

PROMOTIONAL OPPORTUNITIES

COMPETITIVE PROMOTIONAL EXAM

A competitive promotional examination is announced for Leadingman Joiner, Ann. No. NOTS-Va-19(66) issued October 24, 1966. Applicants must be Career and Career Conditional of the U.S. Naval Ordnance Test Station, China Lake, California...

COMPETITIVE PROMOTIONAL EXAMS. NON LOCAL

A competitive promotional examination is announced for Foreman Mechanic (Public Works), Ann. No. USNSLB-3(66) issued October 17, 1966. Applicants must be Career or Career Conditional employees of Naval or Marine Corps activities within the 11ND, who meet the experience and training requirements...

A competitive promotional exam is announced for Master Mechanic (Public Works), Ann. No. USNSLB-4(66) issued October 17, 1966. Applicants must be Career or Career Conditional employees of Naval or Marine Corps activities within the 11ND, who meet the experience and training requirements...

OPPORTUNITIES FOR SCIENTISTS AS ASTRONAUTS

The National Academy of Sciences - National Research Council, acting in behalf of the National Aeronautics and Space Administration, announces the availability of a limited number of career appointments as astronauts to experienced scientists of exceptional ability...

Electronic Engineer, GS-7 or 9, Code 4024 - Designs microwave antennas, antennas and antenna feed circuits for radio frequency tracking systems. Reviews test data on individual components and overall tracking systems to evaluate their performance...

Electronic Engineer or Physicist, GS-11 or 12, Code 4024 - Performs design and development of microwave tracking systems. Systems analysis is made in terms of performance characteristics over a specified bandwidth and in terms of physically realizable tolerances on components. Position requires good background in microwave circuit theory and in network synthesis and analysis...

File applications for above with June Chipp, Bldg. 34, Rm. 26, Phone 72276. Mechanical Engineer, GS-7 thru 12, Code 4574 - Position is that of design engineer of auxiliary power units. The incumbent is responsible for the design control of the gas generators for SARAH, IRAM, Shrike and Chaparral missiles. Position entails design changes as solutions to problem areas accompanied by design of experimental tests to prove adequacy of the design changes...

File applications for above with Mary Morrison, Rm. 32, Bldg. 34, Phone 72032. Electronics Technician, GS-10, Code 3073 - Supervises or performs the fabrication, installation, checkout, and calibration of line-of-sight radio-link and line-of-sight telemetry equipment and systems used to acquire data on Station's supersonic tracks (SNORT), B-4, and G-4. Responsible for track ranges' calibration laboratory and the calibration of transmitters and telemeters applied to track tests...

File applications for above with Evelyn Moors, Bldg. 34, Rm. 27, Phone 72723. Mechanist (Experimental Propellants), WB-34014-13, \$3.57, \$3.72, \$3.87, Code 4571 - Performs complex and non-routine machine work in the manufacture of a variety of experimental rocket and missile motors. A knowledge of how to handle, transport and store explosive materials is helpful, but not required. Should no qualified applicants apply, one of the applicants may be selected for detail to be trained for the position...

Police Supervisor, GS-7 (\$6451 per annum), Code 843 - Applicants must have at least one year of general experience and three years of specialized experience, and meet the provisions of the Whitten amendment. The duties will consist of law enforcement, conducting preliminary investigations, and supervision of policemen...

Guard, GS-4, Code 843 - Applicants must have two years of general experience in the guarding of property and enforcement of laws...

Supervisory Electronic Engineer (Solid State Devices) or Physicist (Supervisory), GS-12, PD No. 455053, Code 5522 - Position is that of Head, Microelectronics Section in addition to the normal duties such as personnel supervision and technical direction, the Section Head will have primary responsibility for the selection of technical equipment to meet future Station needs in the microelectronic area...

Clerk, GS-3, PD No. 655049, Code 5554 - Provides engineering personnel within the entire NOTS organization with drawing copies upon request from a file of 140,000 microfilm aperture cards. Incumbent operates and maintains a microfilm printer and produces prints from the microfilm file in filling requests for document copies...

Refrigeration and Air Conditioning Mechanic, GS-3, PD No. 212 - Installs, maintains and repairs refrigerating and air conditioning equipment and components used in providing refrigeration and air conditioning for living quarters, offices, and industrial uses...

File applications for above with Joann Cheever, Bldg. 34, Rm. 34, Phone 71514. Electronics Technician, GS-856-11, Code 503 - Functions as an assistant to the scientific members of the Detonation Physics Division, Research Department, and will be concerned with the design, development and modification of electronic equipment and instrumentation to meet the complex and novel requirements of basic and applied research experiments. Qualifications: Two years general and four years specialized experience in electronics or in a similar field that provided the technical knowledge and background required...

File applications for above with Nora Childers, Bldg. 34, Rm. 32, Code 657, Phone 71393. Electronic Engineer (Instrumentation), GS-9, 11, or 12 Code 3536 - Interested in digital logic design; designs and develops instrumentation systems for airborne weapons projects and weather reconnaissance projects. Works on instrumentation system design, special sensor design and specification of telemetry and tape equipment for airborne use...

File applications for above with Naomi Campbell, Bldg. 34, Rm. 28, Phone 72218. Electronic Engineer (Instrumentation), GS-9, 11, or 12 Code 3536 - Interested in digital logic design; designs and develops instrumentation systems for airborne weapons projects and weather reconnaissance projects. Works on instrumentation system design, special sensor design and specification of telemetry and tape equipment for airborne use...

Electronic Engineer, GS-9 or 11, Code 3522 - Will perform design and analysis of circuits and subsystems for airborne electronic equipment. Will supervise technicians in construction and test of the equipment. Requires some familiarity with quantum electronic theory and practical experience with lasers, as well as ability to design solid state circuitry...

File applications for above with Mary Morrison, Rm. 32, Bldg. 34, Phone 72032. Electronics Technician, GS-10, Code 3073 - Supervises or performs the fabrication, installation, checkout, and calibration of line-of-sight radio-link and line-of-sight telemetry equipment and systems used to acquire data on Station's supersonic tracks (SNORT), B-4, and G-4. Responsible for track ranges' calibration laboratory and the calibration of transmitters and telemeters applied to track tests...

Electronic Technician GS-7, GS-9, GS-11, Code 3067 - Performs calibration, operation, maintenance, and modification of radar, television, communication and computer systems used to acquire data at the Systems Development Department ground ranges. Prior experience in these fields is helpful but not required. The incumbent will be offered the opportunity to gain experience with these electronic data acquisition systems. Duties of this position directly concern the tracking of aircraft by radar systems, processing of this data by digital and analog computers and the presentation of this information on plotting boards during test operation. The incumbent will also assist in the modification, operation, and maintenance of radar simulators used to develop and evaluate anti-radar guided missiles and electronic counter measure devices...

File application for above with Loretta Dudley, Bldg. 34, Rm. 34, Phone 71471.

First Formation Flight

PARTICIPATING in his first formation flight on October 12, was RAdm. M. E. Dornin, Commander, Operational Test and Evaluation Force. RAdm. Dornin, left, was a passenger in a TA-4F Skyhawk piloted by Cdr. D. Loranger. The aircraft, on loan from Attack Squadron 125, Lemoore, California, is a dual seat jet trainer. It is also the latest model of the Douglas Skyhawk series. The flight originated from VX-5 and included an aerial tour of the Randsburg Wash area and the Coso target range. Squadron aircraft consisting of an F-4B Phantom and four A-4E Skyhawks accompanied the flight. RAdm. Dornin had arrived from his headquarters in Norfolk, Virginia, to attend change of command ceremonies at Air Development Squadron-Five.

Two NOTS Men To Attend Meet In The Pacific

Army, Navy and Air Force national missile range commanders and their principal managers will meet early next month at the Army's Kwajalein Test Site in the Marshall Islands.

