdr. P. F. Mohr
Former Commanding Officer of the NOTS Enlisted Division, LCdr. Phillip F. Mohr has served at NOTS for the past year as Head of the Command Administration department.

He reported to the Station from the USS Caliente where he served as Executive Officer in January 1962.
Commissioned in 1943, LCdr. Mohr had commanded the Naval Reserve Training Center, Zanesville, Ohio, and the Military Division aboard the MSTs ship Gibbins.

LCdr. Mohr and his wife, Ramona, have four children, Robert 9, Paula, 6, Nola, 4, and Lisa, 3.

Lt. E. V. English
The Station's Special Services Director, Lt. Edward V. English, a former enlisted man, will end 24 years in the Navy.

Commissioned from Warrant Officer in 1953, the native Californian spent the early years of his career in cruisers and destroyers, participating in 17 Pacific theater engagements during World War II.

Reporting to NOTS in June 1962, Lt. English's first local assignment was Personnel Officer. He later assumed his present duties.

He and his wife, Ada, have six children, Melody, 17, John, 13, Deborah, 11, Joni, 7, Lori, 6, and Tina 4.

Capt. Blenman Speaks at ASPA Meet Today

Captain Charles Blenman, Jr., ComNOTS, will address members of the American Society for Public Administration today at a noon luncheon meeting to be held in the Mojave Room of the Executive Dining Room.

Title of the talk is, "Reflections on the Management of an R & D Activity." The address will cover experiences of the senior military officer at the Naval Ordnance Test Station during his past three years here. The meeting will also include a business session highlighted by the election of the new Board of Directors.

Parents: Learn How to Teach Kiddies to Swim

The American Red Cross Water Safety Instructors Association invites all parents in the community to a "Parents' Workshop on Water Safety" tomorrow morning from 9:30-10:30 a.m. at the Station Pool.

Red Cross instructors will teach mothers and fathers how they can teach their young children to swim and practice good water safety habits. Children are not invited to this teaching workshop.

SHOWBOAT

FRIDAY —JUNE 19
"WHAT'S UP FRONT" (83 Min.)
Tommy Holden, Marilyn Manning
7 p.m.
(Comedy in Color) Laugh your way around the country with a door-to-door bro salesman, a yodel who gets out of every jam despite a cruel, conniving sales manager. This will "bust" you up! And to top off the good clean fun, a "ROADRUNNER" Adults and Youth.
Shorts: "Lickety Split" (7 Min.) Road Runner
"Wonderful New York" (18 Min.)
SATURDAY —JUNE 20
—MATINEE—
"TARZAN GOES TO INDIA" (86 Min.)
Jack Mahoney
1 p.m.
Shorts: "Tennis Chumps" (7 Min.)
"Jungle Drums No. 7" (13 Min.)
—EVENING—
"EAST OF HILMANARI" (75 Min.)
Marshall Thompson, Goby Andre
7 p.m.
(Adventure in Color) Roving cameraman covers the efforts of a medical team trying to convince hostile African tribes of the necessity of cattle inoculation to cure epidemic. Lassing by jeep! (Adults and Mature Youth)
Shorts: "The Iceman Cometh" (7 Min.)

Capt. Grabowsky To Be Interim ComNOTS

To Take Helm Pending Arrival Of Capt. Hardy

Capt. Blenman and 6 Other Officers Retire on June 30

Six local officers, including three Naval aviators and a former submarine skipper, will end their Navy careers here Tuesday, June 30, in ceremonies that accompany the retirement of Captain Charles Blenman, Jr., Station Commander.

A formal Change-of-Command ceremony, scheduled to start at 10 a.m. in the area beyond the Administration building, will precede the retirement of Capt. Blenman and the other China Lake officers.

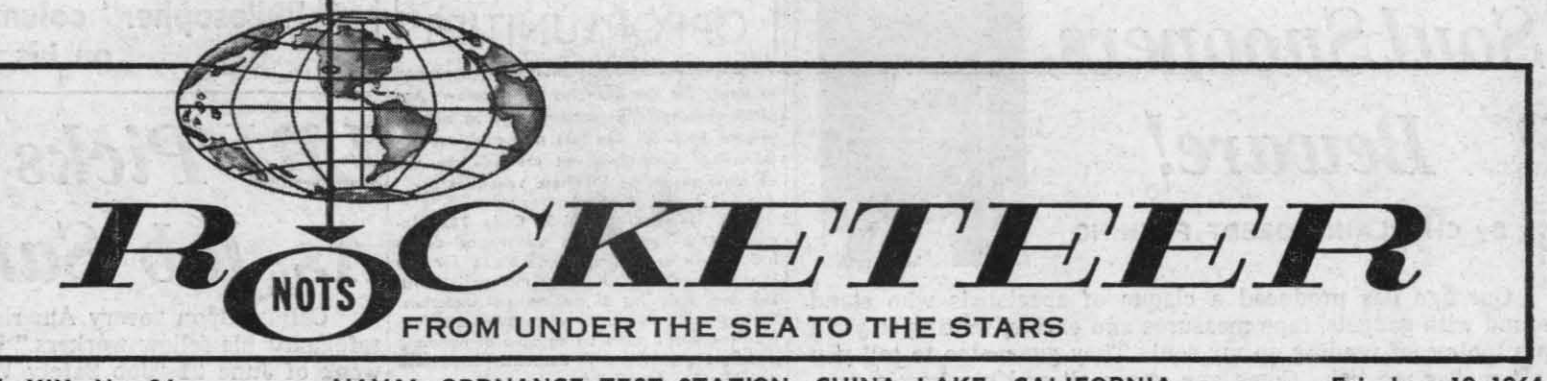

Captain Leon Grabowsky, Station Executive Officer, will assume duties as Commander, U.S. Naval Ordnance Test Station, serving as interim relief until the arrival here of Captain John I. Hardy on or about Aug. 1.

The full-dress white ceremony will involve formations of NOTS and NAF personnel and is to be witnessed by families and friends of the retiring officers, in addition to military and civilian dignitaries.

Here from San Diego for the occasion will be the band attached to the staff of Commander, Naval Air Force, U.S. Pacific Fleet.

