

Guitar trio performs Monday

Sounds of guitars will be heard at the Naval Weapons Center theater on Monday (Feb. 29) as the Amsterdam Guitar Trio plays in the fourth concert of the Indian Wells Valley Concert Association's 1987-88 season. The concert begins at 7:30 p.m.

A selection from Vivaldi's "Four Seasons" as well as works by Mozart and Chopin have been arranged for the trio and will be performed during the concert. Also featured will be music especially composed for the ensemble.

The trio is recognized for their flawless technique, beauty of tone and originality of repertoire. They have appeared in concerts, on radio and television, and have made prize-winning recordings on the RCA Red Seal label.

Single event tickets for the Amsterdam Guitar Trio can be bought at the

Music Man, Maturango Museum, and the Art Buffet in Ridgecrest. Tickets are \$7, with those under 21, over 65 and full time enlisted personnel being charged \$5.

Some seats will be available at the box office after 4:45 p.m. since season ticket holders who do not plan to use their tickets can release these for resale by telephoning 375-5600.

The Student Education Fund of the IWVCA has financed a special program by the Amsterdam Guitar Trio for students of Monroe Junior High School. The program, scheduled for March 1 at 10 a.m. will be divided into two 25-minute segments in order to accommodate all the students. Although most student programs are also open to the general public, few, if any, seats are expected to be available in the school cafeteria for this presentation.

THE ADMSTERDAM GUITAR TRIO — Helenus De Rijke, Johan Dorrestein and Olga Franssen.

Community Events

Tonight is the opening night for the Community Light Opera and Theater presentation of *Come Back to the Five-and-Dime, Jimmy Dean, Jimmy Dean*. Additional performance dates are tomorrow and March 5 and 6.

All performances will be at the Enlisted Mess, with the doors opening at 6 p.m. and curtain time at 8 p.m.

The \$7 ticket includes two drinks (either alcoholic "well drinks" or non-alcoholic beverages).

Tickets can be purchased at the Enlisted Mess, NWC ext. 3138, or from

Randi Rourke at Travel Plus, 446-7950. Advance ticket purchases are mandatory because of limited seating space.

Don Moore will be the featured speaker when the Desert Planters of Ridgecrest meet on March 2. The meeting, set for 1 p.m. in the Knights of Columbus Hall, will highlight Moore talking about "Attracting Birds to Your Garden."

Moore, a high desert resident since 1951, has helped organize annual bird counts for many years.

Naval Weapons Center, China Lake, California 93555-6001

Vol. XLIII, No. 7/February 26, 1988

Center addresses TM encryption challenge

NWC is Navy's lead lab

Every new missile tested and every major product improvement package (PIP) for existing missiles in the U.S. inventory must now include provisions for encryption of telemetry data during tests. The challenge of this requirement is being met by the Naval Weapons Center's Telemetry Technology and Telemetry Systems Branches.

These branches, part of the Aerosystems Department's Telemetry Division, are primarily responsible for designing telemetry (TM) packages used in test of Navy missiles and other ordnance at NWC. Additionally, notes Randy Gamble, head of the Telemetry Technology Branch, they receive requests to support Army and Air Force TM development on their tactical missile systems.

Telemetry packages allow designers to evaluate system performance parameters during captive-carry and free-flight tests. During production, TM systems allow performance monitoring to verify that production standards are being maintained and to validate system improvements.

The Naval Weapons Center has become the Navy's lead laboratory with respect to telemetry encryption, notes Gamble. Encryption of telemetry data is part of the effort to protect this nation's research and development information. This effort not only makes it difficult for potential enemies to develop similar weapons systems, but makes it harder to develop countermeasures against them.

"We've probably encrypted more systems than any other government lab or contractor facility," Gamble added. NWC has encryption experience that includes the High Speed Anti Radiator Missile (HARM), Hawk and Chaparral missile systems as well as VLA and Sidewinder AIM-9R. Additional tasks for the branches are expected from the requirement to provide encryption capability to the Sparrow missile, full motion picture encryption and several other projects on-center.

It was the National Security Agency's development, several years ago, of the KG-66 encryption device that provided the breakthrough that allowed encryption of missile telemetry.

That device was followed by the KGV-68, a single LSI integrated circuit, capable of performing similar encryption functions, but housed in a much smaller package.

In support of the KG-66 and KGV-68 devices, and to reduce TM development time, the Telemetry Technology Branch has developed an encryption support package (ESP) that provides encryption devices with system support needed to meet TEMPEST security standards.

The Sidewinder AIM-9R test program, notes Gamble, requires not only the encryption of the more traditional telemetry information that is monitored, but requires video information by encrypted and telemetered as well.

Weight and center-of-gravity are very strictly controlled for missile TM packages and sufficient space for the telemetry components is the exception rather than the rule. In order to properly package needed TM components in a missile as compact as the Sidewinder, Telemetry Technology Branch personnel must design the package to take full advantage of all available space. The smaller size of the KGV-68 device made successful encryption for all AIM-9R functions possible.

In past years TM development largely consisted of one-of-a-kind systems, quickly assembled with available parts, minimally documented and with heavy operational support by the design team. Current practice, states Gamble, is usually directed toward large procurements of more complex systems processing increasing quantities of TM data needing encryption.

"The branch work load keeps us from getting into a production mode on these systems," explained Gamble. "We generally produce a small number of development prototypes and deliver a data package to our sponsor that can then be used for additional procurement."

Quality and reliability requirements appropriate to the monitored product are imposed upon the telemetry system and great care is taken during the design process to ensure the producibility of the product, according to Gamble. (Continued on Page 3)

Rooks' success again featured as role model for youngsters

Once again June Rooks is being used as a role model to show that anything is possible if people are willing to work at it. Rooks' childhood and her success are featured in a booklet entitled *Scientist and Strategist, June Rooks*.

An Operations Research Analyst in the Naval Weapons Center's Weapons Planning Group, Rooks has had information about her being in a career field that is dominated by men included in a career booklet by the American Physical Society. Also, because she is considered an excellent role model for young handicapped persons by the American Association for the Advancement of Science, her biography was included in a book that was published by the Foundation of Science for the Handicapped.

"I feel that the main purpose of the booklet is to encourage the kid who really wants to make something out of his or her life, but is afraid," said Rooks.

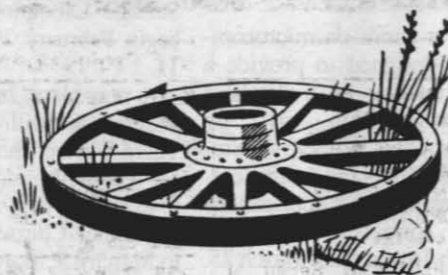

The booklet, one of "An American Women in Science Biography" series, was written by Mary Ellen Verheyden-Hilliard with drawings by Holly Meeker Rom and was recently released by the Equity Institute in Bethesda, Maryland. Rooks noted that the Equity Institute is a non-profit organization funded by the Department of Education.

