Page Eight **Mercury hits** season's high 112 deg. Aug. 1

Any impressions local area residents may have gathered that this has been an especially warm summer are well founded.

According to information obtained frompersonnel assigned to the Naval Weather Service Environmental Detachment at the Naval Weapons Center airfield, there were only four days of less than 100 degree maximum temperatures during the month of July.

In addition, the past month ended with two consecutive days when the mercury climbed to 109, and Monday, Aug. 1, was another sizzler as the temperature hit a high of 112.

John Gibson, a civilian employed here by the Naval Weather Service Command for the past four years, and a retired Navy veteran of 25 years experience in Navy weather service, reports that this past month was the hottest July on record since he began his civilian employment at China Lake. He also had served here previously while on active duty in the Navy.

The past weekend's hot weather which continued on Monday was the result, Gibson said, of a weather system high over the southwestern part of the U.S. that caused the air to become stagnant.

Cooler Weather Forecast

By Tuesday morning, the forecast was that this weather system would begin slowly to drift eastward, thus bringing about a return of the normal southwest flow of air and a lowering of temperatures.

An unusual phenomena, observed shortly before 5:30 p.m. Monday, was a down draft from a thunder shower that swept across a portion of the local area. The path of this down draft, which was lacking in the moisture content of a typical thunder shower accompanied by thunder and lightening, was marked by a dust cloud that picked up paper and other debris and sent it swirling aloft to a height of 100 to 200 ft.

Monday's extremely hot weather placed an unusually high demand on the services of the 11 refrigeration mechanics assigned to the Public Works Department's Air Conditioning and Heating Shop.

J. M. Choate, foreman of air conditioning in Code 26433, reported that his men were doing their best to keep on top of everything, and were "running fast and furious" to keep up with work requests for servicing and repairing refrigerated air conditioning units located in many of the offices on the Center.

TO APPEAR IN CONCERT - Famed singer Ray Charles and his troupe of 30 entertainers will perform at the Center Theater on Sept. 22 at 6:30 and 9 p.m. There are no reserved seats, and tickets for either performance, at a cost of \$4 each, are on sale now at the **Community Center, Commissioned** Officers' Mess, Chief Petty Officers' Club, The Shuttle, Hall Memorial Lanes, China Lake golf course pro shop and at the Special Services Division office in Bennington Plaza. They are also available at the Gift Mart, Baker Brothers' Furniture Store and Deboni's Ice Cream Parlor, all in Ridgecrest, and at the Inyokern Market in Inyokern.

"THE RETURN OF THE TALL BLONDE MAN WITH ONE BLACK SHOE" (81 Min.) Pierre Richard, Mierrle Darc

(Satire) Tall, blonde violinist Pierre has been mistaken for a master spy. This film traces the bumbling mishaps of the innocent victim as he has a go-around with devious government officials and agents. (PG) SAT. 6 AUGUST

> Free Matinee "OKLAHOMA BADLANDS" 1:30 p.m.

SAT.

6 AUGUST "THE SHOOTIST" (99 Min.)

John Wayne, Lauren Bacall Western Drama) In 1901, an aging gunfighter (John Wayne) rides into Carson City to be examined by his old doctor friend. The diagnosis is cancer with certain death in a short time. He checks quietly into the lodging home of Bacall, but identity is soon revealed. Bacall's son is thrilled, but many hold a grudge and the mayor is upset to have such a man in his town. The gunfighter's enemies gather in a saloon to meet him in a gunfight. After killing them, he is wounded by bartender. (PG) 8 AUGUST

"AIR PORT 77" (114 Min.)

Jack Lemmon, James Stewart

(Adventure Drama) First released in March 1977, this is the third in a series of "Airport" drama inspired by Arthur Hailey's book. A pilot (Lemmon) is selected by his employer (Stewart) to fly a small group of art collectors and critics to innauguration of his new museum collection in Palm Springs. The plane soons runs into trouble as three men seize control to hijack the paintings. Somewhere over the Bermuda Triangle, the plane crashes and the Navy is called in to salvage the plane and free the passengers trapped under the sea. (PG)

10 AUGUST

Matine "TALES OF WASHINGTON IRVING"

1:30 p.m. (Adventure) Early America was never as vividly, humorously and lovingly portrayed as in the immortal stories of Washington Irving. Beautiful color and animation bring some of his favorite places and people back to life in this joyous film version. Ichabod Crane and Rip Van Winkle are among the residents of the Dutch settlement in the Hudson River Valley where Irving's tales are set. (G) 10 AUGUST

"THE GREAT TEXAS DYNAMITE CHASE"

(89 Min.)

Claudia Jennings, Jocelyn Jones (Action Drama) An August 1976 release, this film concerns two girls - Claudia who has just escaped from a county prison and Jocelyn who is a fired bank feller — who feam up and go on a ba robbing spree with dynamite as their weapon. During a store holdup they capture a hostage who enjoys their company and continues to pose as their hostage at each bank job Luck finally runs out at a secluded motel hideout when their makebelieve hostage is gunned down. However, the girls evade the police by dynamiting their car. (R)

Free steak dinners offered

Due to operational reasons, the Commissioned Officers' Mess will be offering its free monthly steak dinners for paid up members only on Tuesday, Wednesday and Thursday nights. For further information, contact the COM by calling 446-2549. U.S. Government Printing Office:

one of the places sought out by China Lakers trying to beat the heat of the 112 degree maximum temperature this past Monday. Most local area residents preferred just staying indoors, if it was possible to do so, since the COM swimming pool wasn't overcrowded despite the hot weather. -Photo by Ron Allen

Transpacific Yacht Race entrant to sail craft home from Honolulu

A trip by sailboat, but not another yacht traveled along with only its main sail race, is coming up for Ruel Cameron, a budget analyst in the Reports and Analysis Branch of the Office of Finance and Management.

At the present time, Cameron is preparing to leave next Wednesday for Honolulu, Hawaii, where his 36 ft. Columbia class sloop "Tahuna" is undergoing repairs following its participation in the Transpacific Yacht Race, which began on July 2 off Pt. Fermin (near San Pedro).

Cameron and his 5-man crew, which included two other Centerites - Charles Dye, head of the Aircraft Armament Division in the Systems Development Department, and Tom Gerrard, who is an administrative officer in the Laser / Infrared Systems Division of Code 31 - found the going difficult in the San Pedro to Honolulu event and were the last boat to cross the finish line, which they did on Sunday, July 17.

On the seventh day out of San Pedro, after having covered nearly 1,200 miles (halfway), the Tahuna and other sailing craft entered in the Transpacific Yacht Race ran into bad weather.

High winds blew out the spinnaker sails, and some sail spreaders were broken off at the mast. For five days, the Tahuna take about three weeks to complete.

Ballet Arts Theatre registers new students

Registration of new students by Bette imagination through movement Jacks' Ballet Arts Theatre (BAT) is being held throughout the month of August.