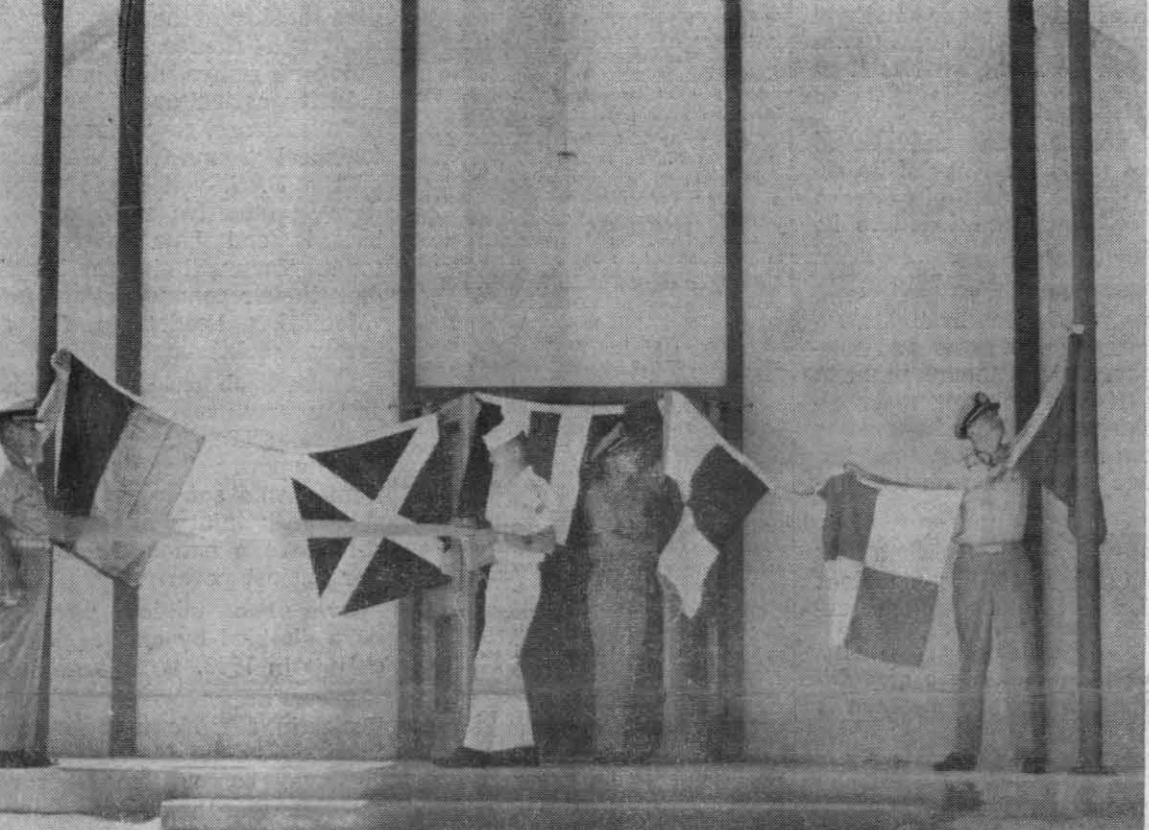

LCdr. L. M. Ellefson
Lieutenant Commander Laurence M. Ellefson, Air-to-Ground Weapons Officer here since 1960, will close out a 22-year career. He came here from duties as Executive Officer of Patrol Squadron 42.

A holder of the Air Medal, LCdr. Ellefson was a participant in the Bikini Atoll atomic bomb tests and had served as Guided Missile and Air Ordnance Officer.

Vol. XIX, No. 24 NAVAL ORDNANCE TEST STATION, CHINA LAKE, CALIFORNIA Fri., June 19, 1964

Big Party Tonight To Re-'Launch' EM Club

EM CLUB signal flags are readied for ribbon-cutting ceremonies which will re-open the club tonight. Hoisting them are (l-r) Lt. (jg) W. F. Elrod, XO, NOTS Enlisted Personnel;

DJ Tom Dillon, 'Ramona' and the 'Four Sons' Star

China Lake's largest segment of enlisted personnel — those men of third class petty officer rates and below — will be whooping it up tonight over the formal re-opening of the Enlisted Men's Club.

Its members number some 600, representing NOTS, NAF and VX-5.

Located at the corners of Blandy and So.Hussey, the one-time Station chapel has recently undergone extensive refurbishing in the lounge and ballroom areas.

Has 'New Look'
Club Manager Bob Shephard, SH1, boasts that the "new look" gives the local club "an atmosphere that will compete with other facilities throughout the Navy."

The festivities, which start at 7:15 p.m., will include a formal ribbon-cutting, introduction of some 30 guests and brief remarks by club officials.
Capt. Charles Blenman Jr., ComNOTS, will take part in the ribbon-cutting ceremony and will wish all the enlisted men future good times in their "new" club.

Master-of-ceremonies for the evening is a VX-5 man, Tom Dillon, a former television performer and announcer in his El Paso, Tex., hometown. Affiliated locally with Radio Station KRCK as a spare-time disc jockey, Dillon serves with the Personnel Office at Armitage

Donnan Wins Link Fellowship at CSU

JOHN DONNAN Wins Link Fellowship

John A. Donnan, on leave of absence from NOTS' Earth and Planetary Sciences Division of the Research Dept., has been awarded a Link Foundation Fellowship for summer research in atmospheric studies at Colorado State University.
The \$1500 grant will be divided between Donnan and James R. Connell of Fort Collins.
The China Lake scientist, prominent in last year's Project Stormfury off Puerto Rico, will be working under the direction of Dr. Herbert Riehl and Lewis O. Grant of the atmospheric science department at CSU. The research will be concerned with air motions over mountains and ozone exchange between stratosphere and troposphere.
The grant is part of \$31,425 given this year by the Link Foundation to support aerospace and oceanographic research at 13 institutions in eight states. CSU is the only institution in the Rocky Mountain area to receive the grant.

Power Outage On Station Tomorrow - 5:30-8:30 a.m.

There will be an electric power outage throughout the Station — except Wherry Housing — tomorrow, June 20, from 5:30 a.m. to 8:30 a.m.

The Public Works Dept. announces that the power outage is necessary to permit removal of certain equipment at the FH substation in connection with contractual work improving electrical services to the entire Station.

All departments are requested to schedule their activities to coincide with the outage.

Bond Drive Goes Into Full Swing Next Week

"Operation Security," the 1964 U. S. Savings Bond Campaign, goes into full swing next week. "Minutemen" have been appointed by Department Heads to contact all nonparticipants to explain to them the advantages of the Plan and to assist those desiring to participate to register allotments.

Pressure from the Communist bloc of nations and their sympathizers has continued to mount since the end of World War II. On all fronts friendly, allied, and neutral nations are besieged by the Communists' many-pronged attack on our way of life. The attack may be direct, subversive, or persuasive. It may be directed against any category of our way of life; religious, racial, economic, political, or scientific.
We must meet the challenge of seeing to it that our two basic strengths, military and economic, flourish side by side. Our military strength must be backed by a strong and growing economy.
Allotment plans are available whereby amounts from \$3.75 to \$75.00 and more per pay period may be invested in "Shares in America."

TOM DILLON To MC EM Club Opening

CHAPLAIN'S MESSAGE

Soul Snoopers, Beware!

By CHAPLAIN ROBERT FENNING

Our age has produced a claue of specialists who stand around with gadgets, tape measures and charts, waiting to yield up a fool-proof reading of my soul.

I am an unbeliever in their art since I deny their premises and certainly question their conclusions.

We talk about our freedoms and, as a people, swear to die for them if necessary. Yet basic, guaranteed rights seem to be surrendered without resistance if somebody can convince us that it is not fashionable or popular to withhold information of the most intimate kind.