Rooks said she got a call from Hilliard in the spring of last year. Hilliard told Rooks that they were looking for women with different careers in science to write about in order to encourage young people, as well as hand-

icapped people, to consider careers in science. Rooks said Hilliard more or less interviewed her on the phone, asking questions about her background and to learn what encouraged her to go into science.

Rooks noted the drawings and story in the booklet were based on pictures and descriptions of events that occurred while she was a little girl. She did not start school until the fourth grade because she had contracted poliomyelitis and was handicapped as a result. "Even though I wasn't going to school, my sisters gathered around the table to do their homework, I would be there, too. So that scene was depicted in the book. My handicap did not stop me from playing with my friends. I described to (Continued on Page 15)

TID has success through program

Once again the Naval Weapons Center's participation in the Model Installation Program Initiative (MIPI) process has worked as it was supposed to.

Bob Bloudek of the Technical Information Department's Information Analysis Office submitted a MIPI, to allow the Center to approve printing of official business cards for designated professional civilian employees and military personnel at government expense.

While the NWC MIPI was disapproved by the Assistant Secretary of the Navy for Shipbuilding and Logistics (ASNS&L), an alternative was provided by Washington allowing printing of organizational business cards paid for out of appropriated funds.

Bloudek noted in his MIPI that exchange of official business cards in a standard practice by professionals in private industry. In contrast, government employees commonly exchange napkins, matchbook covers, yellow sticky tabs or cards purchased at their own expense.

The Secretary of Defense had previously disapproved this request from a number of other activities and 44 USC 20 along with long-standing ruling of the Comptroller General specifically state the cost of official calling/business cards are the personal expense of the individual.

Thanks to Bloudek's MIPI, the Navy Publications and Printing Service Office (NPPSO) issued new regulations governing printing of organization cards at government expense.

An official NWC notice, issued by Capt. John Burt, Commander, will be issued soon providing specific guidelines for printing of such

cards at NWC.

The ruling authorizes civilian employees and military personnel to have "generic" business cards printed which include the official activity name and complete address. A single telephone number is also authorized and a brief statement or slogan identifying the activity's mission may be included. Such a card may also have blank lines and the words "point of contact" with space where individual names and telephone numbers can be written or typed in.

These organizational cards may not contain an imprinted name, title or other information that would personalize it and restrict its use.

Women part of military:

History dates to Revolutionary War

Women were part of the nation's military forces before the Declaration of Independence was signed in 1776, something people should remind themselves of during March — Women's History Month.

In 1775, the Second Continental Congress authorized the Continental Army to have a woman "allotted (sic) to every hundred sick or wounded." These women received one ration a day and were paid \$2 per month for their efforts.

However, these first Army nurses, as well as the many women who served as nurses, cooks and spies in the Civil War, were not officially part of the military. It was not until 1901, when Congress established the Army Nurse Corps, that this came about. But even these women did not hold military rank.

The official role of women increased somewhat in World War I, when they were permitted to enlist in the Navy — as reservists — in duties other than nursing due to legislation that specified "persons" rather than men. They served primarily as hospital workers, clerks and intelligence gatherers. But when the war ended, so did their place in the service.

During World War II, some 265,000 women answered the recruiting call — "Free a Man to Fight." They served in a variety of functions, from communications to gunnery instruction, that sometimes took them

into combat areas.

Following the war, the Women's Armed Services Act of 1948 was passed and gave regular and reserve status to women in the Army, Air Force, Navy and Marine Corps. It had combat exclusion provisions and limited the number of women to two percent of the total force.

Women served primarily as nurses in the Korean and Vietnam Wars. In spite of this, "non-combat" role, four Air Force nurses died in Korea, and eight women — one Air Force and seven Army — nurses died in Vietnam. Nurses in both wars received medals for courageous and meritorious service.

In 1967, the ceiling on female end-strength was lifted. Then, the draft was eliminated, and the era of the all-volunteer force began. Opportunities for women in the military began to increase rapidly. Between 1971 and 1987, the number of women in the military rose from 43,000 to about 220,000. Women's total strength increased from less than two percent to 10.2 percent of the active force during the same years.

As the numbers of women in the military increased, so did the availability of non-traditional jobs for them. Because the combat-exclusion provisions are somewhat dependent on each service's mission and the interpretation of that mission, the services define the specialties open to women

differently. But the trend to open more jobs to women has been pronounced as has been their participation in support of military missions.

For example, in the 1983 Grenada rescue mission, Air Force women flew planes that delivered supplies and equipment to U.S. forces. And Army women were present from the second day, serving in a variety of combat-support roles. In 1987, Navy women comprised 25 percent of the crew on the USS *Acadia*, which was sent to the Persian Gulf to repair damage to the USS *Stark*.

Recently, additional jobs in the military have opened to women. The Navy has expanded opportunities for women to serve at sea by authorizing their future assignment to selected ships, including certain oilers, and ammunition and stores ships. Navy women will also be able to serve on shore-based reconnaissance aircraft, though duty on carrier-based reconnaissance planes will still be closed to them.

Marine Corps women will receive basic training with grenade launchers, anti-armor weapons and machine guns at boot camp. Previously, such training was given later in the career and only to persons in combat-related specialties and to officer candidates.

Finally, all services are taking a look at what they can do to further improve opportunities for women — now and in the future.

SAME salutes the Seabees

On March 2 the Society of American Military Engineers will salute the Seabees at their meeting at the Commissioned Officers' Mess. (The meeting will be held at 11:30 a.m. on Wednesday, rather than the usual Tuesday meeting.)

Speaker for the event will be Capt. Brian J. O'Connell, CEC, Commanding Officer of the 31st Naval Construction Regiment, Port Hueneme, Cal. He will be talking about the Seabees, whose 46th anniversary will be celebrated that week.

Lunch menu will be the soup and salad bar; cost is \$3.50 for members and \$4.50 for nonmembers.

Reservations are required. Anyone planning to attend is asked to get in touch with Sam Miller at 446-4467 no later than Feb. 29.

Computer courses to be held at CCCC

Cerro Coso Community College will be offering a variety of half-unit courses in Computer Science this spring.

DBase II, a hands-on microcomputer course designed to provide a basic understanding of a database management system, will be instructed by Clay Witherow. Students will learn about the design, creation, revision and other applications of database formats. The course begins March 14 and ends March 25. Class will meet on Mondays, Wednesdays and Fridays from 12:30 to 4:20 p.m.

