

National Children's Book Week Theme "Take Off With Books" At NWC Library

Posters, displays, library visitations and book reviews will be used by the Center Library next week, October 29-November 4, to accent the theme of National Children's Book Week — "Take off with Books."

Begun in 1919 under the sponsorship of the Children's Book Council, National Children's Book Week has become a traditional time to highlight the pleasure of reading and to emphasize the value of books in the lives of children.

Parents are urged to visit the library with their children to view the special exhibits, including a delightful mobile, and see the variety of reading material available for every age group.

There are picture books for

preschoolers and their younger brothers and sisters; exciting stories, including mysteries, for elementary school children; romantic fiction for young adults; scientific books and magazines for the mature youth.

Reading to a child meets one of his basic needs, namely the attention of his parents. Reading also widens a child's horizons and invariably enlarges his vocabulary. Young children, brought to the library by their parents, acquire easily the habit of using the library and a love of books.

Irene Hunt is this year's winner of the Newbery Medal, for "Up a Road Slowly." The Newbery Medal was first given in 1921 as an incentive for better quality in children's books.

It is awarded annually to the author of the most distinguished contribution to American literature for children published during the preceding year.

The illustrator of "Sam, Bangs and Moonshine," Evaline Ness, was awarded the Caldecott Medal. This medal was first given in 1938, and is now awarded annually to the artist of the most distinguished American picture book for children published during the preceding year.

These books are available in the Center Library, along with the runners-up in the Newbery and Caldecott competition — The King's Fifth, by O'Dell; Zlateh the Goat, by Singer; The Jazz Man, by Weik, and One Wide River to Cross, by Emberley.

NEVER TOO YOUNG TO LISTEN — National Children's Book Week observed in the Center Library isn't passing up the chance to attract the interest of these small fry during a reading session at the Day Care Center by Mrs. Jane La Rosa, Librarian.

NATIONAL CHILDREN'S BOOK WEEK OBSERVED — Fourteen students from Mrs. Marilyn Alger's Fourth Grade Class at Richmond School examine the variety of books available in the Center Library. Mrs. Jane La Rosa, (fifth-left), Librarian, gave a talk to the children about the proper use of the library and its facilities.

Infiltration To Become Difficult

The Secretary of the Navy recently informed naval installations of security instructions contained in a public statement of the Secretary of Defense on anti-infiltration.

In order for all naval military and civilian personnel to become aware of the anti-infiltration program and its purpose, the following background information is provided:

"We are preparing to initiate late this year or early next year the operation of a system to make infiltration more difficult. The system's objectives will be consistent with those of our air campaign against the lines of communication. We know, of course, that no ob-

stacle system can stop the infiltration of personnel or supplies.

"Equipment to be installed will range from barbed wire to highly sophisticated devices. The more the enemy knows about our plans, the more ready he could be to defeat the system when it is installed. Therefore, I am directing that no additional information be made public by anyone in the Department of Defense on this program. I do not intend to give the enemy the advantage of knowing what materials we will use, where they might be used or in what quantities. All such information would be of military assistance to him."

Assessments Due By Local Members

Members of the Government Employees Benefit Association and the China Lake Mutual Aid Society are reminded that Assessments number 135-63 and 136-64 are now due.

Assessments have been levied due to the death of Roman Curtis, an employee of the Engineering Division, Pasadena.

Also, due to the death of Willard T. Pearce, a retired employee of Code 70415, Service Call Department, Public Works.

Payments of \$2.40 may be mailed to Joseph M. Becker, Secretary-Treasurer 77-B Renshaw, China Lake, Calif.

Recognition To Outstanding Young Citizens Set by Local Optimists

The Optimist Club of Ridgecrest-China Lake has scheduled its third program to reward the qualities of a good citizen as displayed by boys and girls in the 10 to 15 year old age group.

Optimist Club President Ted Edwards notes that "Too much publicity is received by the wrong-doers which becomes news. Actually less than five per cent of these young people ever get into any trouble with the law. This program is to give some measure of recognition to the young people who are good citizens today and will be the foundation of our society in the future."

This is the third scheduling of an annual program of the Optimist Club which is known as the Junior Citizen Award Program.

Leo Lonergan, a member of the Optimist Club Speaker's Bureau, has addressed both the Ridgecrest Parent-Teachers Association and the China Lake Murray Elementary & Junior High Schools Parent Teachers Association concerning this program. Mr. Lonergan will be willing to address any other organization upon request.

