

## Deadline for Bjorklund Award nominations is approaching

July 1 is the deadline to submit nominations for the R.W. Bjorklund Management Innovation Award. This prestigious award goes to an individual who has made a significant contribution to innovation in public service organizations or community related functions. Nominations should include a detailed description of management innovation by the nominee and names of individuals in the area who are knowledgeable about the accomplishment. Send nominations to Steve Boster, American Society Public Administration (ASPA) president, 809 W. Coral Ave., Ridgecrest, CA 93555.

## Prestigious Award Owens receives technical award

For recognition of fine work in the coordination and direction of quality assurance on many Center programs, Harold Owens received the Technical Director's Award.

A leader in the field of government quality assurance, Owens has received numerous letters of appreciation for work he has done on NWC programs over the past 7 years.

Sterling Haaland, head, Engineering Department, praised Owen's superior management skills and knowledge of quality assurance in a letter of recommendation addressed to NWC technical director, Gerry Schiefer. Both were on hand, along with other NWC top managers, for the surprise award presentation at Mich Lab last week. Owens' two

sons, Darren and Gray stopped by to share in his moment of glory.

Expressing his surprise and gratitude for the prestigious recognition, Owens thanked Schiefer and assembly for the opportunity to be involved in the exciting and rewarding work going on at NWC. He was anxious to return to his workplace to share the award with his co-workers. Owens is employed in the Quality Assurance Branch, Code 3682, but works on special assignment to other codes on-Center.

"Several important programs have relied heavily on and benefited from your demonstrated excellence," said Schiefer in his commendation letter. "...Now it is my turn to publicly recognize you for your fine work."

## Stepping into adventure

**WHITEWATER WEDNESDAY--**This young girl makes her way into the Kern River during 'Whitewater Wednesday' in Kernville this week. Sponsored by the Kernville Chamber of Commerce, the event featured a one-hour "Lickety Split" trip through such action-packed rapids as "Big Daddy," "Sidewinder" and "Ewing's." Whitewater rafting is growing into a major portion of the County's tourist industry and is an adventurous nearby mountain escape. Photo by PHAN Cary Brady.

# NWC WELLNESS CORNER

Recently, Amy Fuller, a Ridgecrest registered dietician, spoke at NWC on the topic of fast food nutrition -- both fast food restaurants and convenience foods. Fast food popularity is primarily due to its convenience, cost and universal good taste. Major nutritional concerns are the salt and fat content of fast food and convenience food selections and their subsequent effect on the already deteriorating condition of the American body.

In last week's *Rocketeer*, we listed the nutritional aspects of various fast food offerings. Frozen prepared dinner entrees are becoming increasingly popular due to their convenience and low caloric content. Fuller also listed the pros and cons of some of the new frozen type entrees. Nutritional information is listed below:

FOOD	CALORIES	FAT (%)	CHOLESTEROL (MG)	SODIUM (MG)
Le Menu				
Lite Style	220-280	14-29	25-100	600-830
Armour				
Classic Lite	220-290	7-43	35-105	500-1010
Budget Gourmet				
Slim Select	260-290	17-47	25-75	560-1130
Lean				
Cuisine	190-280	17-43	20-105	400-1190
Weight				
Watchers	210-370	7-55	5-105	350-1100

## NWC mission explained at USFS public meeting

Capt. Gene Allen, deputy director, Test and Evaluation, represented the Naval Weapons Center at a recent public meeting hosted by the Sequoia and Inyo National Forests.

He and Colonel John Hoffman, vice-commander, Edwards Air Force Base, discussed the missions of their bases and the necessity of overflights within the Wild and Scenic River corridor.

Over 50 people attended the Kernville meeting and heard the two military representatives explore other topics including the historical aspects of how and why the bases were established; the various types of aircraft research, development, testing and evaluation taking place; and the extent of the airspace zone used by these and other military bases.

The meeting also included talks on the rationales behind the military's use of certain types of topography for proper aircraft and radar testing, e.g., portions of the Kern River Canyon and Kern Plateau.

A summary of the self-imposed overflight elevation restrictions placed over the Kernville area, the original Dome Land Wilderness, Sequoia and Kings Canyon National Parks, and Death Valley and Joshua Tree National Monuments was also presented. Overflights are restricted to a minimum of 3000 feet from the ground over these areas.

The Forest Service expressed its appreciation to Capt. Allen for his time and professionalism in conducting the "important and interesting public meeting," in a recent newsletter.

## Safe, secure, sound investment: buy U.S. Savings Bonds now

NWC's 1989 Savings Bond Campaign will be underway from June 26 through July 7. During this time, all hands will receive an informative brochure attached to a memo from the NWC Commander's office. Military and civilian personnel are urged to take advantage of this unique opportunity to save through the payroll savings program.

For more than forty years U.S. Savings Bonds have provided

one of the safest and most secure means of saving. Bonds offer an even better deal today.

Instead of a fixed rate of interest, bonds now offer a market-based variable interest rate. While there is no ceiling on how much bonds may earn, there is a built-in guaranteed minimum return of 6% to protect bond holders from market downswings. The current rate of interest for Series EE Bonds issued

between May 1 and October 31, 1989, is 7.81%.

Employees wishing to enroll in the program should call or visit the Civilian Payroll Office in the Administration Building, NWC ext. 2121. Military personnel should visit the PSD Military Pay Division. For further information, call the Employee Relations Office on NWC ext. 2018 or 2592.

## Expect heavy traffic Simulation of earthquake to occur Friday

Emergency services groups throughout the Indian Wells Valley will take part in a disaster drill on Friday, June 30, noted Roy Parris, IWV Civil Defense director.

Ridgecrest area and Naval Weapons Center residents can expect an unusual level of emergency vehicle traffic for about two hours that morning. The traffic will largely be for the purpose of transporting "victims" to the Ridgecrest Community Hospital.

As part of the simulated magnitude 8.3 earthquake disaster exercise in the Antelope Valley conducted by the California Specialized Training Institute (CSTI), a 6.5 magnitude earthquake will be simulated in the IWV for training purposes at about 9 a.m. on June 30.

The drill will include simulated injuries in town and on board NWC, evacuation of the injured to the Ridgecrest Community Hospital and the NWC Branch Medical Clinic and emergency communications throughout the IWV emergency radio system.

Groups and agencies taking part include the City of Ridgecrest, Kern County, NWC, American Red Cross, Salvation Army, the IWV Volunteer Council, Boy Scouts of America, Police Explorer Scouts, Ridgecrest Community Hospital, Tri-County Ambulance, Sierra Sands School District and RACES volunteers.

**BOSS PRESENTS--Classical guitarist Edward Baca at the China Lake Station Theater on June 28. The box office opens at 4:30 p.m. and the program begins at 7:30 p.m. Enjoy songs such as Lagrimas, Adelita and the theme from Dr. Zhivago. Tickets are \$6.50 per person. For more information, call 375-5397 or 375-4554.**

## **Community Events**

Want to get away from the heat? Want to see some spectacular scenery? Attend the Laguna Beach Pageant of the Masters on July 11 with the Desert Art League. See living reproductions of famous works of art, the Sawdust Art & Craft Show and the Art-A-Fare. Soak up some beautiful waterfront atmosphere, including shops, great restaurants, etc.

Cost is only \$40 for the pageant and the bus ride. Space must be reserved by June 30. For more information about this unique, one-day event, call Margaret Bradburn at 375-0311 or Jo McLaughlin at 446-2034.

Put on your clown face and join fellow clowers at the Clown Fest on Sunday, July 16 at John's Pizza from 1 to 5 p.m.

Hosted by "Blimpo" Jack Frank and "Potsy" Pat Frank, both directors of the World Clown Association, the seminar will uncover the clowning talent in participants.

A free show will follow the seminar at 5 p.m. For more information call "JO JO" Joe Chesney at 375-7395.

"America's pride! Celebrate the Fourth With Flowers" is the theme for a standard flower show to be staged by Oasis Garden Club of Indian Wells Valley on July 4 in Sage Hall at the Desert Empire Fairgrounds. The show will be open to the public at no admission charge from noon to 9 p.m.

The show will be governed by rules established by National Council of State Garden Clubs Inc., and evaluated by nationally accredited judges.

