Lifetime Sports Second Phase

It was announced this week that the second phase of China Lake's Lifetime Sports Foundation project will be getting underway soon. According to Athletic Director Ray Gier, badminton instruction will begin next week at the station gym. The program will be conducted for children in age group 10 to 18 at 1 p.m. Wednesday and Friday and for adults at 7:30 p.m. on Wednesday. The program is open to all residents of China Lake. It is expected that a small entrance fee will be charged. All interested persons are requested to contact Gier at extension 72017. The classes will begin on June 21

Professor Thomas I. Hines, Head, Department of Recreation and Park Administration, North Carolina State University, will visit China Lake on June 23 to observe Lifetime Sports activities and discuss the program with O.A. "Gabe" Imer, project director, and others connected with the project. Professor Hines is visiting all of the communities participating in the pilot demonstration in badminton, bowling, golf and tennis under the sponsorship of the National Recreation and Park Association. His evaluation and findings will be used in publications and guides to help communities and agencies de-

consultant to NRPA on Lifetime Sports. He helped develop the plans for the 1966 project which was limited to eight communities and conducted the evaluation. This year the program was expanded to over 100 communities. NOTS is the only military base in the program.

her, Lun Tha.

Appearing as the Roval Wives are Marti Romero, Barbara Mock, Pat Bolstad, Jan Hadden, Cheryl Robertson, Teresa Borges, Barbara Clark, Elaine Hastings, Diana Douglas and Michele Thorpe.

Young Players Featured

The Royal Siamese Children will be played by Pam Rusciolelli, Pam Condos, Patti Metroulas, Linda Zeutzius, Cathy Fallgatter, Karen Roberts, Rick Rusciolelli, John Condos, Noel Roberts, Ken Roberts, Duane Green and Ricky Green. One of the highlights of the play is an exotic ballet based on the anti-slavery novel, "Uncle Tom's Cabin." The part of Uncle Tom will be danced by Monique Walker with Christina Metroulas as his daughter Topsy. Carol Mayer will appear as Eliza, the runaway slave girl, while Joan Leipnik will play the role of the angel who helps her escape. The wicked master "Simon of Legree" will be danced by Kenneth Stephens, with Kathryn Plauson as Little Eva.

Other members of the Royal Dancers are Mary Netzer, Yolanda Rusciolelli, Jeanie Kaufman, Sandra Cavalliere, Flo Condos, Lauretta Stogsdill and Diane Pettey.

"The King and I" will be presented on July 20-22 and 27-29, at the Murray School auditorium.

OBULL

WHAT'S WRONG WITH THE DEPTH HERE ?

"THE WAR LORD" (121 Min.) Charlton Heston, Richard Boone 7:30 P.M.

(Adventure) A knight in the court of the Duke of Normandy falls in love with a be-trathed maid whose suitor stirs the Frisian enemies to attack the knight's village. Flashing s w or d s and flaming missiles! (Adult.)

JUNE 18-19 SUNDAY-MONDAY 'FUNBRAL IN BERLIN'' (102 Min.) Michael Caine, Eva Renzi 7:30 P.M.

(Spy Drama) A reluctant British spy is assigned to help a top Russian officer de-fect to the West but he does not trust him. Valuable documents and an Israeli agent complicate the exciting plot. Whose fu-neral? (Adult, Youth, Very Mature Children.) Short: "Sulkies & Silks" (10 Min.)

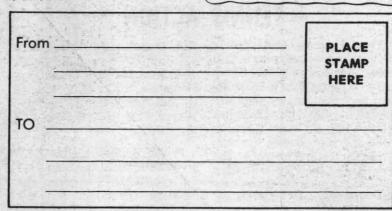

TUESDAY-WEDNESDAY JUNE 20-21 "WELCOME TO HARD TIMES" (104 Min.) Henry Fonda, Janis Rule, Keenan Wynn, Aldo Ray 7:30 P.M.

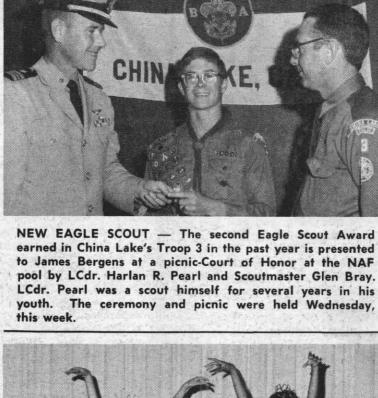

(Western Drama) Raw, hard-hitting tale of the residents of a small, ramshackle trail town and the impact on them when a maniacal gunman comes there for kicks. Desolation and brutality prevail up to the exciting climax. Grim, impelling drama by a top cast. Not for the squeam ish! (Adult.) Short: "The Doghouse" (7 Min.)