For all the extravagant claims of knowledge and control being made by the experts, who have made a science of breaking down the human animal into little pieces, no real evidence seems available to show that man is being conditioned to be more honest, compassionate or tolerant.

Our own community is not unlike any other of its size and complexion. Security police reports of thefts, family fights, assaults, and the whole catalogue of common felonies and misdemeanors occurring in our own backyards, are enough to make one gasp with amazement at times.

Man has not yet been put in anybody's back pocket. His demonstrably unpredictable nature further justifies my right to look to my God for an explanation of the mystery that enshrouds the human life.

Please don't tamper with my right to seek signs of a Divine Image within man and an eternal promise that no man is ever beyond hope or help.

NATO Leaders Mapping Plans For a Nuclear Missile Fleet

Paris — Thomas K. Finletter, United States representative to the North Atlantic Treaty Organization (NATO) here, has predicted that agreement on the composition of an Allied nuclear fleet would be reached by the end of the year.

Representatives of eight members of NATO have been discussing the plan at headquarters here since last year. They represent Britain, West Germany, Italy, Belgium, the Netherlands, Greece, Turkey and the United States.

The United States, Finletter said, is proceeding on the basis of the following principles:

It is "highly desirable" that all allies share in control of nuclear arms assigned to Europe to avoid the classifications of first—and second-class military powers in the alliance.

The United States opposes proliferation of nuclear weapons and, despite the Soviet Union's criticism, believes the mixed fleet is a means of preventing such excesses.

The only means of providing alliance allies with a share in nuclear weapons is through "multiple ownership, manning and control of such weapons."

"The United States aim is 'equality' and the Administration does not seek any advantages over its allies, said the NATO representative.

The problem facing the United States, however, is the share of control to be given to the seven NATO powers who do not contemplate participation. (AFPS).

PROMOTIONAL OPPORTUNITIES

Present Station employees are encouraged to apply for the positions listed below. Applications should be accompanied by an up-to-date Form 58. The fact that positions are advertised here does not preclude the use of other means to fill these vacancies.

Clerk (Typing), GS-301-5, Code 7521—Incumbent will perform a variety of duties including coordinating requests for the Branch's services, editing of manuscripts, filing and retrieving of audio-visual materials, typing, and serving as alternate projectionist. Incumbent must be capable of handling and moving without assistance equipment weighing up to 50 lbs.

Required experience—1 1/2 years general experience in progressively responsible general office clerical work. Plus 1 1/2 years specialized experience in the field in which the duties of the position are to be performed.

Qualification Requirements: At least two years clerical experience that included to a significant degree typing variety of material. Applicants must have served in a position that included typing within the last six months and must be fully qualified typist.

Clerk-Typist, GS-4, PD 430004, Code 3002—Incumbent will be required to type various technical reports and correspondence as well as perform clerical and minor administrative duties.

Qualifications: Successful completion of two academic years of substantially full time study in a resident school above the high school level; or two years of appropriate experience; or one year of education plus one year of appropriate experience.

Clerk-Typist, GS-4, PD 09009-1, Code 3002—Incumbent will perform a variety of administrative duties with the major portion being involved with personnel actions and records.

Qualifications: Successful completion of two academic years of substantially full time study in a resident school above the high school level; or two years of appropriate experience; or one year of education plus one year of appropriate experience.

Clerk-Dictating Machine Transcriber, GS-4, PD 28441, Code 3023—Incumbent provides necessary secretarial and clerical services required by branch secretary.

Qualifications: Same as above. Engineering Technician, GS-11, PD 430033, Code 3071—Performs technical analysis of customer's test requirements, designs test experiments to satisfy customer needs, plans and coordinates in detail all factors directly related to the test program, prepares cost estimates and budgets for the tests assigned, analyzes test results, and prepares progress and technical reports of tests conducted.

Qualifications: Must have a total of six years experience in the field of engineering—one year of which must have been equivalent to the GS-9 level. In addition must have a thorough knowledge of instrumentation, equipment, and the design of test equipments for tests conducted on the supersonic test.

File applications for above with Betty Fowler, Bldg. 34, Rm. 34, Phone 71514.

Clerk-Typist, GS-3 or GS-4, Code 5515—Incumbent types a variety of formal and informal reports, correspondence, memorandums, etc. Receives telephone and personal calls and directs same to cognizant personnel.

Secretary (Typing), GS-4, Code 5564—Incumbent is Secretary to the Head, Design Division, Branch Engineering Department. Receives telephone and business calls; scheduling appointments and meetings; attends meetings as required and serves as recorder, typing official Naval letters, memorandums, and reports from rough draft or recording machine, etc.

File applications for above with Dora Childers, Bldg. 34, Rm. 32, Phone 71393. Deadline for filing is June 26.

COMPETITIVE EXAM A competitive promotional examination is being announced for Supervisory Inspector (Ordnance Mechanical Equipment Development) IA, Announcement No. P-NOTS1V6-6641. Applicants must be Career or Career-Conditional employees of NOTS China Lake or Pasadena, Calif. File Card Form NAVEXOS 4153-AB and Standard Form 57 with the Personnel Division, Code P-659, Pasadena, Calif., no later than July 1.

NAVY OVERSEAS VACANCIES Guam—Budget Analyst, GS-11; Telephone Supervisor (Chief Operator), GS-6; Petroleum Quality Control Specialist, GS-7; Japan-Libration, GS-8. Hawaii—Welding Engineer. File applications for above with Navy Overseas Employment Office (Pacific), Federal Bldg., San Francisco, Calif., 94102.

Spain—Head, Liquid Fuels Pump Operator, US Navy Fuel Annex, El Ferrol. File applications for above with Navy Overseas Employment Office (Atlantic), Hdqtrs., Potomac River Naval Command, Washington, D.C., 20390, no later than July 3.

COMPETITIVE EXAM Master Mechanic (Power Plant), Guam. File Card Form NAVEXOS-4155AB and Standard Form 57 with Consular Department, Hdqtrs., ColNavMarianas, c/o PPO, San Francisco, Calif., attn. Code 08/23, no later than July 13.

"Pop" Lofinck is on leave. His "Desert Philosopher" column will be resumed on his return.

LBJ Picks June 21-27 As Job Safety Week

Calling upon "every American worker to work safely and to safeguard his fellow workers," President Johnson has named the week of June 21 "Job Safety Week."

He said he picked that week because the ninth biennial President's Conference on Occupational Safety meets in Washington June 23-25.

Some 3500 top men and women will attend the sessions. They will try to fill the President's order "to devise voluntary action to reduce the human and economic waste of needless work injuries."

President Johnson is scheduled to address the opening session of the Conference June 23. Delegates representing business, industry, agriculture, labor, education, science, government, and technical groups from all parts of the U. S. will spend three days in intensive study of job hazards and how to control them. They will give the President their recommendations for "Mobilizing Leadership for a Safety Breakthrough."

Linking job accidents and his anti-poverty program, the President said: "The loss in skill and earning power of every man and woman who suffers a preventable work injury impoverishes still more a nation already at war against poverty."