All garden club members, both active and associate, are encouraged to participate on July 3 at 9 a.m. in setting up the show and to learn classifying, placement and exhibiting. Schedules and information will be available from club members by calling 375-9510, 375-5230 or 377-4525. Advance entries are required for artistic designs to be registered on or before July 1, at or before 8 p.m., with the entries chairman, 377-5230. They and all other entries listed on the application form may be delivered on July 3, from 8 to 9 a.m., at Sage Hall. Any club members who have not received their newsletters may call 377-4525 to verify their addresses.

# Discount tickets offered to government workers

For the fourth year in a row, Wet 'n Wild, Las Vegas' 26-acre-water-theme park will honor the military and government employees during Military Day on Sunday, July 2, from 10 a.m. to 8 p.m. The park will be reserved exclusively for military personnel and their guests from 8 p.m. to midnight.

"The water park has a variety of attractions for every age group," says Gary Daning, vice president and general manager. From the Blue Niagra, two tubes twisting side by side from the eight-story high Der Stuka, the world's tallest water slide, to the relaxation of the Lazy River and

the uniqueness of the children's water playground.

In addition to all the water fun, a 2,000 square foot arcade with 60 of the latest video and skill games has been added. Enjoy the ever popular Skeet Ball, Hoop Shoot and Wac-A-Mole, plus the recently released Robo Cop, Off Road and Thunderbolt. The Tunnel of Flume also makes its debut this summer. "A tunnel top has been added to one of the 350 foot long slides on Flume Hill, creating a dark and mysterious ride," says Daning.

Ticket price is \$10 per person, children under three are free. The price includes all day admission,

unlimited use of all rides and free soft drinks.

Guests are allowed to bring picnic supplies and there is no parking fee. Locker and shower facilities are available.

Wet 'n Wild tickets are not available at NWC's Information, Ticket & Tour Office. Tickets can be purchased at the gate, however, Wet 'n Wild staff suggest purchasers arrive a little bit before the 10 a.m. opening.

"My family and I took advantage of Military Day last year," said one NWC employee. "It was one of our best, and most remembered, days last summer."

## Play ends this weekend

"South Pacific" will be presented by CLOTA at the Burroughs High School Lecture Center at 7:30 p.m. tonight and tomorrow night. Directed by Nancy Miller Guy, the tickets are

\$8 adults, \$5 senior citizens, military and students. Tickets are available at the door, at Music Man, Art Buffet, Ridgecrest Cleaners, and Farris' Italian Gardens.

## Ed Hogan's works to be shown at local museum

Ed Hogan will display a metal sculpture exhibit entitled "Echoes of a Story Untold" in the Sylvia Winslow Gallery of the Maturango Museum from June 30 to Aug. 2. A reception for the artist and museum members will be held

Thursday, June 29, from 7 to 9 p.m.

Admission is \$1 for adults and 50 cents for children. Museum members are admitted for free. A percentage of the sales will benefit programs of the museum.

**AMERICAN HERITAGE CROSSES GENERATIONS--Winners of the student art competition and school representatives gather for a photo. The students' artwork addressed the theme, "Pride in Diversity" and was exhibited during the Equal Employment Opportunity Awards ceremony during American Heritage Week.**

## Military payday to be advanced in the Fall

(NNS)--Secretary of Defense Dick Cheney decided to advance the October 1, 1989 military payday to September 29, 1989 to "avoid the financial hardship for our soldiers, sailors and airmen."

In a memorandum to all service secretaries, Cheney wrote, "The October 1 payday was not advanced last year when it fell on a Saturday. Even that small delay in payment was an inconvenience to many service members and for some, a financial hardship."

"This year, the October 1 payday will fall on a Sunday. Unless the payday is advanced, many of your personnel will not receive their pay until Monday, October 2. Therefore, you should take the necessary actions to advance the military payday to Friday, September 29, 1989."

**MOMENT OF GLORY--ADCMS Larry Pritchett, left, now answers to the term, 'Master Chief.' The former senior chief was frocked to his new grade by Cdr. Phil Souza, executive officer. The Master Chief is assigned to Maintenance Control.**

## Apply now for Navy's LDO/CWO programs

NAVY NEWS SERVICE--The Navy is looking for top-notch senior enlisted personnel to apply for the limited duty officer (LDO) and chief warrant officer programs.

Eligible first class, chief, senior chief, and master chief petty officers are encouraged to apply for one or both programs. Sailors who have previously applied and are still eligible can reapply.

Warrant officers who have completed two years commissioned service as of Oct. 1, 1989 can apply for the LDO program and if selected will be appointed the rank Lieutenant Junior Grade (O-2E).

Applications are due to Commander, Naval Military Personnel Command (N-211) by August 1, 1989. The selection board is scheduled for January 1990.

**A FAMILY AFFAIR--AG2 Charles Reaves, a weather forecaster with the Naval Oceanography Command Detachment at China Lake, was joined by his wife, Linda, his son, Christopher, and his daughter, Heather, as he re-enlisted for another 3-years with the Navy. Photo by T.I.D.**

## The Skipper Sez...

### QUESTION

I just wanted to know when you are going to get a permanent fix on the perimeter fence down by Capehart B between the alley of Sykes and Sellar Circles. Everyday at lunchtime there has to be a convoy of four hundred children that come in the Knox gate from Burroughs High School and go up the alleyway so they can go to the doughnut shop out in the new shopping mall. Right at midtime of the day is my sleeping hours and the heavy traffic of up to 250 to 400 students incites every dog in every yard. For about an hour and a half, there is constant noise. The hole in the fence is monitored at night and traffic flow is only 20 people per hour, but at noon time, it's a real popular boulevard. Thank you.

### QUESTION

It seems to be every single day the high school kids from Burroughs come in and trash my yard. China Lake Police have been called a numerous amount of times. They say they can't do anything. Housing says they can't do anything. I'd like to know what I can do. Thanks.

### ANSWER

The China Lake Police Division (CLPD) has been monitoring the pedestrian traffic in the area of Burroughs High School for several weeks. CLPD has initiated a program to minimize loitering in the areas inside the gate and eliminate usage of the apparently popular "short cut" to the shopping center. An initial count of student access before the loitering restrictions were implemented indicated a maximum of 80 students per lunch hour entering the Knox gate. The fence repair has already been accomplished by the Public Works Department. It is hoped that some of your problems have been corrected.

*All China Lakers, including military personnel, civilian employees and their dependents, are invited to submit questions to this column. Such queries must be in good taste and pertain to matters of interest to a large segment of the China Lake community. Answers to these questions are directly from Capt. John Burt. Please call NWC ext. 2727 with your question and state whether you are a military member, civilian employee or dependent. No other identification is necessary. Since only three or four questions can be answered in the Rocketeer each week, anyone who would like to ensure getting an answer to a question may leave their name and phone number for a direct contact, but otherwise, this is not required. There is no intent that this column be used to subvert normal, established chain-of-command channels.*

# Contest increases voter awareness

Washington (NNS)--Sailors, Marines, civilian employees and families are invited to enter the 1989 voter Slogan Contest sponsored by the Federal Voting Assistance Program (FVAP). The FVAP is looking for original slogans to increase voter awareness and inspire people to vote. The winning slogan will be an integral part of the 1990 media campaign to increase voter awareness among U.S. citizens by appearing on posters, voter manuals, publications and other media materials. The winner will receive a certificate from the secretary of defense. The military service

with the highest percentage of individual participation will also receive special recognition.

Send slogans, art work or both to: Federal Voting Assistance Program, Office of the Secretary of Defense, Room 18457, The Pentagon, Washington, D.C. 20301. Slogans should be submitted on 8 1/2 by 11, regular letter-sized paper, with full name and mailing address. Entry deadline is July 31.

For more information, contact your voting action officer or call the FVAP commercial 202-695-0663, AUTOVON 225-0663.

### "Giving And Getting"

A wise person once said, "You can take a horse to water, but you cannot make him drink." I once heard a lady, a member of the Bronx, New York, congregation which I served as pastor say, "A prayer is not a prayer unless it is prayed." I also once read in a book about preaching that preaching is like an invitation to a party. You can extend an invitation to a party, but you cannot force a person to attend.

All of this serves to point out that we each have a responsibility for benefitting from the resources which a religion has to offer. Are you benefitting from your religious faith? Or, are you sitting passively waiting for it to make an impact on your life? Do you ever complain about what you are not getting from your religion and religious organization? I would like to pose a question for consideration. Are you giving

anything to your religious faith and religious organization?