Sign-ups are being conducted Mondays through Thursdays from 3 to 5 p.m. at 303 Blue Ridge Rd., China Lake.

Openings exist in all age groups (children, adults and professionals). Students will be taught classical ballet and development of coordination, grace and poise

In addition, Ballet Arts Theatre is offering courses in Creative Dance Ex-

this time in order to:

NSAP SCIENCE ADVISORS VISIT — During a recent day-long briefing session at NWC, new Science Advisors who will take year-long tours in the Navy Science Assistance Program were given overviews and progress reports by many of the Center's top administrative and scientific personnel. Here Doug Savage (left), an employee of the Weapons Department's Electronics Systems Branch and project engineer for the At-Sea Target program, shows the visitors the mold and one of the first sections of a prototype target, which will be a 20-sided plastic polygon. The objective of this NSAP program is to provide the Seventh Fleet with an inexpensive target with scoring capability to be used for open-ocean air-to-surface bombing practice. Present in the NWC machine shop to hear Savage's presentation were (I.-r.) Tom McCants, Bill Heard, Ron Serpone, Bob Sulit and Bob Young. The latter is in charge of NSAP programs for NWC's Fleet Support Office.

4 Science Advisors from NAVMAT labs briefed on programs at NWC

A day-long series of briefings and presentations by many of the Naval Weapons Center's top technical and managerial personnel were provided recently for four new Science Advisors, outstanding scientific and administrative personnel from Navy laboratories of the Naval Material Command who have been appointed to year-long tours at Fleet commands.

A function of the Navy Science Assistance Program (NSAP), the Science Advisor program allows the laboratories to directly assist the Fleet with on-the-spot expertise while it provides valuable "real-world" experience and appreciation of operational and tactical problems for key laboratory personnel.

Full Support Given by NWC

A measure of the Center's support for this program was the day of briefings, held July 14. Fleet support overviews were given of seven technical departments by the heads of those departments or their representatives. Specific areas of interest covered in their briefings were the scanning electron microscope, microelectron technology, and the intelligence library. The day culminated in a discussion of the Test and Evaluation Directorate by Capt. Sig Stocking, acting Deputy Test and Evaluation Director.

New Science Advisors present at these briefings were Bob Sulit, who is assigned to Commander, Surface Forces, Pacific: Bill Heard, assigned to Commander, Surface Forces, Atlantic; Ron Serpone, assigned to Commander, Second Fleet; and Tom McCants, assigned to Commander, Operational Test and Evaluation Force. Sulit is an employee of the David Taylor Naval Ship Research and Development Center, Washington, D.C., while the other three visitors hail from the Naval Surface Weapons Center, Dahlgren, Va.

Two NWC employees (not present at the briefings) are presently serving as NSAP Science Advisors. Ed Swann from the

Weapons Planning Group is in the midst of a productive year as Science Advisor to Commander, Naval Air Forces, Atlantic; while Jack Russell, head of the Electronic Warfare Department, is an NWC representative in this program as NSAP Science Advisor to Commander, Seventh

Air Force was highlighted by many significant achievements that earned him

DISTINGUISHED VISITOR WELCOMED — As a memento of his visit last week to the Naval Weapons Center, General Curtis E. LeMay, USAF (Ret.), received an NWC plaque that was presented by Capt. Frederic H. M. Kinley, NWC Commander. General LeMay became famous during World War II as a commander of B-29 bomber units, and (in the postwar years) commanded the Stragegic Air Command for nine years before serving as Air Force Vice Chief of Staff, and during the last four years of his 37-year military career was the Air Force Chief of Staff. -Photo by Sam Wyatt

NWC one of four Navy labs to undergo RIF

ceiling

the workforce.

higher authority.

Capt. Frederic H. M. Kinley, Naval imposed since Feb. 28, 1977, it is still Weapons Center Commander, has been advised through information received from the Department of the Navy's Chief of Information, that NWC is one of four naval laboratories authorized to conduct a major reduction-in-force (RIF) this fiscal year.

The RIF authorization, which was received this past Tuesday, includes NWC, the Naval Surface Weapons Center, Dahlgren, Va., the Naval Air Development Center, Warminster, Pa., and the Naval Underwater Systems Center, Newport, R.I.

The RIF is in connection with an overall civilian employee decrease for the four laboratories of 1,074 Civil Service positions. In announcing this action, it was noted that the drawdown on billet ceiling is attributable to eight separate personnel ceiling reductions directed by the Congress, Department of Defense or the Navy Department.

NWC Ceiling Set at 4,069

The Naval Weapons Center's Fiscal Year 1977 ceiling is 4,069. This number, which was assigned by the Chief of Naval Material on Nov. 22, 1976, represents a decrease of 306 billets from the previous authorized ceiling allocation. In planning for this decrease late last year, it was determined that NWC would accomplish one half of the billet reduction through normal attrition and the other half through reduction in force, with the latter action necessary in order to ensure a balanced mix in the workforce skills while meeting the year-end ceiling on Sept. 30, 1977.

The Naval Weapons Center will be at or below its full time permanent employee ceiling shortly. However, a RIF will still be required. Because of the unexpectedly long time period involved in obtaining RIF authority, and the complete hiring freeze

requirements. **Famous retired Air Force general visits China Lake** national and international prominence.

During World War II, he commanded Air Force B-29 bomber units in both the European and Pacific theaters of operation.

When the war was over, he gained international recognition as director of the Berlin Airlift in his capacity as the Commander in Chief of the Strategic Ai Command (SAC).

While head of SAC, a post which he held for nine years, General LeMay conceived strategic concepts that called for aircrews and aircraft under his command to be on constant alert and ready to respond instantly to any threat of an attack.

Retired as USAF Chief of Staff

For the four years from 1957 until 1961, General LeMay was the Air Force Vice Chief of Staff and completed a distinguished career of 37 years of military service by serving as the Air Force Chief of Staff until his retirement in January 1965.

Lt. Col. James R. Gibbons, Air Force Liaison Officer assigned to the Naval Weapons Center, acted as General LeMay's host during his two-day visit. Highlights of his stay here included a talk with Capt. Frederic H. M. Kinley, NWC Commander, and a dinner at the Commissioned Officers' Mess.

In attendance at the latter affair, in addition to Capt. and Mrs. Kinley, were Robert M. Hillyer, acting NWC Technical Director, and Mrs. Hillyer; Dr. G. L. Hollingsworth, former Technical Director;

Promotional opportunities

Unless otherwise specified in the ad, applications for positions listed in this column will be accepted from current NWC employees and should be filed with the person named in the ad. All others desiring employment with the Naval Weapons Center may contact the Employment-Wage and Classification Division, Code 092, Ext. 2069. Ads will run for one week and will close at 4:30 p.m. on the Friday following their appearance in this column, unless a later date is specified in the ad. Employees whose work history has not been brought up to date within the last six months are encouraged to file a Form 171 or 172 in their personnel jacket. Information concerning the Merit Promotion Program and the evaluation methods used in these promotional opportunities may be obtained from your Personnel Management Advisor (Code 096 or 097). Advertising positions in the Promotional Opportunities column does not preclude the use of alternate recruiting sources in filling these positions. As part of the rating process, a supervisory appraisal will be sent to the current supervisor and the most recent previous supervisor of those applicants rated as basically qualified. The Naval Weapons Center is an equal opportunity employer and selection shall be made without discrimination for any nonmerit reason. The minimum qualification requirements for all GS positions are defined in CSC Handbook X-118, while those for all WG, WL and WS positions are defined in CSC Handbook X-118C.