Over two million workers were disabled by on-the-job accidents in 1963.

Labor Secretary W. Willard Wirtz, in a move to back the President's Job Safety Week message, has written all governors urging them to issue Job Safety Week proclamations.

One purpose of Job Safety Week, according to the President, is "to enlist the natural leadership of each worker, farmer, teacher or businessman." He said he is "confident a week's trial will commend the practice of safety all year round."

GEBA Assessment Number 80 Is Due

Members of the Government Employees Benefit Association and China Lake Mutual Aid Society are informed that assessments NO. 80 and No. 8 are now due.

Assessments have been levied due to the death of Eugene D. Patterson, retired employee of the Engineering Department's Michelson Lab Machine Shop.

Payments of \$1.20 may be mailed to the Secretary-Treasurer Joseph M. Becker, 77-B Renshaw.

Aetna, Blue Cross Agents Here June 22-24

Aetna Insurance representative Howard Keenan will be at the Community Center on Monday and Tuesday, June 22-23, from 9 a.m. to 4:30 p.m.

Blue Cross representative W. G. Hamilton will be at the Community Center on Wednesday, June 24, from 9 a.m. to 1 p.m. and from 2 to 4 p.m.

Outdoor Shop to Close For Inventory Wed.

Navy Exchange announces that the Outdoor Shop only will be closed for inventory all day Wednesday, June 24. All other Navy Exchange activities will be open.

NEW GCA OFFICER for NAF at San Clemente Island is Lt. Col. Robert L. Newlund; reporting from Lemoore NAS where he was Asst. Radar Traffic Control Center Officer. His wife, Patricia, daughter Robin, 8, and son, Christopher, 6, will live in San Diego. He relieves Lt. Col. K. K. Stroupe who has received orders to the GCA Unit at Lakehurst, N.J.

'Military Days' Policy Issued By ComIND

A statement of policy concerning public observance of individual military service birthdays or days has been issued by Commandant, Eleventh Naval District.

The statement refers to a Chief of Information notice of last March which reads, in part: "In keeping with the spirit of unification . . . participation by Military Units in the observance of the birthdays of individual Military Services or any other day or days of significance to a single Military Service, its components or auxiliary, will not be undertaken in the civilian domain without the specific authorization of the Secretary of Defense."

"While there is no intention here to discourage activities of civilian associations or leagues such as the Association of the United States Army, the Navy League of the United States, the Marine Corps League or the Air Force Association in celebrating the Army Birthday, Army Day, Navy Day, the Marine Corps Birthday or Air Force Day, military participation in such events must be limited to attendance and speeches by military personnel in their individual and unofficial capacity."

The notice points out, however, that there are exceptions, and that requests to enable military participation in events held off base should be forwarded to the Chief of Information via the chain of command.

HOLLISTER GOLF TOURNEY winners Earle Roby (left) and Gary Stevenson hold trophies presented to them following the fourth annual tee classic at the China Lake club.

Children's Golf Clinic Roby-Stevenson Win Hollister Cup Tourney

Youngsters 12 and older are urged to sign up for the children's Golf Clinic at the China Lake Golf Club beginning today at 10:30 a.m. The hour-long lessons will be free, but there will be a \$1.00 charge for range balls.

Bob Hicks Feted On Return Here

Bob Hicks, former star shortstop with the NOTS championship baseball teams of '45, '46, and '47, during his tour of duty here as a First Class Petty Officer was feted by his old teammates at a reunion party held at the CPO Club recently.

The ex-Navy veteran will return to China Lake to teach a special education class at Burroughs High School this fall.

Hicks retired from the Navy as a Chief Petty Officer in 1961 and attended Memphis State University (Tenn.) before transferring to Eastern Washington State College at Cheney where he received his BA degree in education this year.

During his tour of duty here with the Navy he married Donna Boyack, daughter of NOTS oldtimers, Edna and Bob Boyack of 905-A Richmond Rd.

Hicks was voted the most valuable player for the years '50 and '51 while playing for the AFMATS in Hawaii.

NOTS BASEBALL GREAT RETURNS — Bob Hicks (center) star shortstop of the NOTS championship teams of '46, '47, '48 poses with old teammates (l-r) Bobby Kochman, Grant Gorman, Bob Mead, Gus Mead, Bill (Rabbit) Kummings, Bob Green, and Tom Short at a reunion party held in his honor at the CPO Club. Hicks returns to China Lake this fall to teach a Special Education Class at Burroughs High School.

Reds Nip Tigers 11-10 After Trailing by 9

Howard Beach's grand slam homerun in the bottom of the fourth inning sparked the beginning of a rally which saw the Reds come from a nine run deficit to beat the Tigers 11 to 10 last Tuesday evening in Pony League play.

Howard's brother, John, scored the winning run in the bottom of the seventh with a good show of base running.

The Red's Don Robinson went all the way on the mound for his first victory of the season, while the Tigers used three pitchers to try to stem the heavy slugging of the Reds.

Manager Dick Miller and coaches Jack Murray and George Teate were impressed with the hitting performance of their whole Red team.

Pony League Schedule

Table with 3 columns: Date, Team 1, Team 2. June 19: Reds vs. Braves—5:30 p.m.; Cubs vs. Tigers—8 p.m. June 21: Cardinals vs. Braves—5:30 p.m. June 22: Yankees vs. Tigers—5:30 p.m.; Reds vs. Cubs—8 p.m. June 23: Cardinals vs. Indians—5:30 p.m. June 24: Yankees vs. Cubs—8 p.m. June 25: Reds vs. Cardinals—5:30 p.m.; Tigers vs. Indians—8 p.m. June 26: Braves vs. Indians—5:30 p.m.; Yankees vs. Reds—8 p.m. June 27: Cubs vs. Indians—5:30 p.m.; Tigers vs. Cardinals—8 p.m.

TV A 'WASTELAND'? Not when Raquel Welch appears on a Hollywood TV show as a hostess.

SPORTS SLANTS

By CHUCK MANGOLD

Friday night is "Red Pin" night at the China Lake bowling lanes. Each time the red pin comes up as the number one pin and the bowler bowls a strike he is given a certificate worth one free game. Last Friday night a record 27 free games were awarded.

There are several openings for bowlers in the summer leagues that have commenced. For details call Fred Dalpiaz at Ext. 72006.

Congratulations are certainly in order for Fred's son Kenny, who bowled a 24-233-233—710 series last Wednesday night.

INTRAMURAL SPORTS CALENDAR

The intramural sports calendar for the balance of the year calls for golf in July, football in October, badminton and table tennis in November and basketball starting in December. Tackle football will be played at Schoeffel field this season.

NOTS GOLFERS LEAD

Capt. Bernard McCreery and Don Fraser, PNC, continue to lead the Eleventh Naval District Senior Golf tournament. With one more round to be played at Coronado on June 26, the NOTS representatives lead the field by ten strokes. Capt. McCreery shot an 80 and Fraser had a 75 in last week's play at Long Beach.