Here is something which I learned through struggle. I learned that to benefit spiritually from faith, I had to accept what was offered. I am a Christian. I believe Jesus Christ has enriched me because I have accepted Him and the benefits which He has offered me. There is no way we can profit from the resources of faith if we do not receive those resources.

Here is another thing which I learned some years ago. I learned that in order to receive a spiritual benefit from my faith, I also had to give myself to that faith. Often I hear people say, "I did not get anything out of the sermon today." But I wonder about the disposition of such people when they listen to the sermon. I wonder whether such people go to worship to be spectators or participants. Do they go to wait for

something to happen or do they go to be part of the event?

If you are in the doldrums with regard to your faith, perhaps you need to examine the reason or reasons you are where you are. I would suggest to you that your faith has rich resources that can lift you out of the doldrums. But it can only do this for you if you apply it.

Religious faith is similar to medicine. Medicine will not heal you of a disease if you refuse to take it. Religious faith will not help you if you do not try it.

"To get stones from a rock, you got to break it.  
 To get bread from dough, you got to bake it.  
 To get water from a faucet, you got to turn it."

Lyrics from a song entitled "You've Got To Earn It." Grant Robinson.

By Lt. G. E. Williams, CHC, USNR

### Thompson/McLean awards today

Today, beginning at 11:30 a.m. the L.T.E. Thompson and William B. McLean awards will be presented during a luncheon at the Officer's Club.

The awards recognize outstanding individual achievements and creativity in furthering the Center's mission.

China Lakers are invited to view the presentations.

**AWARDED BY PRESIDENT--Marty Shelton, a 20-year veteran of NWC, proudly displays the 'President's Award' he received from the president of the Society of Technical Communicators (STC) at its recent annual conference. Retiring today, Shelton has made many contributions to the Center and to STC. His honors include a distinction as a Fellow with STC and as a Fellow with the Association of Visual Communicators. Shelton is also a retired Captain with the Navy Reserve.**

# Cerro Coso offers engineering class

NWC employees may be interested in *Engineer In Training Review*, a class being offered at Cerro Coso this summer, noted Vicki Munro, a member of the Training Center's staff. "Even though the last day to register was yesterday," she said, "this class is not closed and a student may register late with the permission of the instructor."

Taught by T. Yeung, this six-week course meets from 6 to 8:50 p.m. on Mondays and Wednesdays. It is especially designed for people who are preparing to take

the fundamentals portions of the California State EIT (Engineer In Training) examinations. Engineering topics that will be reviewed include mathematics, engineering economics, fluid mechanics, chemistry, thermodynamics, engineering mechanics, mechanics of materials and electrical theory. The final exam will simulate the eight-hour EIT exam.

Even though it is too late to submit paperwork for NWC to pay for the class, the fee is only \$10.

# Refresher training needed for people using HILTI tools

Beginning July 10, classes on HILTI tools will be given at the Safety Program Office (Building 00465).

HILTI (powder-actuated) tool operators are required to receive periodic refresher training in order to maintain their tool license. The Safety Program

Office (Code 2405) will be providing this training. Tool licenses are issued for three years. Please check your tool license for its expiration date.

If training is needed, please contact the Safety Program Office at NWC ext. 2315/2386.

# Cerro Coso offering "Bicycling" for youth

"Bicycling" is the topic of a summer youth course being offered by Cerro Coso Community College. Tim LaFromboise will instruct the course for 12 to 14 year olds on racing and touring techniques such as cadence, position and drafting. Basic maintenance and repairs, safety and bicycle components will also be taught, using a combination of lecture and riding. Each student will need to bring a street legal bike and safety-approved helmet.

The course will be held weekdays July 10 through 21 at the college's City Center Facility in Rooms 108 and 110. A \$45 enrollment fee is required at the time of registration.

LaFromboise is the vice president of the High Sierra Cyclist Club and has been a competitor in road races for the past two years.

Cerro Coso Community College has scheduled a variety of Summer Youth College courses this summer. From art to Tai Chi and Aikido, Cerro Coso has classes for everyone.

Pick up a copy of the "Summer Youth College" schedule of classes today at the college for a complete listing of classes being offered. Registration will be conducted up to the first class session.

# Personnel development opportunities

### Official Naval Correspondence (8 hours)

Aug. 18, 0800-1600, Training Center. By LaNelle Thompson.

Intended Audience: Clerical/Administrative.

Scope: A class for all Center personnel who type, write or approve naval correspondence. It is a detailed overview of SECNAVINST 5216.5C and NAVWPNCEN 5216.8, which review standards for correspondence preparation, formatting and paperwork management.

Note: Please bring your copy of SECNAVINST 5216.5C (Correspondence Manual).

Deadline: Aug. 3.

### Basic Naval Writing for Beginners (8 hours)

Aug. 17, 0800-1600, Training Center. By LaNelle Thompson.

Scope: SECNAVINST 5216.5C sets new writing standards that are important to anyone who writes or reviews the writing of others. The class instructor will review those standards, i.e., the use of active versus passive verbs, personal pronouns, short sentences, etc. A workbook (OPNAV 09B-P1-84) with exercises and answers that reinforce the principles of better naval writing will be used in class.

Deadline: Aug. 4.

### Self-study courses

**Power Communication Skills (Political Savvy and Leadership Skills for Women) (4 hours)**

Open enrollment, self-study. By Susan Dellinger.

Scope: In this program, you'll learn: 1) beyond assertiveness -- how to move to the next step, power; 2) how to orchestrate it all -- the look, the walk, the voice, the words -- into one powerful package; 3) how promotion decisions are really made (and how to get them made in your favor); 4) the three conflicts you must avoid; 5) Executive strategic planning made simple; 6) why you don't get the whole truth in your performance evaluations; 8) how to avoid the ten most common blunders that sabotage many women aiming for the top; 9) "Die before cry" -- escape hatch- es that work; 10) cleaning up our own act: women working with women; plus, specific strategies for dealing with a tough boss,

negotiations, crises, meetings and much more.

Presentation Methods: Audio-cassette.

Enrollment Form: 12410/73. **Relationship Strategies (How to Deal With the Differences in People) (18 hours)**

Open enrollment, self-study. Scope: This program is designed as a simple tool which can be used easily and applied readily to improve business and interpersonal relationships. It is not designed as an in-depth psychological examination of human behavior, but rather as a simple way of observing and understanding the difference in people through their behavior.

Enrollment Form: 12410/73.

### The Secrets of Power Negotiating (6 hours)

Open enrollment, self-study, Training Center. By Roger Dawson.

Scope: This is a six-audiocassette tape program which explains the five basic rules of negotiating, the win-win techniques and three guiding principles. In this course, you should learn how to become a more effective negotiator by recognizing and fully utilizing three stages of negotiating; use the many techniques involved in negotiating such as good guy-bad guy, walk-away power, trade-off

principles and grinding-away process; understand power which comes from eight difference sources; understand the different personality types (prognative, extrovert, analytical and amiable); understand body language -- spotting attention, boredom, discomfort, embarrassment, confidence, nervousness and annoyance; and understand the meanings in conversation -- hidden implications, exact opposites, throw-aways, legitimizers; justifiers, expressions, erasers, deceptions and preparers.

Presentation Methods: Audio-cassettes.

Enrollment Form: 12410/73.

### Winning With Words (12 hours)

Open enrollment, self-study. Scope: Winning with words goes way beyond keeping up with new or unfamiliar technical words. You learn -- and correctly use -- a wide range of words you can then enjoy in every day conversation. Reduce the risk of embarrassing yourself...fumbling for words, using them incorrectly or failing to understand others. Word by word, you come to possess the vocabulary you may have previously envied in others. You make the words your servants.

Enrollment Form: 12410/73.

## 20MHz VGA AT Complete System

Special: Free Upgrade to 67MB, 25ms Hard Disk Drive

The best 286 AT system we've seen.

**20MHz zero wait state AT. Complete Foundation/PC Craft system with 1.2MB & 360K floppy drives, serial & parallel ports, Packard-Bell VGA display & Renaissance VGA adapter, 1MB RAM (motherboard holds up to 8MB RAM), 48MB high-performance hard disk, battery-powered clock/calendar, standard or baby AT case, AT-style enhanced keyboard, MS DOS 3.3 (or MS-DOS 4.01 for \$27 more), word processor and other application and utility s/w. 16MHz Harris processor & Chips-& Technologies' true NEAT chip set, DMA & I/O bus speeds can be set separate from processor speed, BIOS shadow copied to RAM for even higher performance. 2-year warranty on system, 1-year on hard drive. List \$3,495, only \$2,495. High-res. monochrome system only \$1,999. Made in U.S.A. Baby tower case only \$30.**

# Personnel news

(Continued from Page 15)  
environment is highly desirable. Position is located at the EWTES Facility and is on first forty work schedule (Mon-Thurs, 0630-1630). Promotion potential to DP-3 level. Send current SF-171 to E. Ratto, Code 6446, NWC ext. 3571/245. Previous applicants need not reapply.

