UP AND AWAY — John Hall, high scoring forward for the Cerro Coso Coyotes, shows some attitude in the early stages of Saturday night’s conference game against the Yuma Desert Coyotes. Hall scored 28 points in Cerro Coso’s 114-96 win over the Desert Coyotes. The Coyotes improved to 2-0 in the conference with the win. Hall also scored 28 points in Cerro Coso’s 114-96 win over the Desert Coyotes. The Coyotes improved to 2-0 in the conference with the win.

Cerro Coso loses conference tilt to Victor Valley College hoosiers

In a slam, bang basketball game played last Saturday night at the Normal Sentinel Center gym, the Cerro Coso Community College Coyotes have a Desert Atlantic Conference game in their counterparts from Victor Valley Community College by a score of 86-88.

In the neck and neck, first, second, and then the other hand, the Coyotes were in the lead in the final 1 minute of the game, at which time the Coyotes were leading by an 88-84 lead.

From that point on until the final buzzer, however, the victors from Victor Valley sewed up the win by rushing in an 8-1 of opportunities at the free throw line, and this led to the Coyotes’ lead.

The Coyotes closed out the game with a 1-point advantage over the Coyotes in the second half, and the Coyotes ended with a 1-point lead.

The Coyotes only had one lead in the game, and that lead came in the second half, and then the Coyotes ended up with a 1-point lead over the Coyotes in the second half, and the Coyotes ended with a 1-point lead over the Coyotes in the second half.

The Coyotes only had one lead in the game, and that lead came in the second half, and then the Coyotes ended up with a 1-point lead over the Coyotes in the second half.

Money saved by use of surplus oil at boiler plant

Public Works Department personnel contributed $4,000 to the purchase of a second-hand boiler. The Department has never been able to locate a second hand boiler, and now it has one. The boiler is expected to save over $4,000 in the fiscal year of the current year.

Drivers, passengers required to wear seat belts in govt vehicles

Traffic accidents continue to be the greatest cause of death and disability among employees. The Department of Transportation has made a priority of the requirement that all vehicles, including surplus vehicles, have seat belts. The Department has proposed a rule that would make the use of seat belts mandatory for all passengers, with a few exceptions.

A recent revision of this regulation regarding "seat belt standards for vehicles" (OAP75-12A) requires that all vehicles, including surplus vehicles, be equipped with seat belts. The Department has taken this action in response to the increasing number of traffic accidents involving non-seat belt use.

In the next few months, the Department will issue a final rule that will establish the standards for seat belt use in government vehicles. The rule will require all vehicles to be equipped with seat belts, and will mandate that all passengers, including those in surplus vehicles, wear seat belts.

Further substantial traffic accidents will be saved if all government employees wear seat belts.