KUNZ PHOTO IN FIRST PLACE

Joe Seibold has his Kunz Photo softball team in first place as the teams near the finish of the first half of the season. With three teams tied for second place and the Public Works team in third position it looks like a five team race down to the last week of play.

LOOKS LIKE CARDINALS ARE OUT

After watching the Cardinals in action last week we think you can disregard them as serious contenders for the National League flag. The Cardinals lack long ball hitters. Their outfield leaves a lot to be desired and the pitching staff has not come through as expected.

The punchless Dodgers are fortunate that Joe Moeller and Phil Ortega along with Don Drysdale and Sandy Koufax have pitched great ball. Unless Frank Howard and Tommy Davis start driving in some runs the Dodgers are in for real trouble trying to repeat as champions.

The Giants, who take on the Dodgers in a four game series next week at Candlestick Park, have finally combined their pitching with their power hitters. A sweep in this series for either team would be certain for the losers.

Look for the Yankees to be in first place by the end of the month and never be headed. The Yanks, who won the pennant last season by ten games, should cinch the flag by the middle of September. This ball club has too much class for the rest of the league. We wonder where they would finish in the National League?

DISTINGUISHED VISITOR — Capt. G. H. Lowe (l), escorts RADM. D. Lambert, Control Electronics Division, OPNAV, on his arrival at NOTS Pasadena last week. The Admiral was briefed on current station projects and conducted on a tour of facilities.

CL Golf Club Membership Open to Pasadena Annex

The China Lake Golf Club announces that memberships are open to Pasadena as well as China Lake personnel. Memberships are \$8 monthly for an individual and \$12 for a family. Alternatively, Pasadena employees who are not members of the golf club may play the course by paying a daily greens fee (\$3 on weekdays and \$5 on weekends and holidays).

Pasadena personnel wishing to join the China Lake Golf Club should so indicate to Sue Burg, Ext. 622.

PROMOTIONAL OPPORTUNITIES

To apply for vacancies, contact Nancy Reardon, Pasadena Personnel Division, Extension 492. A current SF-58 must be submitted when applying. Industrial Engineer or Administrative Assistant, GS-11 or GS-12; Technical Planning Staff, ment, Code P801 — Preparation and maintenance of project plans for R&D programs, including scheduling and funding; implements PERT system on designated programs; makes special staff studies. Applicants should have at least one year's experience with PERT/time PERT/cost experience is desirable.

NOTS Pasadena

VIRGINIA E. LIBBY — EXT. 638

Sue Ann Cross Is Girl-of-the-Month

The pretty red-haired daughter of John A. Cross, Maintenance Machinist in the Public Works Shops Division, was chosen as the final Girl-of-the-Month at Northview High School, Covina. She was graduated with her senior class on June 11th.

During her senior year, Sue Ann Cross was president of both the American Field Service and the Future Teachers of America. She was also Tri-School Student Coordinator of AFS activities between Charter Oak, Covina, and Northview High Schools.

An outstanding student, she is on the Honor Roll and has been a member of California Scholastic Federation for three semesters.

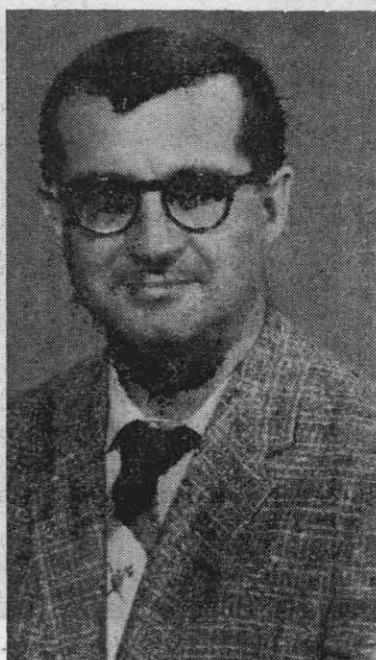

As part of the Future Teachers of America program, Sue taught at Sierra Vista Junior High school every Tuesday. She was news editor on the Valhalla, the school newspaper, and a member of Junior Statesmen of America.

Sue plans to attend Cal Poly seeking a secondary teaching credential in English.

The proud parents, John and his wife Helen, have another young Cross at home — John 10, who attends Cienega Elementary School in Covina.

SUE ANN CROSS

DR. LOUIS A. LOPES

DR. WILLIAM D. SQUIRE

PhDs Conferred On Two Annex Personnel

Two Pasadena Annex employees, Louis A. Lopes and William D. Squire, received their Doctorates at the California Institute of Technology graduation exercises last week.

Upon completion of his thesis on "Operator Differential Equations in Hilbert Space," Lopes received his Ph.D. in Mathematics.

Originally from San Jose, California, Dr. Lopes earned his B.S. and M.S. degrees in Mathematics from Stanford University. Associated with NOTS for 14 years, Dr. Lopes was granted a station fellowship from 1959-1961 to pursue his studies.

As a Mathematician and Consultant in the Guidance and Control Division, and a specialist in control dynamics, he is currently doing research contributing to the basic knowledge necessary for the design of control systems for underwater weapons.

His military duty was served in the Army from 1942-1946.

Dr. Lopes resides in Pasadena with his wife, Margaret, and their six children — Anita 10, Louis 9, Peter 7, Mary 6, Charlotte 5, and Thomas 3.

Squire was awarded his Doctorate in Electrical Engineering in the field of Communication Theory. His thesis was titled, "The Effects of Bias on Polarity Coincidence Detection."

Three station fellowships enabled Dr. Squire to complete his studies while an employee of NOTS. In 1950 he received his B.S. in Physics and in 1960 a

M.S. in Mathematics, both from CalTech.

A native of Texas, Dr. Squire served in the Army from January 1943 to December 1945, just previous to his employment with NOTS.

He is currently a Physicist (Electronics) and Consultant in the Electronics Branch.

Dr. Squire and his wife, Shirley, reside in Glendale with their two children — Lisa 11, and Mark, 8.

Pair of Porpoises, Buzz, Buzz Buzz, Now in Mugu Pool

Point Mugu, Calif. (AFPS) — The population of the porpoise pool at the Naval Missile Center here jumped from three to five recently when a 300 lb. male and a 220 lb. female were added to the select group in the marine compound.

The two full grown mammals, named Buzz (male) and Buzz Buzz (female), will remain in their new home indefinitely.

Captured in November near Gulfport, Miss., the porpoises were taken to a commercial animal training establishment in Hot Springs, Ark., for two and a half months of domestication training.

Reserve Duty at Pasadena

W. F. Thorn, Aerospace Engineer, and currently Program Manager on the Monopropellant Gas Generator Program in the Engineering Technology Division at China Lake, has reported to Pasadena for two weeks naval reserve duty in the Range Branch, Underwater Ordnance Department.

Lt. Thorn was a summer employee at China Lake in 1954, 1955 & 1956. In June 1957, he graduated from the University of New Mexico with a B.S. degree in Chemical Engineering.