No. 64-036, Computer Scientist, DP-1550-2/3, Code 6446 - The EWTES Division is in the process of developing a hardware/software configuration management system. This position is in support of the EWTES Configuration Manager and will give the incumbent the opportunity to give direction to the overall EWTES configuration management system. There will be a large variety of computer systems that will be brought under configuration control. The incumbent will help develop, maintain, and implement

the EWTES configuration management data base system and perform the duties of Computer System Manager. The incumbent will establish software baseline and control all changes to such baselines, using techniques that will involve on line computer equipment. Incumbent must have thorough knowledge of sound problem solving techniques, data base system management, and system administration techniques and procedures. Must be familiar with various type of computing systems. Incumbent must be able to communicate orally and in writing. Knowledge of the VAX/VMS environment is highly desirable. Position is located at the EWTES Facility and is on first forty work schedule (Mon-Thurs, 0630-1630). Promotion potential to DP-3 level. Send current SF-171 to E. Ratto, Code 6446, NWC ext. 3571/245. Previous applicants need not reapply.

## Secretarial opportunities

This column is used to announce secretary positions for which the duties and job relevant criteria are generally similar. Secretaries serve as the principal clerical and administrative support in the designated organization by coordinating and carrying out such activities. Secretaries perform numerous tasks which may be dissimilar. Positions at lower grades consist primarily of clerical and procedural duties and, as positions increase in grades, administrative functions become predominant. At the higher levels, secretaries apply a considerable knowledge of the organization, its objectives and lines of communication. Depending on grade level, typical secretary duties are implied by the job relevant criteria indicated below.

Applicants will be rated against four or more of the following job relevant criteria: (1) ability to perform receptionist and telephone duties; (2) ability to review, track, screen and distribute incoming mail; (3) ability to review outgoing correspondence; (4) ability to compose correspondence and/or prepare non-technical reports; (5) knowledge of filing systems and files management; (6) ability to meet the administrative needs of the office; (7) ability to train clerical personnel and organize workload of clerical staff processes; (8) ability to plan and coordinate travel arrangements; (9) ability to maintain and coordinate supervisor's calendar and to arrange conferences.

Unless otherwise indicated, applicants for branch secretary will be rated on elements 1/2/3/5/8; division secretary applicants will be rated on elements 1/2/3/4/7/8/9; Program Office secretary applicants will be rated on elements 1/2/3/4/5/8/9; and department secretary applications will be rated on elements 4/7/8/9. A SUPPLEMENTAL FORM IS REQUIRED AND MAY BE OBTAINED IN ROOM 100 OF THE PERSONNEL BUILDING.

No. 27-013, Secretary (Typing), DG-318-1/2, Code 2711 - The incumbent provides secretarial and administrative support to the Head, Networking Services Branch. Position involves considerable interaction with all levels of Management on-Center. Experience using Mac SE or Mac II is highly desirable including applications such as Excel, Microsoft Word, MacWrite, Power Point, and Filemaker. Promotion potential to DG-2.

Experience with the Macintosh computers is desirable. Promotion potential to DG-2, but not guaranteed.

No. 28-047, Secretary (Typing), DG-318-2/3, Code 283 - The incumbent is the secretary to the Head, Budget & Resource Analysis Division and provides clerical support to the Division's Administrative Officer and two budget branch heads. Promotion potential to DG-3, but not guaranteed.

No. 37-003, Secretary (Typing), DG-318-2/3, Code 372 - This position is located in the Air Launched Weaponry Technology Block Office of the Technology Advancement Group. The incumbent provides secretarial support to the Air Launched Weaponry Block Manager, Deputy Block Manager, and Missile Support Technology Block Manager (Code 373). Word processing experience is highly desirable. Promotion potential to DG-3, but not guaranteed. Status eligibles may apply.

No. 28-048, Secretary (Typing), DG-318-A/1/2, Codes 2834/2835 - The incumbent provides secretarial and administrative support to the Heads of the Resource Analysis and Plans and Programs Branches and the branches person-

No. 39-057, Secretary (Typing), DG-318-2/3, Code 38B4 - This position is located in the RAM Project Office. The incumbent provides secretarial support to the RAM Project Office personnel. Experience with the Macintosh PC is desirable. Promotion potential to the DG-3. Status eligibles may apply.

## CSUB offers Saturday class

California State University, Bakersfield's Division of Extended Studies will offer "Effective Strategies for Treatment of Delinquent and Drug Dependent Youth" on Saturdays, July 8 and 15, from 9 a.m. to 4 p.m. in CSUB's Science Building II, Room 177.

This course prepares professionals, paraprofessionals working with adolescents and parents with "state of the art" intervention strategies for the treatment of delinquent behavior and substance abuse.

The instructor will be Brian S. Jeter. The fee is \$55 for one quarter unit of in-service credit. The class is limited to 25 students and paid reservations are due June 30.

For more information or to register, contact the Division of Extended Studies at (805) 664-2441.

# NWC employees request help from fellow workers

Employees indicated below have been approved to become leave recipients under the Leave Transfer Program. These employees have exhausted annual and/or sick leave because of personal emergencies and will be in a non-pay status for at least ten days. Employees who wish to donate annual leave to the employee should fill out the form at the end of this column, clip it out and send it to Code 221. For more information about this program, call NWC ext. 2018.

Leo Montano, Visual Information Specialist, Supervisor, Code 3441 0 -- is recovering from radical cancer surgery performed in February.

Michael Phillips, Student Trainee (Computer Scientist), Code 2803 -- has had repeated surgeries for recurring tumors of the knee, which have led to two replacements of the knee joint.

Melody R. Reymond, Budget Analyst, Code 2836 -- who under went emergency surgery and was unable to work from mid-February until late March is indebted for leave.

Robert R. Huntley, Program Manager, Code 35A1 -- has had upper back surgery to remove disks and to fuse the spine. He has also had treatment to remove pressure upon nerves to his right arm and is unable to return to work until August.

Robert Donsbach, Specification Writer/Editor, Code 3656 -- suffered a heart attack on May 4, 1988 and will be unable

to return to work until the end of July.

John Hill, Engineering Data Management Specialist, Code 3654 -- has intestinal problems, including internal bleeding, which have led to anemia and long term absence from work.

Joan A. Johnson, Secretary, Code 3592 -- needs annual leave to care for her husband, who is being treated for cancer.

# Electrical Engineering program is cut at NWC

Due to budget cuts and low enrollments, the on-Center Bachelor of Science (BSEE) degree program in Electrical Engineering through California State University, Northridge (CSUN) is being discontinued.

The associate dean of the School of Engineering and the electrical engineering advisor at CSUN will be available at 10:30 a.m. on July 13 at the Training Center to discuss options/strategies for completing the degree. They will also discuss how grad-

uate students needing required foundation (undergraduate) courses can satisfy those require-

ments. Those interested in the meeting can call NWC ext. 2648.

## Belated thanks Appreciation given to AHW volunteers

Belated recognition goes to several vital volunteers who helped make American Heritage Week a success.

AE2 Kerwin and MS1 Banaban were inadvertently omitted from the list of valuable volunteers during the American Heritage Run. AMHAN Lang, ATAN Pilling, AMH2 Ingram and AN Gudel volunteered their skills to set up the food booths for Good Ole USA day and International Day. An American Heritage Thank You to all the above.

IT'S A MATTER OF LIFE OR DEATH!--Knowing cardiopulmonary resuscitation could save someone's life, maybe a loved one's! In coordination with the Safety Program Office, Cerro Coso Community College is offering CPR training this summer to all Center employees. The four-hour classes are scheduled for Monday-Friday, through August 18, from 7:30 a.m. to 11:30 a.m. at the Training Center. Above are two members practicing their new skills on dummies provided by NWC's Safety Department. To register for one of the classes, call NWC ext. 2315 or 2367. Photo by PHAN Cary Brady

## Carseats available from NRS

Bring your baby home safely from the hospital. California law states that a new baby cannot leave the hospital without a carseat. One of Navy Relief's services for the Ridgecrest area is a "Borrowing Program" of federally approved carseats.