Clerk, GS-301-4, PD No. 7609021N, Code 091 - This position is located in the Employee Mangement Relations Division of the Personnel Department. This position provides clerical support such as filing, limited typing, etc., for the Information Center; maintains personnel jackets and regulatory material; and provides personnel formation to those who have a legitimate need to know. This position has no promotion potential. Job Relevant Criteria: Ability to work rapidly and accurately, reliability and dependability, telephone answering skills and receptionist abilities.

Supervisor General Engineer, GS-801-12/13, PD No. 7761004E, Code 6123 - This position is that of head, Instrumentation / Avionics Branch, Aircraft Support Division, Aircraft Department. Duties are to provide technical direction to branch personnel in the areas of design, development, fabrication, installation and operation of airborne equipment and systems for all types of aircraft. In addition to technical planning, controlling and reporting, there are requirements for branch management and administration. Job Relevant Criteria: extensive experience in aircraft systems instrumentation, modification and operation; knowledge of Navy avionics systems maintenance; familiarity with T&E budget process and NWC management and fiscal policies and ability to supervise

File applications for the above with Carol Downard, Bldg. 34, Rm. 208, Ph. 2577.

Quality Inspection Specialist, GS-1960-5/6/7, PD No. 7626039N. Code 2682 - This position is located in the Maintenance Service Branch of the Public Works Department. This branch insures optimum completion of all maintenance and purchase service contracts, as well as all special inspection surveys of Center facilities. The incumbent is responsible for specifications, inspections, and certification for payment on selected service contracts for facility upkeep; conducting special reviews in support of NWC housing facilities, fine / safety surveys, and other facility conditions with respect to building codes and Navy instructions. Job Relevant Criteria: knowledge of defense contracting procedures and functions to be administered; ability to apply good judgment in analyzing work to be accomplished by contractors and to negotiate with and direct contractors in the field.

Mechanical, Electrical, Industrial Engineer, GS-830 / 850 / 896-11 / 12, PD No. 7570003, Code 26307 - This position is located in the Engineering Division of the Public Works Department. As the head of the Energy Conservation Office, the incumbent provides direction and overall coordination for the NWC Energy Conservation Program, identifies and monitors energy usage, develops improvement projects, and determines the cost efveness for the energy conservation improvements. As technical advisor to the department, conducts briefings and designs reviews to provide information and develop local standards. Job Relevant Criteria: knowledge of ngineering principles related to utilities systems; knowledge of conservation of energy through effective use of building materials and design ; ability to independently ister an engineering program of this type; skill in dealing with high-level military and civilian managers Clerk-Typist, GS-322-3 / 4, PD No. 7470030-2, Code 2683 -This position is located in Public Works Departmen Maintenance Control Division, Work Input Control Branch. The primary duties of this position include all typing and clerical duties, work reception and input, maintenance and control of all work requests, upkeep of numerous files and the publication of various management reports. Job Relevant Criteria: Ability to type efficiently and accurately; ability to work independently; ability to use judgment and tact for telephone and personal contacts; and skill in clerical duties.

Clerk (Typing) GS-301-4, PD No. 7725010, Code 267 -This position is located in the Transportation Division Public Works Department. The incumbent provides clerical duties to the division such as screening and routing mail, scheduling conferences, acting as recep tionist, maintaining files, and typing forms. Job Relevant Criteria: Reliability and dependability, ability to get along with others in the work group, to operate general office telephone contacts.

Crane Operator, WG-5725-11, JD No. 187-2, Code 26784 - This position is located in the Hoisting Sec tion, Operations Branch, Transportation Division, Public Works Department. The incumbent operates and maintains electrical, gasoline, and diesel-powered wheeled or crawler type cranes; power shovels and clams; stationary winches and railroad locomotives. The crane operator hoists and swings materials, such as armor plate targets and barricades, machinery, buildings concrete, special launchers, missiles; camera towers, and munication poles and towers; and equipment and personnel with cranes up to 165 ft. heights. The incumbent also digs and loads dump trucks for construction, digs out and cleans drainage ditches, and lubes and oils equipment as required. Job Relevant Criteria: Ability to do the work of the position without more than normal supervision ability to perform operational maintenance, reliability and dependability, ability to interpret instructions, specifications, etc., ability to operate safely.

Shop Planner (General), WD-6701-5, JD No. 554, Code 26403 - This position is located in the Scheduling Branch, Maintenance-Utilities Division, Public Works Department. The incumbent will plan for the Power and Communications Section and the General Structures and Walks Section, process all shop orders and job orders for shops, orders equipment, write orders for prefabrication by other shops, keep a record of all jobs not requiring the shop supervisor's personal attention and make daily progress reports to the maintenance scheduler. Job Relevant Criteria: knowledge of trade and associated technical practices; ability to meet deadlines under pressure; ingenuity (ability to suggest and apply new methods); ability to communicate (skill in written and oral expression); ability to plan, estimate, progress, and schedule production; ability to deal with others. This ad is being rerun to insert information inadvertantly omitted in the July 8, 1977, issue of the ROCKETEER. Previous

applicants need not reapply File applications for the above with Mary Morrison

Bidg. 34, Rm. 210, Ph. 2393 Secretary, GS-318, PD No. 7708080N, GS-4/ 5, Code 084 - This position is secretary to the deputy head. Office of

Finance and Management. The incumbent is responsible for providing administrative/clerical support to the supervisor; maintaining calendar, files, etc.; reviewing and directing incoming mail to the appropriate official preparing routine correspondence, scheduling meetings and conferences, arranging travel. Job Relevant Criteria Must be familiar with Navy correspondence format and files; have ability to meet deadlines under pressure; have knowledge of Center organization and policies; and have ability to deal with personnel at all levels of management Previous applicants need not reapply.

Voucher Examiner, GS-540-3/4/5, PD No. 7608041, Code 0865 - This position is located in the Financial Operations Division, Office of Finance and Management ncumbent is responsible for the preparation and / or typing of vouchers for settlement of travel claims for military and civilian personnel; reviews and determines eligibility for payment of expenses on travel claims presented for payment; aids claimant in preparation of itineraries. Entries accepted for **Robinson** Memorial Golf Tournament

Entry applications for the second annual Frank D. Robinson Memorial Golf Tournament, which is to be held on Saturday, Aug. 13, at the China Lake golf course, can be picked up now by interested golfers at the local golf course pro shop.