After serving 2 years in the Navy, he returned to NOTS. Lt. Thorn and his wife, Shirley, reside at China Lake. Their children are — William, Jr., 4, and Rebecca, 4.

LT. W. F. THORN

RECENTLY REPORTING FOR SIX WEEKS DUTY at NOTS Pasadena, are five officers from the Naval Postgraduate School at Monterey. The visiting officers shown with Capt. G. H. Lowe (center) and Cdr. W. M. Place (extreme right), are (l-r) Lt. W. N. Moore, Lt. Cdr. R. A. Miller, Lt. J. W. Kinnier, Lt. W. A. Reister, and Lt. A. A. Carretta. Lt. Reister

and Lt. Kinnier are working on Drag Reduction Studies in the Propulsion Division. Lt. Moore and Lt. Carretta are associated with the Seahawk Program in the Systems Development Division. Lt. Cdr. Miller is currently concerned with Torpedo Interference in the Torpedo Development Division.

More Than 200 Visitors On Station in One Week

OREGON TEACHERS here from East Multnomah County on an Aerospace Education In-Service Workshop this week have encapsu-

lating of electronic components in plastic explained to them by John Trigg (left) during tour of Engineering Department's Plastic Lab.

When 50 teachers from Sonoma State College, here on a tour of NOTS as part of an Aerospace Workshop Program, depart the Station today a new record of more than 200 visitors in one week will have been set.

Taking it all in their stride were Technical Presentation Coordinator Bill Hampton, his assistant Dick Rusciocelli, Beverly Weisbrich and Gerry Berry.

First to spin the attendance wheel were more than 50 representatives from civilian and military activities throughout the nation who were here to witness an explosives hazard test at the SNORT Track last Saturday.

Second to up the tally were a group of Oregon school teachers from East Multnomah County participating in an Aerospace Education In-Service Workshop field trip.

Adding a third and fourth vigorous spin to the wheel was the arrival of two reserve officer groups.

One group was comprised of 40 officers here to attend a Weapons Course, tour the range test facilities, and for briefings on Station technical programs.

The other group, comprised of 62 officers, was here to attend a Law Seminar. With the group was Cdr. Ken Williams, former NOTS Legal Officer from Dec. '59 to July '63, now at 12th Naval District Headquarters.

38 Employees Take Journeyman Training Courses

Thirty-eight employees of the Station took advantage of one of the Journeyman Training Classes offered by the Artisan Development Branch (Code 654) this last semester. The class attended was the Basic Metallurgy and Heat Treating Aluminum class.

The logistics for the class were handled by R. Fredric Ladd (Code 6543) and the class outline, and organization of the specialized instructors was coordinated by Allen T. Robinson (Code 4526).

The material covered during the class lectures was the chemical and physical properties, principles of alloying, principles of heat treatment, forming, joining, and machining of aluminum. Explosive techniques in welding and forming aluminum were also covered.

The instructors participating in the class were, Dr. Guinn E. Metzger, James H. McMahon and David P. Newman (Code 5516), A. T. (Temp) Robinson and Milton R. Wolfson (Code 4526), Warren K. Smith (Code 40605), and John Pearson (Code 5007).

H. G. WILSON, Assoc. Technical Director, presents A. T. (Temp) Robinson a letter of appreciation for his role in securing instructors and developing metallurgy course for Personnel Department's Artisan Development Branch, as Fred Ladd, coordinator for journeyman training, smiles his approval.

Robert Rockwell Gets MS Degree From Stanford

Robert L. Rockwell, a Weapons Development Department employee, has been awarded his Master of Science degree in aeronautics and astronautics from Stanford University.

A BuWeps selectee for one year of graduate training, Rockwell entered Stanford last fall.

A Burroughs High School graduate, class of '53, Rockwell also received his A.B. degree in physics from the University of California at Berkeley in 1957.

While enrolled at Cal, he worked as a summer employee at NOTS during his school vacations.

In 1960 he was named winner of the local Rotary Club's award for one year of study abroad but chose to marry his high

LCDR. JAMES P. CROWDER Jr. has reported aboard as Military Assistant in Weapons Development Dept., relieving Cdr. L. H. Lippincott. Cdr. Crowder was CO of the USS Menhaden (SS 377) prior to duty here. He and his wife, Tina, have three sons, Michael, 11; Stephen, 9, and Bruce, born one month ago today.

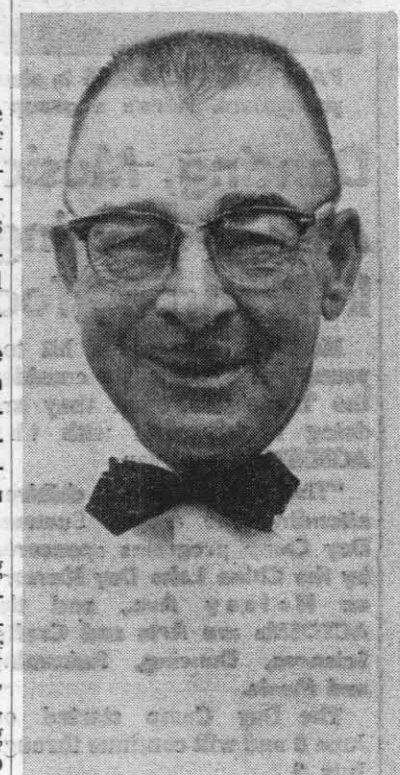

ROBERT L. ROCKWELL

school sweetheart, Shiela Williams, instead.

The Rockwells have two boys, Kurt, 23 months, and Bruce, 9 months, who was born while Rockwell was attending Stanford. The family reside at 104-B Byrnes.

Gordon M. Dunkel Transfers to NASA

GORDON M. DUNKEL

Gordon M. Dunkel, Head of Central Staff's Cost Analysis Branch since 1962, leaves the Station today to accept a position with NASA's Western Operations Branch at Santa Monica.

He will join Al Fullerton, former Head of Central Staff's Accounting Division, now Head of NASA's Financial Management Division.

Dunkel transferred to NOTS from Sharp General Depot at Lathrop in November of 1957. His first position here was as auditor with Central Staff's Internal Review Division under Ken Shumway.

In 1961 he transferred to the Special Projects Branch, then to the Cost Analysis where he was named branch head.

Dunkel was the recipient of numerous sustained performance awards during his tenure here.

The veteran 24-year Civil Service employee was honored by his fellow co-workers with a luncheon on Wednesday in the Executive Dining Room.

Dunkel received his 20-year Federal Service pin here four years ago. He began his Civil Service career with the U. S. Department of Agriculture.

MILLIONTH HOUR of service of aircraft using General Electric's J-79 turbojet engine was signalled last week by presentation of certificate to Marine Corps Capt. C. M. Baker (pilot) by Capt. Robert R. Yount, NAF Skipper. GE Field Engineer C. H. Richardson witnessed planeside ceremonies Friday afternoon.