Anyone showing a need and willing to do a budget (E-5 and below are automatically eligible) can receive a carseat for three months or until the baby reaches 20 pounds. The seat is then returned and ready for the next addition to our Navy family. Please come in to Navy Relief and check out this service. Our number is NWC ext. 2921.

Submitted by Navy Relief Society

## BLM maps

Limited copies of a map showing Bureau of Land Management (BLM) recreation areas across the country are now available from BLM-California resource area offices (Ridgecrest Resource Area --112 East Dolphin St.).

The map shows campgrounds, scenic areas, wild rivers and other public land resources.

--reprinted from June issue of BLM-California "News-beat."

MILESTONE--Matt Parris celebrates achieving the Eagle Scout honor.

## NWC Summer Hire Parris earns Eagle Scout

June 10 was 'icing on the cake' of Matt Parris' long career in the Boy Scouts of America. On that day he was awarded the highest honor in Scouting, that of Eagle Scout. Parris has been a member of Ridgecrest's Troop 35, sponsored by the International Association of Machinists, since joining the Scouting movement in 1981. He has participated in many

activities ranging from hiking to canoeing to serving on Camp Staff.

The son of Roy Parris, NWC director of safety and security, Parris works as an NWC summer hire in the office of Patents Counsel. He will return to Fresno State University this fall to continue his pursuit of degrees in both Business Law and Drama.

## Personnel News & Notes

### Promotional opportunities

Applications for positions listed below are being accepted from Department of Navy employees currently working at NWC and from eligible employees of attached activities who are permanently assigned to NWC. This group includes employees with career or career conditional appointments; employees with permanent Veterans Readjustment Act (VRA) appointments; temporary employees with reinstatement eligibility; and handicapped employees with Sch. (A) continuing appointments. Also included are spouses, with competitive status, of civilian sponsors hired by a DOD activity within NWC's commuting area. Applications from other groups will be accepted when specified in an advertisement. Vacancies are subject to restrictions imposed by the DOD Priority Placement Program. Applicants must meet all legal and regulatory requirements, including minimum qualifications requirements, by the closing date of the advertisement. Evaluation of applicant's qualifications will involve using at least two assessment measures. Assessment measures are work experience, annual performance assessment rating and narrative, education, training, performance assessment and awards.

Eligible spouses (of military sponsors) with competitive employment status may apply for employment preference. Those enrolled in this program will automatically receive consideration for employment on vacancies for which they applied. For initial employment information, career counseling and enrollment, call 939-3317 for an appointment.

**HOW TO APPLY:** Submit the following: a current application, SF-171 or other Human Resources Department pre-approved form; a copy of your most recent annual performance assessment narrative (note: a copy of your performance plan should be attached if the annual performance narrative description does not clearly state the tasks/duties performed); and a completed Background Survey Questionnaire. A supplemental narrative which relates your qualifications to each knowledge, skill or ability (KSAs) as cited in the advertisement is always desirable and may be required if stated in the vacancy announcement. Write the title, series, level (grade), and announcement number on all application materials. Not submitting the annual performance narrative may adversely affect your evaluation scores. Prior to submitting your application, complete Cover Sheet Form 12335/2, available at the reception desk. **Make sure your address, phone number, etc. are current, correct and that all forms are complete and accurate.** If information is missing, your qualifications may not be fully and completely rated. Additional information cannot be submitted after the closing date of the announcement. A current date and a signature on the last page completes the application. Civilian Spousal Program Eligibles with competitive employment status must submit a copy of their sponsor's PCS orders with each application in order to be considered for Merit Promotion vacancies which do not state that status eligibles may apply.

Application materials are accepted, and blank forms are available, at the Reception Desk, Room 100, Human Resources Department, 505 Blandly. Announcements close at 4:30 p.m. on Friday, one week after the opening date of the announcement, unless otherwise specified. Applications received after 4:30 p.m. on the closing date will not be considered. Copies of Applications may be submitted since applications are kept in an announcement file and cannot be returned or filed in personnel folders. The Naval Weapons Center is an Equal Opportunity Employer; selections are made without discrimination for any non-merit reason.

No. 22-013, Clerk-Typist/Employee Development Clerk (Typing), DG-322/203-1/2, Code 224 - This position is located in the Academic Fellowship Office in the Human Resources Department. This individual acts as the principle clerical and administrative support person for the NWC Fellowship Program, Executive Development Program and the Management Development Program. This involves maintaining current information on these programs; providing information to employees and supervisors; maintaining training and fiscal records; and preparing travel orders, budget estimates and reports. **Job Relevant Criteria:** Ability to meet and deal with a variety of people having different needs and interests; ability to use/learn Macintosh software applications (Word, Filemaker Fourth Dimension, Powerpoint); ability to deal with

ambiguity; and ability to organize and carry out a variety of duties. Experience in preparing correspondence and travel orders is helpful but not the main focus of this position. Status eligibles may apply. Promotion potential to DG-2.

No. 22-8915, Bowling Center Manager, UA-1101-6, Permanent Full Time, Code 22941 - Incumbent is responsible for planning, developing, budgeting, organizing, implementing and evaluating the overall operation of a ten lane bowling center. Prepares arrangements and contracts for bowling leagues, special tournaments, and special interest classes. Arranges for all supplies and equipment necessary to support the bowling center. Performs other duties as assigned.

No. 24-024, Security Specialist, DA-080-1/2, Code 243 - This position is located in the Security Division of the

Safety and Security Department. The incumbent manages, administers, and coordinates the safeguarding of information and is concerned with maintaining physical security systems for protection of classified materials, documents, and activities usually affecting national defense from unauthorized disclosure, espionage, or sabotage. **Job Relevant Criteria:** Knowledge of DON and DOD regulations/instructions pertaining to classified material and physical security; ability to interpret and apply regulations/instructions; ability to communicate orally; ability to communicate in writing. Incumbent must be able to obtain and maintain a Top Secret clearance. Promotion potential DA-3, but not guaranteed.

No. 26-033, Transportation Manager, DP-1601-3, Code 2673 - The incumbent performs the duties of Head, Transportation Branch within the Services Division, Code 267, and is responsible for the overall administration/monitoring of the Center's Transportation Program in areas such as assignment, maintenance and repair of all transportation and material handling equipment. **Job Relevant Criteria:** Knowledge of Public Works organization/procedures; knowledge of NAV-FAC P-300 Management of Transportation Equipment; knowledge of Federal Acquisition Regulation; ability to apply quality assurance practices to ensure contractor performance; ability to communicate effectively, orally and in writing; willingness to support the EEO program. Promotion potential to DP-3.

No. 26-034, Maintenance Foreman, WS-4701-11, Code 26413 - This position provides first level supervision for the Randsburg Wash Shop, Construction Branch, Maintenance Utilities Division. The incumbent is responsible for planning, coordinating, and directing a variety of work operations or functions in support of weapons testing operations. **Job Relevant Criteria:** Ability to supervise; knowledge of technical practices; ability to interpret instructions, specifications, etc.; knowledge of materials; knowledge of tools and equipment; and knowledge of affirmative action principles including a willingness to implement EEO practices. A Supplemental Qualifications Statement is required and available in Personnel, Room 100. Promotion Potential: WS-11.

No. 27-012, Office Services Assistant, DG-303-2, Code 2703 - Incumbent provides administrative and secretarial support to the Acquisition Management Office. **Job Relevant Criteria:** Ability to use a PC; ability to research, collect and organize data; ability to deal effectively with all levels of people, ability to communicate orally; ability to communicate in writing. Experience with Macintosh PC is desirable. Promotion potential to DG-3.

No. 31-036, Interdisciplinary (Electronics Engineer/Computer Scientist/Physicist/Mathematician), DP-855/1550/1310/1520-2/3, Code 31331, MULTIPLE VACANCIES - These positions are located in the Electronic Warfare Effectiveness Section, EW Analysis Branch, EW Avionics Division, Aircraft Weapons Integration Department. The incumbents are responsible for engineering and technical support to OPNAV, NAVAIR, and NWC in the areas of system, mission, and techniques analysis, as performed in the areas of Radio Frequency (RF), Infra-Red (IR), and Electro-Optical (EO) countermeasures effectiveness for current and developing systems, and aircraft. A background in general analytic

procedures is desirable. Status eligibles may apply. To apply, send an updated SF-171 to J. Clark, Code 3133, NWC, x2318/2465/2758.