Following a shotgun start at 8 a.m. on Aug. 13, golfers will vie for more than \$1,000 in merchandise awards that will be presented to the winners and top runners-up in this two-man, partner's best ball event. The competition is open to all interested golfers, whether or not they have established Southern California Golf Association (SCGA) handicaps. There will be a Peoria flight for those who do not have

SCGA handicaps. All proceeds from the entry fee of \$50 per team will go into the Frank D. Robinson Memorial Fund, which last year raised approximately \$3,000 for use in the improvement of athletics in Indian Wells Valley.

Top performers in 1976 were the duo of Phil Sprankle and Tom Kramer, who finished the 18-hole event with a best ball total of 72 (including handicap), while Curt Bryan and Jim Anderson came in second with a 74.

The Century Football Association of Indian Wells Valley again is sponsoring the Robinson Memorial Golf Tournament, and the co-chairman of this year's event are LCdr. Ed Brooks, Al McDonald and Wayne Claunch.

The entry fee will cover the cost of playing golf, as well as a dinner-dance that will be held at the Chief Petty Officers' Club on the evening of Aug. 13. Awards to the winners in each flight will be presented at this time.

In addition to the 18-hole competition between all of the teams entered in the tourney, there will be a 9-hole horse race match between the 10 low net teams.

Despite drought, big bucks are out there

Back-to-back years of drought have taken their toll on supplies of water and forage in California's early deer hunting season area, but there are some big bucks out there and they will be concentrated for the season opener tomorrow, the California Department of Fish and Game reports.

The early season area extends along the coast and adjacent areas from the northern boundary of Mendocino County southward to the counties of Santa Barbara and Ventura and the northwest corner of Los Angeles County.

Because of tinder-dry conditions in the field, hunters are cautioned to take special care with fire, to watch for special restrictions and to be on the lookout for fire closures.

The early season will continue through Sunday, Sept. 18, with a limit of two bucks, forked-horn or better. Shooting hours are from one-half hour before sunrise to onehalf hour after sunset.

Doug's Corner . . .

(Continued from Page 6)

Association or Youth Center cards, or who are active duty military personnel here, are eligible to participate. Entries may be turned in to club officers or to the gymnasium office.

The events are men's doubles, women's doubles and mixed doubles. No person may enter more than two events. First round matches will be posted at the courts by noon on Aug. 12, and the contests may start as early as 7 a.m. on Aug. 13.

Women's softball . . . (Continued from Page 6)

In the first games of the tournament, a 13-10 victory by the VIPs over T. J. Frisbee enabled the VIPs to qualify for the semifinals against Avant, who got there by virtue of a 15-14 win over CSC.

"Mondays are horrendous!" says Margaret McDonald of Code 98's Mail, Files and Records Branch. "An unbelievable number of sacks of mail come through our office then."

All the command mail, both in and out, is handled by that branch, including the registered, certified, and straight mail. "And guard mail, too," she adds, "as well as having the Center's primary telecopier in our office."

"The work is very interesting and challenging, too, in that it's necessary to know who's got what projects, and to be able to track down who is supposed to get what mail and where people are so that we can re-address the items on which the address is incomplete."

An interesting and challenging job was what Margaret sought when she came to work at China Lake 11 years ago. "We'd just moved up here from San Diego, and it was such a change that I felt it was either go to work or climb the walls," she adds, "and, besides, my kids were old enough then so that they could be a solid help at home."

All eight McDonald children, ranging from Patrick, now 27 and stationed in the Air Force in Germany, down through

Colleen, 17, Kent, 16, to Kevin, 14, have been active and willing helpers around the house. The younger six McDonalds are still at home and each still has an assigned set of duties.

"It's thanks to their being so helpful that State's early deer season opens Sat.; DFG

reminds hunters to study '77 tag system

The Department of Fish and Game earlier this week reminded California deer hunters to make certain they understand the tag system before going afield for the opening of the early season on Saturday.

Hunters should review the instructions on their deer tags and in the hunting regulations booklet, the DFG said. Failure to use the right tag after killing a deer could result in the loss of the opportunity to hunt deer in other areas of the state.

Here is a rundown on the three types of deer tags available this year and how to use

(1) The general (blue) tag is good for taking one buck only in zones A, B, D or E. Boundaries and seasons for each zone are clearly shown in the hunting regulations booklet, available free wherever hunting

(2) The option (green) tag may be used either to tag a buck taken only in zones A or B or by a successful applicant for a special deer hunt permit. Successful applicants are required to turn in their option tag along with the \$5 permit fee upon being notified that their names have been drawn for a special hunt.

(3) The zone X (red) tag is valid only for taking one three-point buck in the zone X area in northeastern California. Zone X tags are available only from Fish and Game offices. Persons buying this tag may not purchase a general and option tag, and persons who have already purchased a general and option tag may not obtain a Zone X tag.

Zone X tag holders who are successful in special hunt drawings will not be required to submit an option tag in order to get their

I'm able now to go to school at night," says Margaret. "In fact, I've come to expect rewards when I bring home an A. They and my husband Bill have been very encouraging about my working towards a B.A. degree in either sociology or psychology."

When Margaret was graduated from high school in her native town of Ford City, Pa., instead of going to college she joined the Navy "to see what the rest of the world was like." She was stationed at Alameda Naval Air Station when she met and married Bill, who was a career Navy man. Much of her seeing the rest of the world came when she followed him to various duty stations.

During this time she worked briefly for NASA ("I think that was long enough ago so that it was still NACA then") at Wallops Island, Va., and for the Navy at Chincoteague, Va.

"Mainly, though," Margaret says, "my career then was raising kids. Coming to work for the Navy was really the start of a second career.'

She and Bill, who is now retired from the Navy and working for NWC's Supply Department, have centered much of their attention on home and home life with their children. "I sew," says she, "but I can't claim gardening as a hobby because all I can raise is a beautiful crop of weeds."

"I'm not much of a joiner, but I did join FEW (Federally Employed Women) when it started here recently, and I think that I will be active in it because I can see that much good can come for both men and women employees through the activities of that group," she adds.

Margaret credits a former division head, Bob McKenzie, with inspiring her to go back to school and start working toward a degree. "I feel like my life has really been opening up as I've been gaining more self confidence in my capabilities as a person separate from being a wife and mother."

And her confidence in her capabilities is well placed according to those who work with her and who know her.

NWC South leads in Admiral's Cup play with bowling victory

The Naval Weapons Center South jumped off to the lead in the 1977-78 Admiral's Cup competition with a victory in bowling last week at Hall Memorial Lanes.

The winning team racked up a total of 4,084 pins, compared to the second place showing of VX-5, with 4,031 pins, and the third place effort of NWC North, with 3,627 pins. So, after this, the first Admiral's Cup event of the year, NWC South leads with 5 points, while VX-5 and NWC North have 3 points and 1 point, respectively.

Total pins recorded in this match reflect the combined scores of each team's eight members, all of whom bowled three games, with no handicaps allowed. High game honors were won by AMS1 Dan Carlson of NWC North, who bowled a 247, while VX-5's ATCS Ron Williams had a high series total of 612.