THURSDAY-FRIDAY JUNE 22-23

"ALFIE" (114 Min.) Michael Caine, Shelley Winters 7:30 P.M.

(Comedy Drama) Extremely well made and very adult, drama of a dapper gigolo and his conquests. Sometimes hilarious and often touching, it tells of the emptiness of and life like peep sha his character (Adult.)

Ballerinas Win Annual Gifts From Society

The China Lake Ballet Society held their annual scholarship tryouts Saturday, June 10th, at Murray School. Scholarships may be applied to costs to attend summer ballet schools or take private or additional lessons.

The winners were: Terri Jacks and Christine Metroulas. \$125 each: Edith Koff and Pam Renner, \$75 each; Nancy Miller \$70; Pam Rusciolelli, \$30; and Rynna Swingrover, trophy and free point lessons donated by Mrs. Bette Jacks.

One winner, Terri Jacks, has announced that her prize will be applied to attend the Royal Ballet Russe school in New York City this summer.

Fourteen students attended the tryouts. They are from the two local schools instructed by Mrs. Bette Jacks and Mrs. Carol Mayers, respectively, who participate in the China Lake Ballet Society.

The judges were Mrs. Joan Leipnik, Mrs. Lana Mattison and Mrs. Wilma Zeutzius.

Chosen 'Bluejacket' for June

Bluejacket Saw Two East Crises On Essex Cruise

In a world of crises, PR-1 Buford A. Foreman of NAF has sailed smoothly through to land, most recently, at China Lake, where he has been chosen to represent NOTS as the "Bluejacket of the Month" for

June.

cruit.

PR-1 Foreman came to NOTS in February, 1966, with his wife Jo and three children Ingrid, Valarie and Vincent, now eight, seven and five years of age, respectively. He also brought a locker-full of sea stories from his dozen years of Navy service since July, 1955, when he enlisted in his home town of Florence, Alabama, as an Airman Re-

After his boot training, Parachute Rigger "A" and "B" schools and a tour at Moffett Field, Buford Foreman embarked on a two-year cruise aboard the carrier USS Essex, and participated during the Lebanese crisis of 1957, when U. S. Marines landed in that country. After an extended period at sea in the Mediterranean, his ship passed through the Suez Canal and headed out to the Orient and the Formosa crisis.

Here at NAF, Foreman is supervisor of the Aviators Equipment Division's Oxygen Regulator Repair Shop, and carries the collateral duty of Quality Control Inspector.

He has put every hour to use during his months here at China Lake, and has accumulated two semesters of college credit in English and life sciences from night classes at the Desert Division of Bakersfield ends and leave time Foreman heads out with friends to the mountain lakes of the High

Aside from the daily pleasure of raising his two daughters and son, he and his wife join in reupholstering or building furniture for the house and yard. He just recently sold a reupholstered living room couch to make room for newly-built furniture, and is getting con-College. During some week- stant use of a piece of yard furniture called a "tet-a-tete" -two chairs joined by a table.

> The whole Foreman family will be traveling to Bakersfield next Friday, June 23, where Buford will be the guest of honor of the Greater Bakersfield Chamber of Commerce. The Foremans will stay at the Holiday Inn during their weekend on the town, and Buford will drive a new car from the Van Wyk Volkswagen agency. Chamber members will meet the family on their arrival and present them with a hospitality packet of gift certificates from Brock's Department Store, Valley Office Supply, Fedway, the Cue Ball and the Kern County Museum.

The "Bluejacket of the Month" program will be featured on Bakersfield radio and television stations during news broadcasts next Friday.

Not that he spends the bulk of his off-duty hours in classes Flying 'Cobra' Gives **Picture of Helo War**

In four packed conferences this week in Michelson Lab, members of the Station's scientific community, administration and command took the opportunity to hear the progress of combat helicopter tactics from a much decorated veteran of Army aerial warfare in Viet Nam.

Major George O'Grady visited NOTS Tuesday through Thursday this week, after a year's combat duty in the Viet Nam Delta, where he earned a Silver Star, Legion of Merit, three Distinguished Flying Crosses, 42 Air Medals and a **Commendation Medal, besides** the Republic of Viet Nam's Cross of Gallantry with Palm, Gold Star and Silver Star.

The originally scheduled two conference presentations drew such overflow attendance, that another two were added, according to Lt. Col. R. S. Clark, NOTS Army Liaison Officer Armed 114th Aviation Comcopters in Delta Operations."

his "Cobra Platoon" of the assault.

John McNaughton **Is Nominated Navy Secretary**

John T. McNaughton, 45, has been nominated to be the new Secretary of the Navy by President Johnson. He succeeds Paul H. Nitze, who will take over the job of deputy secretary of defense, due to the resignation of Cyrus R. Vance. McNaughton came to the De-

fense Department at the be-ginning of the Kennedy Administration as deputy assistant for arms control. A year later, he became general counsel. He held that post until July 1, 1964, when he was named assistant secretary of defense for international security affairs.

