

### Outdoor Pop Concert Slated On COM Lanai

The Desert Community Orchestra Association, in conjunction with the Desert Campus of Bakersfield College, will present the Desert Community Orchestra in an outdoor "pops" concert Saturday, Sept. 11, on the lanai of the Commissioned Officer's Mess. The concert will begin at 8 p.m.

This concert will be supported by the Recording Industries Music Trust Fund and no admission will be charged.

The program for the evening will be varied. The orchestra will play the Brandenburg Concert No. 2 by Johann Sebastian Bach, selections from Jerome Kern's "Showboat," and selections from Meredith Willson's "The Music Man."

Then the orchestra strings will render the theme from "Love Story," by Francis Lai, theme from "Intermezzo," by Robert Henning and Heinz Provost and selections from Maurice Jarre's "Doctor Zhivago." In addition, the strings will be heard on "Today," by Randy Sparks, and "Be My Love," by Sammy Cahn and Nicholas Brodsky.

Stephen Bergens, young virtuoso of the keyboard, will play "Malaguena" from Andalucia by Ernesto Lecuona on the piano, a loan from Loewen's. Bergens will then return with Andrew Victor, Marianne Kistler, Robert Ferguson and Charles Cook to play the "Trout Quintet" by Franz Schubert.

Also featured will be a Dixieland band and a German band.

All music lovers are invited to attend this concert and enjoy an evening filled with the sounds of good music.

### Ice Cream Social Scheduled By Band Boosters

Members of the Burroughs Band Boosters will kick off activities for the new school year with an ice cream social on Sunday, Sept. 12, from 6 to 9 p.m. at the Burroughs High multi-use room and adjoining patio.

Donations will be \$1 for adults and 50 cents for children, with proceeds from the affair earmarked for use in providing special items needed to supplement band uniforms, travel costs for band trips, and to help start a scholarship fund, Mrs. William Cox, president of the Band Boosters, said.

**CONGRATULATIONS IN ORDER** - Promotions from first class to chief petty officer rating were earned recently by Del Irons (right) and Bobby L. Felton, who are shown being congratulated by their commanding officer, Capt. R. E. McCall, who commands the Naval Air Facility. Chief Irons is an AMEC (chief aviation structural mechanic, emergency equipment) and Chief Felton is an AMHC (chief aviation structural mechanic, hydraulics).

**FRIENDS SAY GOODBYE TO ANN SEITZ**—A reception for Ann Seitz was held Wednesday, Sept. 1, at the Community Center attended by her many friends and fellow workers. Mrs. Seitz ended 20 years of service which began as a manager of the old Anchorage and ended with 17 years as manager of the Community Center. On the left Jim McGlothlin, Public Affairs Officer, presents her with a "Sacred Order of Dust Devils" certificate, honoring her as a denizen of the desert. Right, Lorraine McClung, program chairman of the Desert Art League, gifted Mrs. Seitz with a watercolor by Ruth Mayer, presented from Ann's friends.

### Vampires...

(Continued from Page 6)

him will be running backs Ken Johnson, Maurice LeFlamme, Tom Haus and Reggie Stephens, while rangy Dave Dembeck (6-3, 190) mans the flanker spot.

The front wall of Herr (the only returnee from last year's offense and the league's second leading scorer), Ed Shoemaker, Richard Keller, Ernie Garcia and Jim Ahern averages 200 pounds per man.

No matter how the offense performs, however, the game at VX-5 is called defense. Last year the Vampire defensive unit held opponents to a minus 12 yards rushing for the season and gave up only 75 yards per game in the air.

Leading the defense will be co-coach and middle linebacker Seymour, a former grid star at Southern Mississippi. His front four includes Kim Rushton (180) and Haus (185) at the ends and John Bateman (220) and Bruce Quinn (235) at the tackles.

At the outside linebackers will be Dan Keeton (185) and tenacious Mike Blount (145), while Marty Lansford, Gary Walter, Dan Harrington and Jon Holmquist will patrol the secondary.

"The offense still has a few rough edges," said Herr, "but we didn't want to start practice too soon and peak before the season starts. We want to be ready for that first game—when it counts."

Also included among the programs, which the Marine Corps League is planning with youth of junior high school age in mind, will be a Morse Code class and a class in aeronautics, J. A. Myers, senior vice-commandant of the Hi Desert Detachment, reports.

### The Nite Crew Engaged By Chaparral Club

Music by "The Nite Crew" and added entertainment will highlight activities Friday night at the Chaparral Club.

"The Nite Crew" will be playing for dancing from 9 p.m. to 1 a.m., and there will be other entertainment from 5 to 8 p.m.

There will be reduced rates for all.

**DOGS FOR THE BLIND** - Local 4-H'ers are seen with the animals they are currently training as guide dogs for the blind. In front, Hank Earle with "Kerri," and (back row), Frances Everitt and "Gino," Kelly Bryan and "Jetty," and Kris Fowler and "Innes," appeal to local residents to donate to the fund drive sponsored by the Marine Corps League that is now underway.

### Marine Corps League Sponsors Fund Drive For Local Causes

A fund drive that will continue from now through Oct. 3 has been launched by the Hi Desert Detachment of the Marine Corps League.

Contributions are intended for the support of such varied programs as assistance in the raising of guide dogs for the blind, a model airplane contest and activities of a competitive drill team that is to be organized.