Witherow will also instruct **Lotus 1-2-3**. This class covers the spreadsheet design, creation, revision, for-

matting and printing. Meeting on Mondays, Wednesdays and Fridays from 8 to 11:50 a.m. in the Computer Science Laboratory, this class will begin February 29 and ends March 11.

A new class, **Introduction to the Macintosh** will also be offered. There will be four sections, meeting on Tuesdays and Thursdays from 6:40 to 9:30 p.m. at the NWC Training Center. Course dates are: March 8 to March 15; March 17 to March 21; April 5 to April 12; and April 14 to April 21.

Registration will be conducted weekdays up to and including the first class session. For more information contact the college at 375-5001.

Variety of personal development classes offered at Cerro Coso

Cerro Coso Community College has slated a variety of personal development courses this spring.

Ross Kremendorf will instruct **Stress: Sources, Management, Prevention**, on March 15 and 22 from 7:30 a.m. to 12 noon at the City Center in Room 102. This half-unit course is designed to show students how to identify and cope with stress as a positive force for personal adjustment.

"Career Expansion Workshop for Professional Personnel" will be instructed by June Wasserman. This one-unit course will meet on Wednesday, February 24, from 8 to 10 a.m.; Thursday, March 24, from 8 a.m. to 5 p.m.; and Friday, March 25 from 8 a.m. to 12 noon. The class investigates choices related to one's career and helps the student identify opportunities.

Don Mouton will instruct **"Stress Reduction For Clerical Personnel."**

This half-unit course will help students learn how to deal with stress in the workplace. The course meets on March 1 from 7:30 a.m. to 4:30 p.m. and on March 8 from 7:30 to 11:30 a.m.

"Assertion Training For Secretaries" will be instructed by Paul Solberg on March 22 and March 25 from 7:30 a.m. to 12 noon. This half-unit course is designed primarily for secretarial staff to assist in the development of positive assertion and communication skills within their specific areas of interaction.

Enrollment will be taken on Mondays through Thursdays from 10 a.m. to 1 p.m. and 2 to 7 p.m. and on Fridays from 10 a.m. to 4 p.m. up to and including the first day of each class. The above classes will be graded on a credit/no credit basis.

For more information about the short term schedule of classes contact the college at 375-5001.

CSUC Computer Science Program course

Cal-State Chico students please note! The following class will be offered for the Cal-State Chico Computer Science program. To enroll submit a Training Request Authorization Form (NAVWPNCEN 12410/73) via department channels to Code 094. **CSCI 397C-3: MICROPROGRAMMING THEORY AND PRACTICE (3 units)**

May 14-15, June 11-12, July 9-10, Saturdays and Sundays;

0800-1600; Training Center. By Professor Wear, CSUC. Prerequisite: CSCI 151 and CSCI 171.

Scope: The control structure of the CPU is the primary topic of this course. The development of microprogrammed control units is examined. The internal architecture of a CPU is analyzed including its data paths, registers and timing. Applications of microprogramming includ-

ing basic instruction sets, instruction set enhancements and control unit maintenance are discussed. A comparison of a RISC architecture and a microprogrammed architecture will be made.

Textbook: *Microprogrammable Computer Architecture*, by Salisbury, publisher, Elsevier. ISBN: 0-444-0174-3.

For more information contact Cecil Webb, NWC ext. 2648.

Self-study course offered from Code 094

HOW THE TECHNICAL CODES DO BUSINESS (3/4), VHS, & BETA video, 8 hours

Open enrollment; self-study; Training Center, Room 100. By C. May, NAVWPNCEN.

Scope: This video-taped classroom course is intended to better acquaint NWC support codes with the terminology, methods of operation, problems and constraints of Center technical codes. The course should be useful to new employees to help orient them to the NWC environment. It gives an overview of the development, production support, and Fleet

support phases, and makes no attempt to cover specific areas in depth. Course material should be useful for identifying specific areas to students that they may want to learn more about in follow-up courses.

Long-term training applications due Friday

Applications for long-term graduate and undergraduate level training (training off Center for a period of more than 120 consecutive working days) beginning in fall of 1988 are invited from NWC employees. To be eligible for long-term training, interested individuals should be employed at NWC for at least three years at the time studies begin.

Long-term training may be considered to meet any of the following objectives:

1. To update employees' knowledge where several years have passed since they have completed or left academic or in-service training.
2. To give technical employees management skills when job responsibilities have, or will become, managerial.
3. To update employees' knowledge and background in their job specialty.
4. To teach employees aspects of another occupation that relate to their present occupation where responsibilities are interdisciplinary or multidisciplinary.
5. To provide educational opportunities stressing motivation and human relations.

Both graduate and undergraduate programs are supported by NWC. Long-Term Training Committee (LTTTC) will consider applications in any area of study that relates directly

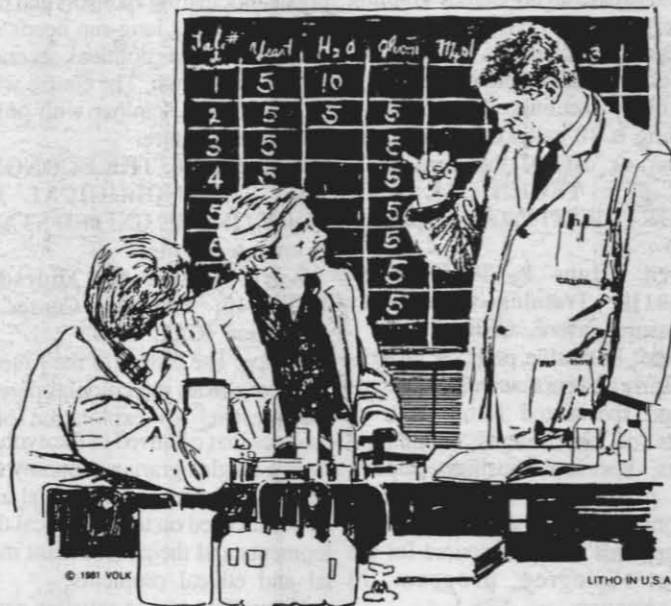

to NWC program requirements. The primary criteria the LTTTC follows in determining when long-term training is used instead of after-hours, part-time or short-term programs are as follows:

1. The new knowledge and skills needed by the employee, either in present or planned career assignments, necessitate a comprehensive, concentrated program of study.
2. The time for gaining new skills and knowledge requires a long-term, full-time accelerated study program.
3. The academic superiority of the school selected shows that it is in the best interest of the government for the employee to attend that school.
4. There is no educational institution or academic program in the local or commuting area for part-time or after-hours training.

Office of Civilian Personnel Management funds cover the trainee's travel allowances to and from the school, tuition and fees required for enrollment and payment for moving the trainee's immediate family and household goods to the school and back to the Center, or payment of a reduced per diem rate depending on which is more cost effective.