McNaughton was a naval officer during World War II, reaching the rank of lieutenant. He commanded a Navy gun crew on a merchant ship in the Caribbean and North Atlantic and then served on a destroyer escort in the Pacific.

A Harvard law school graduate of 1948, he embarked on a varied career as a Rhodes scholar, government attorney. columnist and editor for the Perkin, Ill. Daily Times, and a law professor at Harvard. He is a native of Bicknell, Ind.

Two Doctors Win High Navy Honor

Following the recommendation of the National Awards Board, under the chairmanship of the Honorable Thomas S. Gates, the Board of Directors of the Navy League of United States, Washington, D.C., awarded a certificate of professional competence on June 6, to Dr. Lohr A. Burkardt and Dr. William G. Finnegan which read in part as follows:

"In testimony and tribute to outstanding service to the United States Navy and the Nation, and in recognition of professional competence and superior achievement which are in keeping with the cherished tradition and high ideals of the United States of America."

Burkardt is assigned to Code 5052 and Finnegan to 5056.

TAKES A LOOK AROUND-Major George O'Grady, U. S. Army, (left) is escorted through the Station's Weapon Display Center by Lt. Col. R. S. Clark, NOTS Army Liaison Officer. Major O'Grady gave four conference presentations this week on the status and future of helicopter combat tactics during his stay here this week.

Navy Gas Station Will Close Soon **To Civilian Use**

Civilian employees of NOTS will no longer be authorized to use the Navy Exchange Service Station after Friday, June 30, announces LCdr. Barry Carmody, Navy Exchange Officer.

The announcement comes as work proceeds on the FEDCO service station to be opened on Station soon. Workers have installed storage tanks and erected gas pumps.

The Navy Exchange is now in the midst of an inventory reduction sale at the Station facility during June. LCdr. Carmody encourages all Lakers to take advantage of cuts of up to 50 percent in the prices of parts and accessories.

Different pavement types have different characteristics. In some sections of the country, a driver might find himself on slick asphalt, concrete and loose gravel during a single day's travel.

Each of these conditions is different from the other and when going from one type to another, a driver should slow down until he gets the "feel" of the road.

Traffic accidents take the lives of several hundred bicycle riders every year. Most of these accidents involve a

Gardening Notes

Missile Monsters On Your Lawn Can Cause Deaths

At Yellow Springs, Ohio, a three-year-old girl sustained eye injuries when struck by a piece of wood thrown some 70 to 80 feet by a neighbor's power mower; in Tennessee a tured a seven-year-old boy's skull; in Pennsylvania a woman's leg was punctured by a large nail; a 14-year-old boy left an Akron, Ohio, hospital with a small nail still embed-

Power lawnmowers kill or ded in the back of his brain; ployee was mowing the yard inflicting serious injuries.

> power mower over a metal clothes hook. The revolving blades picked the hook up and hurled it into the girl's heart killing her instantly.

nail thrown by a mower frac- of two was slashed to death by the blade of a mower her mother was using.

A China Lake resident was more fortunate in the latest "missile" launched by a power mower. A Public Works em-

injure over 80,000 people a in Kendalia, Texas, a woman at a vacant house using a roble and propelled it into the In Roseville, Michigan a 13- glass window of the house year-old girl was killed when next door, a distance of about her 12-year-old sister ran a 50 feet. The tenant was in the room at the time and had leaned over to pick up some articles from the floor when the glass shattered, spraying the room with fine glass particles and covering her hair with At West Plains, Mo., a girl glass. This could have been her eyes and face-a serious near miss.

The NAF Hawks won the championship in the Tuesday Night Midway League which

By Marianne Kistler With the warmer weather upon us, the spring planting season is drawing to a close and the summer maintenance schedule now commands the at-

tention of the desert gardener. The principal problem this time of year is to provide one's garden with sufficient water to withstand the heat of the sun, and also the drving winds that occur frequently in early June. Watering during the cooler

hours of the day is preferable; evaporation is lessened and the chance of wet plants being "burned" by the sun is reduced. Mulching (covering the ground with a one- to two-inch layer of peat moss, leaf mold, or similar organic material) is helpful in that it keeps roots cooler and helps the soil to retain moisture.

Cutting Lawns

Lawns should not be cut too short; if the mower leaves about 2 in. of grass standing, the roots will be better protected and relatively less water will be required. Plants in clay pots and redwood tubs should be checked frequently as they will require more frequent watering than those in the ground.