No. 31-047, Electronics Technician, DT-856-2/3, Code 31142. This position is located in the Hardware Section of the F/A-18 Facility Branch. The Branch develops, maintains and operates simulation/integration facilities in support of the F/A-18 Weapons System Support Activity (WSSA). The incumbent will be responsible for all aspects of the Branch's hardware documentation from generation to control and review. The incumbent will be responsible for establishing, coordinating and monitoring contractor hardware documentation tasks. **Job Relevant Criteria:** Knowledge of electronics theory and troubleshooting; ability to do reverse engineering from schematic diagrams/circuits to written word, CAD/CAE principles and practices; knowledge of technical documentation standards and practices; knowledge and working skill on the VAX and IBM PC is desirable; ability to communicate effectively both orally and in writing; ability to work both independently and as a member of a team. SECRET clearance required. Promotion potential to DT-3.

No. 31-048, Engineering Data Management Specialist, DS-301-2/3, Code 31142. This position is located in the Hardware Section of the F/A-18 Facility Branch. The Branch develops, maintains and operates simulation/integration facilities in support of the F/A-18 Weapons System Support Activity (WSSA). The incumbent will be responsible for all aspects of the Branch's hardware documentation from generation to control and review. The incumbent will be responsible for establishing, coordinating and monitoring contractor hardware documentation tasks. **Job Relevant Criteria:** Knowledge of technical documentation standards and practices; knowledge of electronic theory and processes; ability to do reverse engineering from schematic diagrams/circuits to written word, CAD/CAE principles and practices; knowledge and working skill on the VAX and IBM PC is desirable; ability to communicate effectively both orally and in writing; ability to work both independently and as a member of a team; SECRET clearance required. Promotion potential to DS-3.

No. 31-050, Administrative Officer, DA-341-1/2, Code 319. This position is the Administrative Officer for the Systems Engineering Division, Aircraft Weapons Integration Department. The incumbent identifies administrative and management problems within the scope of the division and recommends alternatives. Incumbent is responsible for project and overhead financial management, personnel management and equipment acquisition. Participates in Division and Department administrative and management meetings. The incumbent also provides direction and guidance to the administrative staff. **Job Relevant Criteria:** Ability and knowledge in exercising fiscal controls under NIF System; knowledge of personnel actions, standards and functions; ability to administer management policies and guidelines; ability to meet and deal with personnel at all levels on-center; ability to communicate effectively orally and in writing. Promotion potential DA-3, but not guaranteed.

No. 31-051, Supervisory Computer Specialist, DP-334-3/4, Code 3142.

Position is Head, AV-8B Avionics and Weapons Integration Branch, System Integration and Evaluation Division, Aircraft Weapons Integration Department. The AV-8B Avionics and Weapons Integration Branch is responsible for hardware and software engineering, avionics integration and tests for subsystems used in support of the AV-8B aircraft. **Job Relevant Criteria:** Knowledge and understanding of physical systems and avionics, system design, operational software development, testing and analysis techniques; ability to draft and administer project plans; a willingness to support and promote NWC's EEO policies is required. A one year Supervisory probation period may be required.

No. 31-052, Supervisory Electronics Technician, DP-856-3/4, Code 3142. Position is Head, AV-8B Avionics and Weapons Integration Branch, System Integration and Evaluation Division, Aircraft Weapons Integration Department. The AV-8B Avionics and Weapons Integration Branch is responsible for hardware and software engineering, avionics integration and tests for subsystems used in support of the AV-8B aircraft. **Job Relevant Criteria:** Knowledge and understanding of physical systems and avionics, system design, operational software development, testing and analysis techniques; ability to draft and administer project plans; a willingness to support and promote NWC's EEO policies is required. A one year Supervisory probation period may be required.

No. 31-053, Supervisory Aerospace Engineering/Computer Engineering Electrical Engineering/Electronics Technician, DP-802/856-3/4, Code 314. The position is that of Head, System Integration and Evaluation Division, Aircraft Weapons Integration Department. The Division conducts hardware and software system integration and system evaluation of avionic or weapons subsystems aboard the A-4, A-6, AH-1, AV-8B and F/A-18 aircraft. The development, implementation, and technical support of these subsystems involves software and firmware design, avionics and weapons integration and the flight test and evaluation of these systems. The incumbent is responsible for the technical direction of projects assigned to the Division. **Job Relevant Criteria:** Knowledge of avionics integration techniques and processes; knowledge and understanding of physical systems and avionics; knowledge of operational software development and testing; knowledge of Center support functions and a willingness to support and promote NWC's EEO policies; analytical ability; ability to deal effectively with personnel within and outside the government at various organizational levels; ability to communicate effectively, both orally and in writing. A one year Supervisory probation period may be required. Promotion potential is DP-4, but not guaranteed.

No. 31-054, Supervisory Computer Programmer Analyst/Computer Specialist/Computer Systems Analyst, DP-334-3/4, Code 314. The position is that of Head, System Integration and Evaluation Division, Aircraft Weapons Integration Department. The Division conducts hardware and software system integration, and system evaluation of avionic or weapons subsystems aboard the A-4, A-6, AH-1, AV-8B and F/A-18 aircraft. The development, implementation and technical support of these subsystems involves

## Veteran detective named CLPD Officer of the Year

Dedication, self-motivation, efficiency, and the ability to do a number of jobs -- and do them well -- earned Lt. Steven Busby the title of "The China Lake Police Officer of the Year," announced Chief James W. Brown, head of the Police Division. Busby has been with CLPD for more than seven years and has accumulated over 1,370 hours of "direct" police training.

According to Brown, the lieutenant is presently tasked with five separate functions, keeping him as busy as the proverbial "cat on a hot-tin roof."

Primarily, Busby is busy fulfilling the duties of the commander of the CLPD Detective Bureau. As commander, he has the responsibility for the complete investigation of each crime referred to this bureau. He must be fully knowledgeable in the complexities of the search and seizure rules, as well as crimes against persons and/or property. Not only must he know what constitutes evidence, but he must also know all the administrative procedures that insure that the evidence will get to and be admitted by the proper Court of Jurisdiction.

"By nature of his assignment, Busby is given more freedom than others of the same rank," said Brown, "and he has never betrayed that trust."

In addition, Busby is required to know, and to ensure his investigators know, the ever changing world of juvenile law.

The Officer of the Year's second function is as the commander of CLPD's emergency response unit (SWAT). As the SWAT commander, Busby heads a group of properly selected and intensively trained officers that can handle numerous crisis situations that regular police units are not

equipped, nor trained, to handle. To help him in this task, Busby is trained in the proper way to bring hostage situations, barricaded subjects, snipers or heavy arrests to successful conclusions.

When it became evident that satanic cult and acts of the occult were surfacing in the China Lake area a couple of years ago, the chief of police decided that CLPD needed at least one expert on that subject, noted Brown.

Lt. Steve Busby

Busby was trained in this area and, today, is the recognized expert in this area. He is frequently called to investigate or speak on the subject.

Busby also actively participates in and supervises others in the art of background investigations. "This insures that only quality candidates get accepted as China Lake Police employees," noted Brown. "This is an unsung but ultra-important job."

The lieutenant also is responsible for making sure that CLPD's records section staff provides timely, accurate and complete information to administrative and operation components of CLPD.

To aid in this, Busby must insure maximum usefulness of all information collected by organizing it into logical groups.

"Storage and retrieval of data is of paramount importance in police work," said Brown, "and Busby competently provides this service to CLPD, the state and the federal government, while maintaining each individual we deal with the 'right to privacy.'"

Criteria for Employee/Officer of the Year is the ability to display a positive attitude towards the law enforcement profession as a whole, and specifically to CLPD; projecting a professional image to the general public and his/her fellow employees; conducting thorough investigations of crimes or other tasks assigned as part of his/her regular duties; possession of genuine concern for the safety and well-being of the community he/she serves; and refraining from complaining when faced with adversity or negative situations.

In addition, the employee/officer should be dedicated to duty, as evidenced by volunteering for more difficult or time-consuming tasks; display self-motivation by completing even routine tasks in an energetic manner; provide fair and impartial enforcement of laws, rules and regulations as they apply to the citizens of the community; accurately report his/her findings when writing reports by using clarity of thought and sequence in his/her presentation; and keep abreast of new court decisions and policies and displaying a high level of general knowledge of federal, state and local laws.