The trainee's salary will be paid by NWC. Managing payroll dollars for the trainee's salary will be paid by Code 0941 during the long-term training assignment.

The following areas of critical need have been established by Center

management:

At the graduate level: electrical engineering (particularly systems, microelectronics, radio frequency technology, digital communications, software, electronics, modem controls, radar systems, avionics, analog signal processing and semiconductors); mechanical engineering (analytic mechanics, mechanical design, electro-mechanical); aeronautical engineering; chemistry (advanced analytic techniques, polymer chemistry); physics (particularly optical science, microwave, semiconductors and detonation physics); material science (composites); computer science (in a specialization other than that offered at NWC); reliability engineering; applied mathematics; operations research analysis; and management information systems.

At the undergraduate level there is a continuing need in the following areas: engineering (particularly electronics); computer scientists (in a specialization other than that offered at NWC); physics; mathematics; acquisition contracting; financial analysis; cost accounting with ADP background; audio visual production; graphic arts design; and occupational safety specialists.

However, programs of study at the undergraduate and graduate level are not limited to these areas.

Requests for extensions of fellowships that have been approved will be considered by the Long-Term Training Committee. Personnel that are

Training Center has VAX/VMS tape in stock

NWC's Training Center has received a new copy of the #1 VAX/VMS For Programmers tape. Previously enrolled students may start the course at any time. For more information contact Marie Duff, NWC ext. 2451.

Two short-term classes offered at Cerro Coso

Janet Westbrook will be instructing two short-term biology courses this spring at Cerro Coso Community College.

The first course is **Natural History of the Mojave Desert**. This one-unit course is an overview of the geology, flora and fauna of the northern Mojave Desert. Class discussion will include the ecology and the impact of man upon the ecology of the desert. Class will meet on March 10 from 6:40 to 9:30 p.m.; March 19 and 20 and April 16 and 17 from 8 a.m. to 4:30 p.m. at City Center in Room 102.

The second course is **Natural History of the Foothills**. This class includes two weekend field trips which will cover the geology of the California Foothills. Class meets on April 12 from 6:40 to 9:30 p.m. and on April 30, May 1, May 14 and May 15 from 8 a.m. to 4:30 p.m. The class will meet at City Center in Room 102.

Anyone wanting to register in these classes may stop by the Admissions and Records office at Cerro Coso Monday through Thursday from 10 a.m. to 1 p.m. and on Fridays from 10 a.m. to 1 p.m. and 2 to 4:30 p.m. For more information call the college at 375-5001.

Writing test set March 10

On March 10 the Upper Division Writing Competency Examination will be given. Cal-State Bakersfield students (both undergraduate and graduate) and Cal-State Chico students (undergraduate) may satisfy the writing competency requirements by passing this examination.

Cal-State Bakersfield undergraduate students must have completed at least 90 quarter units of college work prior to taking the exam.

Those individuals planning to take the Cal-State Chico course CSCI 172, Systems Architecture, must pass the writing exam prior to the beginning of the course.

The examination fee is \$12. Checks must be made payable to Cal-State Bakersfield.

Individuals interested should contact Cyndi Jones at NWC ext. 2648 to arrange to take the exam.

detailing the appropriate procedures for making this request.

Details of the long-term training program are in NAVWPNCENINST 12310.5M of 12 November 1987, and in the Long-Term Training Handbook (Rev. 1/88). Both sources are available from department offices or from the Academic Fellowships Office in the Training Center.

Completed applications should be brought to the Academic Fellowships Office, Code 0941, Room 212 in the Training Center.

The deadline for submission of applications for programs beginning in fall 1988 is March 4.

CSUB advisors to be on-Center

Academic counselors of Cal-State Bakersfield will be on Center March 11 to advise current and prospective students in the external degree programs offered by that school.

External degree programs offered at NWC by Bakersfield include a bachelor's degree in business administration and a master's degree in administration. Bakersfield also provides math courses in other external degree programs at NWC.

Those who wish to see one of the academic counselors are asked to make an appointment by telephoning Cyndi Jones at NWC ext. 2648.

NEX sale

From tomorrow (Feb. 27) through March 6 the Garden Shop at the Navy Exchange will be celebrating its grand opening. Everything needed to spruce up the lawn and garden will be on sale. Also, a large variety of house plants will be marked at a special low price to let people spruce up the inside of their homes. In preparation for those cook-outs, be sure to come in and check out the Bar-B-Ques at the Navy Exchange.

The Food Service March special is a muffin special, small coffee and a carton of orange juice for only \$1.75. A hamburger deluxe, fries and a medium coke is only \$1.95.

Plenty of St. Patrick's Day items are now on sale at the Navy Exchange.