Lawns frequently exhibit a problem this time of year; yellowish or brown spots appear and the grass begins to die in patches. This may be due to several things: It may be the result of a lawn moth infestation in which case the local nursery has a "cure" that can be sprayed on; or it may be due to a shaded lawn being heavily watered, never drying out, and consequently developing fungus infestations (the remedy being to space out the watering schedule); or it may be due simply to the fact that some lawns include an admixture of rye grass, which can't stand intense heat and which tends to die back in early June. If the grass that is dying is broad - leaved and grows in clumps, this may be the source of the problem.

Colorful Birds

There are several colorful varieties of birds visiting our area right now. If you would like to view some of them close-up in your own yard, try setting out slices of melon and citrus fruit. Oranges seem to be especially popular, the birds are attracted by the bright color.

You may be visited by Western Tanagers (a black and yellow bird with a red head), Bullock's Orioles and Hooded Orioles (black and orange), Black-Headed Grosbeaks (black and orange, but less colorful than the Orioles), and House Finches (which look a bit like red-headed sparrows).

GEBA Assessment 131 Waived For Death Of **Charles H. Frady**

No assessments will be le vied due to the death of GEBA-CLMAS member Charles H. Frady, a retired employee of Pasadena-Public Works, who died June 6, in Chicago, Illinois, announced Secretary-Treasurer Joseph M. Becker. ris odel viot

Road-riding motorcyclists Laglen Motor Corps of Los from the Indian Wells Valley Angeles, a barbeque supper in the park and a dance in the Veterans of Foreign Wars hall.

> "The town of Lone Pine really went out of its way to make the run a success," testifies Schlarman. "The town and the clubs worked very smoothly together the entire weekend.

Coming Events

He said the Gypsy Wheels plan a local event for Saturday, June 24, starting at 4 p.m. called the Poker Run. It is to be a tour through Inyokern, Johannesburg, Red Mountain and winding up at Trona for a barbeque and swim at the American Potash Company's Valley Wells Swimming Pool. At five check points over the route, sealed envelopes will be handed out with one playing card in each. The rider with the best and worst poker hands in each of several categories at the end of the run will receive prizes, donated by Ridgecrest civic clubs and merchants

Other Gypsy Wheels plans for the near future include a cycle safety check project now in planning with the Station's Safety Department, Ridgecrest civic clubs and Valley law enforcement agencies.

GRADUATION-Captain Robert Williamson, II, on the left, congratulates graduates (I-r) P. A. Murrin and R. M. Johnson while trainer-supervisor E. J. Seybold looks on.

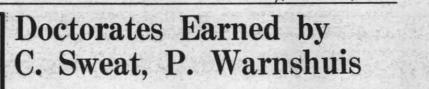

NAVY FIREPOWER-Air Development Squadron Five demon strated a segment of the Navy's firepower during a weapons demonstration staged here on behalf of the Oakland and Alameda councils of the Navy League on Thursday, June 8. The demonstration trio consisted of an A-7A Corsair II, flown by LCdr. Lee Keely, an F-4B Phantom II, piloted by LCdr. Tom Ewall, and an A4E Skyhawk flown by Cdr. Don Johnson. Commentator Lt. Matthew McCarthy described the weapon delivery tactics developed by VX-5 as the three aircraft fired rockets and dropped various bombs.

READY TO RIDE-Cyclists of the Valley's Gypsy Wheels Motorcycle Club finish their last-minute check near the Station main gate before setting out on the annual Lone Pine Run. They were the second largest group in attendance, at

the weekend event, and two of them brought back trophies. Coming events include the club's Poker Run, a local event set for June 24.

Elastic Water Again **Does The Unexpected**

It is by now well known that high molecular weight polymers dissolved in water can greatly reduce turbulent flow friction. However, the progress towards understanding why has been slow.

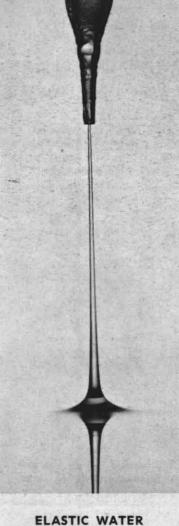

Elastic stresses due to stretching of the long polymer chains have been suggested as the cause. Thus, Dr. A. G. "Andy" Fabula of the Propulsion Division is studying various types of flows in which elastic stresses are believed to be important. The type shown in the photograph might be called the "Indian rope" or the "suspended outlet" flow, since the polymer solution is climbing upward out of a quiet pool into a low pressure outlet.

The existence of such flows was discovered accidentally during Dr. Fabula's thesis work at Penn State, when a barrel of solution was found to have emptied well below the end of the pump intake hose. Recently, Dr. Fabula and Dr. J. G. Waugh of the Propulsion Division have built an apparatus in which the flow can be produced and studied in detail.