They will converge on the mid-Pacific installation for the 29th meeting of the National Range Commanders Council, an interservice group set up to review missile range instrumentation and range management matters.

Brig. Gen. I. O. Drewry, Project Manager for the Army's NIKE-X missile defense project and Kwajalein Range Commander, will be the host for the two-day meeting which begins November 3. Among the national range commanders or their representatives expected to attend is Capt. Atlee F. Clapp, NOTS Staff Assistant to the Commander and Fred M. Ashbrook, Division Head, Instrument Development Division, Code 304.

Exchange Door Prizes

DOOR PRIZE WINNERS - These three lucky ladies were the winners of the door prizes given at the recent opening of the Navy Exchange. From left to right is L.Cdr. Earl Mouton, Exchange Officer, Mrs. Euna McAdams, Mrs. Melba Webb, Mrs. Albie H. Slay and Exchange Manager Porter Harlan. -Photo by PH-3 Bryce Cacek

Form with fields for 'From', 'TO', and 'PLACE STAMP HERE'.

SHOWBOAT

FRIDAY OCTOBER 28 "LAS VEGAS HILBILLYS" (90 Min.) Jayne Mansfield, Ferlin Husky, Mamie Van Doren 7:00 p.m.

(Musical Comedy in Color) Country boy inherits a Las Vegas night club only to find it's a rundown saloon. Things get worse until he introduces western music to the faded town and wins over the gambling tables. Hoedown musical (Adults and Mature Youth). Shows: "War & Pieces" (7 Min.) (Roadrunner) "Air Racings" (17 Min.)

SATURDAY OCTOBER 29 -MATINEE- "SEVEN FACES OF DR. LAO" (100 Min.) Tony Randall 1:00 p.m.

Shows: "Two Mouseketeers" (7 Min.) "Capt. Kidd No. 10" (16 Min.) -EVENING- "JOHN GOLDFARB, PLEASE COME HOME" (96 Min.) Shirley Maclaine, Peter Ustinov, Richard Cernoo 7:00 p.m.

(Comedy in Color) Wrongway U-2 pilot lands in mythical kingdom of a gadget-loving king whose son is bounced from a U. S. football team. So the pilot is forced to build a team that will beat the Irish. Shirley becomes one of the often cheated harem girls as she tries to get a story. See it NOW, or see it AGAIN! (Adult.) Shows: "Pickled Pink" (7 Min.)

SUNDAY-MONDAY OCTOBER 30-31 "MY WAY" (91 Min.) Clint Walker, Jay North 7:00 p.m.

(Adventure in Color) Youngster joins his white-hunter father in India and finds him afraid of the big cats. The boy's adventures include a trip to a far away town to deliver a sacred white elephant, and troubles galore. Jungle thrills in India. (Adults, Youth and Children.) Shows: "Squeak in the Deep" (7 Min.) "Myways of France" (10 Min.)

TUESDAY-WEDNESDAY NOVEMBER 1-2 "LAST OF THE SECRET AGENTS" Marty Allen, Steve Rossi, Nancy Sinatra 7:00 p.m.

(Comedy) The zany duo are in Paris where they accidentally receive a note for which they have previously died. They join a group and proceed to goof up the assignment. Slipstick with spice. (Adult.) Shows: "Spree Lunch" (7 Min.) "AFMR No. 670" (10 Min.)

THURSDAY-FRIDAY NOVEMBER 3-4 "AMBUSH BAY" (109 Min.) Hugh O'Brian, Mickey Rooney, James Mitchum 7:00 p.m.

(War/Drama in Color) A nine man Marine patrol invades a Japanese-held island to contact a spy prior to invasion of the Philippines. Packed with authenticity, its realistic account of the mission is rough and determined. See it Now! (Adults, Youth and Mature Children.) Shows: "Cirrhosis of Louvre" (7 Min.)

CHESS MEETING The Chess Club meets at the Commissioned Officers' Club on Wednesdays at 7:30 p.m. For further information call Marko Afendykiw at extension 72846.

L. T. E. Thompson Awards Are Next Friday

MARION G. DRAPER... new Head, Central Staff

Gordon Draper Appointed as New Central Staff Head

Marion G. "Gordon" Draper, since 1959 the Associate Head of NOTS Central Staff for Finance, was appointed head of Central Staff on Monday, October 17. He has been acting head since the death of R. W. Bjorklund, staff head since 1959, last July.

Gordon Draper came to China Lake in January 1945 as a Navyman, became an Aviation Electronic Technician's Mate Third Class here, and after his discharge went to work as a civilian in the Accounting Division of the then Supply and Fiscal Department.

"During all the time my family and I have been here since 1946," he says, "I have worked in the same building and lived in the same house." His office, as head of Central Staff, is on the second floor of the Administration Building, and his home of 20 years' standing is at 103-B N. Richmond Road.

Draper is a native of Weldon, North Carolina, and received a diploma in accounting from the International Accountants Society. He was an accountant for the University of North Carolina and president of a small retail grocery corporation in Weldon before...

HONORED TITLE TO BE AWARDED

Tonight will be a big night indeed for one of the 11 past "Bluejackets of the Month" for it is the night when one of them will be chosen as the "Bluejacket of the Year." The new "Bluejacket of the Year" will be given the use of a new car, a vacation in Las Vegas, numerous gifts of appreciation, and a cash award.

A banquet at the Community Center, honoring the men, is open to the public and will be preceded by a social hour. Tickets for the event are \$6.50, of which \$1.50 goes toward a cash gift for the chosen Bluejacket.

Meeting Set By Advisory Board

The regular fall meeting of the NOTS Advisory Board will be held Thursday and Friday, November 3 and 4. Rear Admiral F. L. Pinney, Jr., USN, Deputy Chief of Naval Material (Development), will be at NOTS to attend the two-day session.

Thompson Awards And Luncheon Set For Next Friday

The Station's highest form of scientific recognition - the L. T. E. Thompson Award - will be presented next Friday, November 4, at a luncheon to be held at the Commissioned Officers' Mess.

The Thompson award, honoring Dr. Louis Ten Eyck Thompson, the Station's first Technical Director, was established in 1956 and is presented to present and former NOTS employees whose contributions to ordnance research and development have been most beneficial to the fulfillment of the Station's mission. To date 33 awards have been presented.

Station personnel are invited to make reservations for the luncheon, starting at 11:45 a.m., by calling extensions 72926 or 72283. Wives of those attending are also invited. All reservations should be made no later than Wednesday noon, November 2.

Vol. XXI, No. 43 Naval Ordnance Test Station, China Lake, California Fri., Oct. 28, 1966

Station personnel are invited to make reservations for the luncheon, starting at 11:45 a.m., by calling extensions 72926 or 72283. Wives of those attending are also invited. All reservations should be made no later than Wednesday noon, November 2.

COVETED L. T. E. THOMPSON AWARD Presented For Research And Development

Dedication Ceremony WARHEAD R & D LABORATORY Wednesday, Nov. 2 2:00 P.M. Public Invited

Barbara Kasal Becomes Navy's First Civilian Disbursing Officer

THE LADY IS IN CHARGE-The first civilian disbursing officer in the history of the Navy, Barbara Kasal, takes up her new duties under the eye of Lt. Wilfred J. Bergeron, Jr.

Never before last Friday, October 21, had the U.S. Navy been served at any station by a civilian disbursing officer, but on that day NOTS was given its first one. Not only that, but she's a pleasant, attractive "first" by the name of Mrs. Paul (Barbara) Kasal. Barbara Kasal has been Deputy Disbursing Officer of the Station since September 1961, and the last two years under Lt. Wilfred J. Bergeron, Jr., who will report to new duties as the Navy Finance Officer on Guam.