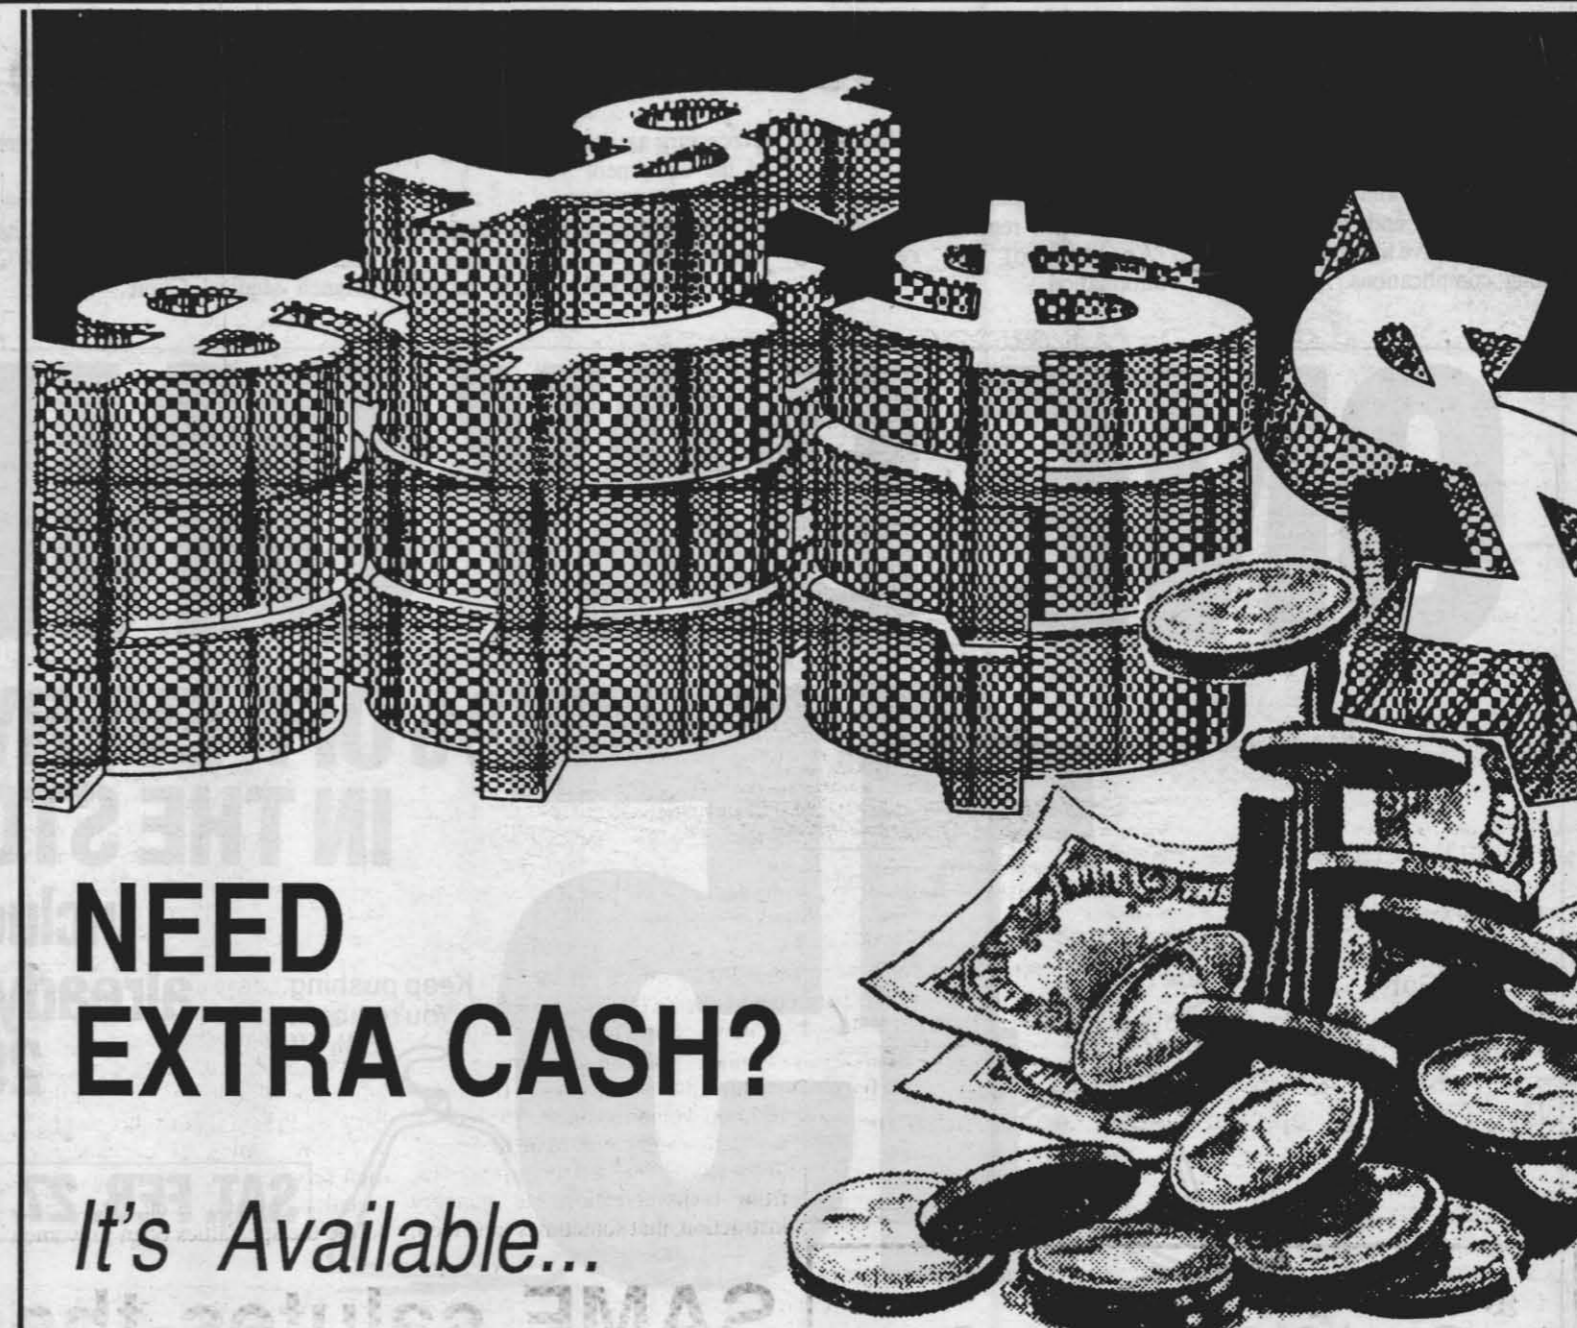

The Package Store's Wine of the Week is an easy pour 1.5 liter Cribari. Varieties are Burgundy, Rose, Peach and Chablis.

MOWC plans its special big auction

Everyone is invited to attend the annual Military Officers' Wives Club Creative Auction being held March 25 at the Commissioned Officer's Mess, activities will begin with a "Shrimp-A-Peel" at 6 p.m. Cost for this all-you-can-eat meal is \$13 per person. The auction will begin at 7 p.m. The cost of admission will be one dollar plus the donation of "creative" goods or services.

Last year's auction was a great success with a gourmet dinner for eight, a weekend of sailing on Lake Isabella, a Sunday Brunch on the Skipper's veranda, and other very imaginative ideas too numerous to mention being donated.

All profits will go to a scholarship fund to help military spouses and dependents pursue their college education.

CHAMPUS increases some infant coverage

Since December, 1987, CHAMPUS has been providing widened coverage of in-home monitoring of the breathing and heart rates of infants who have life-threatening breathing complications.

Under this coverage, CHAMPUS will share the cost of:
 •A cardiorespiratory monitor.
 •An attached recorder for printouts
 •Analysis of the recorder's information.

•Necessary assistance for proper use of the equipment
 •Diagnostic testing
 •Family training on how to respond to emergencies.
 •And professional visits by or to a

CAHPUS-authorized health care provider.
 For more specific information, contact the nearest Health Benefits Advisor, in this case at the NWC Branch Medical Clinic.

Reassignment opportunities... Cal-State Bakersfield and Chico release spring schedules

(Continued from Page 16)
 Engineering Group. The Environmental Engineering Group is responsible for developing environmental test plans, test procedures, test methods, techniques and specifications related to environmental testing of ordnance and ordnance related items. The incumbent will review, evaluate, and interpret environmental data and perform simulation of environmental models and data analysis utilizing a CAE/CAD engineering analysis system after completion of system training. The incumbent should be familiar with environmental testing, MIL-STD's, test plans and procedures. Basic knowledge of weapon systems and ordnance safety; ability to communicate effectively, both orally and in writing with various levels including project engineers, management personnel, engineers, technicians and contractors is desired. Promotion potential to DP-3. Please send a current SF-171 to Ron Shargots, Code 621, NWC ext. 7233.