Also included among the programs, which the Marine Corps League is planning with youth of junior high school age in mind, will be a Morse Code class and a class in aeronautics, J. A. Myers, senior

### Special Events To Be Included On Calendar

Cooperation of local clubs and organizations in compiling information for a "Calendar of Events" has been requested by the Special Services Division.

For the purposes of this calendar, information is needed about coming events that have been scheduled from Sept. 15 through the Christmas and New Year's Day holidays.

Since it is planned to have the calendar completed by Sept. 15, details about special events are needed no later than today, Friday, Sept. 10, and should be submitted to Lois Bridges, Special Services Division secretary, phone 3791.

### Blue Cross/Shield

The Blue Cross-Blue Shield Representative, Gordon Ellis, will be at the Community Center on Sept. 14 from 10 a.m. until 2 p.m.

# 2 Men Stranded on Mt. Whitney Saved

**ON WAY TO SAFETY**—Tor MacInnes is seen being helped to descend the face of Mt. Whitney, where he and a friend, Michael Orton, both from Tarzana, were stranded Sunday. Ropes, pitons and belaying techniques were necessary because of the sheer drop of 1,000 ft. straight down.

## Pay Freeze Hits Teachers Of China Lake Elementary District

A 5.6 per cent pay increase for teachers of the China Lake Elementary School District, approved last July by the district's board of trustees, will not go into effect immediately because of the nationwide wage-price freeze.

"In terms of teachers, it does not appear on the surface that they will be eligible for a higher rate of pay," Dr. Paul Smith, school district superintendent, said following the re-opening of schools here this week. He did not rule out completely, however, some other interpretation of the most recent information received on this matter from the Cost of Living Council in Washington.

As for classified (non-teaching personnel) of the China Lake School District who also were

granted a 5.6 pay increase at the same time teachers were, a lot of them have qualified for increased pay because their work (custodial and maintenance) is carried out year around, Dr. Smith advised.

Although teacher contracts are approved annually on July 1, they do not begin their work until Sept. 1, the district superintendent stated.

The same applies to teachers at Burroughs High School who are employed by the Kern High School District. According to Dr. John Eckhardt, district superintendent, teachers salaries are frozen for the time being "until a clear-cut ruling comes from someone letting us know what we can or must do."

In the case of the high school district, the board of trustees

**ENROLLMENT OPENS** - Approximately 1,100 students have registered for fall semester classes offered by the Desert Campus of Bakersfield College. Dr. Richard Jones, dean of the local college, is shown preparing to put his stamp of approval on individual class schedules completed by prospective students during last week's open registration period. Late registration for the fall semester will continue until Friday, Sept. 17, at the Desert Campus which is now offering a total of 92 daytime and evening classes. Final enrollment for the fall semester is expected to total approximately 1,250.

## China Lake Mountain Rescue Gp., Helicopter Aid in Mission

A Labor Day holiday weekend misadventure on Mt. Whitney that may well have resulted in tragedy ended happily Tuesday afternoon—thanks to the successful efforts of the China Lake Mountain Rescue Group and volunteers from three other rescue units whose members hailed from Riverside, San Diego and Sierra Madre.

Taken off the mountain by Navy helicopter from China Lake, after first being brought to a place where the "chopper" could land, were Michael Orton and Tor MacInnes, both 20 years of age, from Tarzana.

Orton and MacInnes had started out on Sunday in an attempt to climb what is called the Fresh Air Traverse on the face of Mt. Whitney when they reached a spot from which they were unable to either advance or return.

Rain which began to fall on Sunday turned to snow on Monday and that afternoon Jim Galabas, of the U.S. Forest Service at Lone Pine, called the China Lake Mountain Rescue Group after being notified that the stranded climbers could not be reached by anyone else along the many climbing routes on the face of Mt. Whitney.

A trio of China Lake mountaineers, headed by Nick Botka, the operation leader for this rescue attempt, left the Naval Air Facility

in a helicopter piloted by Cdr. Van Spradley and Maj. Ben Rinehart, USMC.

A third member of the helicopter crew, who was later commended for his yeoman service during the rescue effort, was W. D. Parker, an aviation jet mechanic third class, and the other two CLMRG members aboard the wingless aircraft were Arold Green and Bill Stronge.

The plan had been to land the mountain climbers at East Face Lake (elevation 12,400 ft.), but the helicopter pilots encountered extreme turbulence in the Whitney Portals area and had to turn back and land instead at Lone Pine.

Mountain climbers Botka, Green and Stronge were joined at Lone Pine by Lee Lucas and Bob Rockwell, who had driven there by car and all members of this first team, with the exception of Lucas, started hiking up the north fork of Lone Pine Creek from Whitney Portals, shortly after 5 p.m. Monday and 5½ hours later reached East Face Lake.

In the meantime, base camp had been set up at Lone Pine airport with Joe McIntire in charge and Elizabeth Anderson handling radio communications. Those involved in the rescue attempt on the mountain carried radios belonging either to the China Lake or San

**POIGNANT MOMENT** -This reunion between Dr. Douglas MacInnes and his son, Tor, was ample reward for members of the China Lake Mountain Rescue Group and others involved in the young man's safe return after being stranded on a 5 by 15-ft. ledge at an elevation of 13,500 ft. on the face of Mt. Whitney.