Mrs. Kasal is one of the early workers here, and began employment at the Station as a clerk - typist in Supply Dept. She arrived in June 1945 following her husband, who had reported for duty with the Navy Drone Utility Unit at Harvey Field, now Inyokern Airport, in the skill then called "aviation radio technician, first class." Paul Kasal is now an electronic technician with Propulsion Development Dept.

The appointment Mrs. Kasal as Disbursing Officer at NOTS follows a recent change in the Department of the Navy to allow shore activities to bring civilians into the job and release Naval officers for other assignments, Lt. Bergeron explained.

She arrived in June 1945 following her husband, who had reported for duty with the Navy Drone Utility Unit at Harvey Field, now Inyokern Airport, in the skill then called "aviation radio technician, first class." Paul Kasal is now an electronic technician with Propulsion Development Dept. The appointment Mrs. Kasal as Disbursing Officer at NOTS follows a recent change in the Department of the Navy to allow shore activities to bring civilians into the job and release Naval officers for other assignments, Lt. Bergeron explained.

Turn Back The Clock

ONE MORE HOUR OF SLEEP - Sherry Scher, of the Personnel Department, makes a pretty reminder that it's time to turn back the clocks to Standard Time. Most people will set their clocks back one hour upon retiring Saturday night, although the change will not be official until 2 a.m. Sunday, October 31. If you're the type that gets confused during these time changes, try remembering this. "Spring forward, Fall back."

Combined Federal Campaign Extended A Week

Army Research-Development Award Is Presented to Jerry L. Reed

BY ELEANOR MANOS

Jerry L. Reed of Code 3008, Infrared Countermeasures Group, Systems Development Department, was the recipient of an Army Research and Development Award for 1966. The presentation was made by Larry Hewin, Technical Director of the U.S. Army Aviation Materiel Laboratories, Fort Eustis, Va., on October 6, at NOTS.

Consisting of a bronze wall plaque and a lapel pin, the award gives "recognition of technical achievements of scientists and engineers by accepted leaders" in their fields of activity.

Reed was honored for his "immeasurable contributions in the field of advanced light-weight armor systems for aircraft." While employed at USAAVLABS, he was a member of a three-man team assigned to determine means of protecting U.S. Army aircraft in Viet Nam from small-arms weapon fire.

During the period August 1962 to August 1965, Mr. Reed designed aircrew armor systems for Army helicopters and

fixed-wing aircraft operating in Viet Nam. These activities were responsible for saving the lives of many pilots and crew members and increasing the reliability of supply and evacuation operations in combat areas.

Special emphasis was placed on Reed's outstanding technical abilities which he applied to the solution of the materials and design techniques for all armor systems.

The R & D Award is one of the highest made by the Department of the Army to civilian employees. Work recognized by the 1966 awards reflects the diversity and depth of Army in-house laboratories research and development activities being conducted at more than 50 installations and involving more than 7,800 scientists and engineers. Thirty-two awards were made this year.

Reed has been a NOTS employee since August 1965. He is a graduate of Texas A & M college where he received a B.S. Degree in Aerospace Engineering in 1960. He and his family reside at 1808-B Young Circle, China Lake.

RECEIVES HIGH HONOR — Jerry L. Reed, right, Infrared Countermeasures Group, Systems Development Department, received the Army Research and Development Award recently for his contributions in the field of armor systems for aircraft. The award was made by Larry Hewin, center, Technical Director of the U.S. Army Aviation Materiel Laboratories, Fort Eustis, Va., and congratulations were extended by NOTS Technical Director, Dr. William B. McLean.

Federal Campaign Will Be Extended To One More Week

Due to the late arrival of the much needed and definitely necessary printed material, the Combined Federal Campaign, the Station's annual "Once For All" drive, has been extended for one week.

"In order to afford the Federal employees of the Indian Wells Valley a full three week period in which to make their contributions, the closing date for this very important drive will be November 5, announced Jim McGlothlin, Chairman I.W.V.C.F.C.

To date, nearly \$20,000 has been donated to the annual drive, but according to Clarence Renne, Drive Chairman, this year's campaign is expected to exceed the \$37,000 mark reached last year.

If for some reason there are still offices on the Station that have not been contacted by one of the Keymen, they are invited to call Clarence Renne at Ext. 9297.

Meetings Set For Freshmen Parents

A series of small informal meetings for parents of freshmen is being held at Burroughs High School. According to Mr. Kenneth Westcott, Principal, the meetings are to give the parents a chance to learn about the policies and procedures of the high school and to ask questions.

It is hoped, he said, that the meetings will make it possible for the school and the home to work together more effectively.

At present the meetings are scheduled for 10:30 a.m. and 1:30 p.m. on Tuesdays and Thursdays in the Conference Room at the high school. Any parent of a freshman who is interested in attending one of the meetings should call Mrs. Lucretia Becker, freshman counselor, and make an appointment.

One of the chief safety features of U.S. Savings Bonds is that they may be redeemed only by their registered owners.

DIPLOMA, AWARDS, PROMOTION — Tuesday was a busy day for SSgt. James W. Willoughby. He was promoted to his present rank, received his diploma from the Marine Corps Officers' Basic Extension Course, was presented with a Meritorious Mast from Capt. John I. Hardy, ComNOTS, and a letter of appreciation from the Civil Air Patrol.

From left to right are Major Charles T. Ross, Commander of Composite Squadron 84, Civil Air Patrol, Capt. John I. Hardy, ComNOTS, SSgt. Willoughby, his wife Mayumi, and Lt. Col. Noah C. New, Senior Marine at NOTS. Lt. Col. New stated that SSgt. Willoughby's achievements have been outstanding. —Photo by PH3 Jerry Willey

Marine Sergeant Gets Promotion, Numerous Awards

Last Tuesday James W. Willoughby, USMC, was promoted to Staff Sergeant. He was also the beneficiary of several meritorious awards. In the past SSgt. Willoughby's performance of duty has not gone unnoticed, but his recent achievements have been outstanding.

Lt. Col. New, the senior Marine at NOTS, presented SSgt. Willoughby with a diploma from the Marine Corps Officers' Basic Extension Course. The completion of this course

required over 300 hours of study during off-duty hours. Lt. Col. New noted that such a display of initiative and effort denotes a great deal of professional dedication.

Following the receipt of the diploma, Major Charles T. Ross, Commander of Composite Squadron 84, Civil Air Patrol, presented SSgt. Willoughby with a letter of appreciation for outstanding assistance to the Civil Air Patrol from May to September, 1966. His serv-

ice to the CAP was performed as drill instructor.

Capt. John I. Hardy, ComNOTS, then presented SSgt. Willoughby with a Meritorious Mast commemorating all of his achievements in addition to his outstanding past performance of duty as an ordnanceman in the WALLEYE project.

SSgt. Willoughby resides with his wife Mayumi and three children Terry, Tami, and Tracy.

Gordon Draper

(Continued from Page 1)

fore being drafted into the Navy in 1944.

Gordon Draper and his wife Annie have two daughters, Irma and Marion, both married, and both graduates of the University of Redlands, where they met and married their husbands.

The new head of Central Staff first began working under R. W. Bjorklund, former head, in 1951, when Bjorklund was in the Budget Division.

Gordon Draper has been known as an active man in church and professional organizations throughout his years at China Lake, and is a member of the American Ordnance Association, the American Society for Public Administration and the Federal Professional Association.

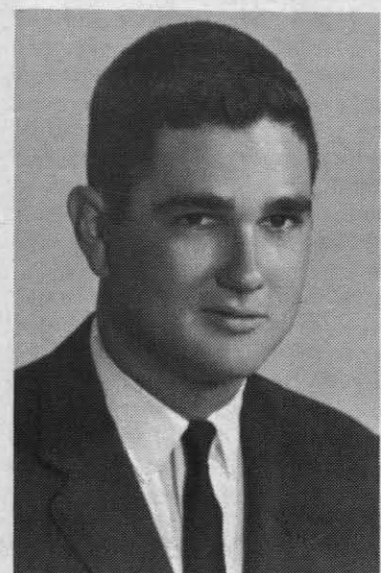

During vacation hours, now becoming increasingly hard to find, the Drapers occasionally travel to Lake Havasu or Lake Mead on the Colorado River, where Gordon enjoys surface casting for bass.