CSUN to have Dr. Roe here every Monday

Dr. Arnold Roe of Cal-State University Northridge (CSUN) will be on-Center on Mondays during the Spring semester to advise current and prospective students in the master's degree program in applied mechanics offered by the school.
 CSUN has external degree programs in electrical engineering, applied mechanics and mechanical engineering at NWC which lead to a master's degree. CSUN also has an external degree program in electrical engineering which leads to a bachelor's degree.
 Those who wish to see Dr. Roe are asked to make an appointment by telephoning Cyndi Jones at NWC ext. 2648.

Bakersfield Business & Administration Program

The following classes are being offered this spring for the Cal-State Bakersfield Business (bachelor's degree) and Administration (master's degree) programs. To enroll in these classes, submit an on-Center Training Request (NAVWPNCEN 12410/73) via department channels to Code 094. Registration will be held in class at the first class meeting. Deadline for enrolling is 10 calendar days before the starting date of the class.

HISTORY 450: THE ECONOMIC AND TECHNOLOGICAL HISTORY OF THE UNITED STATES (5 quarter units)
 April 6-June 8; Wednesdays, 1610-2110; Training Center. By Professor Iyasere, CSB.
 Scope: Extensive practice in writing clearly and persuasively in technical and specialized forms such as reports of experiments, evaluation reports, abstracts, business reports and proposals, letters and memoranda.
 Note: This is a core course for the master's degree program in Administration.
BA 370: LEGAL ENVIRONMENT OF BUSINESS (5 quarter units)
 April 7-June 9; Thursdays, 1610-2110; Training Center. By Professor Graves, CSB.
 Scope: Introduction to the legal process, recognizing law as an instrument of social and political control in society. Topics include legal philosophy, judicial and administrative processes, constitutional protection for individuals and government regulation of business.
 Note: This is a core course for the bachelor's degree program in Business Administration.
MKG 477: MARKETING IN THE PUBLIC SECTOR (5 quarter units)
 April 4-June 13; Mondays, 1610-2110; Training Center. By Professor Guseman, CSB.
 Scope: This course is designed to inquire into the unique problems involved in marketing facilities and professional talents, along with the

Cal-State Chico Computer Science Program

The following classes are being offered this spring for the Cal-State Chico Computer Science Program (bachelor's and master's degrees). To enroll in these classes, submit a Training Request & Authorization Form (NAVWPNCEN 12410/73) via department channels to Code 094. Registration will also be held at the first class meeting. Deadline for enrolling is 10 calendar days before the starting date of the class. Although training requests will be accepted after the deadline, that date will be used to determine whether the class will be held.

CSCI 273: DATA BASE MANAGEMENT (3 units)
 March 12-13, April 9-10, May 7-8; Saturdays and Sundays, 0800-1600; Training Center. By Professor Seung BaeIm, CSUC.
 Prerequisite: CSCI 151: Algorithms and Data Structures or equivalent.
 Scope: An introduction to data base management systems. Storage structures, data-definition languages and data-manipulation languages for relational, hierarchical and network approaches to data base management.
 Text: TBA.
CSCI 310: SOFTWARE METRICS AND CONTROL (3 units)
 March 19-20, April 23-24, June 4-5; Saturdays and Sundays, 0800-1600; Training Center. By Professor George Arnovick, CSUC.
 Prerequisite: CSCI 210: Software Engineering or CSCI 270: Systems Design or equivalent.
 Scope: Software development: planning, cost estimation and control. Software metrics, configuration management and quality controls. Reviews and walkthroughs.
 Text: TBA.

MATH 477: DISCRETE MATHEMATICS (5 quarter units)
 April 7-June 9; Thursdays, 1610-2110; Training Center. By Professor El Ansary, CSB.
 Scope: Logic and induction; func-

tions and sequences; relations; recursive definitions; matrices and semi-groups; counting; and graphs and trees.
 Note: This is a core course for all options in the bachelor's degree program in Computer Science through Cal-State Chico.

GENERAL COMMENTS

1. Textbooks are available at local bookstores.
2. Job-related courses other than those listed above must be approved on an off-Center Training Request (DD 1556) before registration if NWC is expected to pay for the training. For more information, contact Cecil Webb, NWC ext. 2648.

CLP want new thespians

Thespians and aspiring actors are invited to try out for roles in the spring production of the China Lake Players. Tryouts will be held starting at 6:30 p.m. on Monday (Feb. 29), Tuesday and Wednesday (March 1 and 2) at the Players' new building on Entwistle Street across from McBride Park.

The production, *The Players—An Original Showcase*, will feature two

original plays by local writers.

The Mask, written by Gene Guilmette and directed by Reno Venturi, has parts for five men and two women of various ages, as well as several small speaking parts, including roles for children.

Three passes in time, written by Dan Jeffers and directed by Tom Lehmann, has parts for two young-to-middle-aged women, one young man,

one middle-aged to older man, and several parts playable by either men or women.

Copies of the script are available for reading at the Ridgecrest library. Performances for the production are scheduled April 29 and 30, and May 6 and 7.

For directions to the building or further information, call Terrie Daley Owens at 375-9385.

Reservations for banquet are available

Reservations are now being accepted for the 19th Annual Blue-jacket of the Year awards dinner on March 19. The Indian Wells Valley Council, Navy League of the United States, is hosting the annual event at the Naval Weapons Center's Enlisted Mess.

Candidates for the prestigious Bluejacket of the Year award are individuals who were named Sailor of the Quarter by the Naval Weapons Center or Air Test and Evaluation Squadron Five (VX-5) during 1987.

Reservations are required no later than March 14. The dinner is \$11 per person and features a two-meat buffet. For reservations call Dee at 375-2610, Judy at 446-2538 or Julie and 446-5488.

Red Cross sets class

There will be a course in "Disaster Shelter Management" taught by the American Red Cross in Lancaster on Thursday, March 3. Registration deadline is Tuesday, March 1. The

class will be offered in two sessions, 8 a.m. to noon and 1 to 5 p.m. For more information call the American Red Cross office in Lancaster at (805) 948-4729.

TV Booster relocates rock radio frequency

Rock radio station KLOS is moving to a different spot on the local FM dial, according to an announcement by the Indian Wells Valley TV Booster, Inc. The Booster currently brings the Los Angeles station to local listeners on a translated frequency of 99.5. To clear this frequency for expanded use by Ridgecrest's station KZIQ, KLOS is expected to be relocated to 107.9.