Determining Stress

By measuring the thickness distribution and the speeds in the fluid column, it is possible to infer what stresses must be present. Dr. Fabula notes that the test fluid is subjected to a sharp transient in elongational strain rate (the time rate of stretch deformation) as it enters the base of the column.

Strain rate transients are also present in turbulent flows,

Team No. 4 **Closing Gap**

BY RAY HANSON

Sam's Saints continue to lead the NOTS summer bowling league, but Team Number 4 has closed the gap to make a lively race out of it. The Saints have won 12 and lost 4 so far, while Team Number 4 has won 11 and dropped 5. The Saints are Dory Aitchison, Judy and Bob Cowell, and namesake Sam Brown. Team Number 4 consists of Julie Hood, Lyn and Al Roeske, and Milt Blatt.

High scores for the week are as follows: team series, Foster's Follies, 2291; team game, Sioux, 837; men's series, Ray Hanson, 618; men's game, Mert Welch, 234; women's series, Elayne Colson, 584; women's game, Peggy Sheldon. 215.

Give a break to the pedestrian who's caught in the middle of an intersection by a light change.

QUALITY STEP INCREASES - Dave Newman, Head, Quality

Engineering Division (r), congratulates three division personnel

who have been rewarded with quality step increases for high

quality performance over an extended period of time. Recipi-

ents are (I-r) Arnold Gerson, Gene Thirkill, and Bill Nary.

Dr. Sweat earned an A.B. in completed all the requirements mathematics from San Franfor their Ph.D.'s through the cisco State College in 1954, NOTS Fellowship Program. Dr. then attended graduate school Sweat was awarded his doctor- in mathematics at the Universate in statistics, while Dr. War- ity of California at Berkeley from 1954-1956.

Presently with the Analysis Branch of the Systems Development Division, UOD (P8053), Dr. Sweat came aboard as a mathematician with the Junior Professional Program in 1956. In 1962, he returned to Berkeley for three years to pursue higher education, returned to NOTS in 1965, and recently completed his thesis on a topic in game theory, sponsored by Professor David Blackwell.

Although born in Blytheville, Arkansas, Dr. Sweat considers San Francisco his home town. He and his wife, Ann, reside in Diamond Bar with their two young daughters - Danae, 8 years; and Julie, 2 months.

Receiving his earlier degrees from Stanford University, Dr. Warnshuis earned his B.A. in education in 1951, M.A. in education in 1952, and M.S. in mathematics in 1953, after which he joined NOTS, Pasadena.

His work here from 1956-1959 was concerned with aerodynamics and ballistics. From 1959-1961, he headed the Analysis Branch, P8053.

In 1961 he entered UCLA on a part-time basis, specializing in probability theory under the direction of Professors Leo Breiman and Paul Hoel. His dissertation is entitled, "Automobile Traffic On Isolated Roads."

Currently head of the Math Analysis Section, P80823, Dr. Warnshuis is also teaching part time for UCLA Extension. He and his wife, Joan, and

their two sons-Jon 6 and Erik 4, reside in Altadena.

Summer Statistic

CCORDING to U.S. government studies, one family A in seven owns a boat and eight million Americans water-ski. Add to these the millions who swim and skindive and the more than 20 million fishermen and you have a good size crowd using the resources available for water sports.

Unfortunately, a great many of these fun-seekers will become statistics by the end of the summer. They will fall victim to accidents, many of them fatal, simply because they failed to use good

sense and follow the accepted rules of conduct and safety for boat-

ing, swimming, water-skiing, skin-diving or fishing. Even more unfortunate is the fact that the majority of these accidents and fatalities can be avoided. There are countless organizations, clubs and societies that are ready, willing and able to provide advice, instruction, and supervision to those who wish to learn the 'right way" for their particular water sport.

Couple common sense and good judgment with knowledge and competent instruction, and you can be reasonably sure of surviving the summer and still have a good time in the process.

If you are a boating enthusiast, check with your local U.S. Power Squadron, Coast Guard Auxiliary or boating club to learn about boating safety—then be sure to follow the advice of the experts. Swimming, skin-diving and water-skiing clubs are found in every area where those particular sports are popular.

Don't be one of those persons who thinks, "It can't happen to me." Take the necessary steps right now to insure that it doesn't happen to you and that you'll be around to enjoy next year. (AFNB)

D. O. D. Reminder

Military and civilian members of the Defense Department are reminded that each individual is responsible for keeping himself informed and complying with "Standard of Conduct" provisions relating to conflict-of-interest.

The reminder is a routine requirement of DOD Directive 5500.7 which basically directs all personnel not to allow themselves to be placed in a position where a conflict-of-interest may occur or might justifiably be suspected.

The directive covers acceptance of favors, gratuities or entertainment that could be interpreted as influencing the strict impartiality of conducting business in the public interest. It also ranges over a wide area dealing with former personnel, such as soliciting by active duty military personnel, using of military or civilian titles in commercial enterprises and belonging to associations.