The next Admiral's Cup event will be golf, which is slated to be held later this month.

Signups for Youth Soccer League being continued

Registration for the Youth Soccer League will continue through the rest of this month at the NWC Youth Center for players seven years of age through the sixth grade.

Because of the limited amount of playing slots available, early enrollments are encouraged. Tryouts and team assignments have been scheduled for mid-September.

Parents who would like to learn to coach or officiate may register by visiting or phoning the Youth Center, NWC ext. 2909. Clinics for these persons will be held in late August or early September.

Next Thursday, Aug. 11, a film of the most recent World Cup Final (between Holland and West Germany) will be shown at the Youth Center between 5 and 7 p.m. while registrations are in progress.

11th ND tourneys set

Information is available at the Center gymnasium on upcoming badminton and horseshoe tournaments slated by the 11th Naval District.

Badminton competition will be held Aug. 29 at the Naval Training Center, San Diego, and will include both singles and doubles events. Entry deadline is Aug. 15.

The horseshoe competition will be held Sept. 6 through 9 at the Naval Air Station, North Island, San Diego.

NEW HOOP COACH - John Boragno, formerly assistant basketball mentor at Fresno State University, has recently been named basketball coach and physical education instructor at Cerro Coso Community College. A native of Sanger, Calif., Boragno earned a B.A. degree from Fresno State in physical education in 1972 and an M.A. degree in that field in 1977. He will join the Cerro Coso faculty for the upcoming fall semester, and tackle the job of trying to improve on the Coyotes' 1976-77 record of 5 wins in 28 games.

TOP KEGLERS - Members of NWC South's winning Admiral's Cup bowling team are (kneeling, I.-r.) PH3 B. J. Beckman, ET1 Robert Humes and AQCS Wayne Baumbach, and (standing, I.-r.) RMCS John Salyers, FTCS Macon Robinson, FTCS Dave Vander Houwen, ATCS Gary Schmidt and ETN2 Tim Caine. Their total of 4,084 pins gave NWC South the early lead in the 1977-78 Admiral's Cup competition. -Photo by PH2 Terry Miles

Desert Meats squad powers way to win in women's intramural tourney

By Bernadette McGraw It's all over in the Women's Division of the Intramural Softball League this year as a prime Desert Meats squad put together some clutch hitting and pitching to win the Women's Softball Tournament here last week.

The victory was an especially sweet one since Desert Meats finished second in regular season play, losing only to the undefeated champion, Comarco.

The championship game saw Desert Meats lock horns with Avant, and from the game's early innings, there wasn't much doubt about the outcome. Final score was 14-3, as the Desert Meats gals scored three runs in each of the first, second and fourth innings, and five in the third.

Avant, batting against pitcher Karen IWV Youth Football league registration

planned tonight, Sat. Registration for the upcoming Indian Wells Valley Youth Football League season

will be held tonight and tomorrow in Ridgecrest and at China Lake. Registration this evening will be held from 7 until 9 o'clock at the Ridgecrest

Bowl. Tomorrow, youngsters may sign up from 10 a.m. to noon at Kelly Field (on the campus of Murray School at China Lake), and again at the Ridgecrest Bowl from 2 to 4

In order to be eligible to play in the league, boys must be from 8 to 14 years 9 months of age and weigh no more than 175 lbs., nor may youngsters be attending any grade higher than the eighth.

More information may be obtained by inning. phoning Larry Byrd at 375-2890.

By Anita Paiz Breezing along on the momentum they had gained during their last three victories plate and hit a grand slam home run. in the playoffs, the sluggers from Shacklett's chalked up a 21-12 win over Bird Olds on Tuesday night to win the cham- bottom of the second. Tyrrel knocked in Slow Pitch Division.

Shacklett's jumped off to an early lead by scoring five runs on five hits in the very first frame. Norm Stevenson singled and Gordie Irvin walked. Next up, Duane Stevenson homered to make it 3-0, and Andy Gilpin followed suit to tack another run onto the total. Then Gerry Caffery singled and came around to score on Tom Chapman's onebagger.

Bird Olds players reclaimed three of Tyrrell hit a homer with a man on base and Max Moffit singled home Rollin Jones, who had gotten aboard on a walk.

Sorge, managed just six hits, scoring once in the second frame and adding two more in the top of the fifth and final inning.

Leading hitter for the winners was Marion Paisano, who had two hits in three times at bats and drove in one run. Other hot hitters were Liz Martin, Pam McDonald and Sharon Machowski.

Avant's top batters were Linda Patterson. Betty Greedy (who hurled the first three innings) and Charlotte Palmer. Linda Bengston finished up the mound chores for the losers.

Earlier, in the quarterfinals, things looked particularly auspicious for the Brand X gals when they knocked off Comarco by a score of 9-7, thanks mainly to the seven runs they scored in the fifth inning and the strong pitching of Gina La Marca. In the very next game, however, their hopes were blown as they were edged by Desert Meats by a score of 6-5.

Other Tourney Action

In other tourney action, the VIPs fell by a 14-10 score to Avant's power hitting as Betty Greedy slapped four singles and garnered two RBIs and was also the winning pitcher. By the narrow margin of 15-14, Desert Meats defeated Murray Construction to get into the semifinals. The winning run came over in the last half of the seventh inning when Kris Sorge had a hit to send home Pam McDonald.

Murray Construction, in the tournament's fifth game, crushed the Dusty Dames, 18-0. During the draw, Best Realty won the right to play against Desert Meats, but lost the game, 24-8. Brand X reached the semifinals by beating A&K Sparks, 16-13, as Myra Martin hit a three-run homer in the third

(Continued on Page 7)

Shacklett's softballers win Men's Slow Pitch crown

six runs on just three hits. Two runs were tallied before Gerry Caffery got up to the By scoring seven runs on six hits, Bird Olds came close to tying the game in the

pionship of the Intramural League's Men's three more runs with his second circuit clout of the game. In the third inning, Shacklett's got five more runs on two hits. After three walks and a single had loaded the bases. Duane Stevenson's big bat blasted a grand slam

homer. Bird Olds managed to scratch back for just one run in the bottom of the third. After neither team scored in the fourth, Norm Stevenson's home run accounted for

two more runs for Shacklett's. The Bird Olds team scored its last run of the game in those runs in their half of the inning as Jim that frame by putting together two singles and a fielder's choice. To end the rout, Shacklett's team scored its final three runs in the top of the seventh on home runs by In the second frame, Shacklett's scored Gordie Irvin (with a man on base) and

The playoffs began on Wednesday night, July 27, between the top two teams of each of the American and National Divisions. On that first evening, NALC pounded Grand Good, 16-9, and Bird Olds handcuffed Shacklett's by a score of 20-11. On Thursday, July 28, it was Shacklett's 22, Grand Good 12, and Bird Olds 16, NALC 12.