All boys and girls who are at least 10 years old but have not attained their 15th birthday by November 17, 1967 are eligible for nomination by neighbors or other adult friends. Nomination forms can be obtained at one of the following Ridgecrest business houses where a large poster and the award trophies are displayed: K & R Market, Hildreth Motors, Inc., Medical Arts Pharmacy, OK Tire Store, and Kirschenman's Douglas Service Station.

Nomination forms may also be obtained by contacting Leo Lonergan at Ridgecrest phone 375-4840, 115 W. Church St., Apartment C; from Ken Ulm at 421 W. Church St., Ridgecrest, or from Myron Scovil at Ridgecrest phone 375-4048, 1504 Franklin Drive.

Nominations will be received for this third award program until November 17, 1967. They should be mailed to the address shown on the nomination form or deposited in the box to be found in each of the business places previously listed.

All activities in which boys and girls participate that will contribute to their being good Americans in the years to come will be considered by the selection panel. An overall evaluation of how well the nominee is performing as a citizen and how well he or she is preparing for the future will be made. Since the program is aimed at recognition for the youth of the Indian Wells Valley, the nominee must have lived in the Indian Wells Valley for at least one year.

The general qualifications to be used in the evaluation of the nominees will include but not be limited to: being a good citizen at home by being helpful and obedient to parents; being a good citizen in school by being courteous and cooperative with teachers and fellow students; being a good citizen in the neighborhood and in the community by being friendly and considerate of others; participate in a youth activity;

and show promise of becoming a good citizen of tomorrow.

The final selection panel will be composed of members of the local Altrusa International, a ladies service club, who will coordinate with the faculty members of the local schools, police departments, Business and Professional Women's Clubs, The Indian Wells Valley Pastors Fellowship, and the Optimist Club.

Flower Show Blooms Here Next Thursday

"California—Then and Now" is the theme for the Fall Flower Show of the Oasis Garden Club set for Thursday from 1 to 9 p.m. at the China Lake Community Center.

Flower arrangements in the 12 classes of artistic arrangements and horticulture specimens, showing what can be grown in the desert, will be judged orally by a panel of accredited flower show judges.

Mrs. Roger C. Wickenden, the general chairman, is inviting the public to hear the oral judging from 1 to 3 p.m. and to view the flower show. There is no admission charge.

"Los Angeles — 1984," an assemblage in the spirit of the metropolis, and "The Flower Children," which explores the psychedelic barrier, are the highlights of the "California—Now" section, the chairman says. "Old Spanish Days — 1776," and "The Gold Rush — 1849" are leading artistic classes in the "California — Then" section.

Mrs. Frederick Richards, judges chairman; Mrs. Curtis Garrett, entries chairman; Mrs. A. V. Pratt and Mrs. R. E. Kistler, horticulture division; and Mrs. Robert Rowntree and Mrs. Kenneth W. Burke, awards committee, are serving as the flower show committee. Mrs. William A. Marsh is the club president.

Reserve Officers To Tour Corona Lab Facilities

Approximately 30 Naval Reserve officers are scheduled to tour laboratory facilities at Naval Weapons Center Corona today. They are affiliated with the Naval Air Systems Command Reserve Weapons Training Units based at Naval Air Stations in the western portion of the United States.

They are attending an intensive two-week course designed to maintain a state of readiness for augmentation of the Active Forces in case of mobilization.

In addition to a briefing by Captain E. B. Jarman, the group will visit Codes working on Standard ARM, Missile Countermeasures, Dynamics, Fuze Development II, Contact Fuzes, and Test and Reliability.

The officers will arrive at 8 a.m. and depart the Laboratory at 11 a.m. Visits to a number of other installations in the area are on their busy two-week agenda. The school is headquartered at Naval Air Station, Los Alamitos.

Navy Combat Artists Honored For Work

CHIEF OF INFORMATION IMPRESSED — RAdm. Henry Louis Miller, (l-r), Chief of Information, U.S. Navy; Larry Zabel, Navy Combat Artist from China Lake, California, and Captain M. R. Etheridge, Naval Weapons Center Commander, are impressed with Zabel's art work. Titled, "Secondaries At The Khe Sanh," (A Salute to Dave Spearman), Zabel depicts a Navy aircraft attacking the enemy. With bomb racks empty, Maj. Pend and Capt. Dave Spearman streak back over the target for bomb damage assessment before heading home. Artist Zabel says, "This one is for Dave. He has since been lost to enemy action near Con Thien." Painted with Marine Air Group-13 at Chu Lai, Viet Nam, 1967.