Most of all, the Employee/Officer of the Year should have the ability to inspire others to use him/her as an example of high standards.

**CONTRIBUTIONS RECOGNIZED--**Lee Gilbert, far right, is recognized for his contributions to the Air Weaponry Technology Program by Tom Loftus, far left, Air Launched Weaponry Tech Block program manager. TQM is here to stay

# Process, not product, focus of new management style at NWC

Editor's Note: TQM-China Lakers have been hearing this acronym for months. "What is it and will it affect my job?," is a question on many minds. At a recent briefing on trends affecting NWC, Phil Arnold, head, Weapons Planning Group, commented that TQM "is here to stay. Simply, put it is good management and the principles, once fully adopted will allow each person to individually make a maximum contribution to the organization; while encouraging that person to take risks and nurture innovation." The following AFIS article addresses TQM from a general background approach. The TQM principles are also understated in the newly written statement, expanded NWC mission, and statement of values (see June 9 Rocketeer).

throughout the production process rather than checking the final product.

It is a system often credited with giving Japanese industry its competitive edge in the world economy. According to news stories, Deming is regarded as a "minor deity" in Japan.

In recent years, Deming's system has caught the attention of many American companies. They cite increasing global competition and customer demand for quality as reasons for adopting the system. According to Marta Mooney and Marek Hessel of Fordham University, Deming's approach "transforms terms like quality, employee participation and continuous improvement from slogans which sound right into strategies that work right."

The system has caught the attention of the Department of Defense, too. Quality is expected to become the byword throughout the design, development, production and acquisition process. DOD will concern itself more with building quality into the processes that build the end product, as well as the end product itself.

There are many reasons for adopting the system. "The plain fact is that in face of demands for greater austerity, increasing technological complexity and a growing diversity of threats, we must

find strategies that will result in unprecedented levels of quality performance," said Robert B. Costello, Undersecretary of Defense for Acquisition.

"These demands cannot be met with rhetoric—the time has come to face and react to the demanding realities of implementing total quality management, which I have made my number one priority."

The key phrase for the system is "continuous improvement." This is the main difference between Total Quality Management and quality programs that preceded it. "In the Zero Defect program, for example, we were concerned with the end items," said Peter Angiola, a staff assistant to the director of industrial productivity and quality.

"(That program) did not concentrate on the processes involved with manufacturing. Zero Defect was only a slogan. The major effort involved exhortation. No new tools or techniques were provided to achieve the desired quality.

"In the quality circle program, only workers within a field of expertise were involved, and it was difficult to solve problems caused outside a particular field.

"Under continuous improvement, workers across a field of disciplines would gather not only

to solve problems at the lowest possible level but to formulate new ways to achieve continuous improvement. Further, continuous improvement means that the quality assurance is not gathered at the end of the process, but built into it through participation of every individual with hands-on knowledge."

Angiola said the Defense Department has worked on quality programs based on Deming in the past, but they were of limited significance. "They were confined to the quality-assurance community," he said. "We have now recognized that responsibility for quality cannot be delegated exclusively to the quality-assurance department. Quality is everyone's responsibility."

Total quality management will mean a change in leadership styles and management attitudes. To start this change, the Defense Department is sponsoring various courses for senior executives, middle managers and program managers at the Defense Systems Management College, Fort Belvoir, VA, and around the country.

Many regulations and procedures must be changed before some aspects of the program are instituted. Planners said the system will take some time to start. The Total Quality Management master plan calls for a seven-year effort that will result in all levels of workers adopting total quality management as a "way of life" rather than just a catch phrase.

### Places fourth in Interservice Track Meet

## Rocketeer photographer wins All Navy Track Meet

After 3 minutes and 55 seconds of pushing his body to the utmost, Photographer's Mate Airman Cary Brady found himself the top Navy runner and the fourth place finisher in the 1500 meters at the Interservice Track Meet held recently at Mare Island, Calif.

After a series of tryouts, Airman Brady was chosen as a member of the All Navy Track Team in the 1500 meters. Only the top two competitors per event were chosen for the team. "The competition was tough this year," said Brady. "Top runners throughout the Navy were trying to get a spot on the team."

According to the runner, the pace was slow for the first 1000 meters because no one wanted the lead due to the wind. "There were two competitors that were both 3:40 1500 meter runners who were in good shape," said Brady. "The slow pace allowed the ones who weren't in the best shape to

really have a shot at winning the race."

It was still a close finish. "I finished the last 400 meters in only 55 seconds but the winner finished it a couple of seconds faster," said the runner.

Hampered by a groin injury less than a month before the competition, Brady was pleased he was even chosen for the team and felt he gave a good performance. "Although I came up short, I was competitive the entire way," he said. "To run 3:55 after only one month of training is something for me to smile about."

Brady comes from a line of runners. His father, Jerry Brady, was a member of the Oregon State track and cross country team. The team broke the two-mile relay world record in 1963.

His two brothers and two sisters also competed. "Running in our family," said Brady, "is tradition."

PHAN Brady ran his first competitive race when he was only 10 years old. He was the state champion for Oklahoma in cross country racing and was the champion in Junior Olympics, Senior Division in the 1500 meters and 2000 meter steeple chase in 1984. In 1984, the airman was the alternate for the Junior Men's National Team. In 1986, he was the North West Athletic Association Junior College runner-up in the 1500 meters, with a best time of 3:48.

One of Brady's goals is to run in the World Military Championships. "There is a possibility that I will be selected as an alternate to the U.S. team this year," he said. The race, held in Rome, will be run in December.

However, Brady's main goal is to place in the TAC Nationals. This event will determine the runners for the U.S. National Team in international events.

**RUNNING HIS BEST**—PHAN Cary Brady, a photographer for the NWC Rocketeer, wins the 1500 meters in the All Navy Track Meet and takes fourth in the Interservice Track Meet. Overall, the Navy placed third. Photo submitted by PHAN Cary Brady.

**WHAT'S THIS???**—This spot is where the NWC's gym's weight room used to be. According to the contractors, at least 95 percent of the demolition work has been accomplished and cement for the new weight room should be poured within the next two weeks. Photo by PHAN Cary Brady.

If you were honorably separated from the Navy, you are made of the right stuff. Continue your Naval career in the Naval Reserve! We offer the new G.I. Bill, reenlistment bonus, monthly paycheck, travel, retirement benefits and advancement. Find out if you qualify! Call 446-4217 now!

## Work is progressing on gym renovations

With at least 95 percent of the demolition work finished, contractors are going full steam ahead on renovating the Naval Weapons Center's Gymnasium. "At this time, we are ahead of schedule and are making every attempt to stay that way," said Jarold Simmons, work superintendent, Reardon Construction.

Since the gym's renovation began on May 8, construction workers have nearly gutted the interior of the main part of the building, torn out the women's locker room and the weight room.

According to Simmons, concrete for the weight room should be poured within the next two

weeks.

This renovation phase will see the women's locker room and weight room expanded, the relocation of the entranceway and lobby and a general rehab/upgrade of the gym's interior. Rehab of the racquetball courts and the replacement of the men's steamroom and the gym's heating and cooling systems will also take place. A "discrete" physical fitness room, new parking area and landscaping will also be added to increase the quality of services gym users will receive.

This initial phase should be completed and the gym reopened by February 1990.

### Jim Rudeen catches a 3 lb. 6 oz. rainbow at June Lake

## Anglers are bringing home catches from fishing spots in the Eastern Sierra area

With a big cloud cover off and on for the past week, the Eastern Sierra area has had a lot of afternoon lightning and thundershowers, noted the Bishop Chamber of Commerce. It has been wet in the high elevations as well as the valley. Temperatures have been getting quite cool in the evenings.

Lone Pine Creek and Tuttle Creek in the Lone Pine area have experienced good fishing with power bait, salmon eggs and worms. The best lures to use are small Panther Martins and super duffers. The river shows good fishing for bass, catfish and bluegill for those using spinner baits and night crawlers.

In the Big Pine area, Big Pine Creek is excellent on salmon eggs and power bait. The stream levels are down, resulting in catches of pan-size fish up to one and a half pounds. Fly fishing is good up near the lodge on Big Pine Creek

and Baker Creek is the place for bait fishing.