**WELCOME ABOARD**—Membership co-chairmen Deborah Cattern and Jo Ellen Wills, with help from Annalee Hendershot (at right), vice-president, raise the welcome flags for WACOM's annual membership coffee. "The Fall Cruise of the Good Ship WACOM" will embark at 9:30 a.m. Tuesday at the Commissioned Officers Mess. All present members and newcomers eligible for membership are invited to attend and obtain their passport to a year of interesting and varied programs. Membership in WACOM is open to all military and civilian wives of members of the Commissioned Officers Mess.

### Catholic Congregation Plans Family Picnic At Inyokern

Plans were announced this week by the NWC Catholic Congregation for a family picnic that will be held on Sunday, Sept. 19, at Inyokern Park. Games for young and old are scheduled between 3:30 and 5 p.m. and food will be served from 4:30 to 6:30 p.m. The menu will include hamburgers, hot dogs, potato salad, ice cream, soft drinks and beer.

Tickets priced at \$1.50 for adults and 75 cents for youths 6 to 18 years of age are available at the Chaplain's office and following all Masses. For large families, a maximum flat rate of \$6 will be charged.

While this event is sponsored by the NWC Catholic Congregation, it is open to all interested persons, Buddy Deffes, committee chairman, said.

### PROMOTIONAL OPPORTUNITIES

Applications for positions listed in this column will be accepted from current NWC employees and should be filed with the persons named in the ad. All others desiring employment with the Naval Weapons Center may contact the Employment Division, Code 452, Extension 2669. Current applications (SF-71) or Standard Form 17 should be submitted bringing your work history up to date if one has not been submitted within the last 6 months. The fact that positions are advertised in this column does not preclude the use of other means to fill these positions. Part of the ranking process of those rated as basically qualified will be a supervisory appraisal form that will be sent to the employees present and most recent previous supervisor. Selection shall be made without discrimination for any nonmerit reason.

**Clerk-DMT, GS-316, 3 or 4, PD No. 240084-1, Code 4045**—This position is that of secretary to the Head, Aircraft Armament Branch, Avionics Division, Weapons Development Department. Provides clerical and administrative assistance to branch personnel and supervisor. Receives telephone calls and official visitors, answers non-technical questions involving Branch operation, makes travel arrangements, keeps meetings and travel calendar, assembles materials for meetings and appointments, drafts and distributes branch level memos and correspondence and keeps library file of major branch project Aircraft Armament Coordination Task (ACT) data. The ACT is a project involving sixty to eighty participating field activity personnel who will be visiting for local meetings and conferences. The incumbent will provide administrative support for these meetings and their arrangements. Minimum Qualification Requirements: One year general and one year specialized experience in accounting with X-118. Job Relevant Criteria: Must be able to meet and deal with public.

**Clerk-DMT, GS-316, 3 or 4, PD No. 040292-1, Code 4042**—This position is that of secretary to the Structural Mechanics Branch, Weapons Development Department. Provides clerical and administrative assistance to branch personnel and supervisors. Receives telephone calls and official visitors, answers non-technical questions involving Branch operation, makes travel arrangements, keeps meetings and travel calendar, assembles materials for meetings and appointments, drafts and distributes branch level memos and correspondence. Minimum Qualification Requirements: One year general experience for GS-3 and one year general and one year specialized for GS-4 in accordance with X-118. Advancement Potential: GS-3 may be promoted to GS-4.

**Clerk-DMT, GS-316, 2, 3 or 4, PD No. 7940997, Code 4054**—This position is that of secretary to the Optical Design Branch, Weapons Development Department. The incumbent will provide assistance to the Branch Head and his staff by performing a variety of clerical and administrative duties related to the management of the office such as: scheduling appointments, conferences, telephone and receptionist work, receiving and replying to incoming mail, reviewing out-going mail, etc., provided a technical knowledge of specialized subject matter is not required. Minimum Qualification Requirements: One year general experience for GS-3 and one year general and one year specialized for GS-4 in accordance with X-118. Advancement Potential: May advance to GS-4.

**Clerk-DMT, GS-316, 2, 3 or 4, PD No. 7940108, Code 4052**—This position is that of secretary to the Aerodynamics and Control Branch, Weapons Development Department. The incumbent will provide assistance to the Branch Head and his staff by performing a variety of clerical and administrative duties related to the management of the office such as: scheduling appointments, conferences, telephone and receptionist work, receiving and replying to incoming mail, reviewing out-going mail, etc., provided a technical knowledge of specialized subject matter is not required. Minimum Qualification Requirements: GS-2, completion of High School or six months' experience; GS-3, one year general and GS-4 one year general and one year specialized experience in accordance with X-118. Advancement Potential: May advance to GS-4.

**Clerk-Typist, GS-322-2, 3 or 4, PD No. 7940009, Code 4055**—Performs branch clerical duties such as typing reports and correspondence, filing, answering telephones, receiving visitors, etc. Minimum Qualification Requirements: GS-2, six months' experience; GS-3, one year of experience; GS-4, two years of appropriate experience. Job Relevant Criteria: Experience in typing technical correspondence and reports is desired. Advancement Potential: GS-2 or 3 may advance to GS-4.