MIGHTY MONSTER OF THE SEA — Captioned, "USS Enterprise," Navy Combat Artist, Henry Clapp, depicts in magnificent oil color, the first atomic-powered aircraft carrier in the U.S. Navy. The painting was one of 42 formally presented for inclusion in Navy's permanent collection during recent ceremonies in Los Angeles.

RAdm. H. L. Miller Formally Accepts Navy Paintings

Eight prominent West Coast artists were honored at recent ceremonies in which 42 of their paintings were formally presented to the U.S. Navy. The fourth annual presentation took place at a reception in Hollyhock House, Barnsdall Park, Los Angeles earlier this month.

The paintings, executed during the past year, depicts U.S. Navy operations in all areas of the Western Hemisphere, in connection with the Navy Combat Art Program.

Rear Admiral Henry Louis Miller, Chief of Information, U.S. Navy, accepted the paintings for addition to the Navy's permanent collection. Accompanying Admiral Miller from Washington, D.C., was Charles Lawrence, U.S. Navy Combat Art Curator.

The eight artists honored during the ceremony were Leonard Cutrow, West Hollywood; James Gill, Los Angeles; Frank Ackerman, Glendale; James Scott, San Diego; Larry Zabel, China Lake; Howard Clapp, Burbank; Richard Haines, Santa Monica Canyon, and Paul J. Pernish, Oakland.

The ceremony was attended by numerous civic dignitaries in addition to Admiral Miller, the painters, Captain M. R. Etheridge, Naval Weapons Center Commander, additional Navy personnel, and others. Ken Ross, Head, Municipal

Art Department, City of Los Angeles, explained the purpose of the U.S. Navy Combat Program during the ceremony.

Admiral Miller, during his talk before the distinguished group, paid "high tribute" to Ross and J. Bibby, Public Affairs Officer at NWC, for their outstanding coordination and cooperation in contributing to making the program a success between the Los Angeles community and Department of the Navy.

The Municipal Arts Department was designated as coordinator in selection of artists for the Navy Combat Art Program (West Coast), which originates and is directed by the Naval Weapons Center, China Lake.

NAVY COMBAT ARTISTS HONORED — RAdm. Henry Louis Miller, (l), Chief of Information, U.S. Navy, and Deputy Mayor Joseph M. Quinn, City of Los Angeles, listen to four of the eight Navy Combat Artists describe their experiences depicting U.S. Navy operations in all areas of the Western Hemisphere. From left, artists are: Larry Zabel, China Lake; Richard Haines, Santa

Monica Canyon; Frank Ackerman, Glendale, and Howard Clapp, Burbank. Other combat artists not present were: Leonard Cutrow, West Hollywood; James Gill, Los Angeles; James Scott, San Diego, and Paul J. Pernish, Oakland. Admiral Miller came from Washington, D.C., to formally accept the paintings by artists selected for the U.S. Navy Combat Art Program during the past year.

PHOTOGRAPHS BY PHIL BERNARD D. LESLIE

COMBAT ART EXPLAINED — Ken Ross, Head, Municipal Art Department, City of Los Angeles, explains the purpose of the Navy Art Cooperation and Liaison Committee (NACAL) during the gathering of Navy Combat Artists and dignitaries at the fourth annual presentation of Navy Combat Art in Los Angeles.

"RIVER PATROL FORCE" — Producer, movie and television star, Commander Jackie Cooper, (l), USNR, listens attentively as Richard Haines, Navy Combat Artist, explains his colored, oil painting titled, "River Patrol Force." Seven other prominent West Coast artists were honored for their combat art paintings formally presented to the U.S. Navy in formal ceremonies in Hollyhock House, Los Angeles.

NAVY DAY

October 27

NAVAL UNDERSEA WARFARE CENTER PASADENA, CALIFORNIA

BENJAMIN R. PETRIE, JR., CAPT., USN (Ret.), Special Assistant to Director of Navy Laboratories (I), is hosted by Capt. G. H. Lowe, Commander, NUWC, on a recent visit to the Center.

CFC Tops \$5,000 At Halfway Point

At the half-way point of the Combined Federal Campaign, NUWC keymen have turned in \$5,681 in cash and payroll deductions, reports Dave Newman, NUWC, Pasadena, Campaign Chairman; 27.5 percent of NUWC personnel have contributed.