Among the additional duties he has been handling in his new position are Executive Secretary to the Station's Technical Board, financial advisor to the Shore Facilities Planning Board of NOTS, and Executive Secretary of meetings of the technical department heads, chaired by H. G. Wilson, Associate Technical Director.

327 SCHOOLS

Department of Defense operates 327 dependents' schools around the world, employing 6,800 classroom teachers for 166,000 students — making it the ninth largest U.S. school system.

Technical Writers To Hear Talk By Albanese on Communication

JAMES A. ALBANESE ... To Speak Tuesday

A talk on "Communications in Industry and Government" by James A. Albanese, assistant professor of Economics and Accounting at Bakersfield College, Desert Division, will highlight the dinner-meeting of the local Chapter of Technical Writers at 7 p.m., Tuesday, Nov. 1, at the Officers' Club.

A social hour, beginning at 6 p.m., will precede the dinner which will be held in the Sun Room.

A lecturer in management communications during his graduate study at USC's School of Business Administration, Albanese will cover the various aspects of communication theory, business research, and report writing in his talk.

He joined the local college staff in September after receiving his Master's degree in Business Administration. Prior

to his graduate study, he served as activities coordinator, 1962-1964, at San Diego State College where he had received his B.A. degree in Economics in 1959.

During his student days at San Diego State, he was named to Who's Who in American Colleges and Universities. In addition, he served as president of the College's Interfraternity Council, and president of Lambda Chi Alpha.

Entering the Army as an enlisted man on graduation from San Diego State, he received an appointment to Infantry Officer Candidate School where he received a second lieutenant's commission. He now holds a first lieutenant's commission in Army's Inactive Reserves.

He is married to the former Bobbie Furbis, of San Diego, whom he met at USC. She holds a B.A. degree in History from USC and is working toward an M.A. degree. They have a one and one-half month old son who was born since they came to the desert in August. They reside at 202-A Forrestal, China Lake.

GEBA Assessment 117 Waived For Death Of Clyde D. Zills

No assessments will be levied due to the death of GEBA-CMAS member, Clyde D. Zills, employee of the Ordnance Department.

Zills died Thursday, October 20, at Evanston, Wyoming, announced Secretary-Treasurer Joseph M. Becker.

New Navy Commissary Store Now Open

RIBBON CUTTING CEREMONY — Officiating at the grand opening ceremony of the new Commissary Store are, left to right, Capt. H. J. Hartman, Officer in Charge of Construction; Lt. Oriel Lake, new Commissary Officer; Lt. Nels P. Jensen, outgoing Commissary Officer; Lt. Willard J. Benner, outgoing Assistant Commissary Officer; and Capt. Paul W. Jeffrey, Director of Supply. —Photos by PH1 Jerry Williams

Grocery Shopping More Convenient For The Military

On Thursday, October 6, the new Navy Exchange officially opened its doors, offering many wares to the military and their dependents. Not to be outdone, Thursday, October 20, marked the grand opening of the new Navy Commissary Store, with an equally impressive display of groceries, meat and produce. The new store is located in the same general area as the Navy Exchange. Near the intersection of Blandy and Bullard.

Navy Supermarket Nearly 4,000 square feet will house several thousand tasty items for the benefit of military personnel and their families. An expression overheard at the opening ceremony that "this has got to be the supermarket of the Navy" certainly seems to fit.

Over 400 people attended the event, and were pleasantly surprised to find several of the vendors offering tasting

samples of such good things as pizza, potato chips, etc.

Coincidentally, the opening of the new Commissary saw the appointment of a new Commissary Officer as well as an Assistant Commissary Officer. Lt. Oriel Lake relieved Lt. Nels P. Jensen as Commissary Officer and took over the reins as Assistant Commissary Officer. Chief B. K. Brierton has the job of Sales Floor Manager.

Store Hours The hours of the new establishment will remain the same. Monday, Tuesday, Thursday and Friday it will be open from 10 a.m. to 6 p.m. On Wednesday from 10 a.m. to 1 p.m.

ARRIVES FOR COMMISSARY — Lt. Oriel (Bud) Lake arrives at NOTS from Kodiak, Alaska — the "Riviera of the North" as he calls it — to be Officer in Charge at the Station's Commissary Store. He enlisted in the Navy in 1943, became a warrant officer in 1957, and received his commission in the Supply Corps in 1963. His recreations of hunting and camping got a workout in Kodiak, where he brought down his Kodiak bear with a Sako rifle chambered for .300 Weatherby rounds. As for fishing: "It's so good up there, you don't enjoy it." He brings his wife Betty and their children Carol, 16, and Lester, 8, to their new home at 40-A Hubbard Circle.

NAVY SUPERMARKET—The new Navy Commissary Store certainly has all of the appearance of a supermarket with its well stocked shelves, neat aisles and efficient check-out counters. The new Commissary

boasts over 4,000 square feet of sales floor space, featuring thousands of grocery, meat and produce items. The new store, for the use of military personnel and their dependents, will retain the same hours.

NOTS Pasadena

VIRGINIA E. LIBBY — EXT. 638

MISSION ACCOMPLISHED — Members of the Blue Section diving team that retrieved the valuable piece of hardware from the depths of Morris Dam are (l-r) Standing — Lt.(jg) D. E. Thomas, NOTS Assistant Div- ing Officer, GMC G. A. Harrison; HMC C. H. Smith, Jr.; and BM2 R. E. Batty. Kneeling — BT2 A. M. Asaro; SFI R. D. McKinney, and DC2 K. L. Meints. Hoisted in the background is the divers' airlift.

Quiet Five Hold A One Game Lead

By Ray Hanson

The Quiet Five continue to maintain a slim one - game lead in the NOTS bowling league. The Five, with a record of 16 wins and 8 losses, lead Milt's Marauders, the Xclusives, and the El Toros, all tied for second with 15-and-9 records. The Quiet Five are Gloria and Lloyd Hagnas, Yvonne Benson, George Jackson, and Don Holyoke. Milt's Marauders take their name from their captain, Milt Blatt, and boast Norma and Jack Sayre and Pris and Jack Springer.

The Xclusives are Bev and Clyde Flynn, Maxine and Dick Talbot, and Lyn Herwig. The El Toros are Dory and John

Valuable Recovery At MD

"Eureka," was probably heard loud and clear at Morris Dam recently when an instrumented test vehicle lost in May 1965, was retrieved from 140 foot water depth in 15 feet of mud and gravel.

NOTS divers accomplished more than 600 dives over the past 17 months, searching for the valuable piece of hardware containing a \$50,000 package.

Aitchison, Nova and Len Semeyn, and Ed Karig.

High scores for the 6th week are as follows: team series, Quiet Five, 3051; team game, What - NOTS, 1106; men's series, Lloyd Hagnas, 694; men's game, Milt Blatt, 261; women's series, Gloria Hagnas, 640; women's game, Norma Sayre and Gloria Herrick, 223 (tie).

GOLF CHAMPS — Displaying their trophies are winners in the NOTS Summer Golf League. (l-r) Ken Simmons, Jim Greil and Keith Wills, members of the first place team; Pat Roubideaux, golf chairman; Nick Saines and Gene Ouch of the second place team; and Mike Santeramo, second place low net champ. Not present for picture were Chuck Mellow, first place team member; Roy Cornford and Dan McDonald of the second place team; and Arnold Livingstone, first place low net champ.