**File applications for above with June Chipp, Bldg. 34, Rm. 206, Phone 2674.**

**Military Pay Clerk, GS-545-3 or 4, Code 1765, PD No. 7117013**—This position is located in the Documentation Branch, Engineering Division. The function of this branch is to provide technical film reports, slide presentations, photographic booklets, illustrations and technical reports to present information on the department's technical programs and facilities. Incumbent assures that manuscripts are suitable for publication in terms of organization, format, grammar, spelling, punctuation, abbreviations, verification of references, and correct use of symbols. Assures material to be published has been reviewed and concurred in. Incumbent will also compile visual aids and related material. Minimum Qualification Requirements: One year of general clerical experience plus one year of specialized experience for the GS-4 and two years of specialized for the GS-5 in the type of work shown above. Job Relevant Criteria: Experience in editing and typing technical

**ADDED ATTRACTION**—Members of the China Lake Chapter of the Sweet Adelines, under the direction of Eleanor A. Hartwig, will raise their voices in song in a vocal music program Saturday night at the NWC Theater featuring the internationally famous Al Malaikah Shrine Chanters.

### Al Malaikah Shrine Chanters To Sing Here

A special treat for music lovers of China Lake and the surrounding area is in store Saturday night at the Naval Weapons Center when the Al Malaikah Shrine Chanters will be presented in a program of choral music and close harmony vocalizing.

Curtain time will be 8 p.m. Saturday and tickets, priced at \$2 per person, will be on sale at the theater box office prior to show time. They also will be available today in Bennington Plaza and can be obtained from members of the Shrine Club and the Sweet Adelines, local feminine barbershop harmony song chorus, who also will take part in the program.

The Al Malaikah Shrine Chanters, an internationally known chorus, will be making their second appearance here through arrangements handled by the Desert Shrine Club of Indian Wells Valley. They will be bringing an entirely new program that will include colorful costuming, dramatic lighting and unusual stage settings.

The Chanters, directed by A. Toby Burris, are a 50-man chorus whose members have been heard in performances at the World's Fair in New York, as well as in Honolulu, San Francisco, Chicago, Miami, Washington, D.C., and

Mexico City in addition to 50 to 75 yearly appearances throughout Southern California.

Money raised from the sale of tickets to their programs is used for support of 17 Shrine Hospitals and three Burns Institutes that have been established for the care and healing of crippled and injured children.

### Astronomy Gp. To Show Film On Dr. Goddard

"The Dream That Wouldn't Down," a film depicting the early ideas and experiments of Dr. Robert Goddard, will be shown at the next meeting of the China Lake Astronomical Society. Dr. Goddard's work was the basis of modern space flight.

Also to be presented during the meeting will be a review of the recent Apollo 15 flight by means of video tape and color slides. In addition, Frank Grober will give a talk on asteroids and minor planets.

The meeting will begin at 7:30 p.m. Monday at the Astronomical Society clubhouse, 401-A McIntire St., China Lake. The public is invited to attend.

**File applications for above with Linda Grossman, Rm. 204, Bldg 34, Phone 2925.**

**Clerk DMT, GS-316 3 or 4, PD No. 7145078, Code 4541**—Incumbent serves as secretary to the Head, Explosives Branch and performs clerical and secretarial functions for the Explosives Branch, Applied Research and Processing Division, Propulsion Development Department. This position is located in the Salt Wells Area (Bldg 151) of the Propulsion Development Department. Incumbent receives visitors, answers phone calls, schedules appointments, is responsible for all forms of correspondence, processes mail and maintains filing systems. Edits and types technical letters, papers and reports for the supervisor and other members of the group. Qualification Requirements: For GS-3: one year of appropriate experience; for GS-4: two years of appropriate experience as defined in CSC Handbook X-118. Job Relevant Criteria: Experience in the secretarial, or stenographic field, and the ability to operate a dictating machine is desirable.

**File applications for above with Linda Grossman, Rm. 204, Bldg 34, Phone 2925.**

**Electronics Technician, GS-856-10, Code 505, PD No. 7150092**—This position is located in the Fuze Department, Electromechanical Division. This position encompasses the electronic aspects of the design and testing of safety-arming and fuzing devices. The incumbent designs new techniques and methods for testing and evaluating safety-arming devices and electromechanical fuze components. Qualification Requirements: 2 years of general and 4 years of specialized experience as defined in CSC Handbook X-118. Job Relevant Criteria: Incumbent must have a basic knowledge of fuzing and safety-arming requirements of weapons systems and the ability to relate these to the design or other aspects of his assigned tasks.

**File above applications with Pat Gault, Bldg. 34, Room 202, Phone 2723.**

### A Look Into The Past

From The Rocketeer Files

#### 25 Years Ago . . .

Door-to-door mail delivery was proposed for China Lake residents . . . Permits to purchase goods at the Commissary were made mandatory . . . A new Stran steel hut burned down, loss - \$3,700 . . . The Garlock-Ridgecrest cut-off road opened after being resurfaced.

#### 15 Years Ago . . .

China Lake personnel declared eligible for FHA loans . . . Cdr. J. J. O'Brien assumed Command of Pasadena Annex . . . NOTS had a display in the Navy exhibit at the annual Instrument - Automation Conference and Exhibition, New York . . . Burroughs High enrollment all-time high set - 720 students.

#### 5 Years Ago . . .

The USS Butternut (Pasadena's ship) celebrated 25 years of continuous service . . . Gerald Whitnack, research chemist, developed method of polarography as tool for oceanography . . . IJW Explorer Scout Post 291 related trip down storied Rogue River . . . Showboat featured a film entitled "Namu, the Killer Whale," which starred Namu, who was the forerunner of Shamu, the whale who recently died at San Diego. Both whales underwent study and training at NUC.

### Desert Empire Fair Parade Entry Blanks Due by Sept. 18

Clubs, organizations and individuals interested in participating in the 1971 Desert Empire Fair parade have from now until Sept. 18 to obtain and file entry blanks.