The Booster plans to complete the move by the end of March. Until then, listeners are likely to find the KLOS

signal "Noisy," according to Booster Board member Jan Thompson.

The all-volunteer TV Booster organization is dedicated to sustaining through-the-air television and FM-radio reception in the local area.

Persons desiring information are invited to write to P. O. Box 562, Ridgecrest, or to attend the next monthly meeting of the Board of Directors on March 7 at 5 p.m. at the conference room of the Kern County Library in Ridgecrest.

Wellness...

(Continued from Page 2)

Remember the blood draw is done in a fasting state. The times for the blood draw are usually 7 to 9:30 a.m. Attend the introductory briefs and sign up.

Physical fitness assessments will be held at PW on March 1 and 2, and at Thompson Lab on March 3. Main Site assessments are March 10, 11, 14 and 15. Those beyond the CLPL gate will have their assessments on March 16. The Michelson Lab area assessments will begin March 28.

Remember that everything is done on a scheduled basis. If you have a questionnaire and are finished with it, please return it to 02A3 so that it can be shared with others. Thanks.

By Betty Miller — Wellness Coordinator

TESTING — Nick Schneider, acting head of the Aircraft Weapons Integration Department, is registered by Sherri Baker as he gets ready for the fitness tests being conducted by the Wellness Program. Fitness tests include a fasting blood draw, pulmonary function, grip test, blood pressure measurement, body fat measurement, and flexibility and two fitness tests if the individual's blood pressure permits. Aim of the program is to help people know their condition and how they can improve their health and life expectancy. - Photo by Mickey Strang

Basic auto skills class

Anyone interested in learning how to perform basic automotive preventive maintenance should stop by the NWC Auto Hobby Center to register for a basic automotive mechanics class scheduled next month.

This class, planned for Monday, Wednesday and Fridays at 6 p.m., will start March 14 and end March 25.

Students will get the opportunity to learn do-it-yourself skills including how to change a tire, use a hydraulic car lift and tools such as dwell meters, timing light and volt-ohm meters.

Barrie Kelly, Auto Center Manager, is the instructor. For more details please call him at NWC ext. 2346/3107.

Youth hoops going strong

Season ends after next weekend

With the season winding down, teams are going all out in the recreation league sponsored by the Naval Weapons Center's Recreational Services Department. On Saturday, the Warriors nipped the Runners, 15-14 for their first win of the season.

Instructional Division
Suns 26, Bulls 12
 Behind Brian Armstrong's 12 points, the Suns were easy winners. William Raymond and Michael Bachman had six each while Mark Schramm hit two. The Bulls got four each from Sam Miles and Jason Vanderslice. Joey Melton and Daniel Peoples hit two each.

Nets 20, Stars 17
 Mathew Girardot's eight points along with six each from Daryl Blackman and William Cubit powered the win. Kevin Cornett hit seven for the Stars and Kate George four. Jay Norlund, Mark Norland and Gabriel Williams had two each.

Warriors 15, Runners 14
 Seven points from Daniel Dowling and six from Aaron Franich led the Warriors; Kevin Means added the final two points. Ethan Plugge had six tallies while Matt Moffitt and Mike Fortune had four each for the Runners.

Jets 17, Lakers 16
 Pat Ross hit all 17 points as the Jets nipped the Lakers. Chris Branson had 12 points for the Lakers while Paul Greedy and David Rollingson had two each.

Intermediate Division
Celtics 37, Huskies 28 Fourteen points from Tony Haleman and 10 from Otto Blowers led the winners.

Chris Patten and Mike Ross had four points each while Chris Umpingco and Jason Hahaberry hit two each. Ryan Lilly had 13 in the loss while Jerome Davis added six. Mike Koelsch had four while Stephen Yoo, Jesse Byrd and Daniel Kelling had two each.

Spurs 47, Nuggets 34
 Tony Domingues with 14, Jeff Brown with 11 and Joel Haynes with 10 led the win. Tim Clark added eight while Lacy Cordell and Jesse Owen had two each. The Nuggets got 16 from Brett Becker and six each from Danny Lahey and Eddie Guerra. Rhett Kennedy added four and Sam Muhn hit two.

Pistons 29, Spurs 29
 Playing to a 29-29 tie, the Pistons were led by David Young's eight points. Greg LaPointe, Greg Zweierchowski and Louis Moore had six each and Nicholas Barkemeyer had three. Jeff Brown's 14 points paced the Spurs, while Tony Domingues added seven. Joel Haynes hit six points and Tim Clark had two.

Junior Division
Lions 38, Jazz 15
 Allen Paisano led the Jazz with four points while Kevin Self hit for three. Mic DeMin, Mike Eberhart and Paul Underwood had two points each. The Lions got 13 tallies from Greg Greedy and eight from Joey, while Jason hit six. Also scoring were Quannah Driver, Mike, Tom, Seth and Chad.

Pacers 72, Hawks 24
 Ten players scored, led by Tom Halman's 19 points in the win. Chuck Roulund, Eric Strickland, Mike

Franklin, Herbie Morton, Ross Lyons, Andre Staples, Mark Russel, Scott Richiso and Will Irvine added to the tally. Scott Ross hit 10 and Brian Hire six for the Hawks. Dennis Sarrett added four while Chris Dinnon and Wesley Mouw had two each.

Clippers 19, Eagles 17
 With Casey Smith, John Nyland, Jim Randolph and Josh Moorehead hitting four points each the Clippers nipped the Eagles. Travis McCollum added two points and Larry Williams one. Damon Kelling's five points led the Eagles while Chris Shultz and Jarrett Garife had four each. Sean Williams and Eric People ended the scoring with two points each.

Senior Division
Mavericks 47, Bullets 37
 The Mavericks upset the Bullets behind 12 points from Shane McDonald, 11 from Kelsey Newman and nine from Danny Miller. Michael Moffitt, Bart Anderson, Carl Brown, Kris Wagner and Larry Staples all chipped points toward the win. Chris Armstrong paced the Bullets with 12 tallies while LaMonte Dawson added nine. Also scoring were Bryn Gaker, Clint Parish, Greg Parish, Ron Schiller and Anthony Cottingham.

Clippers 60, Kings 24
 Steve Jaime had 10 points in the loss to lead the Kings, while Charles Gerrity hit eight. Mark Arnel, Perry Decker and Amir Saleen had two points each. All the Clippers scored, paced by Eric Hillewaert's 16 points, 15 from Tim Seufert and 10 from Alex Beltron. Also scoring were Cory Morehead, Mike Hargett, Brian Perez and Chris Philpott.