PROMOTIONAL OPPORTUNITIES

To apply for positions, contact Christine Marchand, Pasadena Personnel Division, Extension 278. A current SF-58 must be submitted when applying.

Electronic Engineer (General), GS-9 or GS-11, PD: 6P5020-1, Code 5511 — Electronic Engineer with background in digital and analog computers to assist in technical support for solving the production and in-flight problems associated with a shipboard Fire Control System for ASW weapons.

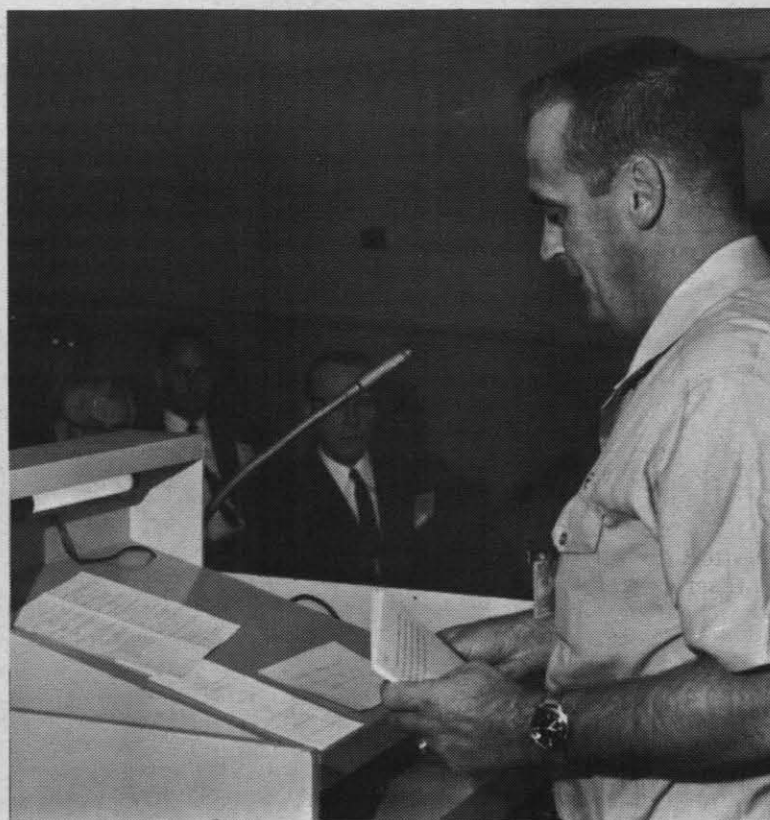

Electronics Technician, GS-9, PAR 8092-720, Code P8092 — Does electronic design, fabrication, installation, test, and calibration for underwater vehicles and ordnance devices.

Welcome Aboard

New Employees
Engineering—Robert Shade, Industrial Engineering Technician.

Public Works—Ray D. Wing, Plumber.

UD—James S. Hardeman, Electronic Engineer; Arthur L. Daniel, Computer Operator; Susan L. Winters, Clerk Typist; Andrea U. Baxter, Clerk-Stenographer; and James W. McVeigh, Electronic Technician.

CDR. H. H. SCHLEUNING, Jr. speaks from the podium to the NSIA subcommittee members who met at NOTS Pasadena last week.

NSIA Subcommittees Meet Here

Cdr. H. H. Schleuning, Jr., Technical Officer, NOTS Pasadena, hosted, and was the featured speaker for two subcommittees of the National Security Industrial Association that met here last week. The ASW Communications Subcommittee joint meetings at Naval activities on the West Coast.

Each of these subcommittees consists of 30 to 40 representatives of industry who are engaged in scientific research, and in technical and commercial endeavor related to ASW systems. Committee members are conducting studies of in-

terest to the Chief of Naval Operations and were here to be brought up to date on the work NOTS, Pasadena, and NEL, San Diego, are doing in ASW communications and systems for surface ASW ships.

The welcome address was given by RAdm. L. V. Honsinger, USN (Ret.) from Todd Shipyard Corporation. Speaking as a representative of NEL, San Diego was P. L. Writer.

NOTS technical personnel giving presentations to the visiting subcommittee members were E. P. Perry, L. Z. Maudlin, E. B. Osuch, and S. F. Sullivan.

PISTOL PACKERS — Team members of the new NOTS pistol team proudly display trophies earned in the San Gabriel Valley Pistol meet. (l-r) Back — Byron Jones, Lt. Glen Walker and Art Block. Front — Lt.(jg) Larry Lybarger and Bob Gratton.

NOTS Pistol Team Wins Trophies

Newly formed NOT SHOTS or NOTS HOTS pistol team, or however you call it, walked off with three of nine hotly contested trophies in the small bore .22 caliber competition at the San Gabriel Valley Pistol meet.

Members of the NOTS team include Byron Jones and Bob Gratton (P808 Electronics); Lt. Glen Walker and Lt.(jg) Larry Lybarger (P19 Operations); and Art Block (P809 Photo Section).

Ordnance Safety Development Is Told at International Conference

Not least among those who are true believers in making safety a full - time project — and matching it to the pace of daily activities — is the Armed Services Explosives Safety Board (ASESB).

And NOTS, as a foremost weapons research and development activity, is in the thick of ASESB efforts to provide the highest possible safety in the potentially dangerous business of ordnance transport and storage.

So during the second week of October, when the New York Academy of Sciences' Division of Engineering sponsored a conference on explosives safety, the Station was represented by Dr. Ivar E. Highberg, head of the Systems Development Department and Associate Technical Director for Development. He was joined by Fred H. Weals of Code 30's Project Engineering Division and Dr. Gilbert F. Kinney of the U.S. Naval Postgraduate

School, who serves as a NOTS consultant in addition to his teaching duties.

The three men contributed some of the Station's experience in continuing explosives safety to the conference of Oct. 10 through 13, explicitly named "Conference on Prevention of and Protection Against Accidental Explosion of Munitions, Fuels and Other Hazardous Mixtures."

Dr. Highberg chaired a session of the Conference relating to testing. Robert G. S. Sewell of the Weapons Development Department and Dr. Gilbert Kinney were co-authors of a paper called "Response of Structures to Blast From Fuel-Air Explosions and Common Chemical Explosions." Dr. Kinney delivered the paper at the session chaired by Dr. Highberg.

Fred Weals presented a paper at the same session, called "Test to Determine Separation Distances of Earth - Covered Magazines." Representatives from Sweden, Norway and the United Kingdom participated in the conference, besides representatives of U.S. government and industry.

Much of the conference content was closely related to the Explosives Hazards Program conducted principally at NOTS and Picatinny Arsenal in Dover, New Jersey, under the auspices of the ASESB. Weals reports. He added that the main conference organizers were representatives of the ASESB, Picatinny Arsenal, and Ammann and Whitney, a firm of consulting engineers serving Picatinny under the Explosives Hazards Program.

NOTS has participated in the ASESB Explosive Hazards Program since 1960, and has investigated the effectiveness of reinforced concrete cubicles, separation distances for steel - arch, earth - covered magazines, high explosive equivalency of solid propellant rocket motors, fragment and blast sensitivity of explosives and propellants, and the full scale and reduced scale testing of structural elements of protective construction.

Typical of ASESB work conducted at NOTS was the first of a series of three tests conducted at K-2 Range last June. In that test, a 2,000 - pound ball of "composition-B" explosive was detonated in the center of a specially designed three - sided concrete bay. The bay measured 20 by 40 feet, and was built with double walls of reinforced concrete, with sand fill between. The new design features of the bay, of reinforcing bars in the concrete walls, enabled the bay to withstand the heavy shock of the composition-B explosion, with only partial flaking - off, or "spalling," of concrete pieces from the walls.