Two more keymen have completed their campaigns with outstanding results. Jane Ingham reports 100 percent participation by the Patents Office. The Pasadena Maintenance Branch, Code P7522, has exceeded 100 percent.

Yes, that's right. All 27 members of the branch made individual contributions and, in addition, a group contribution was made using funds left over from a previous office collection. Keyman John Hancox and all of Code P7522 personnel received congratulations.

The Destroyer USS Preston (DD 795) will host general visiting in the Long Beach area on October 28-29 from 1-4 p.m.

PROMOTIONAL OPPORTUNITIES

To apply for positions, contact Christine Marchand, Pasadena Personnel Department, Extension 278. A current SF-58 must be submitted when applying.

Clerk (Typing), GS-3 or 4, Command Administration Department, Communication & Security Division, Communication Branch, P7022 - Performs clerical duties in the communications office verifying telephone and telegraph bills and preparing authorization for payment; ordering installation of telephone equipment and preparing correspondence and reports. Performs relief duties in the teletype section. In the absence of the supervisor, will assume supervisory responsibility for the teletype and telephone sections.

Computer Systems Analyst (Digital), GS-11 or 12, Code 1103 - Will assist accounting and management personnel in the collection, organization, evaluation and reporting of information in a research and development laboratory, using Digital (UNIVAC 1108) Computers. Applicant must have experience in the design of data processing systems and a good knowledge of computer applications. A degree in Mathematics or Business Administration is desirable.

Safety Officer, GS-12, Command Administration Department, Safety Division, P703 - As Head, Safety Division is responsible for developing and managing the Safety program for NUWC.

ESO At Large Don't Miss The 15th of December!

Vacations Abroad Bowlers Tied Up In Lane Action

An extensive trip abroad to see the wonders of Europe or the art treasures of Europe can be a tiring and debilitating experience for a senior citizen, the NUWC Credit Union noted today, and recommends that persons make this visit while they are yet young and vigorous.

Your credit union, officials point out, provides a means of saving money at a handsome dividend rate as well as loaning money up to \$750 per member on an unsecured loan.

San Diego Tidbits

Larry Arnot, electronics engineer, NUWC-SD, has enrolled at University of California at San Diego for a two-year program leading to a doctorate in applied electro-physics. At NUWC-SD Arnot was associated with the Science and Engineering staff.

John S. Benya, mechanical engineer (general) reported aboard September 25. He will be associated with the NUWC-SD Research Sonar Project Office.

A funny thing happened to the Tanglefoots on their way to the NUWC bowling league title — somebody caught 'em, namely the Strikers. After six weeks of play, the 'Foots suddenly found themselves tied with their tormentors for first place, with 16 wins and eight losses apiece.

The 'Foots, (Pat Preston, Di Garfield, George Jackson, John Watkins, and Ed Anderson) will now have to struggle extra hard to regain the top spot against the kind of competition the Strikers (Elayne Colson, Cindy and Al Lammens, Jerry Aragaki and Lyle Emerick) are putting up.

A tie for second place also exists, at the moment, between the Picolo Petes and the Weaponers, with 14-10 marks. These two teams are also very potent, so that the corridors should be filled with the wounded for a long time to come!

High scores for the sixth week of play are as follows: team series, Sam's Group, 3025; team game, Kamikazi, 1007; men's series, Phil Foster, 676; men's game, George Jackson, 237; women's series, Dawn Kindred, 629, and women's game, Elayne Colson, 247.

PORTRAITS OF A LUNAR ECLIPSE — Early Wednesday morning, October 18, Rick Uhrich, P2531, took these photos while Stan Seeberg, P45311, and Rick Marrone, P2511, looked on. The first photo shows the full moon beginning to move into earth's dark shadow shortly after 1:25 a.m. As the eclipse progressed, the outer part of the shadow took on a bluish-gray tint, while the inner portion appeared a deep brownish-orange. The

contrast of colors was especially vivid through binoculars or a telescope. Second photo depicts the moon about three-quarters into the shadow, and the last one shows its appearance a few minutes before totality at 2:45 a.m. Pictures were taken with a 35mm Minolta camera using exposures of moon beginning to move into earth's dark shadow shortly after 1:35 a.m. The totally eclipsed moon looked almost translucent in the clear sky.

DR. EDWARD LITTLE, NUWC-SD, retires October 31. His future plans include summer assignments as a consultant in physical oceanography at the University of Alaska Marine Station, Juneau.