The entry forms can be obtained from Jeanne Thornburg, parade director, at her home, 129 Fire Opal Dr., Ridgecrest (phone 375-2639) or at the Decorator Showcase, 205 Balsam St., Ridgecrest, where headquarters for this year's fair will be located following Labor Day (Monday, Sept. 6).

"Desert Beautiful" is the theme of the 1971 Desert Empire Fair parade, which is to be staged on N. China Lake Blvd. on Saturday, Oct. 2.

Plans for the parade are being developed by a committee whose members, in addition to Mrs.

Thornburg, the chairman, are George Thornburg, Don Jo McKernan, Jack and Ruth Klever, Bell Sidney, Mary Rayner, Billie Vang, and Lt. Cdr. "Sandy" DeBodisco, who is serving as military liaison officer.

Among the details already settled is who will serve as the parade's division marshals. Those chosen for this honor are Lorry Wagner, Barbara Jackson and Ev Long, all local residents; Joe Spaulding, from Santa Monica, and Earl and Esther Wilson, from Barstow.

A color guard from the Marine Corps Supply Depot at Barstow will lead the parade, and prominent in the vanguard of the procession will be cars carrying Rear Adm. William J. Moran, Commander, Naval Weapons Center, and Kenneth Smith, mayor of Ridgecrest.

### Editorial Bd. Established For Rocketeer

An editorial board was established recently and assigned the mission of formulating policies to guide the editorial content, balance and coverage of the ROCKETEER.

Purpose of such guidelines is to insure that the NWC newspaper will equitably and adequately serve as a news medium for the entire Center, its mission, its people and its life.

It is acknowledged that any policies that are established will require adjustment from time to time in response to the evolution of NWC as its mission is adapted to the changing needs of the Fleet, and as adjustments are made within the community of China Lake.

As presently constituted, the ROCKETEER editorial board is chaired by C. E. Van Hagan, acting head of the Technical Information Department; Capt. A. E. May, Deputy Commander, NWC; Capt. R. E. McCall, Commanding Officer, NAF; Dr. Marguerite Rogers, head, Weapons Systems Analysis Division; John DiPol, associate department head for Range Operations in the Engineering Department; Bill Werback, president of the China Lake Community Council, and Mrs. R. M. McClung, representative of community at large.

Also a member of the editorial board, in an ex-officio capacity, is Don Yockey, editor of the ROCKETEER.

China Lake residents or employees who have comments or suggestions concerning the operation or content of the ROCKETEER are invited to contact any of the editorial board members.

### Jr. Rifle Club Season To Begin

Junior Rifle Club members are preparing to begin another season with the VFW Ship 4084 sponsored club, which will hold its first shoot of the year on Saturday, Sept. 11, beginning at 8:30 a.m. The meet will take place at the Police Pistol Range and will include a business meeting.

All youngsters of Indian Wells Valley are invited to come out and participate in the rifle practice and qualification program, the matches, and the comprehensive training program, in which the heavy emphasis is on safety with firearms.

Prospective club members are reminded that State law requires each minor to have written parental permission before any training, weapons, or ammunition may be furnished to him.

### Brewer's 1178 Takes Top Prize In Summer Tilt

Ralph Brewer shot a fantastic 732 for his final three games and 1113 scratch for five games to win the Ridgecrest-China Lake Men's Bowling Association summer tournament recently. Brewer's final score was 1178 with handicap. Dan Childers finished second with 1146 and Billy Esch garnered third place with an 1135 total. Floyd Forrand had 1124 and Aaron Kane shot 1112.

### Employee In the Spotlight

Claude M. Wood

Claude M. Wood, Head of the Missile Guidance Branch, Code 3524, has been selected Employee in the Spotlight for this issue.

Wood joined NWC in April 1963 after working at the Naval Air Station, North Island, for nine years.

It was while at NAS that he finished college, graduating with a BSEE from San Diego State College, in 1960. When he arrived at NWC, Wood joined Code 4022 and worked under Bill Porter as an electronics engineer.

Wood has worked on captive flight test and evaluation with the SHRIKE program and after going to work for Jack Russell he took over the RF Measurements Branch and developed the anechoic chambers.

"This is the finest RF measurement laboratory in the free world," he stated. "I am very proud to have had something to do with the labs' installation."

The anechoic chamber, along with its antenna range, enabled NWC to meet the challenge of developing supersonic radar guided missiles.

Since becoming an employee of NWC, Wood has received an Outstanding Performance Rating and other awards. He is presently working for Bob Corzine on missile guidance systems for anti-radiation weapons.

The Wood family believes in togetherness. Claude's wife Beverly and their five children: Lee, 21, Danny, 19, Claudia, 17, Paul, 16 and Robby, 13, frequently participate in those kinds of activities the whole family can enjoy.

"We do a lot of backpacking, hiking, hunting, fishing and are involved in Scouting," Wood elaborated. Beverly has been a Girl Scout leader for the past 11 years and is presently leader of Troop 170. Claude is an ex-Scoutleader of Troop 3. He recently took Boy Scout Troop 35 on a trip from Onion Valley, over Mt. Whitney and down through the Portals.

Prior to that he took a troop of Girl Scouts on a 57-mile back-

packing trip which started at North Lake (above Bishop) and finished at South Lake. "Believe me," he recalled, "if you've ever spent 57 miles with a group of girls, you've been put through the wringer."