Code 22 opening Leisure Travel Office

Starting Monday, Feb. 29, the Leisure Travel Office will become the newest service offered by the Naval Weapons Center's Recreational Ser-

vices Department. The department is contracting with SATO Travel Service to offer complete assistance with individual travel plans. This will cov-

er travel by air, train, cruises, tours and more.

This new office is next door to the Information Ticket and Tour Office. Leisure Travel Office will be open from 9 a.m. to 5 p.m. weekdays and from 9 to noon and 1 to 5:30 p.m. on Saturdays.

For more information stop by the new office or call 446-7751.

Early trout season

Next Saturday, March 5, is an important day for eastern Sierra area anglers... it marks the opening of the 1988 early trout season in southern Inyo County. And, it's the day for the annual Bishop Chamber of Commerce Bling Bogey Trout Derby at Pleasant Valley Reservoir.

The early season opens streams from Independence Creek south to fishing west of Highway 395. The general trout season won't open for other eastern Sierra waters until the last Saturday in April.

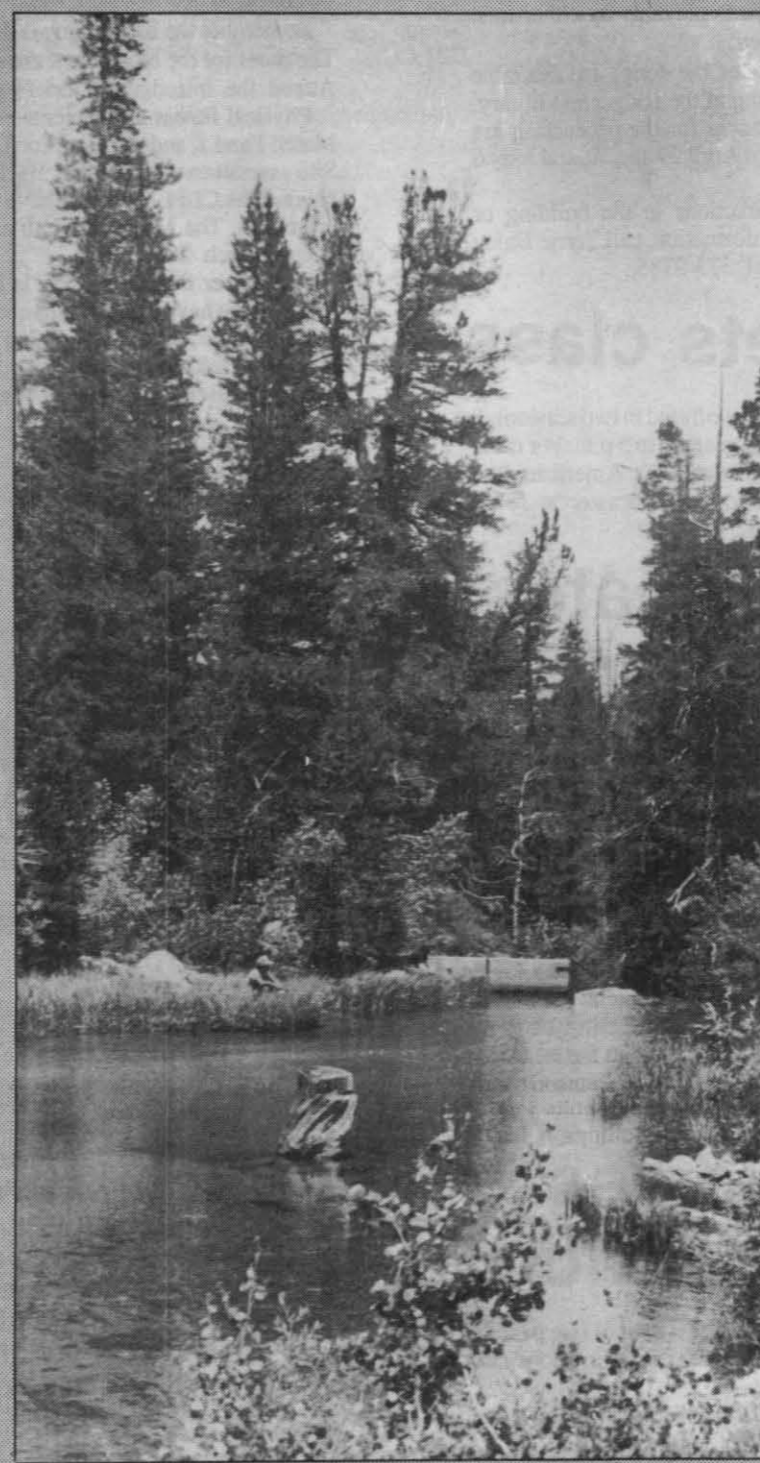

During the early season anglers are limited to five trout each and must have a 1988 sport fishing license before wetting their line.

Department of Fish and Game officials say a new law really cracks down on unlicensed anglers with very stiff fines. Wardens are expected to be out in force during the first weekend, checking limits, for illegal use of more than one pole and, of course, a valid 1988 license.

The Blind Bogey Derby calls more for luck than skill on the part of anglers. In this contest, a trout is caught before the derby starts, measured and weighed. The anglers who comes closest to matching the weight and size wins top honors.

All trout entered in the contest must be taken on Saturday, March 5 from Pleasant Valley Reservoir of the 25 miles of the Owens River below the reservoir open to year around fishing. The fish must be brought to the official check station at the reservoir seven miles north of Bishop to enter. Hundreds of dollars worth of prizes from Bishop area merchants are on the line for lucky and skilled anglers again this year.

Also available for area anglers is Lake Isabella where some catfish as well as a few trout are being taken. Lake Diaz, just south of Lone Pine is also open, but fishing remains slow despite a large number of hatchery brood stock planted there this month.

Deadline today

Today (Friday) is the deadline to turn in team rosters for the NWC Intramural Volleyball Leagues. Roster forms and additional information are available at the Center Gym.

Softball tryouts underway

Softball tryouts are underway for anyone interested in playing for the Naval Weapons Center's men's varsity softball squad this season.

The team will represent China Lake in the Mojave Desert Interservice League. All active-duty military personnel and DOD civilian employees along with their dependents are eligible to compete.

Tournament play opens March 18,

while the regular season begins in April. The team will travel to other MDISL installations for play about two weekends a month during the 1988 season.

For additional information on the tryouts and the softball team, call Darrel Blevins at NWC ext. 5413. Additional information is also available from the Center Gym staff at NWC ext. 2571.

Kart Trax back for more entertainment

"Kart Trax" Go-Carts will be in the Youth Center parking lot March 21 through April 3, Monday through Sunday. The times of operation will

be announced at a later date. The maximum speed of the go-carts will be 10 miles per hour and safety helmets will be provided.