Editorial

Kennedy Library Seen As Living Memorial

Since the tragic death of President John F. Kennedy Nov. 22, 1963, many public facilities such as airports, schools and parks have been dedicated in his honor.

While all of these are fitting tributes, a fund-raising campaign is currently underway to provide a national memorial to President Kennedy which will stand above all others in helping to keep his memory alive.

The funds will be used to build the John F. Kennedy Library on the banks of the Charles River in Boston, Mass. — a site the President chose himself eight weeks before his death.

This library will be more than simply another building or monument bearing the President's name. Its planners envision it as a living and working memorial, expressing President Kennedy's concern for his country and the world.

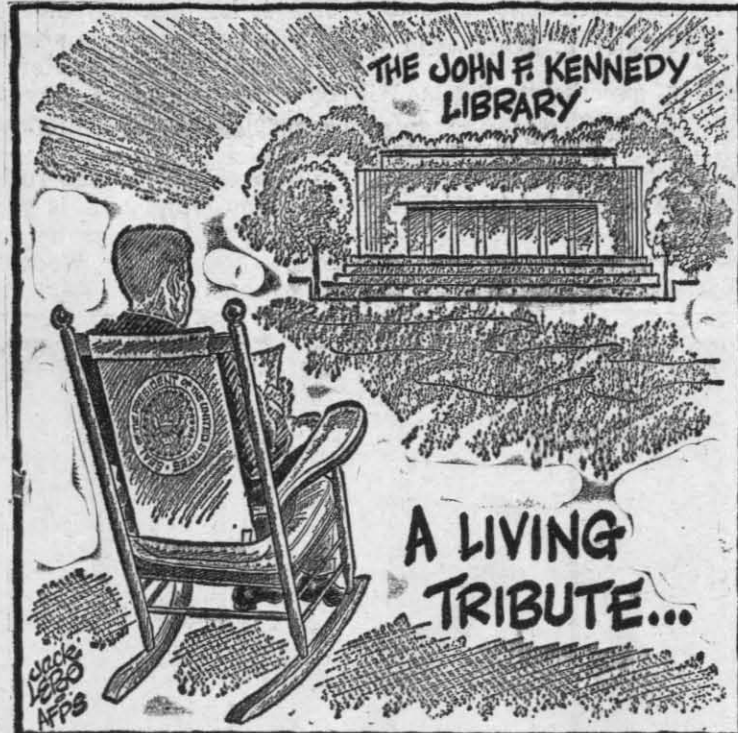

The library will include a museum which will house many of the mementos associated with President Kennedy and his times. Those planning it hope to make the experiences of recent history as vivid as possible for visitors, especially students and young people.

There will also be an archive which will contain President Kennedy's personal papers, as well as copies of public records necessary for an understanding of the actions of his administration. The archive will be used primarily by scholars and researchers.

A third component of the Library will be an institute, with the central purpose of educating young people in the understanding and practice of democratic political life. It will offer scholarships, research material, lectures, seminars and public programs to help achieve these purposes.

The cost of the Kennedy Library will total \$10 million—all of which will be obtained by voluntary contributions. When it is completed, it will be turned over to the government as a national institution and, as such, will belong to all Americans.

When the keyman for the campaign in your outfit gets around to you, give it some serious thought. There is no better way for men and women in uniform to pay a personal tribute to their late Commander-in-Chief. (AFPS)

EM Club . . .

(Continued from Page 1) Field. As a radio personality in Ridgecrest, Dillon has developed his "rating" during the evening hours of broadcast and on weekends.

The versatile bluejacket performed as a vocalist with a El Paso combo for three years, doubling on guitar, which he is scheduled to demonstrate tonight.

'Four Sons' and 'Ramona' Featured attraction of the evening, following a buffet dinner and refreshment, scheduled to start at 8 p.m., is the appearance of the nationally famous "Four Sons," stars of stage, TV and movies.

Music will continue through 1:30 a.m., with songstress "Ramona" punctuating the program with her lyrical renditions.

Door prize awards are included in the evening's program, according to Tom Fought, PHAN, Ass't. Manager of the club.

Administered by the Navy Exchange, the Enlisted Men's Club is under the direction of Lieutenant Earl F. Mouton, Navy Exchange Officer.

Dwight M. Morgan To Attend UC

Dwight W. Morgan, '64 Burroughs High School graduate and honor student, will attend the University of California at Berkeley this fall. He will major in biochemistry.