Things are pretty quiet around the Wood household at the moment, however. Lee is attending San Diego State College studying astronomy and Danny goes to Northrup Institute, in Inglewood, where he is taking up aviation mechanics. Claudia will begin her freshman year at the Desert Campus of Bakersfield College.

Beverly, whose main occupation, according to Claude "... is just being my wife, and that's enough," recently wrote an article on backpacking for Woman's Day magazine. "I think it's the finest article on backpacking I've ever read," Claude beamed.

Wood spends most of his spare time working at the Desert Campus where he teaches electronics. He began the electronics program at the college. "I'm not much of a joiner," he replied, when asked about community involvement. However, he has been on the Professional Recruitment Committee and while in the San Diego area was on the advisory board for Grossmont Junior College. He is a past member of the Ridgecrest United Methodist Church board of trustees. His wife, Beverly is a member of the Women's Society of Christian Service and has held several offices with that group.

### 2nd Birthday Celebration

#### Slated Tuesday by Help Line

Help Line will celebrate its second birthday on Wednesday, Sept. 15, with a luncheon, election of officers, and a report on the year's activities.

The meeting, which is open to the public, will be held at the Commissioned Officers' Mess. Lunch will be served at noon, and will cost \$2.50 per person.

Reservations may be made by phoning Mrs. Robert Dillinger, 446-6163, or Mrs. John Strang, 446-2261, by Sept. 11.

A short film, "When Is It Right To Be Right?" also will be shown at the meeting. The animated feature was presented at a recent International Hotline Conference attended by Help Line directors, and was highly acclaimed by those who saw it.

The meeting will mark completion of one year of Help Line's 12-hours-per-day operation. Phones were manned from 6 p.m. to midnight during the organization's first year, with service expanded to include the midnight to 6 a.m. shift in September, 1970.

The volunteer-run telephone service has received over 1,000 calls this year from people faced by crisis situations or needing information on where various kinds of help are available.

Added to the 600 calls from its first year of operation (and taking into account the increasing number of people who phone more than once), Help Line estimates that some 5 percent of Indian Wells Valley residents now have dialed 446-5531 to ask for its services.

**BURROS GRIDDERS OUTFITTED** -- Bruce Bernhardt (at left), head coach of the Burroughs High varsity football team, lends a hand fitting shoulder pads on two of his stalwarts. The players are Wayne Read (center), an offensive lineman, and Steve Robinson, a tight end who also is a kicking specialist. The Burros began conditioning work last week, and are now working out in full equipment in preparation for the 1971 season opener here on Saturday night, Sept. 25, against Santa Clara High School.

### Heavy Schedule of Golf Events Slated For Fall

Gary Wydra, tournament committee chairman at the China Lake Golf Club, has announced a heavy schedule of fall golf tournaments. "Because of the special events connected with the two tournaments in October, the sign-up deadline for the Past Commander's tourney and the Invitational, a partner's best ball event, will be played Oct. 9 and 10. Signup deadline is Oct. 3.

Details for all these tournaments, plus a sign-up sheet for each individual tourney, are available at the golf course pro shop.

### Junior Bowling Hours Set

According to Myrtle Snyder, secretary for the Junior Bowling Leagues, the Saturday morning leagues have been set up and registration of participants is nearly completed.

Bantams (age 10-12) will bowl at 9 a.m. at Hall Memorial Lanes

### VX-5 Footballers Ready For All Challengers

China Lake Football League titans for four years running, the VX-5 Vampires begin the 1971 season with only five players returning from last year's championship squad.

Missing are the entire offensive backfield, all but one of the starters on the offensive line, and all but four of the starters from the defensive team, yet Coaches Fritz Herr and Jim Seymour seem relatively unconcerned.

"Sure we lost a lot of individuals, but it takes nine men to make a team. We have almost a brand new team, but our players are big, and

**VAMPIRES PREPARE FOR SEASON** -- Warm-up calisthenics begin a VX-5 practice at Schoeffel Field in preparation for the China Lake Football League opening Sept. 28. The Vampires have been league champions four years in a row.

## nwc rocketeer Chili Not Chilly For Skier

Three weeks in South America—beaches, daiquiris and sunshine. That's the life.

But not for Roy Miller, skiing aficionado and advocate of the eternal winter. Instead, he chose the snowy slopes of the Chilean Andes and three weeks of intensive competition ski training.

Miller began skiing only four years ago, but has already become a competition skier of some merit with help from friend Billy DeHaas and a regimen that includes a daily run up B Mountain. For him, nothing could supplant a skiing vacation.

"I felt I got a lot out of the trip," says the suntanned Miller. "The skiing was good and the people were marvelous except for banners that read 'Liberate Copper' and the demonstration during our last week in Chile."

Miller's trip included two weeks of skiing at La Parva and four days at Portillo, Chilean slopes that serve as the summer training ground for the Swiss, Italian, Canadian and American ski teams, among others.

At La Parva he and the other 19 skiers in the same training camp concentrated on the slalom and giant slalom and at Portillo practiced downhill races.

"The downhill at Portillo is unbelievable. It's an avalanche slope with no definition—no rocks or trees. It's like coming down the side of an egg at 80 mph."

The training at La Parva and Portillo marked the beginning of Miller's second year as a competition skier. During his initial season in 1970-71, Miller brought home three trophies racing in Class 3 (ages 40-48) veterans'

**ROY MILLER ON THE SLOPES**

In a standardized NASTAR competition race at Jackson Hole.

including a third place trophy his first time out.