Setting up the championship game, Shacklett's last Monday night defeated NALC, 25-13, thus eliminating the latter from further playoff competition. And, in their most crucial game thus far, Shacklett's, the top team in the National Division, also bested Bird Olds - the number two squad in the American Division - and thus handed this team its first loss of the playoffs by a final tally of 14-7.

Fast pitch event for women slated here this weekend

Eleven teams are scheduled to compete in China Lake's second annual women's fast pitch softball tournament, which is slated to get underway here tonight and continue through Sunday afternoon.

Out-of-town teams participating will be those from Big Pine, Riverside, Norco, Bakersfield (two), Bishop and Porterville. The local softballers will be Maury's, the Time Outs, Dusty Devils and Creeps.

The tourney opener will begin tonight at 7 at Reardon Field when the Creeps and Maury's tangle. Action will later be going on simultaneously at Schoeffel Field, where at 9, the Eureka Gassers from Big Pine will meet the Bakersfield Hornets.

Play will resume at 9 a.m. Saturday at both Reardon and Schoeffel Fields; the last games of that evening will start at 9 o'clock.

At 9 a.m. on Sunday, the final and semifinal contests will be played at Reardon Field, with the championship game slated to begin at 1 p.m.

4 Sports Organizing

Organizational efforts are now under way locally for four sports: flag football, volleyball, women's basketball and intramural soccer.

A meeting for prospective participants in the NWC Flag Football League will be held on Aug. 15 at 5 p.m. at the Community Center. Rules, awards and officials will be discussed. It is hoped to have at least eight teams this year.

Persons wishing to participate in two-ontwo or coed volleyball should contact the gymnasium office, or call Jerry Kissick at NWC ext. 3990.

The gymnasium office is also the contact point for persons interested in starting a women's basketball team.

Lastly, adults who would like to form an intramural soccer league should phone Karl Kauffman at NWC ext. 3665, or the gymnasium office, NWC ext. 2334.

Doubles Tourney Slated

Signups will close at 6 p.m. on Wednesday for the doubles tennis tournament which will be sponsored at the Center courts on Aug. 13 and 14 by the China Lake Tennis Club and the NWC Special Services Division.

Dr. Gates back after year spent in Sloan Fellows Program at MIT "Being a Sloan Fellow was a real

privilege," says Dr. Allen B. Gates, of the Sidewinder / Chaparral Program Office just back from a year at the Massachusetts Institute of Technology. "It has really affected my viewpoint and perspective about life in general, not only about management," Dr. Gates added.

The Alfred P. Sloan Fellows Program is designed for a limited number — 54 students this year - of young executives nominated by their employers because of the potential that they've shown for senior management. The year's program leads to an M.S. degree in industrial management.

The program itself varies slightly from year to year because it is tailored to the people chosen for attendance by M.I.T. Fellowship recipients represent American industry and government (federal, state, and local) as well as foreign governments and industry. Dr. Gates was nominated by his department, Code 36, then the Naval Weapons Center, and finally by the Department of the Navy, before becoming eligible for selection by M.I.T. **Highlights of Program**

Much of the real value of the program consists of exposure to top officials of government agencies and industrial leaders who conduct closed-door, off-the-record seminars with Sloan Fellows not only at M.I.T. itself but also on field trips to New York, Washington, and during a three-week trip to Europe. David Rockefeller, chairman of the board of the Chase-Manhatten Bank: Bert Lance, head of the Office of Management and Budget; and the King of Spain among others conducted seminars for the 1976 / 77 Sloan Fellows.

Dr. Gates noted with interest that there was a major difference between American businessmen and government leaders and those from Europe in that the Americans were more motivated and dedicated to their work

One of the real benefits of the program, the NWC employee noted, is in the closenes of the working and social relationships with the other Sloan Fellows and their families. Dr. Gates' family, consisting of his wife Betsy, and sons Todd, 13, and Jeffrey, 11, accompanied him to the Boston area.

the Gates' traded children, so the Gates also had a young German foster son with them.

The year is very intensive; Dr. Gates spent an average of 75 hours a week in classes or seminars or studying and reading. "I feel just plain deficient," says, Gates; "I'm going to be doing a lot of reading and thinking about people and their relationships to each other, about history and philosophy and government. My prior

Dr. Allen B. Gates

academic background was entirely different in scope and approach."

Dr. Gates holds B.S. and M.S. degrees from the University of Nevada, and a PhD. in engineering from Case Western Reserve. He has been employed at China Lake for 15

Burrell Hays, head of the Ordnance Systems Department, is the only other Sloan Fellow currently employed at the Center. He completed the program in June

Surplus government property auction set at Edwards AFB

An auction of surplus government property is scheduled to be held at Edwards Air Force Base's property disposal facility on Thursday, Aug. 11, starting at 9 a.m.

Although the auction will take place at Edwards some of the items can be seen locally at NWC's Warehouse 41 (on 10th St., just off the airfield road) between the hours of 7:30 a.m. and 3 p.m. from next Wednesday until the beginning of the sale.

Items to be auctioned range from pickup trucks and other vehicles and vehicle equipment through a sand blaster to books, 35mm motion picture projectors, typewriters, and household items such as stoves and refrigerators.

Registration of prospective bidders will take place at Edwards AFB be a.m. on the day of the sale.

Additional information about the auction can be obtained by calling Bill Guiliani at NWC ext. 2502 or 2538.

Science Advisors . . .

(Continued from Page 1)

Of special interest to the Science Advisors visiting NWC was a tour of the Center's machine shop and a chance to view one of the first castings for a prototype target being developed here as an NSAP project.

The At-Sea Target program, under project manager Doug Savage of the Weapons Department's Electronics Systems Branch, is a good example of the low-cost, quick response projects sponsored by NSAP in support of the Fleet. First proposed by Savage, John Ayers, and Lyman Vanbuskirk in late 1976 as an answer to a Seventh Fleet need for an inexpensive, open-ocean, air-to-surface bombing target with scoring capability, the program involves development of two prototype targets that are scheduled for shipment to the Seventh Fleet next month.

Young headed for Naples as NSAP laboratory rep

Assistance Program (NSAP) and manager of Fleet Support projects, has recently been assigned to a year-long tour with Carrier Task Force 60 as a NSAP Laboratory Representative.

Young, who will report to Commander, Center in providing assistance to the Fleet through this program.

Jack Russell, head of the Electronic Warfare Department, is assigned as the Science Advisor to the Commander, Seventh Fleet. NSAP Science Advisor to Ed Swann, an employee of the Weapons Planning Group

Through NSAP, Science Advisors and Laboratory Representatives are sent to Fleet commands around the world, where they serve as a valuable link between the Navy laboratories and the operational forces. By utilizing these top civilian technical advisors, the laboratory system accomplishes direct action on urgent problems of the Fleet.

An NWC employee since 1973, Young has been Laboratory Fleet Support Projects Manager in the Fleet Support Office since 1975. In this position, he has managed all aspects of NWC support to NSAP and has served as focal point for the Center's Director of Naval Laboratories Laboratory Fleet Support Projects and the Fleet technology liaison effort.