'DESERT PHILOSOPHER'-

Keeper

My Brothers'

By Senior Chaplain Paul Romantum

The greatest story of brotherhood was told by the Lord Jesus Christ in answer to the question, "Who is my neighbor?" The story is the Good Samaritan and the following words best exemplify how brotherhood actually works. "But a Samaritan, as he journeyed, came to where he was; and when he saw him, he had compassion . . . and took care of him." All will agree that this great story is brotherhood in action.

At this point in human history we must admit that brotherhood in theory and brotherhood in practice are poles apart. One cannot help but wonder just how much of our brotherhood emphasis is nothing more than the paying of lip service to something we should be practicing. The following prayer is suggested as our first step in making brotherhood a reality:

"Lord help me to show toward my fellow men that kindness which I have so often craved from them. May I think of my neighbor not as my rival who would undo me, but as my brother who needs me. Give me the compassion of Jesus that I may never be able to turn coldly from any man who needs me. Make me quick to hear the cry of the suffering. Turn my feet toward the house of sorrow. May I know the joy of carrying hope to hearts that have long been strangers to hope. I remember how lonely I have been in sickness: Help me to relieve the loneliness of the sick. I remember how often I have longed for the touch of a friendly hand: help me to relieve the heart hunger of the neglected. Amen."

VANDALISM

In a previous column I wrote about what wonderful success our Government, both Federal and State, has had with the program of conservation of our natural resources-before it was too late. Especially with our forests and streams and wildlife and wilderness in general.

This didn't come about spontaneously, it took courageous and persistent efforts by far sighted individuals to get the program started and keep it going-and it is continuing. Bravo!

Our big problem today is with vandals-burning shacks and cabins for a kick-shooting up and destroying signs and landmarks, etc. Nothing is accomplished by vandalism. For instance—a big bronze plaque, securely attached to a stone monument, commemorating the history of Ballarat was stolen the night before the dedication ceremony and hasn't been found yet.

So here is where you come in-as a conscientious individual, to do your part in helping to educate your friends and acquaintances to be on the lookout. If you see someone dumping rubbish near a highway or road, or polluting a stream, or wantonly destroying wildlife-do your bit.

There seems to be some doubt as to whether low grade moron vandals can be taught-they crave dramatics and showoff-and it's illegal to shoot them-so there's our problem. But let's be optimistic about it.

You wouldn't knowingly permit your house or garden to be vandalized. So remember-the wilderness is yours too and merits your protection. Consider the primitive areas an extension of your playground for your enjoyment.

Some years ago, a midwest town counsel got the idea of planting rose bushes in the parkway down the center of the main street. The idea was much ridiculed as being impractical, as the roses would be picked and the bushes dug up.

The roses were planted anyway-and signs were put up along the way, stating "THIS GARDEN IS YOURS-help protect it as an extension of your home garden." The roses were not picked-the bushes were not molested-they flourished. Every citizen was a self-appointed guardian.

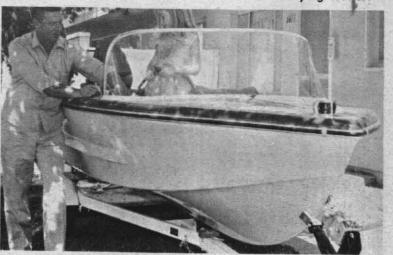

The YOUR GARDEN is what worked-that did it!

So it's up to us to educate every loyal citizen to be a selfappointed guardian of your great outdoor wilderness playground.

READY FOR WINNERS-Bob Pinney, Master of Ceremonies at the Navy Relief dance last Saturday, begins to read the name of a winner of one of this year's fund drive prizes. Names for the three prizes were drawn by Peggy Preston (left). Robert E. Fowler of China Lake won the bicycle door prize; Ira Brooks of Ridgecrest won the Honda motorird prize; Gene Mannir g of Kandsburg won second prize, a trip to Mexico; and BM-2 Max H. Luna won the first prize, a 14-foot boat, outboard motor and carrying trailer.

DRY LAND SAILORS - BM-2 Max H. Luna teaches his daughter Rene, 6, the controls of their new boat, first prize in the 1967 Navy Relief Fund drive here. His family, at 301 Segundo, include his wife Mildred and children Patricia, 18, and Diana, 17. Luna has served 17 years in the Navy, and fought during World War II with the Army.