He finished third in the Vets Warmup giant slalom at Bear Valley and went on to take two other trophies during the season, a third in the giant slalom at Dodge Ridge and a second in the San "G" giant slalom at San Geronimo.

All of this, of course, was in preparation for the Veterans' Nationals at Sun Valley, where Miller finished 10th in his class overall to mark the peak of his first competitive season.

"In 1969 Billy began running me through gates with no competition and I decided that I wanted to ski

seriously. Then when I came in third at Bear Valley, it really got me going."

Though his passion of the moment is skiing, Miller is a regular in the win-some, lose-some, but suit-up-for-all-of-them league. Volleyball, softball and tennis lure him in season, and at each Miller practices to play the game well—not necessarily to win, but to master the sport itself.

And that perhaps is the key to his attitude toward skiing or life in general. If he thought he could improve, Roy Miller would practice breathing.

## SPORTS

### Mt. Whitney Rescue . . .

(Continued from Page 1) Diego Mountain Rescue Teams and were in constant contact with the base camp and others active in the rescue effort.

During the night Monday, rescue personnel from Riverside (3), San Diego (8) and Sierra Madre (3) checked in at the base camp and began the hike to the upper camp. In addition, four more CLMRG members, Dr. Carl Heller, Bob Joy, Don Peterson and Peter Woodman, arrived at Lone Pine early Tuesday morning to join the other volunteers involved in the rescue attempt.

The search for the exact location of the stranded mountain climbers from Tarzana was resumed at dawn Tuesday, using a Forest Service charter helicopter piloted by Harold Dickey.

At this time, Orton and MacInnes

### Stitchery Class Set

Registration is now being taken for a class in creative stitchery and design that is to be taught by Mrs. Betty Brown.

The class, eight weeks in length, will be held at the Community Center between 9 and 11:30 a.m. on Wednesdays, starting Sept. 22.

A \$25 tuition fee will be charged and instruction for both beginners and advanced students is to be offered.

Persons interested in receiving such instruction can register for the class by calling the Community Center, phone 2010. The enrollment period ends on Sept. 20.

were sighted and appeared to be in good physical condition in spite of being exposed to two nights of freezing temperatures, driving rain, snow, hail and high winds.

A Navy helicopter, this time piloted by Cdr. Spradley and Maj. Jack Pipa, USMC, was summoned and used along with the Forest Service chopper to ferry men and supplies to East Face Lake.

From there the big push, using ropes and pitons, was launched to reach Orton and MacInnes. The two stranded mountain climbers were finally contacted at 10:40 a.m. by Arnold Green, who was belayed by Bill Stronge. After receiving food and water, the two young men from Tarzana were helped off the sheer rock face of Mt. Whitney by teams of roped-together rescuers.

A concerned and interested onlooker throughout this final phase of the rescue operation was Dr. Douglas MacInnes, father of Orton, who waited tensely for his son's safe return as he watched the progress of the rescue attempt from the vicinity of East Face Lake.

Members of the China Lake Mountain Rescue Group and others involved in the rescue effort were working against time throughout this mission, they report, being mindful of the fact that the two stranded mountain climbers might succumb to hypothermia—the lowering of body temperature to the point that mental discipline

**END OF ORDEAL**—Moving agilely enough, despite their exposure to two nights of freezing cold on Mt. Whitney, the two Tarzana men who were the object of a successful rescue mission are shown with two of their rescuers as they head for the Navy helicopter that provided them both a quicker and safer trip down the mountain from East Face Lake than would have been possible afoot.

dissolves and physical shock, which could lead to death, takes over.

Orton and MacInnes, and all those involved in their rescue, were flown by helicopter from East Face Lake back to the base camp at Lone Pine before 5 p.m. Tuesday.

Because of the altitude and

### 90 Firemen Complete Advanced First Aid Training

All of NWC's 90 firemen have now qualified for American Red Cross advanced first aid certificates. With the Fire Department taking over the ambulance service at the Naval Weapons

Center, this training will receive immediate and constant use.

Clifford Wright, a member of the board of directors of Kern Chapter of the Red Cross, taught the

helicopter limitations at such heights, it was necessary for seven trips to be made by the Navy helicopter between Lone Pine airport and Mt. Whitney, Cdr. Spradley reported.

Had it not been for use of helicopters, rescuers' difficulties would have been infinitely compounded in helping the stranded

firemen at the main station and at Randsburg Wash; Gary Peek instructed at the Naval Air Facility. Both are highly qualified first aid instructors.

The training consists of instruction and practice in emergency care for fractures, wounds, burns, shock and poisoning. Safe methods of transporting those who are injured are

stressed. New in the training is the handling of emergency needs for victims of drug abuse.

In addition to the Red Cross training, Dr. Brian Moore of the NWC Dispensary taught closed external heart compression and other advanced techniques.

First aid and emergency care will be taught continuously to the firemen

**FIREMEN AT the Naval Weapons Center** are handling additional duties as operators of the emergency ambulance service. This new duty fits in with extensive first aid training that NWC fire fighters regularly receive. The adjoining photos show some of the typical types of instruction along this line that is offered. In top left photo, J. E. West, Jr. and Jim Ayers are shown applying a dressing to a head injury. The "victim" is E. C. Tillery, another fireman. In photo above, Capt. Cliff Wright discusses a chart of the human bone structure, while below in lower right photo Capt. Wright oversees practice in mouth-to-mouth resuscitation on a life-size dummy nick-named "ResuscAnne." In lower left photo, Gary Peak, another of the first aid class instructors, checks a sling applied by Bob Weston (in background) on Dave Workman.