Two more similar tests are planned in the three-shot series, under project manager, Harold Richey and Roger P. Bock of Code 30's Project Engineering Division. Before the end of the year, a 3,000-pound block of composition-B is to be detonated in the experimental bay, then a 5,000-pound block detonation is to follow.

"The people in Public Works Department who built the bay,

as well as other test structures we use from time to time, did a really great job in working with some very difficult designs," exclaims Roger Bock. He had special praise for the large concrete pour and reinforcing steel that went into the test bay's reinforced walls.

Quartermaster Bob Conway headed the pour of some 600 yards of concrete for the bay walls, and the Metal Shop's quartermaster Jack Lewis was in charge of weaving some 60 tons of reinforcing bar for the walls. Other men heading up elements of the difficult job were Ed Galovic of the Rigging Shop, Fred McMillen of the Carpenter Shop and Gordon Standard, who headed the fifth grade at Groves School. Their married daughter, Carole Reid, is a resident of Covina, California, and works in the laboratory in the City of Hope Hospital there.

The Kasals are mostly stay-at-home China Lakers, Barbara explains, but are finishing an "A-frame" house in Pinon Village near Kennedy Meadows,

Barbare Kasal, Disbursing Officer

(Continued from Page 1)

plains. He reports that the changeover at NOTS was a smooth one.

"I get a laugh or two from my husband about my being a woman disbursing officer," she claims, "but I just tell him I won't sign his check unless he behaves!"

It was all sand except for two stretches of paved road in 1945, and easy to get lost, Mrs. Kasal recalls. But the Kasals came to enjoy the desert life, and raised two boys and a girl at China Lake. Their son Mark, 14, is a freshman this year at Burroughs High School, and Bruce, 10, attends the fifth grade at Groves School. Their married daughter, Carole Reid, is a resident of Covina, California, and works in the laboratory in the City of Hope Hospital there.

The Kasals are mostly stay-at-home China Lakers, Barbara explains, but are finishing an "A-frame" house in Pinon Village near Kennedy Meadows,

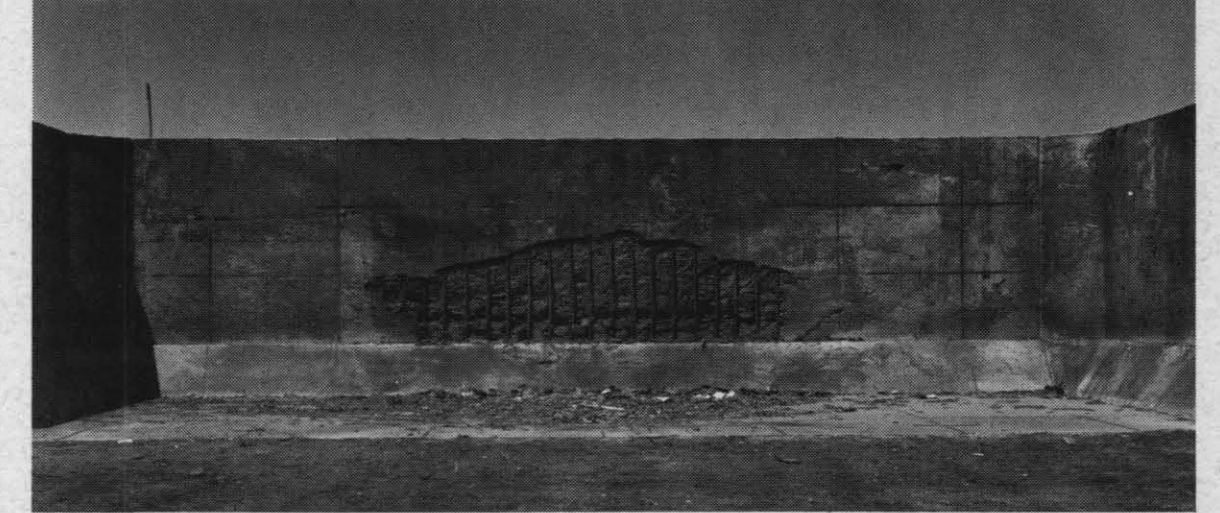

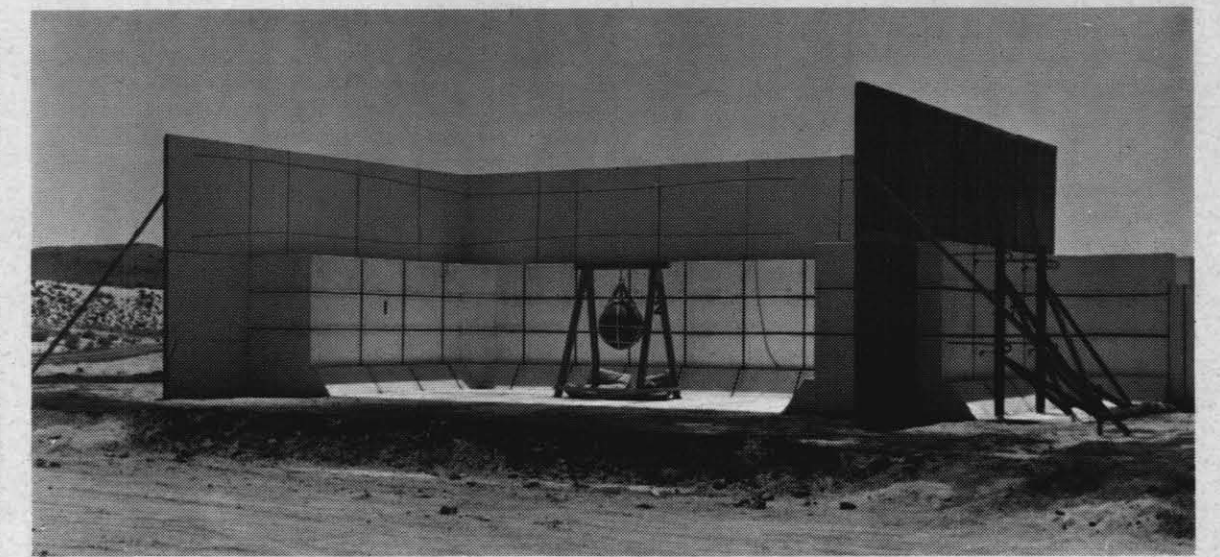

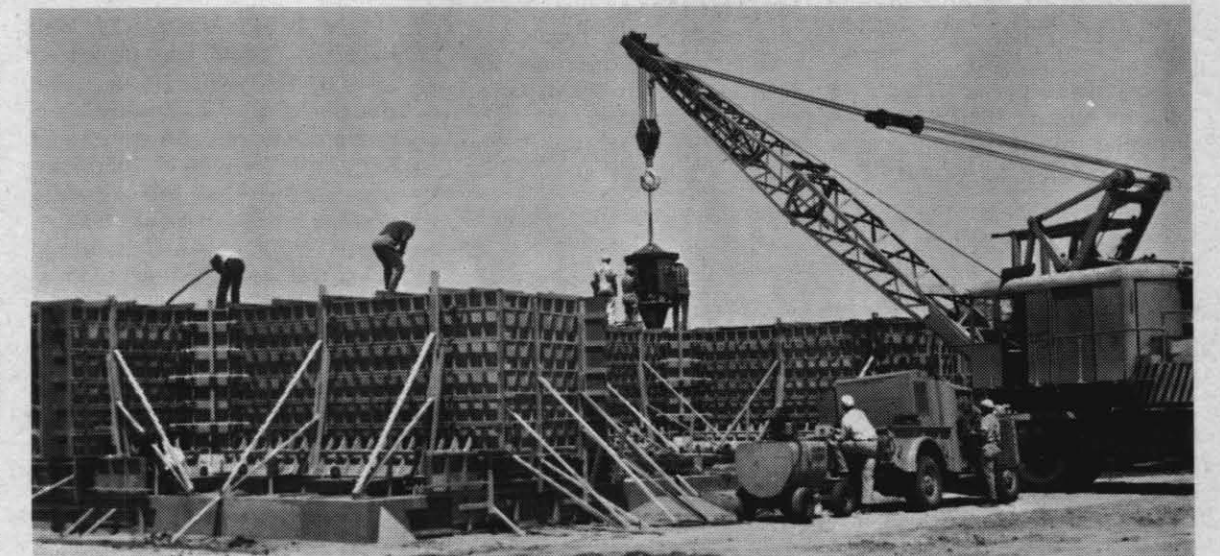

As Mrs. Kasal begins her work as NOTS Disbursing Officer, Lt. Bergeron is making plans to move to his new assignment on Guam, where his family will join him. He and his wife Monica have two children, Susan, 12, and Mark, 11.