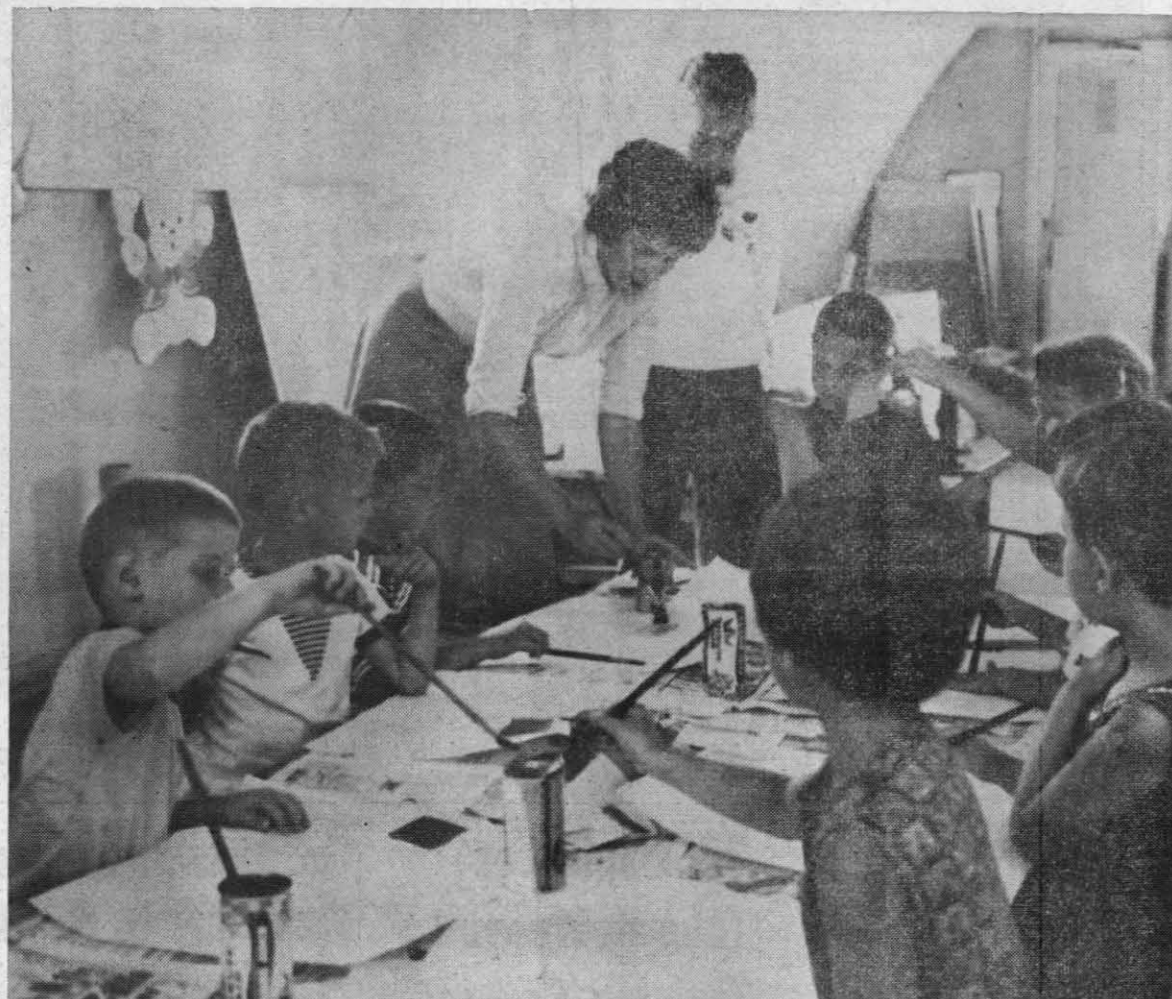

Morgan holds a life membership in the California Scholarship Federation and served as president of the local chapter here. He participated in the NOTS-Burroughs Work Experience Program.

Women Hold Third of White Collar Jobs

Women held nearly 32 percent of all Federal white collar jobs in October 1962, a Civil Service Commission study shows. This is an increase of 4 percent over the previous year. The study also showed that women occupied almost 18 percent of professional positions in Government and 34 percent of non-professional jobs.

China Lake Day Nursery

Little Ones Learn Arts, Sciences at Day Camp

PAINTING PICTURES is always great fun for youngsters. Here's a group at the Nursery Summer Day Camp learning about color selection from Beverly De Jarnett.

Dancing, Music And Swimming In Program, Too

Most of them are a bit too young yet to seriously consider the Three "Rs," but they are doing mighty well with the ACSDSMs, thank you.

"They" would be the children attending the annual Summer Day Camp programs sponsored by the China Lake Day Nursery on Halsey Ave., and the ACSDSMs are Arts and Crafts, Sciences, Dancing, Swimming and Music.

The Day Camp started on June 8 and will continue through July 2.

Under the overall direction of Peg Knoblauch, the various classes and instructors are:

Arts and Crafts: Beverly De Jarnett; Sciences: Ruth Palenik; Dancing: Jane Bachinski; Swimming: Chris Lenninger and Nancy Reardon; Music, by the individual teachers.

'Withdrawal'

The bank robber shoved a note across to the teller which read: "Put the money in a bag, sucker, and don't make a move." The teller pushed back another note: "Straighten your tie, stupid. They're taking your picture."

EXPERIMENTS in the Science class prove that helium makes balloons go up, and that seeds planted in paper cups do grow . . . if you have patience to wait just a bit longer.

State and Defense Departments Back Sea-Level Canal

Washington (AFPS) — Secretary of the Army Stephen Ailes has told members of the House Committee on Merchant Marine and Fisheries that the State Department and Defense Department support a bill for construction of a sea level interoceanic canal.

The basic purpose of the bill is to authorize investigation and study to determine the most suitable site across the American isthmus for a canal as a successor to the Panama Canal.

Mr. Ailes said, "The existing Panama Canal is vulnerable to lengthy interruption of service through sabotage or accident, an event which would be prejudicial to our strategic and military interest and to international commerce."

The Secretary pointed out "Even today, 24 U.S. Naval vessels and 50 commercial ships cannot pass through the canal and an additional 556 commercial vessels cannot go through fully laden.

"A sea level canal would not present, as does the present canal," Mr. Ailes said, "major security problems or the need for a large personnel complement to operate and administer it." An agreement with the country through which the canal would pass could and undoubtedly would be very different from the existing treaties with Panama, according to Secretary Ailes.

18 Graduate From Apprentice Program

BESWICK AWARD WINNER — Herbert Swader (right) accepts Beswick Award from Donald Davis, winner of the award last year. The award is made annually to the outstanding graduating apprentice.

MACHINISTS — Howard Grant, president of Desert Lodge No. 442 of the International Assoc. of Machinists, congratulates graduates. Journeyman machinists, front row (l-r), are Frank Johns, Donald Standard, George Fincher, Paul Mills. Back row (l-r) are Herbert Swader, James Herman, Richard Graham. Not shown Leon Barton.

SCHOLASTIC AWARD WINNERS — Apprentices (l-r) Richard Printy, third year electrician, Carl Wilson first year electronics mechanic, and Milton Caves, second year electronics mechanic, accept \$50 academic awards from Austin Ross, Head of Employee-Management Relations Division.

15 Complete First Course In Solderfication Held Here

Fifteen Station employees were awarded certificates last Friday for completion of the first solderfication course held at NOTS.

Object of the two-week course is to improve workmanship and inspection of soldered electronic assemblies by Station technicians.

Noting that a great many failures in missiles and rockets have been due to faulty solder joints, the Naval Avionics Facility at Indianapolis has developed a Standard Manual, Shop Practice 19, and periodically offers a course for instructors in solderfication.

Instructor for the local course was Robert J. Sellers of Code 40, who completed the NAFL course with an outstanding rating.

ELECTRONIC MECHANICS—Now journeymen electronic mechanics (l-r) are David Garreton, Carl Morphis, John Monckton, Ernest Ball, Toshio Nakashima, Franklin Lydon, and Robert Mills. This is the 14th graduating class since the Apprentice Program was established here.

ELECTRICIANS — Journeymen electricians (l-r) are Billy Martin, Larry Mather, and Wallace Hirsch.

COMPLETE CLASS — Employees who have completed the first solderfication class at NOTS, front row (l-r) are Jack Whitfield, coordinator; Virgil Lewis, Code 35; C. D. Ryan, Code 18; Leroy Willis and Richard Beswick III, both of Code 55; George Weir, Code 40; and Philip Hardie, Code 55. Back row (l-r) Robert Sellers, instructor, Code 40; Earl Ellington, who presented certificates, Code 55; Knoel Cragin, C. L. Jones, Rose Pifer, Marcella Sudderth, Helen Powers, all of Code 55; Eddie Paulsen, Code 40; John Haug, Code 35.

First Polaris Sub Home After 3½ Yrs.

New York — The Navy's first Polaris submarine, the USS George Washington, has returned to her home port at New London, Conn., after an absence of three and one half years—most of which was spent beneath the surface of the ocean.

Since February, 1961, the Washington has operated as a part of Submarine Squadron 14 from Holy Loch, Scotland, completing 15 Polaris patrols in this period.

Upon return to the United States, the submarine went into the yards at Groton, Conn., for a complete overhaul.

The overhaul will take more than a year to complete and, among other things, will give the Washington longer-range Polaris capability.

"In a democracy, exercise of the VOTE is the method by which voters assure themselves of majority rule."