# Civic Concert Association

PIANIST LEONARD PENNARIO will pay his third visit to China Lake in concert on Thursday, Jan. 6, 1972.

THE JULLIARD STRING QUARTET began playing 25 years ago. China Lake concert-goers will hear the musical results of a quarter-of-a-century together when this group visits Monday, Feb. 14, 1972.

Duo-harpists Longstreth and Escosa will open what could be the China Lake Civic Concert Association's finest season on Tuesday, Nov. 16. Five exciting concerts have been booked by the Association, including Marcel Marceau, the world's greatest pantomime artist, Leonard Pennario, gifted piano virtuoso, the Juilliard String Quartet and the Ford Comic Opera Theater, performing "The Barber of Seville."

Association members will receive their seating assignments during meetings at the Maturango Museum Oct. 26, 27 and 28. Persons who desire to become members are asked to call 446-4182 or 375-5946.

### Native Hoosiers

Joe Longstreth and John Escosa were introduced to the harp at Wainwright Music Camp in Indiana, but did not meet and collaborate until both were proven individual successes. Upon chance introduction, they decided to record an album of traditional and original Christmas carols which was highly successful, and created a subsequent demand for personal appearances of the two outstanding artists.

Both men are native Hoosiers and have wide and varied backgrounds in all fields of musical experience in the United States and Europe. Both have studied at some of the finest schools of musical training - Escosa at Juilliard and Longstreth at the Conservatorio di Santa Cecilia in Rome.

Since their initial concert appearances as duo-harpists in 1964, Longstreth and Escosa have been much in demand. Reviewers and audiences alike have responded with enthusiasm to their virility and depth and the surprising excitement in their programs.

### Greatest Living Pantomimist

Marcel Marceau has been acclaimed as the greatest living pantomimist and is one of the most widely traveled stage personalities in the world today. He will begin his eighth tour of the United States and Canada this month and will perform on this continent for five months.

Critics have outdone themselves in hailing the artist: The New York Times recently said "... If you haven't seen him already, go and see him now. If you have, go and pay your respects. He is marvelous."

Hailed throughout the world as the foremost interpreter of one of the oldest, least practiced and most difficult of the performing arts - the art of gesture - he is known to American audiences not only through the theatre, but also via his movie and television appearances.

His latest motion picture ("First Class") in which he portrays 17 different characters, is currently being shown in this country.

Marceau, who counts Charlie Chaplin as one of his early sources of inspiration, is now considered the only true successor to that fabulous mime.

### Pennario Serious Pianist

Seriousness of purpose does not require a frown, nor will an easy grin disguise it. There, in a nutshell, is the key to understanding Leonard Pennario, renowned pianist who will appear at China Lake on Thursday, Jan. 6.

A lifetime of dedication to the highest ideals of the interpretive art has earned him a place as an international celebrity. In his native Buffalo, N.Y., and later in his adopted Beverly Hills, Pennario grew up like any other typical young man, with the usual active interest in sports and other non-musical activities.

But his inner life, his years of selfless devotion to music - are apparent when he plays. Pennario has performed with every major orchestra in the United States, and with many more than once.

Today he enjoys an international reputation by virtue of his many tours throughout most of the world. The drive and dedication of Pennario, which is reflected in his music, caused one eminent critic to comment "... You have to think up names like Rachmaninoff and Horowitz to give an adequate idea of his vitality and drive, the incisiveness and tonal control he brings to the concert stage. Pennario owns the priceless quality of a flaming temperament."

China Lake audiences may not see this flaming temperament, but they will certainly hear it.

### 25 Years of Music

When members of the Juilliard String Quartet celebrated their 20th anniversary in the spring of 1967, Newsweek defined the aura of glamor which surrounds the group's appearances: "The extraordinary unity the Juilliard Quartet achieves is not the compromise of four musicians mixing a rich homogenized brew with every ingredient at hand; instead, the players dynamically assert their individuality, intensifying the tension between the one and the many. The group's uninhibited performances crackle with electricity as they gamble on a promised fusion that can be almost nuclear in its explosiveness."

"It is common knowledge that the Juilliard String Quartet represents the very model of modern quartet playing at its best," stated Harold Schonberg, supreme critic at the New York Times.

China Lake concert-goers will hear for themselves the four talented virtuosos perform a wide range of works. Since their formation in 1946 they have built up a repertoire of 135 works, ranging from the classics to the moderns.

### Comic Opera Is "Good Theatre"

It is the thought of John Arnold Ford, founder of the Comic Opera Theatre, that opera, particularly comic opera, should be "good theater." Opera, as it is presented today, is often times "bad theater." Ford stated that the reason for this situation is because too much emphasis is put on the glorious tone of the singer with little or no emphasis put on the histrionic ability of the singer to impart a true character to his audience.

The Comic Opera Theatre performers sing in English, with perfection. "We stress the fact that singers can sing good English if they work hard enough," Ford said. "There is no reason why, when we speak English every day of our lives, we cannot be understood when we sing on stage."

The group has been performing for 19 years and is an outgrowth of the Educational Opera Association, Inc.

# Presents 1971-1972 Season

KEN REMO will enact the role of Count Almaviva in "Barber of Seville" before China Lake concert-goers when Ford's Comic Opera Theater visits the Valley Thursday, March 16, 1972.