To gun enthusiasts the answer is obvious, but to most sports fans, trapshooting is near the bottom of the popularity list. Trapshooters, and those who have attended trapshooting meets will agree that the game is intriguing, and one that should command more attention. The only thing that the game may lack is a good press agent corps, or a fat TV contract, therefore it remains relatively unknown to most people. We had our first chance to observe a trapshooting meet recently. The scene was at the Indian Wells Valley Skeet and Trapshooting Club. The club is located near Inyokern, on a side road near the intersection of Highway 395. Eighty shooters representing several clubs in the Southern California area were on hand for the match, which in this case was for trophies only. Trapshooting is basically a simple game. All the shooter has to do is knock a clay pidgeon or "bird" out of the sky. Each shooter gets one hundred shots, and the one that hits the most birds wins. There are a few things, however, that make the game a little more difficult than it seems.

Five members of a squad are positioned behind the "bird house" at handicap distances of from 16 to 27 yards. Each position is at a slightly different angle to the house, and after five shots the shooters rotate one position to the right.

The bird house is a low concrete building which stands just a few feet above the ground. Inside the house is a hidden pendulum which swings back and forth in a horizontal arc of about ninety degrees. When the shooter is ready, the bird, which is a disc approximately eight inches in diameter, is fired from the end of the pendulum at a speed of about 45 m.p.h. Now the fun begins. The shooter, who has been sighting over the house, must react instantly and sight the bird in the direction it has been fired. Wind can be an important factor. even the slightest breeze can change the bird's course quite a bit. Speed is essential. The shooters use 12 gauge shotguns and the birds must be hit before the shot pattern has a chance to spread out. A half second or so delay can mean the difference between a hit or a miss. If the shooter hasn't fired within a second after the bird has left the house, he has little chance of hitting the target.

Only about two percent of all trapshooters have a 27 handicap, and Rich Clodt, who operates the IWV club, is one of them. Rich has been at the game for six years, and advanced to the top handicap bracket two years ago. He has been in some of the top tournaments in California and Nevada, and plans to make his second trip to Vandalia this year. Watching him shoot, it is easy to see why he is in the 27-yard group. Clodt is the most accurate shooter and has perhaps the quickest shot of all the members in the local club. Shooting from the 16-yard line in the recent meet, he hit 49 of his first 50 birds. He then moved back to the 24-yard line and finished with an overall score of 92. Ninety-two out of a hundred is good shooting, but in this case it wasn't quite good enough.

The high score went to another IWV club member, Red Purcell. Red hasn't been at the game as long as a lot of top trapshooters, but has moved up to a 24 handicap in four years of shooting. In this match he missed three birds in the early going, then settled down to finish with a final total of 95.

Trapshooting can be a fairly expensive hobby. The going price for a good gun is around \$400, and some shooters have weapons that are valued at \$3,000 or more. Guns that are so expensive aren't really necessary, but there is a pride in owning one of these beautiful pieces that only a true gun addict would understand.

There are compensations though, and the families of good shooters aren't likely to starve to death. Purcell and Clodt each earned over \$6,000 in prize money last year, and that kind of money, sports fans, will buy a lot of buckshot.

THE LOCKER ROOM

The Bird Game

By ED RANCK

Those who are familiar with fun and games should have little trouble identifying the following sport: The player must spend many hours practicing to become proficient. The player should have an exceptional ability to concentrate. There are tournaments that have thousands of dollars riding on each shot, and the game is one of the fastest growing sports in America. Everyone knows the answer to that. Golf, right. Wrong! The answer is trapshooting.

The sport is governed by the Amateur Trapshooting Association. The name may be a bit misleading, because all members are eligible to shoot for prize money. The big shoot is in Vandalia, Ohio, each year and the purses amount to nearly one million dollars. The association also gives it's members a set handicap, and a 27-yard handicap is the maximum.

ROCKETEER

Three Clubs Play

The finals of the Tri-Club Golf Tournament were held recently at the China Lake Golf Club. Golfers competing in the annual event included members of the China Lake, Bishop and Lone Pine Golf Clubs. Low gross winners included Bill McIntosh and Curt Bryan, 210; Bob Kochman and Jim Anderson, 220; Kermit Beaver and Rollin Voorhies, 224

Low net winners were Andy Bodner, Ben Gaska, Joe Ruiz and Bill Kummings, 189; Bruce Bernhardi and Ray Thurm. 191: Don Fraser and Don Hiles, 192. The next scheduled tournament will be the China Lake Golf Club's monthly Green Jacket Tournament, to be held June 17-18.

In the Intramural Golf League, only one and one-half points separated the top five teams as the league began it's fourth week of play. Public Works No. 1, headed by team captain Bill Sorbo, maintained a half-point lead in the twenty team league. The matches are being held Tuesday and Thursday at 5 p.m. through August 8. The top five teams include:

Swim Season Open

Opening the summer swim season with a victorious splash, sixty red-suited youngsters of the Indian Wells Valley Team walloped the highly rated Aqua Aces Team at Oildale last Saturday. A substantial point score of 558-316 was won in 52 individual events and 20 four-man relays which comprised the morning-long program

High point of the meet was a clean sweep of both freestyle and medley relays by IWV girls in all five age groups. The 8-and-Under boys teams took their two races and 9-10 boys won the medley relay, but in other categories the Aces' relay squads prevailed.