Young's selection as an NSAP lab rep was based on his background in air systems-

Robert A. Young, currently coordinator of related Fleet support, knowledge of NSAP, has been active on the Center's Spanish NWC support to the Navy Science familiarity with the Navy R&D community, and demonstrated communications skills. His well-rounded background includes experience at NWC as an operations research analyst in the Weapons Planning Group, as well as previous jobs as a mathematician in the Systems Ef-Engineering Station at Point Hueneme and in the Quality Evaluation Laboratory at the will accompany him to Naples. Naval Weapons Station, Concord, Ca.

Young, who holds a Master's degree in statistics from California State University and a Master's in public administration Commander, Naval Air Forces, Atlantic, is from the University of Southern California,

Robert A. Young

Speaking Program Committee in addition to his Fleet support duties. He views his new assignment as an opportunity for even closer Fleet-related service, as well as an opportunity to broaden and increase his understanding of naval operations.

During his year abroad, Young will be Sixth Fleet in Naples, Italy on Aug. 24, is the fectiveness and Assurance Department at stationed in Naples but will spend twothird NWC employee now representing the the Naval Ship Weapons Systems thirds of his time with the Fleet. His wife, Sandra, and sons Stuart, 9, and Gon

35th anniversary of WWII WAVES celebrated July 30

Navy women and former Navy women gathered last week in San Francisco to celebrate the 35th anniversary of the World War II WAVES (Women Accepted for Volunteer Emergency Service) program established July 30, 1942.

The highlight of the convention was a keynote address by Rear Admiral Fran McKee, the first woman line admiral, at the birthday banquet luncheon on July 30.

In a letter to the convention, Secretary of the Navy W. Graham Claytor, Jr., extended personal greetings from himself and Mrs. Claytor to the participants saying, "It is one of my personal goals as Secretary of the Navy to see that we make better use of our Navy women. Having had the good judgment to marry a former Wave some 29 years ago, I am glad to have the opportunity to further the role of women in the naval service today."

Fire Div. EMT praised for aiding victims of local vehicle accident

medical technician (EMT) and fireman in the Fire Division, recently received a letter of appreciation from Safety and Security medical technician and fireman, was Department Head W. E. Davis for his assistance to victims of an automobile accident occuring in Ridgecrest.

Miller, who was off duty at the time, was the first medically qualified person at the scene of the accident at the intersection of Felspar and China Lake Boulevard. He had a box of emergency medical supplies in his car, and proceeded to render aid to the accident victims prior to the arrival of an ambulance.

His willingness to assist the victims, his professionalism, and his concern for his fellow man so impressed others at the accident scene that a letter of appreciation written by John N. Milliken of the Signal Process and Control Branch, Weapons Department, was sent to Fire Chief W. R. Knight, Miller's supervisor, expressing gratitude that "persons are around that care and are not reluctant to become involved and come prepared to participate in such emergencies."

Davis, in his letter of appreciation to Miller, added that "you may take great pride in knowing that your efforts represent a significant contribution in achieving a major objective of the 'Paramedic' qualified firefighter-that of providing Graphic art work of **2 TID employees** chosen for awards

Two members of the Naval Weapons Center's Technical Information Department were recognized for exceptional creativity at the Industrial Graphics International art show, which was held recently in San Jose.

They are Larry Weeks, a visual information specialist with the Illustration and Design Branch, and June Deatherage, head of that branch's Presentations Art Section. Both have been at China Lake since

Weeks entered three acrylic paintings which earned awards of merit. Two of the paintings, produced for Code 3312's Air Warning and Protection System, depicted tactical combat situations. The other, created for Code 32703, portrayed vertical launch firings from a high-speed surface effect ship.

Also winning awards of merit were a logo design and a letterhead created by Mrs. Deatherage for a Los Angeles film production firm.

A total of 622 works were judged in the art show, and the winning entries, including those of Mrs. Deatherage and Weeks, are slated to soon go on exhibition at a number of galleries throughout the United States

PATENT AWARDS PRESENTED - Dr. Marguerite Rogers (at right), acting head of the Laboratory Directorate, recently presented patent awards to five of the employees in Code 31. They are (1.-r.) Criley Orton, Larry Liedtke, Bruce Bartels, John Holtrop and Russell Trovinger. Orton, an electronics engineer in the Electronics Branch of the Infrared Systems Division, was awarded a patent for his work on a pulse repetition frequency discriminator for tracking radar signals. The other four Systems Development Department employees are co-inventors of a liquid propellant gun. -Photo by PH3 B. J. Beckman

Deadline for entries is Oct. 1, 1977, and must include the entrant's full name, rank, Social Security number, full military address, service or reserve component, full home address and zip code. Mail submissions to: Freedoms Foundation, Valley Forge, Pa. 19481.

NWC film wins award

The Council for International Nontheatrical Events has awarded its Golden CINE Award to the Naval Weapons Centerproduced film entitled "Desert Stewardship."

The film provides an overview of the natural and cultural resources found on the Center's more than one million acres of ranges. Highlighted is the Center's philosophy of stewardship of these assets and the management required for compatible range operations.

The film was produced last year by the Technical Information Department's Film Projects Branch.

Overseas living info

Long-awaited information on living conditions in specific overseas locations has now been distributed to all Navy sea and shore commands.

Navy personnel with overseas PCS orders, or those who are considering requesting overseas duty assignment, should consult the new BUPERINST 1720.3 for information sheets on housing, base facilities, medical care, climate, local customs, automobiles, etc., at Navy duty stations overseas.

SUMMER ADVENTURE — Photographed just as they were preparing to board a bus in Ridgecrest to take them to two weeks of recruit training at the Naval Training Center in San Diego recently, this group of 11 cadets from the Naval Sea Cadet Corps Division, Naval Weapons Center, stands pretty much at ease. They are (I.-r.) Paul Branum, John Boyles, Alan Stratton, Steve Peterson, Joe Fees (partially obscured), Pat McCammon, Jim Dillon, Ken Moss, Rich Evert and Kary Fletcher. Standing near the end of the line, completely obscured, was Mike Kendall. LeRoy Stevens, not pictured, boarded a bus from Mojave.

Recruit training completed by Sea Gadets during 2 weeks at San Diego

Twelve cadets from the Naval Sea Cadet Corps Division, Naval Weapons Center, returned to China Lake recently after completing recruit training at the Naval Training Center in San Diego.

The cadets participated in an intensive two-week training cycle during which they learned more about military drill, seamanship and other required subjects. The youths were assigned to companies of cadets coming from the western U.S.

Approximately 350 cadets participated in this recruit training program, which represents the first step in the youth's formal military instruction.

As additional instruction, Cadets Joe Fees and Kary Fletcher departed July 29 for two weeks of Constructionman School training at Seabee Base Gulfport, Miss. They will be

Gen. LeMay's visit...