October Retirement for Dr. E. M. Little

An October retirement will find NUWC-San Diego losing a physicist, organist, choirmaster, skier, mountain climber, sailor, lecturer, teacher, author, folk and square dancer, inventor and civic-minded individual.

A divergent group of people leaving? No, just one person — Dr. Edward M. Little. He retires October 31 from NUWC-SD's Arctic Science Division. He is 70 years of age.

Dr. Little is a specialist in research on the physics of sea ice. This involves the mechanical, thermal, acoustic, electrical and optical properties of the ice cap covering most of the Arctic Ocean.

Dr. Little received his Ph.D. in physics from the University of Illinois. His BS and MS degrees are from the University of Washington. He taught two years in high school and worked as a laboratory assistant in the U.S. Bureau of Standards. He has held various professorships at the Universities of Montana, Maryland and Alaska. Also, at University of Alaska, Dr. Little was head of the Physics Department and assistant director of the Geophysical Institute. He has taught physics

and advanced calculus for evening classes at San Diego's City College and has taught creativity for UCLA Extension.

During World War II, Dr. Little worked with the War and Navy Departments in fire control and shock tube research. He came to Navy Electronics Laboratory in 1952.

Dr. Little has published many papers in professional journals and is a member of numerous professional societies and civic organizations.

He has climbed Washington state's Mt. Rainier, the Grand Teton, Long's Peak, Mt. Hood, Mt. Adams and several Canadian and Alaskan peaks. He is familiar with the ski slopes at Mammoth, the Canadian Laurentians, the Juneau icefield in Alaska and the Yoho icefields in Canada.

Dr. Little has participated in the Greater San Diego Science Fair as a judge and is widely known in San Diego as a speaker.

He is listed in "American Men of Science," "Who's Who in the West," "Who's Who in Commerce and Industry," "Who's Who in Science," and "Dictionary of International Biography" (England).

Seabees To Train In Warfare Defense

As in previous years the Naval Construction Battalion Center, Pt. Hueneme is providing a phase of Disaster Recovery Training for the Naval Reserve Construction Battalion Division 11-2, China Lake. The training this year, to be conducted October 28-29, will deal with Chemical Warfare (CW) and Biological Warfare (BW) detection and recovery. About 45 members of the local Seabee unit will receive this training.

In addition LCdr. R. D. Malone, Commanding Officer of the unit, authorized arrangements to be made to include selected personnel of the Indian Wells Valley Civil Defense, NWC Security, and Fire and Safety organizations.

The IWV Civil Defense personnel attending who are members of the Auxiliary Police Squads 1 and 2 under the leadership of Earl Donaldson and Bob Gould are: Harold Gryting, Harold Cronin, James Weeks, Robert Gould, Duane Williams, Jack Braun, and Hulén Frageman.

NWC Security policemen are: J. N. Simpson and G. W. Simpson. Firefighters are: G. R. Pinney, F. D. Holley, and D. A. Wilkie, Jr., and Safety Department people attending include James Donally and Kelvin Bennett.

Training starts at 8 a.m. and ends 4 p.m. for the two-day training sessions in the Training Building for classroom work plus simulated actual exercises utilizing specialized equipment in the Mobile Van Unit from Pt. Hueneme. The sessions will provide in depth coverage of the various agents, symptoms, and the treatments against BW and CW. Emphasis will be on nerve gases and the family of psychological and incapacitating agents. The latest detection kits for CW and sampling kits for BW will be demonstrated and used in field type exercises.

LCdr. Malone announced that billets are available under the special Advanced Pay Grade Program of the Seabees for personnel who have a skill utilized in the construction trade, eg. electrician, carpenter, vehicle operators, etc. Persons interested in obtaining more information may contact Cdr. W. E. Davis, phone 723563; Chief Phil Nelson, phone 375-2448 or EON2 Cy Ebersberger, Ext. 74662.

Besides the BW/CW phases, other cycles cover Natural Disasters (Survival and Recovery), and Radiological Detection and Decontamination.

ROCK AND ROLL? — Lawrence G. Campbell, (l), Litton Systems, Woodland Hills, Calif., and Michael F. Garman of Del Mar Engineering Labs, watch the effect of high frequency vibrations in the Test and Reliability area during the American Ordnance Association tour of Naval Weapons Center, Corona Laboratories.