Blue ribbon winners from the IWV ranks are:

Freestyle-Clayton Bustard, Colleen Jones, Kathy Knemeyer, and Nick Kleinschmidt.

Backstroke - Carol Boyd, Martin Forrester, Colleen Jones, Curt De Crinis, Jeanie Kaufman, Mike Badalich, Linda Wiley, Jon Allan, Ann Allan and Bill Beresford.

Breaststroke - Martin Forrester, Kris Bjorklund, Martha Bock and Ann Allan.

Butterfly-Mary Lou Mello, Clayton Bustard, Jan Hillard, Steve Forrester, Jeanie Kaufman and Dee Dee Fletcher.

Individual Medley - Mary Lou Mello, Martin Forrester, Jan Hillard, Steve Forrester, Kris Bjorklund, Linda Wiley and Dee Dee Fletcher.

Junior Clinic

will be held at the China Lake tain and number one player, Golf Course, and will close Ken Johnson, 10-8. In other 6-4, Kiselyk-Frye def. Keranen-Monday, June 19.

Station Softball Race Continues To Tighten

The pennant race in the Sta- Brown was the losing pitcher tion Softball League continued to grow tighter this week as inning but the second as they the Engineers were finally defeated and fell to second place. Triangle Sports Shop moved ning their fourth game in a Cleaners continued to move up in the standings

Triangle downed the defending champs 8-4 to move into the lead. Doug Scoggins and Ed Ranck drove in two runs each as Triangle scored seven runs in the third to take a big early lead. A two-run homerun by Roger Short of the Engineers in the third, and three base hits in the seventh accounted for the Engineers runs. Pete Klassen went the distance to win for Triangle, while Ross Clayton took the loss.

Klassen scattered four hits as Triangle defeated tailend Genge Industries 14-1. Rich Schroeder hit two homeruns and Ranck connected for one to pace the 13-hit Triangle attack. It was the fifth win in a row for Klassen, tops in the league to date. Tony Scanlon took the loss for Genge.

Ace TV won a pair downing the Ridgecrest Tigers 7-3, and shutting out NOTS 6-0. Frank Robinson scattered six hits in Ace's win over NOTS. Back to back homeruns by Harlan Hershley and Drex Moulder in the first inning and a three run shot by Dennis Carson in the third were the big blows for Ace. Robinson went all the way for his first win of the year, Mike Choiniere was the

Bert Andreason fanned twelve hitters as Ace defeated the Tigers 7-3. The winners put the game on ice in the seventh with three runs, Andy Gilpin's two-run double being the big blow. Jim Ayres homered for the Tigers, and Bill while Choiniere was the loser.

The Tigers scored in every crushed Genge 20-7. Avres drove in five runs with a double and triple, and Rich Clodt into a half-game lead by win- collected three hits and drove in four runs to pace the 15 row, while Ace TV and Magic hit attack. Clodt went all the way to take the win, while Bruce Brown was the loser Warren Turnbaugh and Dave Wilkie homered for Genge

> The VX-5 Vampires survived a wild second inning as they came from behind to defeat the NAF Hawks, 8-6. Down 5-0, the Vampires scored six runs in the bottom of the second to go ahead to stay. Fred VanTassell's single with the bases loaded was the big blow of the inning. VX-5 scored single runs in the third and fourth, and NAF's Mike Mowry made it 8-6 with a homerun in the sixth. Art Hickle won his first game of the year for VX-5, and Don Sichley was the loser.

> In games played Tuesday night, Earl Roby tossed a nohitter as Magic Cleaners won their third in a row, downing NAF 11-1. Roby fanned six, and was in trouble in only one inning, the second, when the Hawks scored on a walk and two Magic Cleaner errors. Magic pounded out six homeruns during the game, two by Bob Hooper and one each by Bob Bartlett, Bob Palmer, Roby and Jim Lutz. Mac McCoy was the loser for NAF.

The VX-5 Vampires took advantage of ten walks issued by pitchers Mike Choiniere and Barney Hoisington, and seven base hits to pound out a 13-4 decision over NOTS. Jim Taylor had three base hits, and Harry Hess drove in three runs for the winners. Jack Gann went all the day to pick up the win for the Vampires,

TRAPSHOOTING WINNERS-Members of the IWV Skeet and Trapshooting Club gather with trophies following a meet last Sunday at the local club. Members are (I-r) Jim Dowda, Rich Clodt, Red Purcell, Larry Sullivan, Randy Hunsaker and Lew Radcliffe.