Gift Preference

(Continued from Page 2)

touch of home. But remember, cookies crumble, and any homemade food item should be carefully wrapped, individually, in foil and packed in sealed tin or metal containers. Last year many thousands of food packages arrived in Vietnam spoiled and in inedible condition.

At present there is no program, nor is one contemplated, whereby the Department of Defense provides a special airlift or free transportation for donated items. All postage costs must be absorbed by donors.

MUCH ADO ABOUT SAFETY — Public Works crew pours concrete forms filled with elaborate reinforcing steelwork to make the double walls of an experimental explosives storage bay on K-2 Range (top). The finished bay (center) is "loaded" with a 2,000-pound ball of "composition B" explosive by Code 30 scientists, and the effects of the heavy explosion on the test bay are shown above. The bay passed this first

test in a series of three due to be completed this year, under a program of explosives and munitions safety being carried on at NOTS. Heading nationwide efforts in this field is the Armed Services Explosives Safety Board in Washington, D.C. Dr. I. E. Highberg, head of Code 30, and department scientists told part of NOTS' work to a New York Academy of Sciences conference held Oct. 10-13 in New York.

CHAPLAIN'S MESSAGE

When Others Criticize

By Senior Chaplain Paul Romantum

All persons need ability to manage criticism, for we never escape it. Many of us get upset and angry when others make derogatory remarks about us...

Yet all criticism can be constructive when we approach it with the right attitude. All of us need a healthy attitude to criticism before we will find it helpful and beneficial to life.

Here are four suggestions which may prove very helpful regarding all kinds of criticism, which nobody escapes:

(1) Expect criticism, even though your action may be above reproach. Criticism is bound to come your way, for you cannot please everybody.

(2) Don't be afraid to listen to any criticism which may come your way. When we are willing to listen to criticism, both by friends or enemies, remarks which might have been meant to hurt might be useful to us.

(3) Ignore it after you have listened to the criticism and conscientiously faced it. Many have profited greatly from criticism. Get all the good out of it that you can and then forget it.

(4) In your Christian Life, seek above all to be pleasing in the sight of God. The Apostle Paul was independent of men's opinions because he was very deeply concerned about God's opinion.

When others criticize, don't let it get you down, but learn to rise above it and to manage it by following the four suggestions which have been offered.

Gift Preference Told By Overseas Troops

This Christmas and holiday season will see more than 3,300,000 young Americans wearing the uniform of their country — with more than 1,300,000 serving in the Armed Forces overseas.

In a recent survey conducted by the USO clubs in Vietnam, visitors unanimously listed more mail from home as their most wanted holiday gift

item. Pictures of family and sweethearts was second on the list followed by hometown newspapers and current popular magazines and paperbacks.

Other welcome gift items included small games, small toilet articles, pen and pencil sets, wallets, and other like items.

(Continued on Page 3)

Community Day To Be Observed On November 3

World Community Day will be observed in Indian Wells Valley on Thursday, November 3, at 9 a.m. in the East Wing of the Station Chapel.

Although the day is traditionally observed on the first Friday in November, the event in Indian Wells Valley is held on Thursday because of the pupil holiday in the elementary schools.

The featured speaker will be LaVere Flora of San Dimas who will speak and show slides of his trip to Mexico with the Heifer project, which sends animals around the world to needy areas.

Starting at 9 a.m. there will be a hospitality half-hour with women of the Protestant Women of the Chapel as hostesses.

Nursery care for pre-school aged children will be available in Chapel Annex One across from the Station Restaurant, and all women who attend the service are welcome to leave their children there.

At 9:30 there will be a short business portion for the Indian Wells Valley group to announce its officers for the coming year and the group will vote on the slate.

Following the business portion, the World Community Day service will be presented which will include Flora's talk. Members of the Covenant United Presbyterian Church, the Community Methodist Church of Ridgecrest, the Inyokern Methodist Church, the American Baptist Church, and St. Michael's Episcopal Church will take part in the service.

The Indian Wells Valley Council will collect cotton yardage, yarn, clean blankets and towels for sending to Asia and the South Pacific. Those who wish to donate these items may bring them to the meeting.

'DESERT PHILOSOPHER'

Death Valley Encampment

By "POP" LOFINCK

Here we are again — the Annual Encampment sponsored by the Death Valley 49ers.

Here you meet the aristocracy of Desert Rats — the West's greatest free show.

No admission charge except for hotel or motel rooms of which there are no more vacancies. They are all reserved months ahead.

If you have a trailer or camper, fine. If not, its fun to camp overnight. Excellent camping areas. Bring enough bedding. Sometimes the nights are cool. Wood supplies are limited — bring your own.

And bring camp stools for evening activities. If you don't want to cook, meals are available at Stove Pipe Wells Hotel — Furnace Creek Ranch and Inn — Scotty's Castle — Wild Rose Station — and groceries at Furnace Creek Ranch Store. Here is the schedule:

THURSDAY, NOVEMBER 10

7:30 p.m. — Campfire across from Stove Pipe Wells Hotel.

8:30 p.m. — Naturalist Talk at Museum. Good!

FRIDAY, NOVEMBER 11

8:00 a.m. — Artists' Breakfast — Top flight western artists.

1:00 p.m. — Arrival of Riders of Death Valley Trail Ride at Furnace Creek Ranch from Ridgecrest following the historic route of the famed route of the 20 Mule Team Borax wagons.

7:30 p.m. — Campfire — Texas Spring — Community Sing.

8:30 p.m. — Another Naturalist Talk at Museum. Good!

9:30 p.m. — Dancing at Furnace Creek Ranch.

SATURDAY, NOVEMBER 12

8:00 a.m. — Authors' Breakfast. Meet in person many outstanding writers of desert literature.

8:00 a.m. — If you are not interested in authors and literature, there is a special event — a 14 mile all day hike up Telescope Peak — elevation 11,049 feet above sea level.

2:00 p.m. — Burro Flapjack Race — Stove Pipe Wells area.

7:30 p.m. — Showing of Third Annual Death Valley 49ers photographic winning color slides.

8:45 p.m. — Old-fashioned Fiddlers' Contest.

9:30 p.m. — Dancing under the stars at Furnace Creek Ranch.

I attended the First Encampment in 1949 and every one since — and enjoyed them all.

See you there. Its worthwhile. Don't forget.

STATION LIBRARY LISTS NEW BOOKS

A complete list of new books is available in the library.

Burns—Presidential Government.

Anderson—Pandemonium on the Potomac.

Gruber—Run, Fool, Run.

Hopkins—Retreat and Recall.

Hoyle—October the First Is Too Late.

Larteguy—The Hounds of Hell.

Bach—Spiritual Breakthroughs Of Our Time.

Godden—Two Under the Indian Sun.

Menninger—Calculator's Cunning.

Rivett-Carnac—Pursuit in the Wilderness.

Tanner—Growth.

Werstein—Tarawa; A Battle Report.

Wendt—The Red, White and Black Continent.