South Lake, in the Bishop area, has been releasing lots of fish, especially on the backside of the lake. Power bait and worms and lures in the evening are producing the best results. Long and Bull lakes are great for browns. Creek fishing is good for rainbows on worms and salmon eggs. Fishing is generally good on Lake Sabrina. Anglers are doing well from the shore with bait. Dave Davis flasher and a worm is best for trolling. Using a bubble and flies in the evening or power bait and worms during the day seem to be best for limits at North Lake. Fishing is slow on Intake 2. Bishop Creek has been fair on garden worms and Panther Martins. The Owens River has been good on crickets, worms, Panther Martins and flies in the evenings.

For those wanting browns, Pleasant Valley is releasing them to fishermen using yellow power bait, worms and Gold Kastmasters. Trout fishing is up at Paradise and Lower Rock Creek for those using yellow power bait and crickets.

Creek fishing in the Rock Creek area is good with flies and salmon eggs. Lake fishing is excellent for those using gold super duffers, Gold Kastmasters, Sabrina. Anglers are doing well from the shore with bait. Dave Davis flasher and a worm is best for trolling. Using a bubble and flies in the evening or power bait and worms during the day seem to be best for limits at North Lake. Fishing is slow on Intake 2. Bishop Creek has been fair on garden worms and Panther Martins. The Owens River has been good on crickets, worms, Panther Martins and flies in the evenings.

Anglers are having lots of luck in the lake and stream in the Convict Lake area. Trolling is active for those using needle fish. Working baits are worms and power bait. For casting, rooster tails are pretty productive. Stockers are one pound and above.

In the Crowley Lake area,

perch fishing is excellent from Layton Springs and Hilton Bay. Trout catches have been fair. Velveeta, worms and power bait are best for still fishing and spoons or flat fish are best for trolling. Browns are pan size, but anglers report most of their catches are rainbows.

In the Mammoth Lakes area, Lake Mary has been productive for shore fishermen using Thomas Bouyant lures and bubble and fly. Trollers using flashers with night crawlers are also having good results. Lake George has had good shore fishing for those using the bubble and fly or Kastmaster lures. Trollers using flashers with flat fish have also been doing well. Lake Mamie is good on bubble and fly or power bait. Twin Lakes is doing well on power bait or Kastmasters and bubble and fly in early mornings and early evenings. The road to

Devils Postpile is now open and fishing in the San Joaquin River has been excellent on tiny Panther Martin lures, tiny Mepps lures or crickets. Stream fishing in the Mammoth area is generally good with worms, eggs or crickets.

Still fishing has been good in the June Lake area with power bait, red eggs and worm/marshmallow combination. While the Bishop Chamber of Commerce reports trolling is slow, Jim Rudeen, a China Laker in the Weapons Systems Development Division, says he caught a 3 lb. 6 oz. rainbow by trolling with a silver needlefish at four and a half colors.

Bridgeport Lake is the best lake for fishing for quantity and quality in the Bridgeport area. Best action is by boat (either trolling or still fishing) in the Rainbow Point area.

## OPS leads other teams

OPS is currently holding the first place title in NWC's Intramural Softball League with a perfect score of nine wins. Play started in May and ends next week. All games are played on Schoeffel Field starting at 5:30, 7 and 8:30 p.m.

Second place is held by Medical with a current standing of five wins and three losses. Medical is, however, closely followed by VX-5 Smith's Team which has five wins and four losses. VX-5 Ward's Team and G.S.E. Clippers are currently

held for fourth place. Each team has a record of four wins and six losses. First to Fight is in second to last place with three wins and six losses. VX-5 McLellan's Team, however, trails with only two wins and seven losses.

### Teams dominate matches

## Shooters were on the mark at military events

By CWO2 Nelson Foucher

For the third year in a row, the NWC Rifle and Pistol teams dominated the Pacific Fleet Matches held at NAS Miramar from May 14-20.

The Pistol Team out shot 39 other teams by 41 points to take its fourth consecutive Pacific Fleet pistol title.

The NWC Rifle Team took second in the rifle competition for the third year in a row. The rifle competition was much closer than the pistol competition with only 10 points separating the top six teams.

Rifle and Pistol team participants were Lt. Tom Bowers, CWO2 Nelson Foucher, GMM1 Rick Hines, ET1 Mark Mahoney, FCC Jeff Mattick, FCCM Ralph Legler and AME1 Tim Rieb.

Significant individual milestones were accomplished by two China Lake shooters, who now enter the elite group of Double Distinguished Shooters by having earned Distinguished Badges in both rifle and pistol disciplines.

ET1 Mahoney, who distinguished himself with the pistol last year, took the first place gold in the Excellence in Competition Rifle Match (Leg Match) to complete his requirements for Double Distinguished honors.

FCC Mattick arrived at the matches needing a bronze in rifle and a silver in pistol to complete his requirements. Undaunted by the 232 other participants, he acquired the needed honors and went so far as to take a gold in pistol leg match.

Even NWC's new shooter, Rick Hines, got off to a big start by winning a bronze in rifle and a silver in pistol leg matches.

FCCM Legler proved to be a big gun with the service rifle by copping the first place in the Rifle Individual Match.

How significant a power the China Lakers are is evident by the fact that six of the seven team members finished in the top 40 and were invited to participate in

the All Navy Competition.

The All Navy Match was held May 22-27 at Miramar to select membership for the Navy Interservice and National Championship teams. Master Chief Legler again proved to be the top gun in rifle by winning the Individual Rifle Competition. PO Hines continued his quest of Distinguished Marksman by taking another bronze medal in the All Navy Rifle Leg Match.

Five members from China Lake shot on Pacific Fleet Rifle and Pistol teams, doundly defeating similar teams from the East Coast Atlantic Fleet matches.

Again, the small group of China Lakers dominated the standings by having five members in the top 20 and all five selected for competition at the Interservice and National Championship level. Team members Foucher, Hines, Mahoney, Mattick and Legler were awarded Secretary of the Navy Trophy Award Rifles for their shooting accomplishments at the closing awards ceremonies.

As noted by Team Captain Foucher, "This is really a great team effort. All of the team members have to make personal sacrifices in time and effort to maintain the level of skill required. We train year around, two or three times a week, in good or bad weather. The teams shoot at as many matches as we can in California and Nevada areas. We have been able to accomplish our goals only through the positive support of these military skills by Center management."

NWC WAS WELL REPRESENTED--Members of the China Lake Rifle and Pistol teams show the trophies they won while they represented NWC in the Pacific Fleet Matches and the All Navy Match. The proud recipients were (from left to right) CWO2 Nelson Foucher, AME1 Tim Rieb, ET1 Mark Mahoney, Lt. Tom Bowers, NWC Commander Capt. John Burt, GMM1 Rick Hines, FCC Jeff Mattick and FCCM Ralph Legler. Photo by PHAN Cary Brady.

ON THE MARK--NWC Commander Capt. John Burt congratulates FCCM Ralph Legler for winning first place in the Rifle Individual Match during the Pacific Fleet Matches held at NAS Miramar as well as taking top honors in the All Navy Match. Photo by PHAN Cary Brady.

## Golfing events are scheduled

A variety of events are being planned for the coming weeks at the China Lake Golf Course. Those interested in the sport might like to mark their calendars for the upcoming events.

- June 24-25 -- Golden Anchor Golf Tourney.
- July 1-10 -- Jr. Club Championship.
- July 1-4 -- SOUTHPAC Golf Tourney qualifying. All active

duty personnel are eligible. There will be an open division and senior (40 years old by July 17). The Championship games will be played July 17-21 at NAS North Island.

•July 8-9 -- SCGA Best Ball Qualifying.

For information about any of these events, please call NWC ext. 2990.

Happy Birthday Wildman

# Rippin' up rapids on Whitewater Wednesday

**KEEPING COOL**--Children and adults alike enjoy their day in the sun at the Kern River for Whitewater Wednesday. (Clockwise) Rafters heading into some white water on the Kern River joyfully anticipate a wild ride. The Kern River offers more than just rafting. The fisherman removing his catch from the line enjoyed himself as much as the rafters. Some people aren't satisfied with a tame ride. When the river is slow, the action heats up with water fights among the adventurers. Prior to the fun-filled ride, participants help the rafting company move the rafts so the next group can depart on time. Rafting can be a family affair. This family of six tries to take control of the rapids by plowing through them.