(Continued from Page 1)

Mr. and Mrs. Robert Forster, and all eight of the Air Force officers currently assigned to NWC and VX-5, and their wives.

Before leaving China Lake, General LeMay received briefings from Forster, head of the Weapons Department's Special Projects Division, and Navy Lt. Lee Dickson, special warfare projects officer in Code 393, as well as from Paul Miller, head of the Systems Development Department's Gun Systems Branch, and Jack Bates, program manager for gun systems.

Prior to his departure on Thursday afternoon of last week, General LeMay continued his discussions over lunch at Lt. Col. Gibbons' residence.

The distinguished visitor was companied during his visit to the Naval Weapons Center by Maj. Eric Nilson, of U.S. Air Force Headquarters in Washington, D.C., and Col. William D'Ettore, USAF (Ret.).

Club, organization booklet information now being collected

Information for a new directory of local clubs and organizations is now being gathered by Natalie Harrison, the NWC community liaison assistant, Code 2404.

If either a new organization, or a long-established club or group wishes to be listed in the directory, the steps to take are as follows:

Send to Code 2404 the name of the club or organization; the day, time and place of meetings; and the name, address and home telephone number of the person to be contacted by those interested in the particular group.

This information should be sent to Mrs. Harrison no later than Sept. 1.

weapons training, disaster control and combat techniques. On Sunday, Cadets Jim Dillon, Mike Kendall, Paul Branum, Rich Evert, John Boyles, LeRoy Stevens, Alan Stratton and Steve Peterson will depart for three weeks

indoctrinated in all facets of Seabee life,

including an overview of rates, heavy

of service craft training at Naval Station San Diego, During this time, the young men will be assigned to two tugboats and other service vessels on which they will get hands-on training in engine room maintenance and operation, line handling on the deck, rigging for pushes and tows, and pilot house activities.

The Naval Sea Cadet Program is open to all qualified boys and girls between the ages of 14 and 18. Further information may be obtained by contacting Lt. A. J. Klissus, acting commanding officer, at 375-2085.

Reservations available for luau set at COM

The Commissioned Officers' Mess is now taking reservations for a Polynesian Island

luau to be held Friday, Aug. 19. Mai Tai and Chi Chi cocktails will be served at the pool area, which is to be decorated to provide a lush tropical atmosphere, beginning at 5:30 that evening. A buffet will follow at 7 p.m. on the lanai.

There will be dancing throughout the night, and singers, dancers and instrumentalists who comprise the exotic Malialani Polynesian Review will begin their performance at 9 p.m.

Those wishing to attend must purchase tickets, priced at \$10 per person, at the COM on weekdays from 9 a.m. to 4 p.m.

August 5, 1977

STATE SENATOR HERE FOR BRIEFING - As a memento of his recent visit to the Naval Weapons Center, an NWC plague was presented to State Sen, Walter Stiern by Capt. Frederic H. M. Kinley, NWC Commander. Sen. Stiern was here for an update on the exploratory drilling and other work that has been done in an effort to determine the potential that exists for geothermal energy development in the Coso Hot Springs area, which is included within the vast territory taken in by the state's 16th Senatorial District. -Photo by Ron Allen

Local reception of educational TV **Channel 28 restored**

Local reception of Channel 28 (educational TV station in Los Angeles) programs was restored last Sunday (after being off the air for several days), thanks to the "beyond the call of duty" efforts of Jim Rieger and Ed Tipler.

Despite the unusually hot weather on Sunday, Rieger, who is a member of the local TV / FM Radio Booster System Committee and works as an electronics engineer in the Range Department's Telemetry Technology Branch, and Tipler, an electronics engineer who is employed at SNORT, made three trips back and forth between here and Laurel Mt. in order to find and replace a small part that was needed to put the recently purchased Channel 28 translator back into operation.

Since the new equipment was still under warranty, it was necessary to obtain permission of the manufacturer of the new translator before the minor repair work could be done, Rieger noted.

Although the new Channel 28 translator, which was one of the first major items purchased with money raised during the current TV booster fund drive, has been installed, it isn't yet operating at its peak efficiency. Some additional parts that have been ordered and are expected to be received and installed at any time now, are still needed before the "snowy" picture that is being received can be cleared up.

Channel 28 programs can be picked up locally via UHF Channel 55 by those who have TV antennas that are oriented in a southwesterly direction toward Laurel Mt.

Next meeting of Navy Wives Club set Aug. 11

Officers and members of Desert Flowers Chapter No. 125, Navy Wives Club of America, will get together next Thursday, Aug. 11, at 7:30 p.m. for their monthly business meeting at the group's clubhouse, 415 McIntire St., China Lake.

Membership in the Navy Wives Club is open to the wives of active duty or retired Navy, Marine Corps and Coast Guard personnel, and all such persons are invited and encouraged to attend next Thursday night's meeting.

The next event of what has been a busy summer schedule of Navy Wives Club activities will be a family picnic on Saturday, Aug. 20. Additional information about this affair can be obtained by calling either Linda Fleeger, the club president, at 446-4233, or Sharron Crowson, at 446-5700.

Moderate hazard areas include the Hume

Drought, high fire danger lead to **Sequoia Nat'l Forest restrictions**

fire danger, the Sequoia National Forest is implementing special fire restrictions, John A. Leasure, forest supervisor, reported recently.

Similar fire restrictions are being initiated in the Sierra and Stanislaus National Forests. The restrictions affect the use of campfires and smoking. Private land is not affected by the special restrictions. "We have divided the forest into high

hazard, moderate hazard, and exempt areas. Weather patterns, fuel types and concentrations, and terrain were considered in establishing these areas," Leasure said.

Fire restrictions in high and moderate hazard areas will include campfires in developed recreation areas only. However, gas, jellied petroleum, or pressurized liquid fuel stoves may be used outside developed recreation areas. Also, smoking will be allowed only in closed vehicles or developed recreation areas. Welding and blasting is allowed only with a Forest Service permit.

High hazard areas include the area north and west of Grant Grove to the Pine Flat Reservoir, the Tule River drainage, the Western Divide, Lloyd Meadow Basin, and the Kern River Canyon.

Because of continued drought and high Lake Basin, the Little Kern Basin, the northern Kern Plateau (including Monache Meadow) and the Piute Mountains.

Exempt areas include Mineral King, Domeland Wilderness, Scodie Mountains, and the Jennie-Weaver Lake area.

"We anticipate additional restrictions on campfires, off-road vehicles, and use of motorized equipment in high hazard areas," Leasure added. "With current conditions, we expect these restrictions will be implemented about mid-August."

"We know that these restrictions will cause inconvenience to some national forest visitors, but the forest will remain open for the public. Closure of the forest will be used only as a last resort."

CPO Club selling tickets to Hawaiian extravaganza

Tickets for the Chief Petty Officers' Club's annual Hawaiian extravaganza are now on sale at the club's office.

Planned to begin at 6 p.m. on Saturday, Aug. 27, the evening will feature a buffet of tropical dishes, dancing, and a floorshow by Tiare Productions.