BY PUSHING THIS GADGET — Charles F. McKnight (l), of the Frankfort Arsenal, Philadelphia, and RAdm. Mell A. Peterson, USN, Retired, of the Los Angeles Chapter, AOA, examine the electronics which is a part of the missile guidance system at the Naval Weapons Center, Corona Labs.

SYMBOLIC OF HELP AT HOME AND ABROAD is the USS HOPE that sails the Seven Seas to bring healing and education to distressed people. Finale of the NWC 1968 Combined Federal Campaign has been extended to November 3. Fair share giving

through payroll deduction by Federal employees supports the United Fund, National Health Agencies and International Service Agencies. Key men suggest a "Fair Share" yardstick is an hour's pay per month per employee.

AOA BANQUET — Captain E. B. Jarman, (center), Commanding Officer of Naval Weapons Center Corona Laboratories, and W. E. Faithorn Jr., (right), Chairman of the Fuze Section, American Ordnance Association, share honors at the head table during the banquet at the Norconian Club, Corona. George E. Merer, (far left), Vice Chairman, and Howard C. Filbert, (far right), Chairman elect for 1968, also enjoy the festivities.

Voters Requested To Help Support Bond Election

Registered voters of this area, according to W. E. Davis, Chairman of the local Citizens' Committee on High School Needs, are reminded and urged to vote in this election. The Kern County Joint Union School District Board of Trustees has placed four propositions on the ballot.

Proposition 1 — Passage of the \$8,360,000 issue would provide a complete new high school in the Bakersfield metropolitan area, 60 new classrooms in nine of the existing 11 schools. Burroughs would get eight classrooms, a lecture center, expansion of maintenance and cafeteria facilities and faculty workroom at an estimated cost of \$870,000.

Proposition 2 — Passage of the \$610,000 bond issue would bring Shafter and MacFarland High Schools and Griffith Field shower and locker rooms at Bakersfield High up to the specifications of the Field Act. These units, built prior to 1933, do not meet earthquake safety specifications demanded by state law.

Proposition 3 — Is an alternate proposal to finance the rehabilitation work described under Proposition 2. This would finance the cost by increase in property tax for a two year period.

Proposition 4 — Is a statement required by law and would permit the Board of Trustees to use any available temporary facilities in case both Proposition 2 and 3 are defeated.

Growth in the last 10 years was approximately 7,000 students — the equivalent of five high schools of almost 1,500 each. The last bond election to meet building needs was in 1963. Since that time, high school enrollments have increased by about 2,700 students.

Center Advisory Board Meeting

The regular fall meeting of the Naval Weapons Center Advisory Board will be held Thursday and Friday Nov. 2-3.

Rear Admiral J. P. Sager, USN, Vice Commander, Naval Air Systems Command, and Dr. Gerald W. Johnson, Director of Navy Laboratories, will attend the meeting as guests.

Rear Admiral S. E. Burroughs, Jr., USN (Ret.), Mr. B. F. Coggan, Mr. R. C. Fuller, and Mr. Martin Goland begin their terms as members of the Board at this meeting. The meeting also marks the retirement from the Board of Dr. Joseph E. Henderson, Dr. J. C. R. Licklider and Dr. James H. Wakelin, Jr.

Other Board members include Dr. Walter H. Brattain, Dr. Paul M. Fye, Dr. Frederick C. Lindvall, Mr. Edwin A. Link, Vice Admiral P. D. Stroop, USN (Ret.), and Dr. L. T. E. Thompson.

A reception honoring the members of the Advisory Board will be held on Thursday, November 2, from 6:30 to 8 p.m. at the Officers' Club.

All personnel expecting to attend are asked to call Ext. 71654 prior to 11:30 a.m. on November 2 to make reservations so that name tags may be provided.

Authorized patrons of the Executive Dining Room who desire to stay for dinner following the reception should make reservations prior to 4:30 p.m. on that date by calling 375-5071.

Bluejackets Hope For Top Honors

(Continued from Page 1)

1 Buford A. Foreman of NAF, ADJ-2 Arthur L. Hanson of VX-5, ABH-1 William Harms of NAF, AT-1 Gerald W. Chambers of NAF, AK-2 Neil H. Robertson of VX-5 and AO-1 Jack D. Witt of NAF. Others who have left China Lake are HM-1 James L. Brower of the Hospital, AMS-3 Francis J. Malloy of VX-5, ATR-2 Barkley Shepard of NAF, DM-2 Jim Lane of VX-5 and SN Donald Painter of NAF.