NAF Chargers Take Point Mugu In One of Season's Toughest

BY LT. BOB KORNEGAY

The NAF Chargers Championship football team added four standouts; two from NOTS and two from VX-5, to their squad and took on the Point Mugu team at Kelly Field last Saturday night.

The Chargers started out with a bang when Mike Mowery rolled out right on the third play of the game and went all the way, the conversion series later Brown picked up three yards off left guard, Kornegay paced off 12 around the right end, and Brown broke through for a 26-yard carry to put the second tally on the board.

The Chargers received a real blow when their center was ejected from the game when he found himself in an untenable position with the opposing guard. This was to be the story of the remainder of the game. The two teams battled toe to toe for the rest of the night.

Out of Town Shooters Take Honors At Recent High Power Rifle Match

Out of town guests dominated the monthly high power rifle match staged by the Sierra Desert Gun Club on the NOTS rifle range, October 15. The long lay-off during the hot summer took its toll as several of the local shooters failed to produce their usual high scores.

"Top Gun" of the match was George Mendiburu of Bakersfield who fired a 247-31V out of a possible 250-50V.

In the "A" division, which is composed of those shooters classified as Expert or Master riflemen, Bud Howick of Palmdale took home 1st place honors with his score of 240-16V. Howick was followed closely by Cris Carr of Bakersfield with a 239-29V.

In the "B" division, those shooters not classified as Expert or Master, top honors went to K. Knapp of Palmdale when he posted a score of 244-15V giving him a wide margin over 2nd place winner Dan Rickert, also of Palmdale, who fired a 226-13V.

Handball Class Is Now Offered

Instruction in the sport of handball will be offered starting Tuesday, November 1. A beginners group will meet at that time and every Tuesday and Thursday at 8:15 p.m.

An intermediate class will also meet every Monday and Wednesday at 8:15 p.m. starting Wednesday November 2. The instructor will be Arnold Yukelson.

Classes will be held in the handball court at the west side of the Station Gym located at Blandy and Dibb. Wear sneakers and loose fitting clothes or shorts and T-shirt.

200 Years of Service to NOTS

IN CHARGE OF CONSTRUCT

TWENTY YEAR PINS — Ten employees of the Public Works Department were recently presented with their 20 Year Service Pins from Capt. H. J. Hartman, Public Works Officer. Front row (l to r): Floyd D.

Wegley, Arden Hoffer, Walter A. Wick, Paul B. Johnson and Capt. H. J. Hartman. Back row: Elmer L. Davis, Russ Irwin, Ernest T. Bumgarner, Edwin L. Gifford, Robert T. Peterson and Sercy H. Brown.

Caravan Plans Day's Tour of Desert's Lore

Geography, geology and history will be on tap for Maturango Museum members tomorrow as they assemble in the Museum parking lot at 7:30 in the morning for this year's edition of the field trip through parts of Randsburg Wash, the 20 - Mule - Team Borax Road, Panamint Valley and the ghost town of Ballarat.

The Museum has invited both old and new prospective members to join the caravan led by long-time range guard Hank Wittenmyer. Those interested in discovering the desert of the old days on the Saturday tour should call the Museum office at ext. 723683 or the home of George Schneider at 375-4291, if possible before noon today, to make advance registration with Station Security. Also, new memberships and renewals are to be available at the caravan meeting place.

On the Museum's schedule as the next program in its regular series is a slide show for Thursday, November 3, to be given by Drs. Hal and Jean Bennett. The Bennetts have culled through the best of their colored slides from two Alaska trips, the most recent one being a fold - boat excursion through nearly inaccessible back country. The program has been set for 7:30 p.m. in the Weapons Exhibit Center hall, at one end of the Museum building on Halsey Avenue just east of the Switzer traffic circle.

Chukar Season Opens Saturday

The red - legged partridge (chukar) season will open tomorrow and run through January 2 in parts of California reports the Department of Fish and Game.

Hunters are reminded to consult the 1966 hunting regulations booklet for areas open to chukar hunting. Copies are available free wherever hunting licenses are sold.

Daily bag and total possession limit is four chukar.

This Bear Bears Watching

WHO'S WATCHING WHO? — The grizzly bear peering out of foliage on the banks is typical of wildlife captured on colored slides by Drs. Hal and Jean Bennett during a fold-boating tour last summer. A good selection of such pictures will be shown, with informal commentary by the explorers, at the Weapons Exhibit Center at 7:30 p.m. Thursday, November 3, under auspices of the Maturango Museum. The presentation entitled "Drifting Down the Yukon" is part of the lecture series booked by Program Chairman Jim Baird for the museum, to which the public is invited.

Local Boy to Star Football Game At Ram-Colt Game With Edwards Set Tomorrow

China Lake will have their own star at the Ram-Colt game in the Los Angeles Coliseum come Sunday afternoon. At halftime, 13-year-old Don Branson, son of Dan Branson, who coaches the Redsox little league team, will compete in the Ford Motor Company's "Punt, Pass and Kick" contest.

Don was picked along with seven other contestants to represent the Northern California district in the Coliseum against Southern California. The results of the contest will be published next week.

You can't tell, maybe a fish goes home and lies about the size of the bait he stole.

Football Game With Edwards Set Tomorrow

A Flag Football game is scheduled with the Edwards Air Force Base "Winds" for 8 p.m., October 29, at Kelly Field. This game will be the second game set by the NOTS "Rocketeer" varsity team, and promises to be one of the better games of the season.

The "Rocketeer" squad will be fighting to maintain their undefeated position, and warming-up to bring home the Eleventh Naval District championship trophy from Long Beach in November.

The Rocketeer

Official Weekly Publication of the U. S. Naval Ordnance Test Station China Lake, California. Capt. John I. Hardy, USN Station Commander. "J.I." Bibby Public Affairs Officer.

Jean Ruber News Bureau. Frederick L. Richards Editor.

Staff Writers: David L. Kinney, John R. McCabe.

Staff Photographers: PH1 Jerry Williams, PH1 David W. Hobbs, PH3 Bryce T. Cacek, PH3 Jerry Willey, and PH2 Ralph Robey (Pasadena).

DEADLINES: Tuesday, 4:30 p.m. Photographs, Tuesday, 11:30 a.m.

The Rocketeer receives Armed Forces Press Service material. All are official U.S. Navy photos unless otherwise identified. Printed weekly with appropriated funds in compliance with NavExos P-35, revised July 1958. Office at 50 King St., Bldg. 00929. Phone: 71354, 71655, 72082

DIVINE SERVICES

Christian Science (Chapel Annex)—Morning Service—10 a.m. Sunday School—10 a.m.

Protestant—(All Faith Chapel)—Morning Worship—8:15 and 11 a.m. Sunday School—9:30 a.m., Chapel Annex 1, 2, 3, 4 (Dorms 5, 6, 7, 8) located opposite Station Restaurant.

Roman Catholic (All Faith Chapel)—Holy Mass—7, 9:30 a.m., and 12:30 p.m. Sunday.

Daily Mass—11:30 a.m. in Blessed Sacrament Chapel. Confessions—7 to 8:00 p.m. Saturday.

NOTS Jewish Services (East Wing All Faith Chapel)—8 p.m. every first and third Friday.

Sabbath School—10 a.m. to noon, every first and third Saturday.

Unitarian Fellowship—For information write P. O. Box 5436, China Lake, or phone NOTS Ext. 725991.

Child Book Week Will Be Observed By NOTS Library

"Books Please" is the slogan for the 1966 National Children's Book Week, October 30 to November 5. Sponsored by the Children's Book Council, Book Week is held each year to remind adults of children's need for good books and their delight in discovering them.

Book Week creates an excellent opportunity for parents and children to visit the library together. It also serves to remind parents that reading aloud will enrich children's lives and can bring a family closer together.
